PREFACE

The five days certificate course **"Grape Cultivation & Processing"** organized from 5th June to 9th June 2024 for UG and PG students at KNK College of Horticulture, Mandsaur (M.P.). The present training certificate course has been designed to provide a holistic experience and skill in Grape Cultivation & Processing. This programme boosted the students with the knowledge of Grape Cultivation & Processing.

I place on record my sincere gratitude and thanks to Dean, KNK College of Horticulture Mandsaur for encouragement and guidance in organizing the training programme.

The team work of convener and course co-cordinator with their meticulous planning has immensely helped me in organization and smooth execution of this five days certificate course.

The resource persons are gratefully acknowledged for giving their consent to deliver the lectures.

(Nitin Soni)

Dean
College of Horticulture, Mandsaur

The thirty-hour training on grape cultivation and processing provided a comprehensive dive into the fundamental principles, techniques, and practices crucial for grape production, processing, and enhancing their value. It commenced with an overview of grape cultivation and a basic introduction to the certificate course. Participants gained insights into integrated plant protection and nutrient management essential for the commercialization of grapes.

The hands-on sessions covered training in pruning, propagation, and utilizing waste management techniques for value addition and effective marketing of grapes. Through field visits, attendees learned about the classification and identification of rootstocks and varieties. Detailed discussions delved into the criteria for grape cultivation, considering factors like climate, soil conditions, and aesthetic preferences.

The training culminated in a focus on the commercial aspects of grape cultivation, processing, and value addition, equipping participants with the requisite knowledge and skills to thrive in the industry.

Days wise programme activities

Day First

1: Registration

2: Introduction to subject and basic briefing of certificate course

3: Commercial cultivation of grapes

Day Second

1: Nutrient management of grapes

2: Training and pruning of grapes

3: Weed management in grapes

Day third

1: Insect management in grapes

2: Disease management in grapes

3: Physiological disorders and their management in grapes

Day Fourth

1: Field visit and harvesting of grapes

2: Resin production of grapes

3: Processing of grapes

Day Fifth

1: Zero waste management of grapes

3: Certificate Distribution

The thirty hours production and processing of medicinal and aromatic crops training offered a comprehensive exploration of key principles, techniques, and practices essential for production, processing and value addition of different herbal plants. Beginning with the overview of medicinal and aromatic Crops and basic briefing of certificate course. They gained insights into the key points of integrated plant protection and nutrient managements for commercialization of medicinal and aromatic plants. During the hands-on sessions covered essential oil distillation and purification, value addition and formulation of herbal produced with the waste management and marketing of medicinal and aromatic plants. Participants learned about the classification and identification of medicinal and aromatic plants during field and herbal garden visit. Criteria for plant cultivation, considering factors such as climate, soil conditions, and aesthetic preferences, were explored in detail. The training concluded with a focus on commercial cultivation, processing and value addition of medicinal and aromatic plants with the knowledge and skills necessary to create.

Days wise programme activities

Day First

1: Registration by Dr. Rajiv Dubey and Dr. P. Fatehpuria

2: Overview of Medicinal and Aromatic Crops and basic briefing of certificate course

3: Commercial cultivation of Medicinal and Aromatic crops

Day Second

1: Integrated Nutrient Management of Medicinal and Aromatic crops

2: Nursery and its management in Medicinal and Aromatic Crops

3: Integrated Weed Management in Medicinal and Aromatic Crops

Day Third

1: Integrated Pest Management in Medicinal and Aromatic crops

2: Integrated Disease Management in Medicinal and Aromatic crops

3: Mulching and irrigation management of Medicinal and Aromatic crops

Day Fourth

1: Waste management and marketing of Medicinal and Aromatic crops

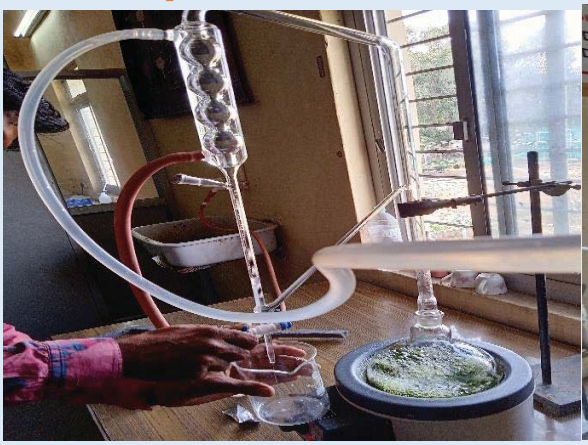
2: Essential oil distillation and Value addition of Medicinal and Aromatic crops

3: Processing and Value addition of Medicinal and Aromatic crops

Day Fifth

1: Field and herbal garden visit

2: Hands on practical on Essential oil distillation unit



3: Certificate distribution and closing ceremony

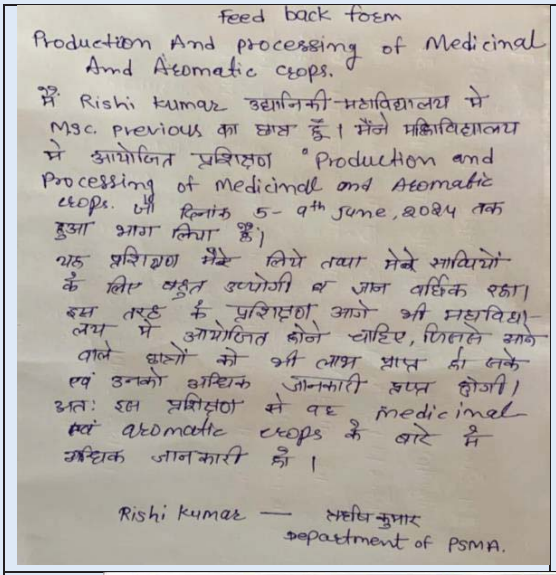
Feedback of the beneficiaries



Feed back form

Production And processing of Medicinal And Aromatic crops.

मैं Rishi kumar उद्यानिकी महाविद्यालय मे M.Sc. previous का छात्र हूँ। मैंने महाविद्यालय मे आयोजित प्रशिक्षण "Production and Processing of Medicinal and Aromatic crops." जो कि दिनांक 5- 9th June, 2024 तक हुआ भाग लिया है।

यह प्रशिक्षण मेरे लिये तथा मेरे साथियों के लिए बहुत उपयोगी व ज्ञान वर्धक रहा। इस तरह के प्रशिक्षण आगे भी महाविद्यालय मे आयोजित होने चाहिए, जिससे आने वाले छात्रों को भी लाभ प्राप्त हो सके एवं उनको अधिक जानकारी प्राप्त होगी। अतः इस प्रशिक्षण से वह medicinal एवं aromatic crops के बारे मे अधिक जानकारी है।

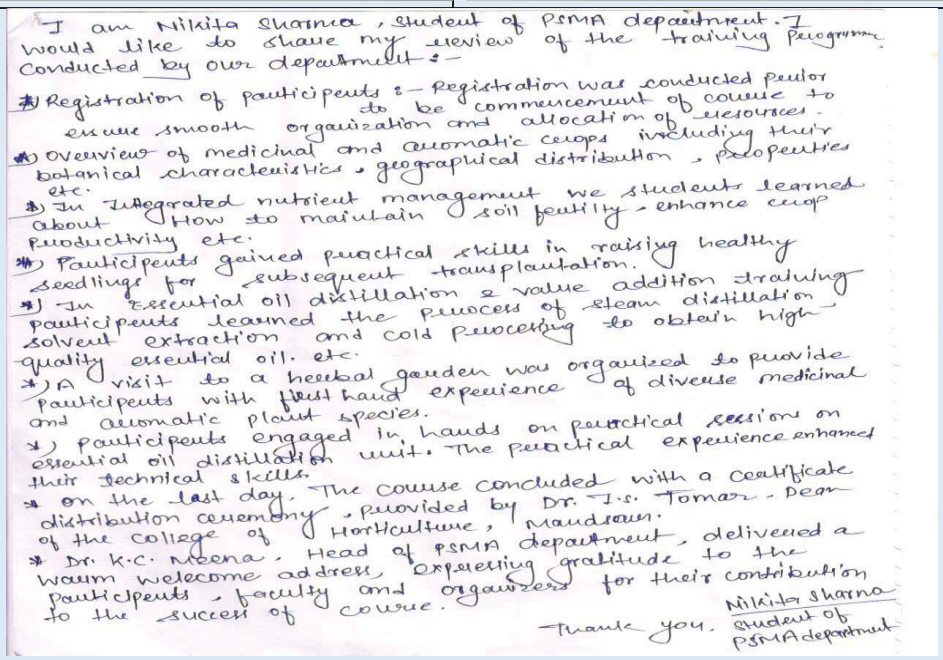
मैं दामिनी चौहान उद्यानिकी महाविद्यालय M.Sc. Previous की छात्रा हूँ। मैंने महाविद्यालय में आयोजित प्रशिक्षण "Production and processing of medicinal and Aromatic crops" जो कि दिनांक 5th to 9th June, 2024 तक भाग लिया है।

यह प्रशिक्षण मेरे लिये तथा मेरे साथियों के लिए बहुत उपयोगी व ज्ञान वर्धक रहा है। इस तरह के प्रशिक्षण आगे भी महाविद्यालय मे आयोजित होने चाहिए, जिससे आने वाले छात्रों को भी लाभ प्राप्त हो सके एवं उनको अधिक जानकारी प्राप्त होगी। अतः इस प्रशिक्षण से वह medicinal & Aromatic crops के बारे में अधिक जान पाएंगे।

Damineechouhan
Department of PSMA



I am Nikita Sharma, student of PSMA department. I would like to share my review of the training Programme conducted by our department :-

*) Registration of participants :- Registration was conducted prior to be commencement of course to ensure smooth organization and allocation of resources.
*) Overview of medicinal and aromatic crops including their botanical characteristics, geographical distribution, properties etc.
*) In Integrated nutrient management we students learned about How to maintain soil fertility - enhance crop productivity etc.
*) Participants gained practical skills in raising healthy seedlings for subsequent transplantation.
*) In Essential oil distillation & value addition training participants learned the process of steam distillation solvent extraction and cold processing to obtain high quality essential oil. etc.
*) A visit to a herbal garden was organized to provide participants with first hand experience of diverse medicinal and aromatic plant species.
*) participants engaged in hands on practical sessions on essential oil distillation unit. The practical experience enhanced their technical skills.
* on the last day, The course concluded with a certificate distribution ceremony, provided by Dr. I.S. Tomar - Dean of the college of Horticulture, Mandsaur.
* Dr. K.C. Meena, Head of PSMA department, delivered a warm welcome address, expressing gratitude to the participants, faculty and organizers for their contribution to the success of course.

Thank you.

PREFACE

The five days certificate course **"Landscape Gardening"** organized from 6th June to 10th June 2024 for UG and PG students at KNK College of Horticulture, Mandsaur (M.P.). The present training certificate course has been designed to provide a holistic experience and skill in landscape gardening. This programme boosted the students with the knowledge of landscape gardening.

I place on record my sincere gratitude and thanks to Dean KNK College of Horticulture Mandsaur for encouragement and guidance in organizing the training programme.

The team work of convenor and course co-ordinator with their meticulous planning has immensely helped me in organization and smooth execution of this five days certificate course.

The resource persons are gratefully acknowledged for giving their consent to deliver the lectures.

On
"Landscape Gardening"
06-10th June, 2024

Dr. Anuj Kumar

Course coordinator

KNK COLLEGE OF HORTICULTURE, MANDSAUR (M.P.)

The five-day landscape gardening training offered a comprehensive exploration of key principles, techniques, and practices essential for designing and maintaining aesthetically pleasing and sustainable outdoor spaces. Beginning with an introduction to landscape design principles, participants delved into spatial organization, balance, and unity. They gained insights into the elements of landscape design, including hardscaping features such as pathways and structures, and the selection and placement of ornamental plants. Hands-on sessions covered soil preparation, plant growth and development, and nutrient management strategies, emphasizing the importance of soil health and plant nutrition in landscape sustainability. Participants learned about the classification of ornamental plants and nursery management practices, including propagation techniques and plant care. Criteria for plant selection, considering factors such as climate, soil conditions, and aesthetic preferences, were explored in detail. Additionally, participants were introduced to the use of CAD (Computer-Aided Design) software for landscape planning and design. The training concluded with a focus on sustainable landscaping practices, including plant protection methods and eco-friendly approaches to water management and pest control, equipping participants with the knowledge and skills necessary to create and maintain beautiful, environmentally responsible outdoor environments.

Activities

Day: 1

In this five days certificate course **"Landscape Gardening"** 17 students registered

Inauguration of program by Dean, KNK College of Horticulture, Mandsaur

Topic: Introduction to landscape gardening and certificate course
Principles of landscape gardening

Speaker: Dr. Anuj Kumar (Floriculture and Landscaping)

Topic: Elements of landscape gardening

Speaker: Dr. Priyamvada Sonkar (Fruit Science)

Day: 02

Topic: Soil types, properties, preparation and improvement

Speaker: Dr. Roshan Gallani (Soil Science and Agricultural Chemistry)

Topic: Growth and development of ornamental plants

Speaker: Dr. O.P. Singh (Plant Physiology)

Topic: Identification of annuals, perennials, shrubs, climber, palm and trees

Speaker: Dr. Anuj Kumar (Floriculture and Landscaping)

DAY 03

Topic: Nutrient management of ornamental plants

Speaker: Dr. Roshan Gallani (Soil Science and Agricultural Chemistry)

Topic: Criteria for selecting plants for different environments and purposes

Speaker: Speaker: Dr. Jyoti Kanwar (Fruit Science)

Topic: Role of software tools for landscape design
Speaker: Dr. K.C. Meena (PSMA)

DAY 4

Topic: Classification of ornamental plants

Speaker: Dr. R.N. Kanpure (Fruit Science).

Topic: Insect-pest mangement of ornamental plants

Speaker: Dr. S.B. Singh (Entomology).

Topic: Classification of ornamental plants

Speaker: Dr. Anuj Kumar (Floriculture and Landscaping)

DAY: 5

Topic: Disease management of ornamental plants

Speaker: Dr. R.P. Patel/ Sh. B.K. Patidar (Department of Plant Pathology)

Topic: Sustainable landscaping

Speaker: Dr. R.K. Sharma (Department of Vegetable Science)

At the end of the programme certificates were distributed to the participants.

Feedback

The landscape gardening training program was an absolutely wonderful experience for me. From start to finish, the program exceeded my ~~ast~~ expectations in every aspect. The instructors were incredibly knowledgeable, passionate, and supportive, making the learning process engaging and enjoyable. The content covered a wide range of topics, from basic principles to advanced techniques, providing a comprehensive understanding of landscape gardening. The hands-on activities allowed me to apply what I learned in practical scenarios, reinforcing key concepts and skills. Additionally, the collaborative nature of the program fostered meaningful interactions with fellow participants, enriching my learning experience even further. Overall, I feel extremely grateful to have been a part of this training program, and I'm excited to apply what I've learned in my future endeavors in landscape gardening.

Rahul Rawat

feedback.

Participating in the landscape gardening training program was an enriching experience that provided me with valuable insights into the principal and element of landscape design. The comprehensive curriculum element covered various aspects, including soil preparation, ornamental plant selection, and landscaping element which deepended my understanding of creating harmonious outdoor spaces.

The hand-on activites allowed me to apply theoretical knowledge practically, particularly in soil management techniques and plant classification. Learning about ornamental plant varieties and their characteristics expanded my application for biodiversity and the aesthetic possibilities in landscaping

overall, the training program has equipped me with the foundational knowledge and skill to pursue my passion for landscape gradening with confidence

Akash,

Akash kaushik

Feedback

As a student participating in the landscape gardening training program, I must express my sincere appre-ciation for the invaluable experience it provided. The comprehensive curriculum covered a wide range of topic, from foundational principles to practical application, giving me a well-rounded understanding of landscape design & maintainance. The hands-on activities & fieldwork were particularly beneficial, allowing me to apply theoretical knowledge in real world setting & develop practical skills. The instructors were knowledgeable, approachable, & pass-ionate about their subject, which made the learning experience engaging & enjoyable. Additionally, the collabo-rative nature of the program fostered meaningful interactions with peers, enriching my learning journey. overall, the landscape gardening training program ex-ceeded my expectations and has equipped me with the knowledge & confidence to pursue a career in this field. I am truly grateful for the opportunity to be a part of this program.

PREFACE

The Five Days Certificate Course in Horticulture Nursery Management organised from 06 June to 10 June 2024 for students of the College at KNK College of Horticulture, Mandsaur (M.P.).The present training certificate course has been designed to provide a holistic experience and skill in management of Horticulture Nursery.

I place on record my sincere gratitude and thanks to Dean KNK College of Horticulture Mandsaur for encouragement and guidance in organizing the training programme.

The team work of convenor and course co-ordinators with their meticulous planning has immensely helped me in organization and smooth execution of this value five days certificate course.

The resource persons are gratefully acknowledged for giving their consent to deliver the lectures.

Dean
College of Horticulture
Mandsaur (M.P.)

Introduction: Horticulture nursery management is a crucial aspect of the horticultural industry, focusing on the plant propagation and nursery management of different horticultural crops i.e. Vegetables, annuals/seasonal flowers, shrubs & ornamental plants, plantation, spices, medicinal and aromatic plants. Effective management of a nursery requires comprehensive knowledge and skills in plant propagation techniques, commercial propagation method, protected structures management, pest and disease management, and their business operations. This report provides an overview of the training program in horticulture nursery management, highlighting its objectives, lectures, and outcomes.

Objectives of the Training Program: The primary objectives of the training program in horticulture nursery management are:

1. To equip participants with theoretical knowledge and practical skills in plant propagation techniques including seedling, grafting, budding and cutting.
2. To provide insights into the principles of nursery design, layout, and infrastructure development for optimal plant growth and management.
3. To familiarize participants with the identification and management of pests, diseases, and other potential threats to nursery plants.
4. To impart knowledge on irrigation techniques, soil management, and fertilization practices essential for maintaining plant health and productivity.
5. To develop an understanding of marketing strategies, business planning, and financial management relevant to nursery operations.

Lectures: The training program is structured to cover a range of topics essential for effective horticulture nursery management. A series of lectures includes both theoretical lectures and hands-on practical sessions to ensure comprehensive learning. Key components of the lectures include:

1. Introduction to Horticulture Nursery Management
2. Plant Propagation Techniques
3. Nursery Infrastructure and Design
4. Pest and Disease Management in Nurseries
5. Soil Health and Fertilization Practices
6. Irrigation Systems and Water Management
7. Marketing Strategies and Business Planning
8. Field Visits and Practical Demonstrations

Training Methodology: The training methodology incorporates a blend of lectures, interactive discussions, practical demonstrations, and field visits. Experienced horticulturists, plant breeders, pathologist, entomologist and business professionals serve as trainers, providing valuable insights and guidance to the participants. Hands-on activities such as propagation through specialized organs, cutting, budding, grafting, potting, preparation of beds, sowing of seeds and pest scouting are integral parts of the training to reinforce theoretical knowledge with practical skills.

Outcomes and Benefits: Upon completion of the training program, participants can expect to achieve the following outcomes:

1. Enhanced understanding of plant propagation techniques and nursery management and their principles.
2. Develop the skill for entrepreneurship in the field of Horticulture Nursery.

Day: 1

Registration: 22 students

Topic: Commercial propagation methods for fruit crops
Speaker: Dr. R. N. Kanpure, Associate Professor (Department of Fruit Science)

Topic: Nursery management practices for fruit crops
Speaker: Dr.Priyamvada Sonkar, Assistant Professor (Department of Fruit Science)

Topic: Plant propagation in different environmental conditions
Speaker: Dr. Jyoti Kanwar, Assistant Professor (Department of Fruit Science)

Course on - Protected cultivation of vegetable crops.
From: 6.06.024 to 10.06.024

Date:
P. No:

I am Sheetal Thakur, Studying in M.Sc. final yeear. I attended 5 days training programme and certificate course on "protected cultivation of vegetable crops." organised by college of Horticulture, Mandsaur.
This training programme helped me alot to improve my knowledge about different topics of protected cultivation.
It was a great opportunity to learn something about protected cultivation like scope, importance, different types of protected sturctures, soilless cultivation, high tech cultivation of vegetables and disease management in protected cultivation from such a great mentors like, Dr. S.S. Kushwah, Dr. R.K. Sharma, Dr. Pankaj maida, Dr. G. Gallani, Dr. O.P. singh, Dr. Richa Pyasi, Shri B.K. Patidar, and Dr. G.S. Chundawat sir.
I'm grateful that they gave their precious time and knowledge to us. Thank you!

Thakur

Feedback for Training on "Protected cultivation of Vegetable crops".

My name is Jagrati patel student of M.Sc. (Veg. Sci) final year studen
The training was held in the college of Horticulture Navsari
from 6 May to 10 May 2024 and I would like to giv
a warm Thank you for organizing an amazing training
session on "Protected cultivation of vegetable crops". Not only
Session was very informative but the training material that
was provided was also very intresting. We have gained
the information about Scope and importance of protected
cultivation, how we can design high cost and low cost
structures, Soil and Soilless medium and irrigation in
protected cultivation. How we can raise high tech vege
nursery in protected cultivation like tomato, cucumber, capsicu
and manage disease, insect and pest in protected cultivation.
I enjoyed the whole infographics which making the whole
process of learning so much more fun. I want to thank
you and your team which was making the training sessi
so much productive.

Thankyou
Jagrati Patel

2023-24

PREFACE

The five days certificate course **"Recent Advances in Modern Organic Agriculture"** organised from 05 June to 09 June 2024 for students at KNK College of Horticulture, Mandsaur (M.P.). The present training certificate course has been designed to provide a information about organic farming. This programme boosted the students with the knowledge of modern organic farming practices.

I place on record my sincere gratitude and thanks to Dean KNK College of Horticulture Mandsaur for encouragement and guidance in organizing the training programme.

The team work of convenor and course co-ordinators with their meticulous planning has immensely helped me in organization and smooth execution of this five days certificate course.

The resource persons are gratefully acknowledged for giving their consent to deliver the lectures.

Activities

Day First

In first day certificate course **"Recent Advances in Modern Organic Agriculture"** students were registered.

Registration of Students for Participation in Training Programme

Basic Briefing of Certificate Course by Programme Coordinator Dr. Rajiv Dubey

Lecture delivered by Dr. Roshan Gallani on 'Needs of organic farming'

Day Second

Lecture delivered by Dr. M.K. Tripathi on 'Climate change and organic farming'

Lecture delivered by Dr. R.P. Patel on 'Disease management under organic farming'

Lecture delivered by Dr. Roshan Gallani on 'Nutrient management under organic farming'

Day Third

Lecture delivered by Dr. S.B. Singh on 'Use and importance of jeevamrit and ghanjeevamrit'

Lecture delivered by Dr. Jyoti Kanwar and Dr. Priyamvada Sonkar on 'Management of orchard wastage for sustainable agriculture'

Lecture delivered by Dr. Anuj Kumar on 'Floricultural waste utilisation in agriculture'

Day Four

Lecture delivered by Dr. Rajesh Aarve on 'Insect management under organic farming'

Lecture delivered by Sh. B.K. Patidar on 'Nematode management under organic farming'

Lecture delivered by Dr. H.P. Singh on 'Extension of improved organic farming practices'

Day Five

Lecture delivered by Sh. Pankaj Maida on 'Management of vegetable wastage under organic farming'

Practical Education by Dr. Rajiv Dubey on 'Preparation of Vermicompost'

Certificate distribution by Dean, College of Horticulture, Mandsaur

Beneficiaries of Training

No.315...../ Estt./ NAHEP/ 2022-23 Date.15/5/23

To,

PI, IDP-NAHEP
RVSKVV, Gwalior, MP

Subject: Submission for proposal of shot term course and training program

Reference: Virtual meeting dated 27/ 04/ 2023

Res./ sir,

Please find enclosed herewith the proposal for conducting various short-term course/ certificate course training programs on selected topics i.e., **Communication Skills and Personality Development (10days), Seed Business Development (10days) and Use of Social Media in Agricultural Extension (05days).** The proposal contains a tentative schedule along with resource person details and approximate budget requirements for conducting the training.

This is also bring to your kind notice that previous trainings under IDP-NAHEP were held without any registration fee and after discussion with the students in the presence of the coordinator and coordinator, NAHEP, we came to know that our students are not financially capable to pay any amount for the said training so registration fee amount may be exempted.

Permission for Organising Ten days Certificate Course on Precision Horticulture

It has been a matter of great concern shared by one and all that higher education institutes colleges and universities are producing graduates who do not possess the requisite employability skills to be duly absorbed by the various job providing agency and at the same time the level of confidence and acumen to be the job provider, too are rarely found in graduate of the most of the universities. In order to cope up the impending challenges, the outgoing students of the horticulture too need to train in different employability skills while enhancing their skill to the overall development in the line of the mandates of new education policy. The same holistic development of the students of SAUs has been one of the major areas of interest and concerned of ICAR and other job providing agencies.

This course will provide an introduction of Precision Horticulture technologies, covering both the applications and the different technologies (e.g. geographic information system (GIS)), and Global positioning system (GPS), remote sensing systems, variable rate application etc. that make precision farming possible. The approximate expenditure for conducting this training programme would be around Rs. 195000/- (Rs One Lakh Ninety five thousand only).

Tentative Schedule of ten days training programme (Saturday, Sunday off)

(24-07-2023 to 06-08-2023)

S. No.	Name of Resource Person	Topic to be covered	No. of lecture	Tentative schedule	Time (2 lecture a day)
1.	Mr. Murlidhar Iyer, Assistant Professor, Medicaps University of Technology and Management, Indore	1. Precision irrigation system for optimal water 2. Drip Irrigation in Horticulture Crops	02	24-7-2023	11:00 AM to 01:00 PM & 03:00 PM to 05:00 PM (Offline)
2.	Dr. Sanjay Singh, Professor and Head Deptt. of Biotech Medicaps University of Technology and Management, Indore	Precision plant breeding techniques for improvement of Horticulture crops.	02	25-7-2023	11:00 AM to 01:00 PM & 03:00 PM to 05:00 PM (Offline)

No. 1244 /NAHEP/2023 Date. 6/9/23

To,

The Principal Investigator
IDP-NAHEP
RVSKVV, Gwalior (MP)

Subject: Submission of Bills of offline/online lecture for payment of expert.

Res/sir,

Please fine enclosed the bills of expert, along with other documents of offline/online lecture on 05 days short-term/certificate course training program on Use of Social Media in Agricultural Extension from 24-28 July, 2023 for undergraduate students under IDP-NAHEP at RAK College of Agriculture, Sehore for payment.

S. No.	Name of Expert	Date of lecture	No. of lecture	Honorarium (RS)	TA (Rs)	Total Amount (RS)
1.	Dr. M.M. Patel Rtd. Prof. & Head, Department of Agriculture Extension, RVSKVV, Gwalior	24/07/2023	02	8000/-	867/-	8867/-
2.	Dr. Pankaj Kumar Meghwal (Scientist), Agriculture Extension	25/07/2023	02	6000/-	-	6000/-
3.	Dr. Abhishek Pratap Singh, Assistant Professor, Agriculture Extension	26/07/2023	02	6000/-	-	6000/-
4.	Dr. Diksha Patel, SMS, Agriculture Extension	27/07/2023	02	6000/-	-	6000/-
5.	Dr. K.K. Saxena Ex. DES, JNKVV, Jabalpur	28/07/2023	02	8000/-	940/-	8940/-

Submitted for the needful, please.

Subject -For the payment of remuneration Rs.8000/- (Two lecture)

Reference- Vide letter No./Estt./NAHEP/673 RAK CoA, Sehore dated 03/07/2023

Res/sir,

On the invitation of the Nodal Officer of the RAK College of Agriculture, Sehore, I have conducted one day offline lecture programme as per the details given below:

Major Area – **Use of social media in Agriculture Extension**

Therefore Rs. 8000/- (Eight Thousand only) may be remitted towords **Dr. M.M.Patel (Rtd.Prof.&Head)**, resource person as remuneration for four lectures.

Date	Sub topics covered during the sessions	No. of Lecture
24/07/2023	1. Social media : an effective tool for TOT.	02
	2. Social Media : Future prospects and challenges	

The remuneration for which was fixed @of Rs.4000/- per lecture.

Kindly pay the remuneration at the earliest. I am here by attaching the PFMS Vendor form for the further necessary process.

Thanking you

Regards,

Dr. M. M. Patel

Reference- Vide letter No./Estt./NAHEP/673 RAK CoA, Sehore dated 03/07/2023

Res/sir,,

On the invitation of the Nodal Officer of the RAK College of Agriculture, Sehore, I have conducted two days online lecture programme as per the details given below:

Major Area- **Use of social media in Agriculture Extension**

Therefore Rs. 6000/- (six Thousand only) may be remitted towords Dr. Pankaj Kumar Meghwal,Scientist (Agricultural Extension), resource person as remuneration for two lectures.

The remuneration for which was fixed @of Rs.3000/- per lecture.

Date	Sub topics covered during the sessions	No. of Lecture
25/7/2023	1.Innovations in Social Media for Agricultural Information System delivery and Networking. 2.Social media and entrepreneurial opportunity for agriculture based enterprises.	02

Kindly pay the remuneration at the earliest. I am here by attaching the PFMS Vendor form for the further necessary process.

Thanking you

National Agricultural Higher Education Project – Institution Development Plan (NAHEP-IDP), Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior, Madhya Pradesh

in collaboration with

National Agricultural Higher Education Project - Component 2 (NAHEP-Comp 2) ICAR-Indian Agricultural Statistics Research Institute, New Delhi

Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior, Madhya Pradesh

Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya (RVSKVV) Gwalior has been established by Govt. of Madhya Pradesh. The territorial jurisdiction of the Vishwa Vidyalaya is spread over 26 districts of Madhya Pradesh encompassing five Colleges (four Agriculture and one Horticulture); five Zonal Agricultural Research Stations (ZARS); four Regional Agricultural Research Stations (RARS); six Special Research Stations (SRS) and 22 Krishi Vigyan Kendras (KVKs). The University represents a well-knit and action-oriented network of education and research centers operating in agriculture, horticulture and allied fields in the state where the overall climate varies from semi-arid to sub humid with hot summer, cool and dry winter and 600-1000 mm mean rainfall range.

NAHEP - Institution Development Plan (IDP)

It's aim is to improve the educational relevance and quality of agricultural universities, with the intention of setting a precedent for other agricultural universities and guiding the ICAR in implementing reforms.

Additionally, the program aims to develop a skilled and capable faculty pool across all agricultural universities to significantly enhance the overall quality of agricultural education in India. This transformation will be achieved through the institutional development of agricultural universities throughout the country. Under the NAHEP - IDP, **Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior** has been implementing a project called **"Reinforcement of the Brand Value of University for Designing Market-Ready Graduates for Entrepreneurship and Employment Generation"** since 2019 with following Objectives:

- To create learning environment & effective teaching through modern classroom ambience.
- To enhance student's entrepreneurship skill, faculty competence their diversity & international outlooks.
- To leverage on alumni network, industry and partnerships towards quality & relevance of education & revenue generation.

ICAR – Indian Agricultural Statistics Research Institute (IASRI), New Delhi

ICAR-IASRI is a premier Institute established in 1959, mainly responsible for conducting research and imparting education/ training in the field of Agricultural Statistics, Computer Application and Bio-Informatics. There are six divisions in the Institute and the Institute is equipped with the modern facilities. The Institute has several computer laboratories well equipped with latest hardware and software packages along with modern teaching aids. The institute is also having national facility like Advanced Supercomputing Hub for Omics Knowledge in Agriculture (ASHOKA) and ICAR-Data Centre for unified communication and web hosting environment. State of art multi-layered cyber secured architecture comprised with variety of firewalls, anti-virus software(s) and other secured devices have been implemented in building ICAR-Data Centre to secure the data and information from any cyber threat or attack. Institute has developed several portal for agricultural data analysis i.e. Design of Experiments Server, Designed Experiments Information System, Sample Survey Resource Server, Strengthening Statistical Computing for NARS.

NAHEP Component 2

It's aim is to enhance ICAR's effectiveness in coordinating, guiding & managing agricultural higher education and its interactions with key stakeholders nationwide through interventions that increase the quality & relevance of agricultural higher education. ICAR - IASRI is the implementing agency of NAHEP Component 2 projects. NAHEP Component 2 leverages ICAR's comparative advantage in assessing systematic challenges

across the ICAR-AU system & incubating solutions. It is strengthening the Digital Infrastructure of Agricultural Universities, enhance the quality of Digital Content in the field of Agriculture and facilitate Digital Capacity Building to address the digital divide among stakeholders.

Training Overview

Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalay is organizing a **10 days training program** in collaboration with ICAR-IASRI, New Delhi on **Analysis of Agricultural Data using Statistical and Data Mining Techniques** to enhance the skill of participants and usability of statistical and data mining tools in agriculture.
The aim of this training program is to equip participants with the essential knowledge and abilities to proficiently analyze agricultural data utilizing advanced statistical and data mining methods. Participants will gain practical skills in applying diverse statistical and data mining techniques to analyse agricultural data enabling them to extract valuable insights for informed decision-making and optimization of agricultural practices.

Topics Covered in the Training:

- Artificial Intelligence and Knowledge Base Systems
- Overview of R Software
- Data Mining and Pre-Processing Techniques
- Classification Techniques for Data Mining
- Clustering as a Data Mining Tool
- Association Rule Mining
- Descriptive Statistics and Exploratory Data Analysis
- Statistical Procedures in MS-Excel
- Tests of Significance
- Diagnostics and Remedial Measures in Regression Analysis
- Hands-on Session: Non-Parametric Tests
- Introduction to Data Science
- Principal Component Analysis and Factor Analysis
- Cluster Analysis and Discriminant Analysis
- Time Series Analysis: Exponential Smoothing and ARIMA
- Non-parametric test
- PCA, Factor Analysis and Discriminant analysis
- Non-linear Growth models
- Classification and Regression Tree
- Machine Learning models for Time series modelling
- ANOVA and ANCOVA
- Correlation and Regression analysis
- Overview of Survey Sampling –SRS, Stratified sampling, Cluster and multistage sampling
- Self Organizing Maps
- Ensemble modelling
- Random Forests
- Non-Linear Statistical Modeling: Growth Models
- Non-Linear Time Series Modeling: ARCH/GARCH
- Logistic, Logit, and Probit Regression
- Survey Sampling Techniques: SRS, Stratified Sampling, Cluster and Multistage Sampling

Training Dates

11th-20th July, 2023

Online Mode

RVSKVV-BLP

Target Group
Persons pursuing/completed UG/PG and Ph.D from Agricultural Sciences or any Educational Institute

Registration Fee: INR 500
First Come First Serve Basis
Limited Seats Available: 50

Registration and Payments

Candidates are required to complete the payment and then proceed to register themselves through the provided registration link. Please note that online registration is mandatory for attending the training program.

Google form for Registration :
https://docs.google.com/forms/d/1BQqEQ2cPKUF16F-eWEQo-FBF8aFw5_x-XJqRf_7SYI8/viewform?edit_requested=true

The last date for the registration is 8th July, 2023

Online Training Programme on Analysis of Agricultural Data Using Statistical and Data Mining Techniques

Date: 11th–20th July, 2023

Application for Training Proposal under NAHEP Project

1.	**Training Title**	Online training programme on analysis of agricultural data using statistical and data mining techniques
2.	**Training Year**	2023
3.	**Course Coordinator**	RVSKVV, Gwalior- Dr. S.S. Tomar, Dr. V.B. Singh, Dr. Shashi Yadav, Dr. Ankita Sahu ICAR-IASRI, New Delhi- Dr. Sudeep Marwaha, Dr. shashi Dahiya, Dr. Mrinmoy Ray
4.	**Department**	Statistics
5.	**Institution**	College of Agriculture, RVSKVV, Gwalior (MP)
6.	**Duration**	10 days (11th – 20th July, 2023)
7.	**Mode of Training**	Online
8.	**Type of Course**	Certificate Course
9.	**Eligibility Qualification for the participants**	Persons pursuing/completed PG and Ph.D from Agricultural Sciences or any Educational Institute

10. **Purpose of the Training**

The Department of Statistics, RVSKVV, College of Agriculture Gwalior is organizing a 10 days training program in collaboration with ICAR-IASRI, New Delhi on **analysis of agricultural data using statistical and data mining techniques** to enhance the skill of participants and usability of statistical and data mining tools in agriculture. The aim of this training program is to equip participants with the essential knowledge and abilities to proficiently analyze agricultural data utilizing advanced statistical and data mining methods. Participants will gain practical skills in applying diverse statistical and data mining techniques to analyze agricultural data enabling them to extract valuable insights for informed decision-making and optimization of agricultural practices.

Analysis of Agricultural Data using Statistical and Data Mining Techniques

Tentative Training Schedule

11-20July, 2023

Date	Time	Topic	Speaker
Day 1 (Tue) (11.07.2023)	09.30 -10.30	Inauguration	
	10.30- 13.30	Artificial Intelligence and Knowledge based systems	Dr. Sudeep Marwaha, Principal Scientist, ICAR-IASRI
	14.30 17.30	Introduction to R Software	Dr. Soumen Pal, Senior Scientist, ICAR-IASRI
Day 2 (Wed) (12.07.2023)	10.00 11.30	Descriptive Statistics and Exploratory Data Analysis with Hands-on session	Dr. Achal Lama, Scientist, ICAR-IASRI
	11.45-13.15	Introduction to MS-Excel	Dr. Sanchita Naha, Scientist, ICAR-IASRI
	14.00 17.00	Tests of Significance and Non-parametric test with Hands-on session	Dr. Rajeev Ranjan Kumar, Scientist, ICAR-IASRI
Day 3 (Thu) (13.07.2023)	10.00-13.00	PCA, Factor Analysis and Discriminant analysis with Hands-on session	Dr. Prabina Kumar Meher, Senior Scientist, ICAR-IASRI
	14.00-15.30	Correlation and Regression analysis with Hands-on session	Dr. Kanchan Sinha, Scientist, ICAR-IASRI
	15.45-17.15	Cluster Analysis with Hands-on session	Dr. Alka Arora, Principal Scientist, ICAR-IASRI
Day 4 (Fri) 14.07.2023	10.00 13.00	Overview of Survey Sampling -SRS, Stratified sampling, Cluster and multistage sampling with Hands-on session	Dr. Ankur Biswas, Senior Scientist, ICAR-IASRI
	14.00- 15.30	Non-linear Growth models with Hands-on session	Dr. Mrinmoy Ray, Scientist, ICAR-IASRI
	15.45-17.15	Logistic, Logit and Probit Regression with Hands-on session	Dr. Md Yeasin, Scientist, ICAR-IASRI
Day 5 (Sat) 15.07.2023	Holiday		
Day 6 (Sun) 16.07.2023	Holiday		
Day 7 (Mon) 17.07.2023	10.00 13.00	Introduction to time series including basic time series and machine learning models (Exponential smoothing, ARIMA, ANN and SVM) with Hands-on session	Dr. Mrinmoy Ray, Scientist, ICAR-IASRI.
	14.00 17.00	Overview of Design and Analysis of experiments (CRD, RBD, LSD, Factorial design, ANCOVA) with Hands-on session	Dr. Anindita Datta, Scientist, ICAR-IASRI
Day 8 (Tue) 18.07.2023	10.00-13.00	Overview of Data Mining and Introduction to WEKA software	Dr. Shashi Dahiya, Principal Scientist, ICAR-IASRI
	14.00 17.00	Classification and Regression Tree and Self Organizing Maps with Hands-on session	Dr. Ramasubramanian V., Principal Scientist, ICAR-IASRI
Day 9 (Wed) 19.07.2023	10.00 11.30	ARCH, GARCH family of non-linear modeling	Dr. Ranjit Kumar Paul, Senior Scientist, ICAR-IASRI
	11.45-13.15	Ensemble modeling	Dr. Shashi Dahiya, Principal Scientist, ICAR-IASRI

	14.00-17.00	Introduction to Data Science and Association Rule Mining	Dr.Anshu Bharadwaj, Principal Scientist, ICAR-IASRI
Day 10 (Thu) 30.0 .2023	10.00 13.00	Statistical Analysis using SPSS software	Dr. Raju Kumar, Scientist, ICAR-IASRI
	14.00 15.30	Introduction of AI-disc	Dr. Sudeep Marwaha, Principal Scientist, ICAR-IASRI
	15.45-17.30	Feedback and Valedictory	

11 Budget Requirement

S.No.	Item	Approximate Expenditure	Remarks
1	Remuneration of the resource person	80000/-	As per the norms of NAHEP
2	Miscellaneous (Banner, Inaugural, Valedictory, Certificates, Stationary)	5000/-	-
	Total	**85000 (Eighty Five Thousand Only)**	

Submitted for approval

(V B. Singh)
Coordinator,
CoA Gwalior

Day 8 (Tue) 18.07.2023	10.00-11.30	Overview of Data Mining and Preprocessing	Dr. Shashi Dahiya, Principal Scientist, ICAR-IASRI
	11.45–13.15	Classification and Regression Tree with Hands-on session	Dr. Ramasubramanian V., Principal Scientist, ICAR-IASRI
	14.00–15.30	Self-Organizing Maps with Hands-on session	Dr. Ramasubramanian V., Principal Scientist, ICAR-IASRI
	15.45-17.15	Cluster Analysis with Hands-on session	Dr. Alka Arora, Principal Scientist, ICAR-IASRI
Day 9 (Wed) 19.07.2023	10.00–11.30	ARCH/ GARCH family of non-linear modeling	Dr. Ranjit Kumar Paul, Senior Scientist, ICAR-IASRI
	11.45-13.15	Ensemble Modelling	Dr. Shashi Dahiya, Principal Scientist, ICAR-IASRI
	14.00-17.00	Introduction to data science and Association Rule Mining	Dr.AnshuBharadwaj, Principal Scientist, ICAR-IASRI
Day 10 (Thu) 20.07.2023	10.00 – 13.00	Statistical Analysis using SPSS software	Dr. Raju Kumar, Scientist, ICAR-IASRI
	14.00 – 15.30	Introduction of AI-disc	Dr. SudeepMarwaha, Principal Scientist, ICAR-IASRI
	15.45-17.30	Feedback and Valedictory	

Pre-receipt

Received with thanks Rs. 8000/- in words Eight thousand only as honorarium for delivering two lectures on "Artificial Intelligence and Knowledge based systems, AI-Disc Introduction and Demonstration" held on dated 11/7/2023 and 20/7/2023 respectively in the online training programme on "Analysis of Agricultural Data using Statistical and Data Mining Techniques" organized by Department of Statistics RVSKVV Gwalior under NAHEP-IDP in collaboration with NAHEP Component-2 ICAR IASRI, New Delhi

Short-term certificate course
on
Urban Horticulture - Terrace Gardening and Vertical Gardening

Urban horticulture is the science and study of the growing plants in an urban environment. It focuses on the functional use of horticulture so as to maintain and improve the surrounding urban area. It creates more green space and reduces pollution. Areas with community gardens and urban farms also increase property value. Health and Wellness: Urban farming creates fresh produce closer to where it is ultimately consumed.

Objectives:

It creates more awareness of green space, reducing pollution, property value, health, wellness and new emerging line to become entrepreneur.

Target Group - B.Sc. (Hons.) Agriculture (I Year Students)
Duration - 10 days
Host Institution - College of Agriculture, Indore

Practical Applicability

By this certificate course students will learn the Urban Horticulture by utilizing every little space available in cities amidst buildings and other constructions for growing plants. They aware the urban people about utilizing the space to raise gardens that can be economically productive while contributing to environmental greening. It can boost food and ornamental plants production, provide job opportunities, promote green space development, waste recycling, and urban landscaping, and result in improved environment.

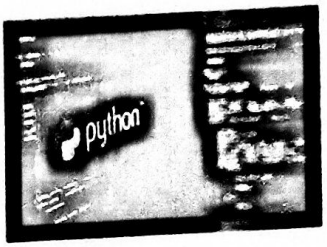
Schedule of Certificate Programme

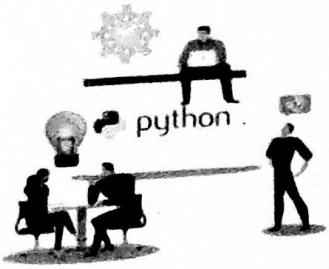
S. No.	Topic
1.	Introduction of Python Programming.
2.	Python Program Flow: 1.Various type of Data types. 2.Various type of Control Statement. 3. User define input.
3.	Introduction of Iterative Statement : 1.While loop 2. For loop
4.	Data Structures in Python : 1.List 2. Tuple 3. Set 4. Dictionary
5.	Modules and Function in Python.
6.	Object Oriented Programming in Python : 1. Class. 2. Class Instance. 3. Class Inheritance.
7.	Introduction of Graphical User Interface. Introduction to container and components. 1. Label 2. Buttons
8.	Introduction of Advance Graphical User Interface. 1. Entry Box. 2. Radio Buttons. 3. Check Box and Menu bar.
9.	Add Functionality to GUI Application .
10.	Create various GUI Applications.

Practical Applicability :

By this certificate course the student will learn about the software development language.

The course will generate the practical ability towards the technology by which they can develop their own Software.





Course Coordinator :
Vaibhav Soni
Sr. Engineer

Course Trainer :
Akshay Bhalerao
Expert Trainer

Short-term certificate course on Python Programming

Python is a computer programming language often used to build websites and software, automate tasks, and conduct data analysis. Python is a general-purpose language, meaning it can be used to create a variety of different programs. This versatility, along with its beginner-friendliness, has made it one of the most-used programming languages today. Python can be used to conduct complex statistical calculations, create data visualizations, build machine learning algorithms, manipulate and analyse data, and complete other related tasks.

Objectives

Python can build a wide range of different data visualizations, like line and bar graphs, pie charts, histograms, and 3D plots. Python also has a number of libraries that can help students to write programs for data analysis and machine learning more quickly and efficiently.

Target Group – B.Sc. (Hons.) Ag. II Year Students
Duration – 10 days

Organizing Institution

MSME Technology Centre

Indo – German Tool Room, Indore
Ministry of MSME (Govt. of India)

Schedule of Certificate Course

No.	Topic	Sub Topic
1.	Introduction to Python Programming	➢ Definition and overview of Python Programming. ➢ Advantages and Uses of Python. Programming Language. ➢ Introduction to Programming syntax.
2.	Python program flow	➢ Introduction to take input from user. ➢ Introduction to conditional statement using If-Else ➢ Introduction to various types of Operators in Python.
3.	Python program flow	➢ Introduction to Iterative statement. ➢ While loop ➢ For loop ➢ Break and Continue ➢ Exception Handling
4.	Data structures in Python	➢ List comprehensions. ➢ Tuple comprehensions. ➢ Set comprehensions. ➢ Dictionary comprehensions.
5.	Modules and Functions in Python	➢ Understanding the working of Modules and Functions in Python. ➢ Creating own functions. ➢ Import various existing modules in Python.
6.	Object oriented programming	➢ Understanding the concept of object oriented programming in python. ➢ Creating classes. ➢ Instance method. ➢ Class Inheritance.
7.	Graphical User Interface (GUI)	➢ Introduction to Graphical User Interface. ➢ Introduction to container and components. ➢ Label, Button.
8.	Graphical User Interface (GUI)	➢ Advance GUI components. ➢ Entry box. ➢ Radio buttons. ➢ Check box. ➢ Menu bar.
9.	Graphical User Interface (GUI)	➢ Adding functionality to GUI app.
	Graphical User Interface (GUI)	➢ Creating various GUI applications. ➢ Make GUI python file executable.

Practical Applicability

Python is being used for developing the IoT devices. Artificial Intelligence (AI) is assisting IoT in enabling real-time data analytics to help make informed decisions to farmers. Precision agriculture or smart agriculture relies on emerging technologies such as AI and Machine Learning (ML) to revolutionize farming practices.

Short-term certificate course on Robotic Applications in Agriculture Industry

Robotic applications in the agriculture industry involve the use of advanced technology and robotics to automate and enhance various agricultural processes. These robots are designed to perform tasks such as planting, harvesting, crop monitoring, and precision spraying, among others. They are equipped with sensors, cameras, and artificial intelligence algorithms to navigate through fields, collect data, and make informed decisions.

Objective of the Training

Robotic applications in agriculture aim to increase productivity, reduce labor requirements, optimize resource utilization, improve crop quality, and minimize environmental impact. They have the potential to revolutionize farming practices, making them more efficient, sustainable, and cost-effective.

COURSE COMPLETION CERTIFICATE

This is to certify that the Certificate course entitled "**Robotic Application in Agriculture industry**" conducted over duration of 60 hours from 22 May 2023 to 1 June 2023 has been successfully completed.

This course was organized by College of Agriculture, Indore and has equipped the participants with essential skills and knowledge in the field of Robotic Application in Agriculture industry**.**

We commend the commitment and effort demonstrated throughout the course.

Date of Issuance: 1 June 2023

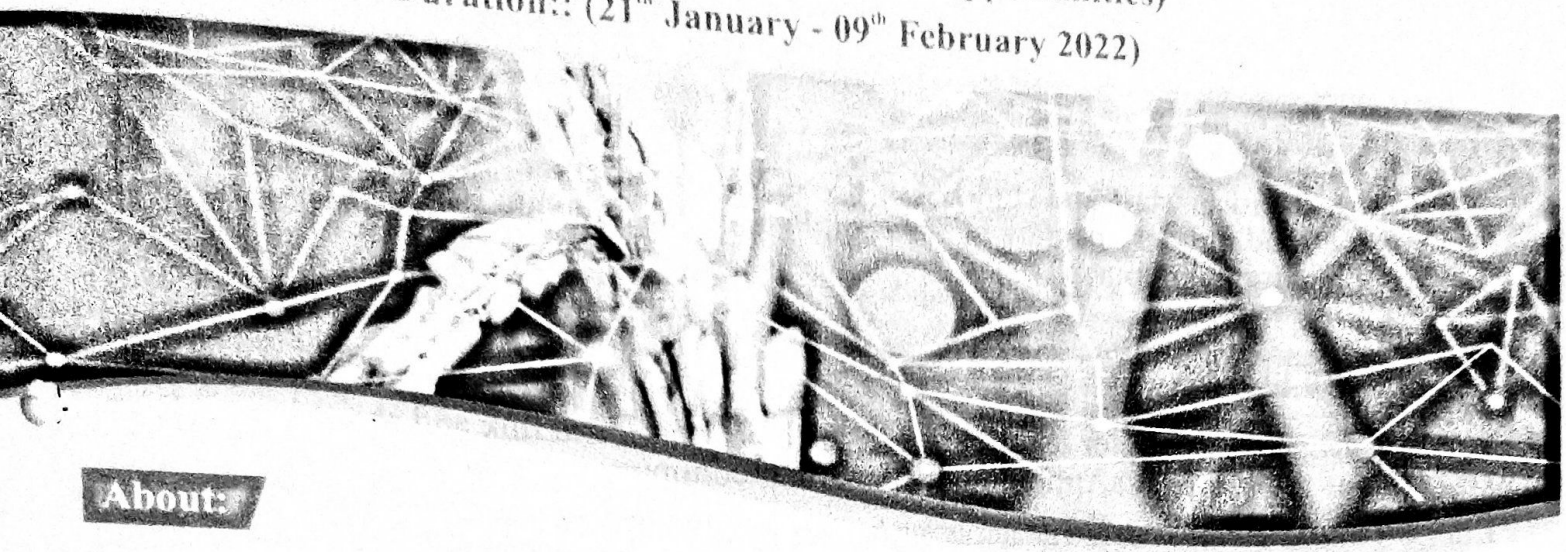
Certificate Course on
DEEP LEARNING FOR SMART AGRICULTURE

(Concepts, Tools, Applications & Opportunities)

Duration:: (21th January - 09th February 2022)



About:

Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya (RVSKVV), Gwalior, Madhya Pradesh, India, is a prestigious agricultural university that has been established in the year 2008. The university represents a well-knit action-oriented network of teaching, research and extension centres, operating in the fields of agriculture and horticulture. The university offers undergraduate degree programmes in Agriculture and Horticulture, Master's degree programmed in 11 Agriculture and 4 Horticulture disciplines and Doctorates in 7 agriculture and 2 Horticulture disciplines through its five constituent colleges. The University has been consistently involved in research for the development of technologies suitable for the agro climatic conditions of the regio and for the needs of the farmers.

A prestigious project under the National Higher Education Project (NAHEP) through the Indian council of Agricultural Research (ICAR), funded by the world Bank is running at RVSKVV, Gwalior. The project aims to create a dynamic first stop agricultural education learner centre, to strengthen the undergraduate system for addressing the skill needs of Agri-entrepreneurship by grooming successful entrepreneurship-oriented professionals with an international outlook who are scholarly acclaimed, socially sensitive and environmentally responsible. The objectives of th IDP-NAHEP-RVSKVV-Gwalior is 1. To create enabling learning environment and effective teaching through modern entrepreneurial outlook. 3. To leverage on alumni network, industry an partnerships towards quality and relevance of education and revenue generation.

Through this project a Certified training Programme will be organized to encourage bamboo entrepreneurship skills value addition and entrepreneurship option to the agriculture graduates a other stake holders.

Background:

In the world, due to the population growth there is a great demand for agriculture products. Tha why it is necessary to increase the production in agriculture. Nowadays the latest technologies as machine learning, deep learning, IoT and robotics are used to increase the agriculture production, reduce the production costs and increase the income. Rain, Cyclone, flood, climati changes, Weed, pest and lack of manpower are some of the factors that affect the growth of the in Agriculture field so deep learning technologies are mostly used by farmers to improve the c management and various applications of agriculture. In future deep learning will achieve a remarkable success in agriculture field.

Objective:

Introducing the students to the world of artificial intelligence and how deep learning algorithms can help them in improving productivity in their agricultural endeavours.

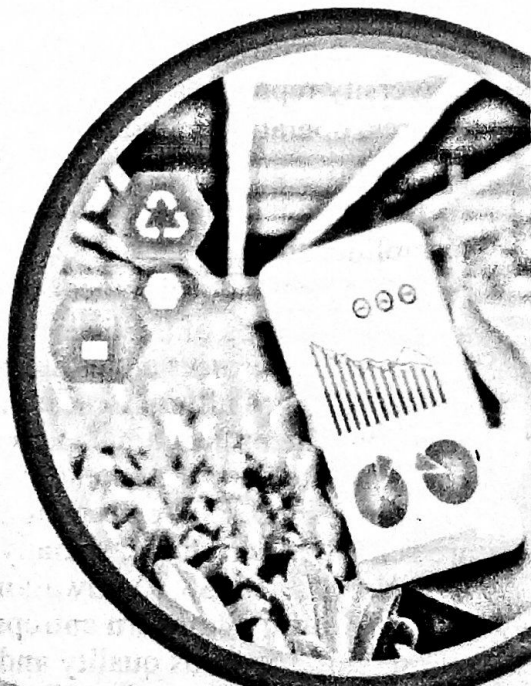
Who can attend?

Faculties, Scientists, staff and students of RVSKVV, Gwalior and other Agricultural Universities and industry personnel are eligible to register and are requested to take advantage of this online training course.

Registration:

Participants need to register by clicking on the below provided link and should provide an active email id and WhatsApp number for further communication.

Link for registration- https://forms.gle/i6r9qBA18MT9jg489
Rs. 600/- should be deposited in the following account no.
A/c Name: - DFA-NAHEP-IDP-RVSKVV Gwalior
A/c Number: - 921010021530194
IFSC: - UTIB0000158
Bank: - Axis Bank, Branch: - Gwalior Main



Outcome:

Students will learn the following:

- Images processing techniques
- Introduction of neural network
- Hands on experience with several live projects.
- Artificial Intelligence Based Application.

NAME: **Dr. S. D. Upadhyaya**
Designation: Ex- DI & EX- Professor and Head, Department of Forestry, JNKVV, Jabalpur

A Certificate course on bamboo based entrepreneurship opportunities, challenges & options for agriculture graduates: An interaction with Industrialists and Role Models and administrators

Duration : (10th August - 8th September 2021)

About:

Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya (RVSKVV), Gwalior, Madhya Pradesh, India is a prestigious agricultural university that has been established in the year 2008. The university represents a well-knit action oriented network of teaching, research and extension centers, operating in the fields of agriculture and horticulture. The university offers undergraduate degree programmes in Agriculture and Horticulture, Masters degree programmes in 11 Agriculture and 4 Horticulture disciplines and Doctorates in 7 Agriculture and 2 Horticulture disciplines through its five constituent colleges. The University has been consistently involved in research for the development of technologies suitable for the agro climatic conditions of the region and for the needs of the farmers.

A prestigious project under the National Higher Education Project (NAHEP) through the Indian Council of Agricultural Research (ICAR), funded by the World Bank is running at RVSKVV, Gwalior. The project aims to create a dynamic first stop agricultural education learner centre, to strengthen the undergraduate system for addressing the skill needs of agri-entrepreneurship by grooming successful entrepreneurship oriented professionals with an international outlook who are scholarly acclaimed, socially sensitive and environmentally responsible. The objectives of the IDP- NAHEP-RVSKVV-Gwalior is (i) to create enabling learning environment and effective teaching through modern class room ambience. (ii) to enhance students' entrepreneurial skills, faculty competence, their diversity and international outlook. (iii) to leverage on alumni network, industry and partnerships towards quality and relevance of education and revenue generation.

Through this project a Certified Training Programme will be organized to encourage bamboo entrepreneurship skills value addition and entrepreneurship option to the agriculture graduates and other stake holders.

Background:

Bamboo is an important part in the socio economic development of India. It greatly contributes to the economy of the nation. Bamboo is largely produced by the north-eastern states of the country. It is estimated that the annual turnover from a bamboo plantation in the country amount to 9,000 crores of rupees. The demand of bamboo in India is around 26 million metric tonnes approximately and is expected to increase in the near future. The multipurpose use of bamboo has made it a universal resource for the rural population and its demand is ever increasing. To support this

demand the government of India has launched the National Bamboo Mission', under the Ministry of Agriculture to promote the growth of the bamboo sector. "National Mission on Bamboo Application', has been launched by the Department of Science and Technology to provide technological help in the bamboo sector. The Cane and Bamboo Technology Centre (CBTC) has designed a project for the sustainable development of the bamboo industries to create a livelihood increasing. The Cane and Bamboo Technology Centre (CBTC) has also designed a project for the sustainable development of the bamboo industries to create a livelihood for people in the North Eastern India. Such initiatives can bring an organized bamboo cultivation structure within the country and facilitate more income for the rural population as well as contribute enormously to the national economy.

Objectives :

- To provide knowledge and creating awareness about bamboo cultivation.
- To create understanding for bamboo base entrepreneurships
- To discuss success story of bamboo based farming and entrepreneurship with industrialist.

Who can attend ?

Faculties, Scientists, Staff and Students of RVSKVV, Gwalior and other Agricultural Universities and Industry personnel are eligible to register and are requested to take advantage of this online training course.

Timings: 3pm - 5pm

Registration :

Participants need to register by clicking on the below provided link and should provide an active email id and WhatsApp number for further communication.

Link for registration:

https://docs.google.com/forms/d/e/1FAIpQLScLXyf_q-sBFY1MvqXN8unKUT9ZaVPwgtFZDWIrenZ20Uofsw/viewform?usp=pp_url

Rs.1000/- should be deposited in the following account no.
A/c Name: - DFA-NAHEP-IDP-RVSKVV GWALIOR
A/C Number: - 921010021530194
IFSC: - UTIB0000158
Bank: - Axis Bank, Branch: - Gwalior Main

Outcome :

After completion of this course the trainees will be able to propagate, develop nurseries, cultivate bamboo on larger areas for enterprize development and ultimately get financial support from various bamboo based artisans & industries. The profitability soil quality and ecosystem services will also improve.

Training Contents :

- Bamboo as green gold: An overview
- Introduction on Bamboo utilization and economics of Bamboo
- Bamboo seed technology and treatment for quality seedlings
- Propagation, silvicultural management of bamboos, clump management and harvesting
- Soil and nutrition for bamboo cultivation
- Marketing and promotion
- Bamboo based entrepreneurship development

• Connect2India helps regarding: bamboo sticks, bamboo pole, bamboo wood, bamboo walls, raw bamboo, green bamboo, wooden bamboo, beema bamboo, treated bamboo
Connect2India has also provided a tool to find the HS code (/hs-code-finder.html) for the domain products.
• Bamboo products are classified under the category Building & Construction which further sorted under multiple HS Codes to determine the different varieties of Bamboo products.
• As an exporter of Bamboo, one should know the HS code (/hs-code-finder.html) of the products at first.

Proprietor

Agreement Cum Work Order

Name of Consultant: B. Shivaprasad, SS Technologies 401, Rajya laxmi niwas 5-2-26/1, Kukatpally, Hydrabad 500072

We herewith confirm you consulting appointment to carry out the above-mentioned assignment specified in the attached terms of Reference.

For administrative purposes (PI, IDP-NAHEP, RVSKVV, Gwalior) has been assigned to administer the assignment and to provide the Consultant with all relevant information needed to carry out the assignment. The services will be required in (IDP, NAHEP project, RVSKVV) for about 03 Months, during the period from 01 October 2021 to 30th December 2021) these dates are estimates and (PI, IDP-NAHEP, RVSKVV, Gwalior) may find if necessary to postpone or cancel the assignment and/or shorten or extend its duration. However, every effort will be made to give you, as early as possible, notice of any such changes. In the event of termination, the (B. Shivaprasad,) shall be paid for the services rendered for carrying out the assignment to the date of termination, and will provide the (PI, IDP-NAHEP) with any reports or parts thereof, or any other information and documentation gathered under this Agreement prior to the date of termination.

This Agreement, its meaning and interpretation and the relations between the parties shall be governed by the law of Union of India.

Set out below are the terms and conditions under which you have agreed to carry out the assignment for the (PI, IDP-NAHEP). The services to be performed, the estimated time to be spent, and the reports to be submitted will be in accordance with the attached Terms of References.

This agreement will become effective upon confirmation of this letter by you and will terminate on 30th December 2021, or such other date as mutually agreed.

Payments for the services will not exceed the total amount indicated in the attached cost estimate for the assignment.You will be paid maximum remuneration of Rs. 637200/- (Six lakh thirty-seven thousand two hundred only)

only including all taxes only on successful completion of each month or the total amount indicated in the attached cost estimate for the assignment, whichever is lower.

In addition, the TA/DA for the tours undertaken to perform the desired job will be admissible as per entitled class of Professor of RVSKVV.

You will be responsible for appropriate insurance coverage. In this regard, you shall maintain medical, travel, accident and third-party liability. You shall indemnify and hold harmless, the Principal Investigator, IDP, RVSKVV, Gwalior against any and all claims demands, and/or judgements of

nay nature brought against the PI, IDP, RVSKVV, Gwalior arising out of the services under this Agreement. The obligation under this paragraph shall survive the termination of this Agreement.

All materials produced or acquired under the terms of this Agreement written, graphic, film, magnetic tape or otherwise shall remain the property of the (PI, IDP-NAHEP). The RVSKVV, Gwalior retains the exclusive right to publish or disseminate reports arising from such the termination of this Agreement or the execution of its other provisions.

You will carry out the assignment in accordance with the highest standard of professional and ethical competence and integrity, having due regard to the nature and purpose of the assignment, and will conduct yourself in a manner consistent herewith.

You will not assign this Contract or sub-contract or any portion of it without PI, IDP, RVSKVV, Gwalior's prior written consent.

You should agree that, during the term of this Contract and after its termination, you and any entity affiliated with you, shall be disqualified form providing goods, works or services (other than the Services and any continuation thereof) for any project resulting from or closely related to the Services.

You will also agree that all knowledge and information not within the public domain which may be acquired during the carrying out of this Agreement, shall be, for all time and for all purpose, regarded as strictly confidential and held in confidence, and shall not be directly or indirectly disclosed to any person whatsoever, except with the RVSKVV, Gwalior written permission.

Any dispute arising out of the Contract, which cannot be amicably settled between the parties, shall be referred to adjudication/arbitration in accordance with Arbitration & Conciliation Act 1996.

Read and Agreed

RECEIPT

Received with thanks an amount of Rs. 637200/- (Rupees Six Lakh Thirty Seven Thousand Two Hundred Only) from The Principal Investigator, IDP-NAHEP, RVSKVV Gwalior as payment towards conducting "Training Program for Personality Development and Improving Communication Skills of Students" for the 4th year, 3rd year, and 2nd year students of 5 colleges of RVSKVV Gwalior during 25-30 Oct, 8-13 Nov, and 22-27 Nov 2021 (18 days).

For SS Technologies

Dr B Sivaprasad

Proprietor

Agreement Cum Work Order

Name of Consultant: B. Shivaprasad, SS Technologies 401, Rajya laxmi niwas 5-2-26/1, Kukatpally, Hydrabad 500072

We herewith confirm you consulting appointment to carry out the above-mentioned assignment specified in the attached terms of Reference.

For administrative purposes (PI, IDP-NAHEP, RVSKVV, Gwalior) has been assigned to administer the assignment and to provide the Consultant with all relevant information needed to carry out the assignment. The services will be required in (IDP, NAHEP project, RVSKVV) for about 03 Months, during the period from 01 October 2021 to 30th December 2021) these dates are estimates and (PI, IDP-NAHEP, RVSKVV, Gwalior) may find if necessary to postpone or cancel the assignment and/or shorten or extend its duration. However, every effort will be made to give you, as early as possible, notice of any such changes. In the event of termination, the (B. Shivaprasad,) shall be paid for the services rendered for carrying out the assignment to the date of termination, and will provide the (PI, IDP-NAHEP) with any reports or parts thereof, or any other information and documentation gathered under this Agreement prior to the date of termination.

This Agreement, its meaning and interpretation and the relations between the parties shall be governed by the law of Union of India.

Set out below are the terms and conditions under which you have agreed to carry out the assignment for the (PI, IDP-NAHEP). The services to be performed, the estimated time to be spent, and the reports to be submitted will be in accordance with the attached Terms of References.

This agreement will become effective upon confirmation of this letter by you and will terminate on 30th December 2021, or such other date as mutually agreed.

Payments for the services will not exceed the total amount indicated in the attached cost estimate for the assignment.You will be paid maximum remuneration of Rs. 637200/- (Six lakh thirty-seven thousand two hundred only)

only including all taxes only on successful completion of each month or the total amount indicated in the attached cost estimate for the assignment, whichever is lower.

In addition, the TA/DA for the tours undertaken to perform the desired job will be admissible as per entitled class of Professor of RVSKVV.

You will be responsible for appropriate insurance coverage. In this regard, you shall maintain medical, travel, accident and third-party liability. You shall indemnify and hold harmless, the Principal Investigator, IDP, RVSKVV, Gwalior against any and all claims demands, and/or judgements of

nay nature brought against the PI, IDP, RVSKVV, Gwalior arising out of the services under this Agreement. The obligation under this paragraph shall survive the termination of this Agreement.

All materials produced or acquired under the terms of this Agreement written, graphic, film, magnetic tape or otherwise shall remain the property of the (PI, IDP-NAHEP). The RVSKVV, Gwalior retains the exclusive right to publish or disseminate reports arising from such the termination of this Agreement or the execution of its other provisions.

You will carry out the assignment in accordance with the highest standard of professional and ethical competence and integrity, having due regard to the nature and purpose of the assignment, and will conduct yourself in a manner consistent herewith.

You will not assign this Contract or sub-contract or any portion of it without PI, IDP, RVSKVV, Gwalior's prior written consent.

You should agree that, during the term of this Contract and after its termination, you and any entity affiliated with you, shall be disqualified form providing goods, works or services (other than the Services and any continuation thereof) for any project resulting from or closely related to the Services.

You will also agree that all knowledge and information not within the public domain which may be acquired during the carrying out of this Agreement, shall be, for all time and for all purpose, regarded as strictly confidential and held in confidence, and shall not be directly or indirectly disclosed to any person whatsoever, except with the RVSKVV, Gwalior written permission.

Any dispute arising out of the Contract, which cannot be amicably settled between the parties, shall be referred to adjudication/arbitration in accordance with Arbitration & Conciliation Act 1996.

Read and Agreed

RECEIPT

Received with thanks an amount of Rs. 637200/- (Rupees Six Lakh Thirty Seven Thousand Two Hundred Only) from The Principal Investigator, IDP-NAHEP, RVSKVV Gwalior as payment towards conducting "Training Program for Personality Development and Improving Communication Skills of Students" for the 4th year, 3rd year, and 2nd year students of 5 colleges of RVSKVV Gwalior during 25-30 Oct, 8-13 Nov, and 22-27 Nov 2021 (18 days).

For SS Technologies

Dr B Sivaprasad

Proprietor

Agreement Cum Work Order

Name of Consultant: B. Shivaprasad, SS Technologies 401, Rajya laxmi niwas 5-2-26/1, Kukatpally, Hydrabad 500072

We herewith confirm you consulting appointment to carry out the above-mentioned assignment specified in the attached terms of Reference.

For administrative purposes (PI, IDP-NAHEP, RVSKVV, Gwalior) has been assigned to administer the assignment and to provide the Consultant with all relevant information needed to carry out the assignment. The services will be required in (IDP, NAHEP project, RVSKVV) for about 03 Months, during the period from 01 October 2021 to 30th December 2021) these dates are estimates and (PI, IDP-NAHEP, RVSKVV, Gwalior) may find if necessary to postpone or cancel the assignment and/or shorten or extend its duration. However, every effort will be made to give you, as early as possible, notice of any such changes. In the event of termination, the (B. Shivaprasad,) shall be paid for the services rendered for carrying out the assignment to the date of termination, and will provide the (PI, IDP-NAHEP) with any reports or parts thereof, or any other information and documentation gathered under this Agreement prior to the date of termination.

This Agreement, its meaning and interpretation and the relations between the parties shall be governed by the law of Union of India.

Set out below are the terms and conditions under which you have agreed to carry out the assignment for the (PI, IDP-NAHEP). The services to be performed, the estimated time to be spent, and the reports to be submitted will be in accordance with the attached Terms of References.

This agreement will become effective upon confirmation of this letter by you and will terminate on 30th December 2021, or such other date as mutually agreed.

Payments for the services will not exceed the total amount indicated in the attached cost estimate for the assignment.You will be paid maximum remuneration of Rs. 637200/- (Six lakh thirty-seven thousand two hundred only)

only including all taxes only on successful completion of each month or the total amount indicated in the attached cost estimate for the assignment, whichever is lower.

In addition, the TA/DA for the tours undertaken to perform the desired job will be admissible as per entitled class of Professor of RVSKVV.

You will be responsible for appropriate insurance coverage. In this regard, you shall maintain medical, travel, accident and third-party liability. You shall indemnify and hold harmless, the Principal Investigator, IDP, RVSKVV, Gwalior against any and all claims demands, and/or judgements of

nay nature brought against the PI, IDP, RVSKVV, Gwalior arising out of the services under this Agreement. The obligation under this paragraph shall survive the termination of this Agreement.

All materials produced or acquired under the terms of this Agreement written, graphic, film, magnetic tape or otherwise shall remain the property of the (PI, IDP-NAHEP). The RVSKVV, Gwalior retains the exclusive right to publish or disseminate reports arising from such the termination of this Agreement or the execution of its other provisions.

You will carry out the assignment in accordance with the highest standard of professional and ethical competence and integrity, having due regard to the nature and purpose of the assignment, and will conduct yourself in a manner consistent herewith.

You will not assign this Contract or sub-contract or any portion of it without PI, IDP, RVSKVV, Gwalior's prior written consent.

You should agree that, during the term of this Contract and after its termination, you and any entity affiliated with you, shall be disqualified form providing goods, works or services (other than the Services and any continuation thereof) for any project resulting from or closely related to the Services.

You will also agree that all knowledge and information not within the public domain which may be acquired during the carrying out of this Agreement, shall be, for all time and for all purpose, regarded as strictly confidential and held in confidence, and shall not be directly or indirectly disclosed to any person whatsoever, except with the RVSKVV, Gwalior written permission.

Any dispute arising out of the Contract, which cannot be amicably settled between the parties, shall be referred to adjudication/arbitration in accordance with Arbitration & Conciliation Act 1996.

Read and Agreed

/ho minimized risks in the venture. *For that* the best way to reduce risk was to really dig deep) the industry that one was trying to break into at the ground level. The basics of initiating a ,tartup were discussed with the students and questions raised by the students were clarified.

The team comprising of Nodal Officer Dr Ashok Krishna, Coordinators Dr Sanjay Sharma,Dr A.K.Badaya and Dr Swati Barche attended the session.

Feedback of the students with their attendance

2023-24

PREFACE

The value added ten days certificate course **"Hands on Practice for Bio/Waste Management"** organised under the Mission Life programme from 20 May to 29 May 2024 for Experiential Learning Programme students at KNK College of Horticulture, Mandsaur (M.P.). The present training certificate course has been designed to provide a holistic experience and skill in management of bio/waste. This programme boosted the students with the knowledge of bio/waste management into value added products.

I place on record my sincere gratitude and thanks to Dean KNK College of Horticulture Mandsaur for encouragement and guidance in organizing the training programme.

The team work of convenor and course co-ordinators with their meticulous planning has immensely helped me in organization and smooth execution of this value added ten days certificate course.

The resource persons are gratefully acknowledged for giving their consent to deliver the lectures.

Activities

Day: 1

In this value added ten days certificate course **"Hands on Practice for Bio/Waste Management" under Mission Life** 40 ELP students registered

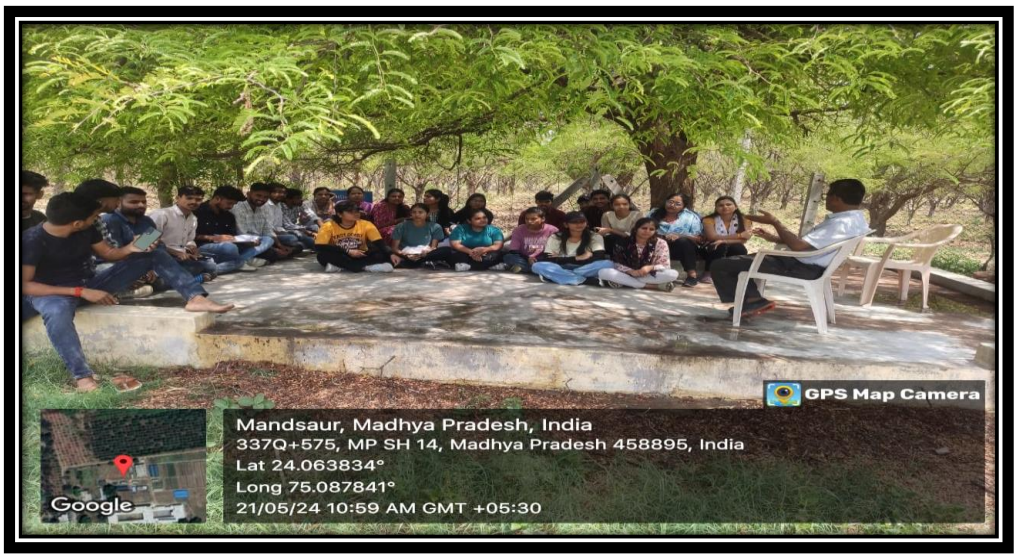
Inauguration of program by Dean, KNK College of Horticulture, Mandsaur

Day: 02

Topic: After harvesting, recycling of spent mushroom substrate (SMS)

Speaker: R. P. Patel/ Mr. B. K. Patidar and Dr. P. K. Fatehpuria
(Department of Plant Pathology)

After harvesting of oyster and milky Mushroom remain spent mushroom straw utilized as direct animal feed or preparation of vermin-compost and compost. The compost spent mushroom straw are rich in nutrients (Potassium, Magnesium, Calcium , Aluminium, etc.) and generally used for improving the soil structure, weed reduction , porosity ,moisture retention, breaks up heavy soil and boost up the soil drainage.



DAY 03

Topic: Fruits Peels management

Speaker: Dr. S.P. Tripathi (Scientist, KVK Mandsaur)

Generally after squeezing juice from lime/lemons, the peels are treated as waste material but lime/lemons peels are used for preparation of mouth watering pickle and chutney.

Lime/Lemon peels are a great source of vitamins, fiber, potassium, magnesium, calcium, beta carotene, folic and other healthy nutrients. It has many health benefits. It helps in growing nails, improves blood circulation, maintains bone health, decreases cholesterol, reduces the oxidative stress level, prevents and treats cancer and improves the digestive system.

DAY 4

Topic: Agriculture waste management through various methods of composting

Speaker: Dr. Roshan Gallani, Scientist (Soil Science and Agricultural Chemistry) and Dr. M.K. Tripathi, Assistant Professor (Agricultural Meteorology).

The training was organised to improve skill and knowledge of students about various composting method *viz* FYM method, Vermicomposting, Four pit method and NADEP method. During the training session knowledge about whole composting process, dimensions of compositing pit, size of organic material, proper ratio of dry and green, ratio of dry material and cow dung, moisture retention, temperature management, layer process, selection of earthworms and compost sieving method were imparted. Students themselves fill the vermin-compost beds. Knowledge about quality aspects of prepared compost, vermin-wash and importance of C: N Ratio, time and dose of application were also imparted

DAY: 5

Topic: Orchard waste management

Speaker: Dr. Priyavada Sonkar / Dr. R.N. Kanpure (Department of Fruit Science)

The training was organised to improve skill and knowledge of students on orchard residues are basically rich in biomass. Orchard has generated a large quantity of flowering/blossom, pruned branches, leaves, fruit thinning, over-ripened dropped fruits and trunks during the growth of orchard trees, harvesting of fruits, and recycling of this biomass residue is major problems for local farmers.

Orchard residues emerged as a promising source for diverse value-added products derived from cellulose-rich materials (branches and leaves) that can be converted into various bio-fuels such as hydrogen, ethanol, and methane through various bio-refinery approaches.

Orchard Waste is an important bio-resource, pruned leaves, twigs, stems, and branches along with immature fruits all are rich in phenol, the highest total phenolic content is found in leaves, stems, and immature dropped fruits for nutritional value, various carbohydrate-rich biomass includes applepomace, banana, mango, etc. peels are suitable material for bio-fertilizer and biochemical production. In addition, it helps to increase the total relative abundance of microbes including their enzymes, organic acids, pectin, polyphenols, biopolymers, and other compounds. Finally, these microbes certainly help to increase the nutrient level and chemical recovery. Seeded dropped fruits can be used for seed collection and sale out in market or prepare rootstocks after sowing. Leaves can also be used for composting/vermin-compost.

DAY 6

Topic: Management of industrial Agri/Horti wastage

Speaker: Dr. S. K Dwivedi/ Dr. Om Singh (Department of Post Harvest Management)

Process the fruits and vegetables for juices, squashes, jams, jellies, canning and other products, gets large quantities of left over materials. These are called solid wastes. During processing fruits and vegetables produce different kinds of waste material which are described as

FRUIT WASTES: Peel, rag, pulp and seeds in citrus, peel, stones, and pulper waste in mango, rind and seeds in jack fruit, peel, core, seeds in guava, seeds, and skins in grape, pomace of apple, apricot kernel, shell and skin, peel, core, trimmings, shreds and leaves of pineapple, peel, pseudo stem, leaves of banana, over ripe and blemished fruits, cull fruits and unmarketable surplus.

VEGETABLE WASTES: Tomato seeds, skins and trimmings, asparagus wastes from canning, vines and pods from pea canning, wastes from dryers, peel and cores solids of potato.

DAY 7

Topic: Agricultural waste management through mushroom production

Speaker: Dr. R. P. Patel/ Dr. P. K. Fatehpuria (Department of Plant Pathology)

Large amount of agricultural waste such as wheat, paddy, small millet straw, cotton waste, areca husk banana leaves, sugarcane bagasse and also agro forest residue like casia tora, etc are available in farmer's field. These agricultural and agro-forest residues dump by farmers anywhere which may consume by animals that causes harmful effect to their health and also increase the pollution in environment.

Agricultural and agro forest residue contain high amount of hemi cellulose which is utilized for growing of mushroom such as oyster, button, milky using paddy straw, etc.

Mushroom is a rich source of protein and it also contains sodium, calcium, iron and contains low carbohydrate.

DAY 8

Topic: Banana pseudo-stem waste management for sustainable agriculture

Speaker: Dr. Jyoti Kanwar/ Dr. Nitin Soni (Department of Fruit Science)

The session covered the utilization of various parts of the banana plant, including the fruit, leaves, flower bud, trunk, and pseudo-stem. Dr. Nitin Soni also demonstrated the production of banana pseudo-stem fiber, discussing its characteristics and potential applications. Additionally, practical information on the collection of raw materials for high-quality fiber extraction was provided.

DAY 9

Topic: Waste management of flowers and turf grass

Speaker: Dr. Anuj Kumar (Department of Floriculture and landscape Architecture)/ Dr. B. K. Kachouli (Department of Plant Breeding and Genetics)

The training was organized to improve skill and knowledge of students about various floral waste management and value addition method *viz.*, different flower drying techniques, resin art techniques, herbal gulal, pankhuri, pot pouri, dry flower portrait making, making of incense sticks, dyes & pigments extraction from floral wastes and different other value added products of flowers and turf grasses. During the training session knowledge about the above process was imparted and students know how the waste can be converted into wealth.

DAY 10

Topic: Waste management of vegetable crops.

Speaker: Dr. R.K. Sharma/ Mr. Pankaj Maida (Department of Vegetable Science)

The training was organized to enhance skills and knowledge on how vegetable waste can be managed in various ways, like composting, anaerobic digestion, animal feed, bio-energy production, waste-to-energy plants, soil amendment, water management, and innovative recycling methods. During the training session, knowledge about how vegetables are rich in minerals, vitamins, carbohydrates, and antioxidant value, which is important for enhancing soil amendment, animal diet, bio energy, etc.

At the end of the programme certificates were distributed to the Participants, recourse person, Course Directors, and Coordinators.

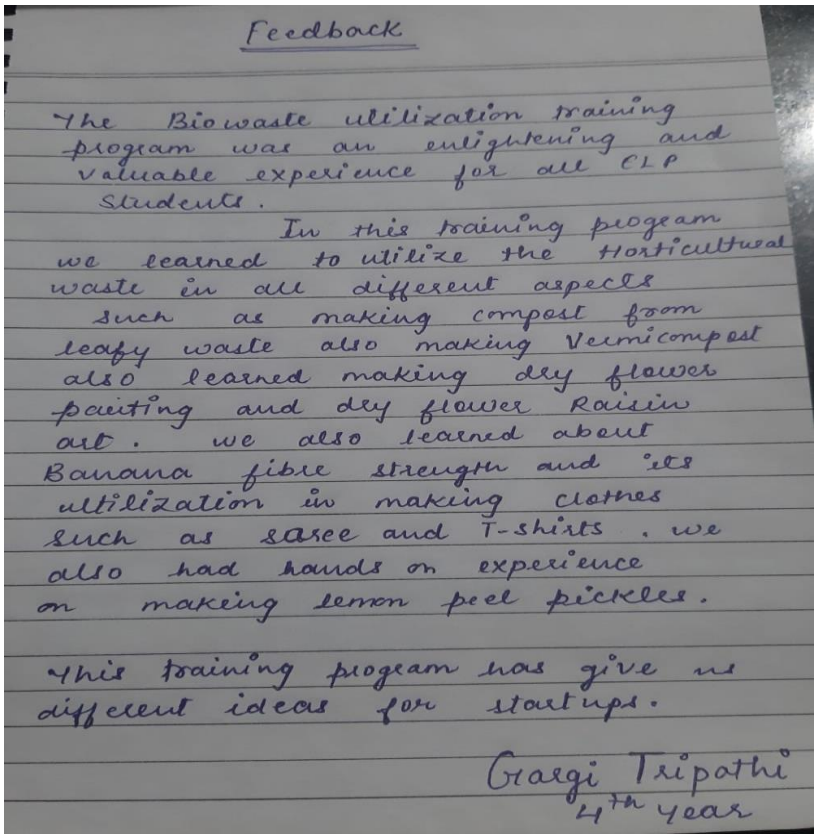
Feedback



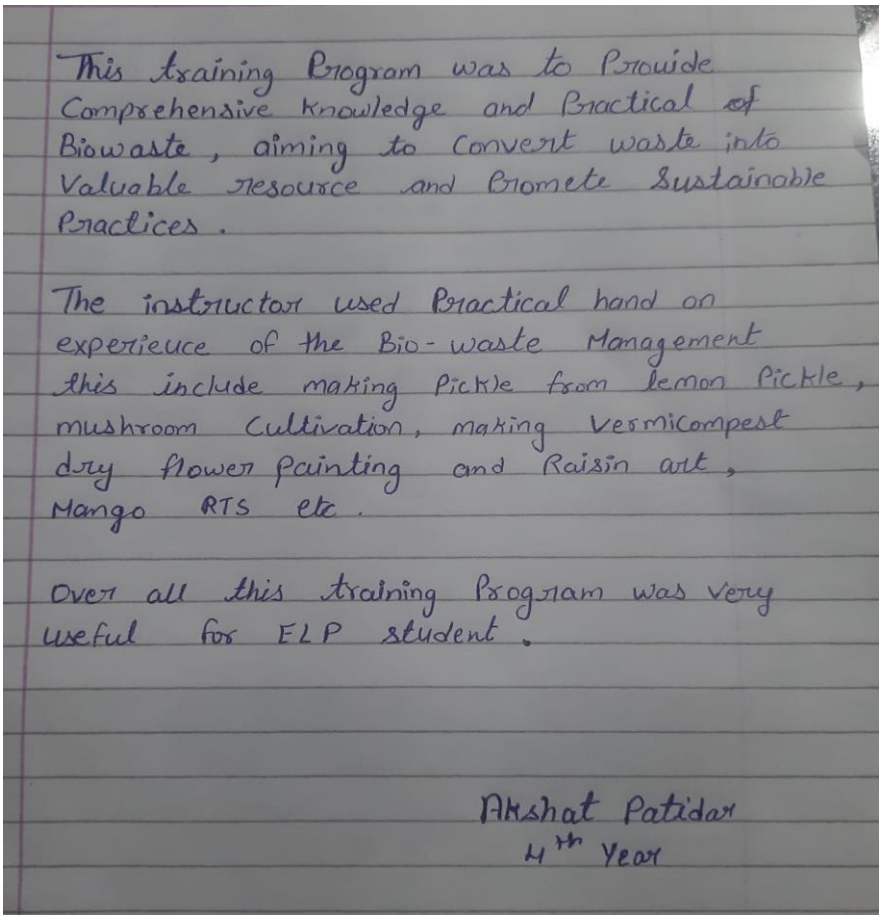
Feedback

The Biowaste utilization training program was an enlightening and valuable experience for all ELP students.

In this training progeam we learned to utilize the Horticultural waste in all different aspects such as making compost from leafy waste also making Vermicompost also learned making dry flower painting and dry flower Raisin art. we also learned about Banana fibre strength and its utilization in making clothes such as saree and T-shirts. we also had hands on experience on making lemon peel pickles.

This training progeam has give us different ideas for startups.

Gargi Tripathi
4th year



This training Program was to Provide Comprehensive knowledge and Practical of Biowaste, aiming to convert waste into Valuable resource and Promote Sustainable Practices.

The instructor used Practical hand on experience of the Bio-waste Management this include making Pickle from lemon Pickle, mushroom Cultivation, making Vermicompest dry flower painting and Raisin art, Mango RTS etc.

Over all this training Program was very useful for ELP student.

Akshat Patidar
4th Year

Feedback

Ten days certificate Training programme held on the topic of bio waste management from 21 May 2024 to 29 May 2024. In this training programme we attend lecture by given by Researcher and Professor on bio waste regarding fruit peel waste, orchard wast, vermicompost, mushroom culture, vegetable waste etc. under the guidance of Dr. R. P. Patel Sir. It is valuable investment that can yield long term benifit for our plant, environment and our bottom line. It is great way to apply theoretical knowledge and develop practical skills while contributing to sustainability efforts. We also learn about how we can minimize waste and use it in usefull form like "Best from the waste.".

Overall, we learn a lot from this training program which is benificial for us. Attending a 10 day training program on plant waste management can be incredibly beneficial for several reasons :-

1. Knowledge Enhancement :- I gain a deeper understanding of plant waste generation, management techniques and effective waste reduction strategies.
2. Skill Development :- The program likely include hands on training, allowing us to develop practical skill in waste auditing, recycling and composting.
3. Environmental Impact - Implementing proper waste management technique can significantly reduce our plant's environment footprint by minimizing pollution, conserving ~~re~~ resources and promoting sustainability.

feedback by :-
Saloni Panchal (ELP Student)

Feedback

I found the Hands on Practice for Biol waste management training to be very informative and helpful. I learned a lot about the different types of Bio waste how to manage them safelly and how to seek opportunity of entreprenorship. and how to Conserve enviornment by utilizing Fruit, vegetable mushroom, Flower, Industrial waste.

I also appreciated the opportunity to practice my skills in hands on setting overall I found the training to be very valuable and I would recommend it to others.

The instructor was very knowle knowledgeable and experienced in field of Bio waste management

The opportunity to ask questions and get feedback from the instructor was very valuable.

A Report

A value-added certificate course on

Eco-Friendly Solutions: Waste Papers and Bio-Waste Recycling Techniques

(15th - 21st May 2024)

Venue: College of Agriculture, Gwalior

Forward

A value-added certificate course on "Eco-Friendly Solutions: Waste Papers and Bio-Waste Recycling Techniques" was successfully held at the College of Agriculture, Gwalior from the 15th to the 21st of May 2024. This 5-day course, lasting 30 hours, was part of an ICAR initiative aimed at promoting sustainable waste management practices. During the course, students and faculty engaged in practical sessions where they created various articles from recycled paper, particularly highlighted in the session on 20th May 2024. Additionally, participants visited the waste paper recycling unit located at the College of Agriculture, Gwalior. Several lectures were delivered throughout the course, providing valuable insights and knowledge on eco-friendly recycling techniques. This program reflects our ongoing commitment to fostering environmental sustainability and equipping our community with practical skills for effective waste management.

The overwhelming response and active participation from students, researchers, and professionals underscore the importance and relevance of such initiatives. This program is a testament to our commitment to promoting eco-friendly practices and providing our community with the skills and knowledge necessary to drive positive environmental change.

We look forward to organizing more such impactful courses in the future, continuing our efforts to educate and inspire the next generation of environmental stewards.

Dean

Preface

We are pleased to report that the value-added certificate course on "Eco-Friendly Solutions: Waste Papers and Bio-Waste Recycling Techniques" was successfully conducted at the College of Agriculture, Gwalior, from the 15th to the 21st of May 2024. This 5-day course, comprising 30 hours of comprehensive training, was an initiative under the aegis of ICAR, focusing on sustainable waste management practices.

The course featured a blend of theoretical lectures and practical sessions designed to equip participants with the knowledge and skills required for effective recycling techniques. On the 20th of May 2024, during the second session, students and faculty engaged in hands-on activities where they created a variety of articles from recycled paper. This session not only demonstrated the practical applications of recycling but also fostered creativity and environmental responsibility among participants.

A significant highlight of the course was the visit to the waste paper recycling unit located at the College of Agriculture, Gwalior. This visit provided participants with an in-depth view of the recycling process, from the initial collection of waste paper to its transformation into reusable materials. This practical exposure was crucial in reinforcing the theoretical concepts discussed during the lectures.

Several expert-led lectures were delivered throughout the course, covering a broad spectrum of topics including innovative recycling techniques, the environmental impacts of waste, and strategies for implementing sustainable practices. These interactive sessions encouraged participants to engage in meaningful discussions and share their insights, enhancing their overall learning experience.

The enthusiastic participation of students, researchers, and professionals highlighted the significance of this initiative. The course successfully met its objective of promoting eco-friendly practices and imparting valuable skills for sustainable waste management.

We look forward to continuing our efforts in organizing such impactful programs, fostering a culture of environmental stewardship and sustainability within our community.

Inauguration of the Value- aided- course

The value-added certificate course on "Eco-Friendly Solutions: Waste Papers and Bio-Waste Recycling Techniques" was inaugurated at the College of Agriculture, Gwalior, on the 15th of May 2024. The opening remarks were delivered by Dr. S.S. Tomar, Dean of the College of Agriculture, Gwalior, who also served as the Course Director. In his address, Dr. Tomar aimed to motivate and inspire the participating students, emphasizing the critical importance of adopting sustainable waste management practices for the betterment of our environment.

This 5-day course, spanning a total of 30 hours, was conducted as part of an ICAR initiative, focusing on equipping participants with both theoretical knowledge and practical skills in recycling techniques. On the 20th of May 2024, during the second session, students and faculty engaged in a hands-on activity where they created various articles from recycled paper. This session showcased the creativity and commitment of the participants towards environmental sustainability.

A notable highlight of the course was the visit to the waste paper recycling unit located at the College of Agriculture, Gwalior. This visit provided participants with an in-depth understanding of the recycling process, from the initial collection of waste paper to its transformation into reusable materials. This practical exposure was crucial in reinforcing the theoretical concepts discussed during the lectures. The course featured several expert-led lectures covering a broad spectrum of topics, including innovative recycling methods, the environmental impacts of waste, and strategies for implementing sustainable practices. These interactive sessions encouraged meaningful discussions and knowledge sharing among participants. The enthusiastic participation of students underscored the significance of this initiative. The course successfully achieved its objective of promoting eco-friendly practices and imparting valuable skills for sustainable waste management.

Day-1 (15.05.2024)

Session-1

Speaker: Dr. Anuradha Goel
Topic Covered: Introduction to Waste Paper Recycling and Their Environmental Benefits

In the morning session, a lecture on "Introduction to Waste Paper Recycling and Their Environmental Benefits" was delivered by Dr. Anuradha Goel. Dr. Goel provided an insightful overview of the recycling process, emphasizing the importance of waste paper recycling as a critical component of sustainable waste management. The lecture highlighted the significant environmental benefits, including the reduction of deforestation, energy savings, and decreased landfill use, thereby underscoring the role of recycling in mitigating environmental degradation. This session set the tone for the course, inspiring participants to appreciate the value of recycling and its positive impact on the environment.

PLATE-1. Lecture delivered by Dr. Anuradha Goel on 15.06.2024 during Ist Session

Session-2

Speaker: Dr. Narendra Gurjar
Topic Covered: Collection, Sorting, Pulping, and Refining of Waste Paper

In the second session, a lecture on "Collection, Sorting, Pulping, and Refining of Waste Paper" was delivered by Dr. Narendra Gurjar. Dr. Gurjar provided a detailed exploration of the various stages involved in the waste paper recycling process. The lecture covered the methods and techniques used in the collection and sorting of waste paper, the pulping process that transforms paper into pulp, and the refining steps that ensure the production of high-quality recycled paper. Dr. Gurjar's session offered participants a comprehensive understanding of the technical aspects of waste paper recycling, equipping them with the knowledge to effectively manage and process recyclable paper.

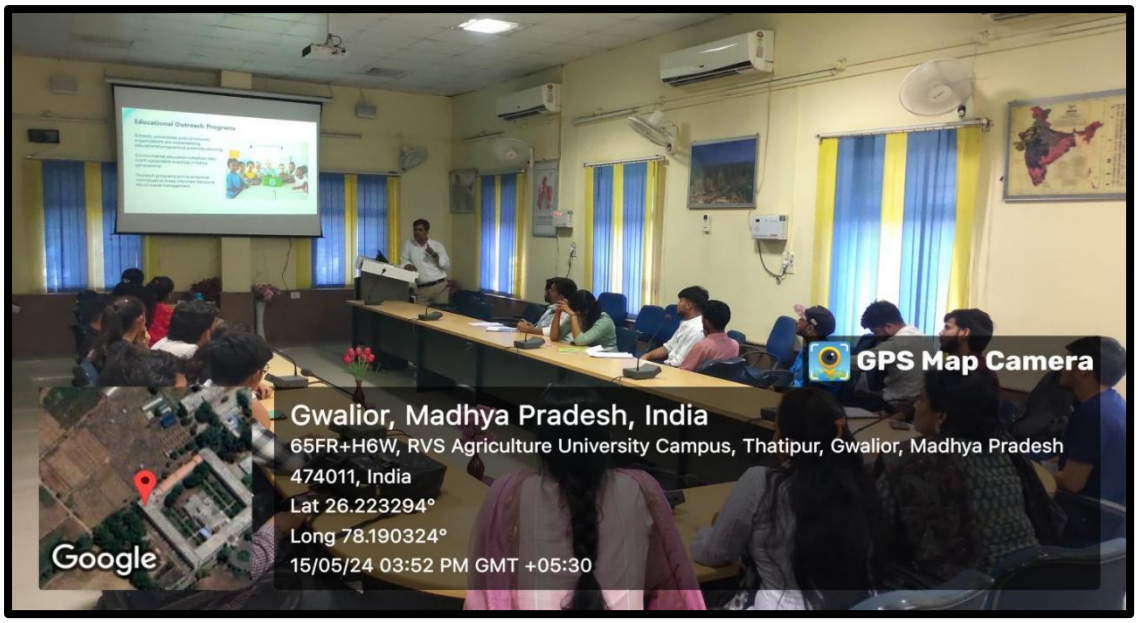

PLATE-2. Lecture delivered by Dr. Narendra Gurjar on 15.06.2024 during 2nd Session

PLATE-3. Group talk on day one

On the first day of the course, participants and faculty embarked on an enlightening journey to the waste paper recycling unit nestled within the premises of the College of Agriculture, Gwalior. As they ventured through the lush campus, anticipation and curiosity filled the air, eager to witness firsthand the intricacies of waste paper recycling. Upon arriving at the recycling unit, a bustling hub of activity greeted them. The unit, though unassuming in appearance, hummed with the rhythmic symphony of machinery and the diligent efforts of workers committed to their craft. The aroma of freshly processed paper permeated the air, signaling the transformation underway.

The tour commenced with an introductory briefing by knowledgeable staff members, providing insights into the unit's operations and its pivotal role in sustainable waste management. Participants were guided through each stage of the recycling process, from the initial sorting of paper materials to the final production of recycled paper products. The journey began at the collection point, where heaps of discarded paper awaited their fate. Here, participants observed the meticulous sorting process, where paper of various grades and types was meticulously separated to ensure optimal recycling efficiency. The importance of proper sorting techniques in maximizing recycling yields became abundantly clear.

Next, attention turned to the pulping area, where the sorted paper was transformed into pulp through a series of mechanical and chemical processes. Participants witnessed the pulping machinery in action, marveling at its efficiency in breaking down paper fibers and preparing them for reuse. As the tour progressed, participants gained insights into the refining stage, where the pulp underwent further processing to remove impurities and achieve the desired texture and quality. They observed skilled technicians at work, overseeing the refining process with precision and expertise.

Throughout the tour, participants engaged in meaningful discussions with the facility's staff, posing questions and exchanging ideas on sustainable waste management practices. The visit served as a powerful educational experience, offering a tangible glimpse into the practical realities of waste paper recycling and reinforcing the importance of environmental

stewardship. Leaving the recycling unit, participants departed with newfound knowledge and inspiration, energized to apply their learnings towards creating a more sustainable future. The visit served as a poignant reminder of the transformative power of recycling and the collective responsibility we share in preserving our planet for generations to come.

PLATE-6. Visit to the waste paper recycling unit located at COA, GwaliorGroup on day one

Day-2 (16.05.2024)

Session-1

Speaker- Dr. Neelam Bunkar

Topic Covered - Introduction to recycling plant machinery: Shredders, pulpers, screens and refiners.

In the morning session, participants were treated to an illuminating lecture by Dr. Neelam Bunkar on "Introduction to Recycling Plant Machinery: Shredders, Pulpers, Screens, and Refiners." Dr. Bunkar, with her wealth of expertise in the field, delved into the intricate workings of the machinery that powers recycling plants.

The lecture commenced with an overview of the various types of machinery employed in recycling plants, highlighting their specific functions and roles in the recycling process. Participants gained insights into the pivotal role of shredders in breaking down recyclable materials into smaller, more manageable pieces, laying the groundwork for subsequent processing. The Expert guided participants through the pulping stage, where shredded materials are transformed into pulp through the application of mechanical and chemical processes. The importance of pulping in preparing materials for recycling was underscored, as participants learned about the various types of pulpers and their respective applications.

Next, attention turned to screens, essential components of recycling plants that aid in the separation of materials based on size and composition. Participants gained an understanding of the diverse array of screens utilized in recycling plants, each tailored to meet specific processing requirements. Participants learned about the crucial role of refiners in refining pulp to meet the exacting standards of recycled paper production. By the session's end, participants had gained a deeper understanding of the machinery that drives recycling plants, equipping them with valuable knowledge to navigate the complexities of waste management and sustainability.

PLATE-7. Lecture delivered by Dr. Neelam Bunkar on 16.06.2024 during Ist Session

Day-3 (17.05.2024)

Session-1
Speaker- Dr. Neelam Singh
Topic Covered -"Hands-on workshops for creating paper based products."

In the morning session, participants were immersed in a hands-on workshop led by Dr. Neelam Singh, centered around the creation of paper-based products. Dr. Singh, with her expertise and passion for crafting sustainable solutions, guided participants through a journey of creativity and innovation. The workshop commenced with an introduction to the diverse array of paper-based products that can be created through recycling techniques. Participants were inspired by examples of eco-friendly alternatives to conventional products, highlighting the potential for creativity and resourcefulness in recycling.

Dr. Singh then led participants through practical demonstrations and step-by-step instructions for creating paper-based products from recycled materials. From handmade paper and stationery to decorative items and packaging solutions, participants gained practical skills and insights into the versatility of recycled paper. Throughout the workshop, emphasized the importance of sustainability and environmental consciousness in product design and manufacturing. Participants were encouraged to explore innovative ways to repurpose waste paper and contribute to the reduction of environmental impact through their creations.

The hands-on nature of the workshop fostered a collaborative and engaging environment, allowing participants to unleash their creativity and experiment with different techniques and materials. By the end of the session, participants had not only acquired practical skills in paper crafting but also gained a deeper appreciation for the potential of recycling in creating beautiful, functional, and sustainable products. The workshop served as a powerful reminder of the transformative power of hands-on learning and creativity in driving sustainable solutions. Participants left the session inspired and equipped with the tools and knowledge to continue exploring and implementing paper-based recycling initiatives in their own lives and communities.

Session-2
Speaker- Dr. Pragya Singh
Topic Covered-Introduction to diary and gift article production techniques."

In the evening session, participants were treated to an enlightening lecture by Dr. Pragya Singh on "Introduction to Diary and Gift Article Production Techniques." The lecturer provided a comprehensive overview of the techniques involved in the production of diaries and gift articles using recycled materials.

The lecture commenced with an exploration of the significance of diaries and gift articles in modern society, highlighting their role as functional items and meaningful gifts. Participants

gained insights into the market demand for eco-friendly alternatives, setting the stage for the exploration of sustainable production techniques.

Dr. Singh then delved into the various production techniques employed in the creation of diaries and gift articles from recycled materials. From paper selection and cutting to binding and embellishment, participants learned about the intricacies of each step in the production process. Throughout the session, practical tips and best practices for maximizing efficiency and quality in diary and gift article production were shared. Participants were introduced to innovative techniques for incorporating recycled materials into their designs, adding both aesthetic appeal and environmental value to their creations.

The session concluded with a discussion on the importance of sustainability and ethical sourcing in product manufacturing. participants were encouraged to embrace eco-conscious principles in their design and production processes, emphasizing the potential for creating beautiful, functional, and environmentally-friendly products. Participants left the session with a newfound appreciation for the artistry and potential of recycled materials in product design and manufacturing.

Day-4 (20.05.2024)

Session-1
Speaker- Dr. Sneha Pandey
Topic Covered-"Design principles for diaries and gift articles"

In the morning session, participants were treated to an insightful lecture by Dr. Sneha Pandey on "Design Principles for Diaries and Gift Articles." She provided a comprehensive overview of the fundamental principles that govern the creation of visually appealing and functional diaries and gift articles. The lecture commenced with an exploration of the importance of design in product development, highlighting its role in attracting consumers and conveying brand identity. Participants gained insights into the key elements of effective design, including color theory, typography, layout, and composition.

The expert then delved into specific design principles relevant to the creation of diaries and gift articles. Participants learned about the importance of understanding target audiences and tailoring designs to meet their preferences and needs. Dr. Pandey shared practical tips for incorporating branding elements, imagery, and text to create cohesive and impactful designs. Throughout the session, Dr. Pandey showcased examples of successful diary and gift article designs, illustrating how principles such as balance, harmony, contrast, and hierarchy can be applied to create visually striking and memorable products. Participants were encouraged to explore their creativity and experiment with different design techniques to create unique and compelling offerings. The session concluded with a discussion on the importance of sustainability and ethical considerations in design practices.

Dr. Sneha Pandey's lecture provided participants with valuable insights into the principles of effective design for diaries and gift articles, empowering them with the knowledge and inspiration to create innovative and visually appealing products. Participants left the session equipped with the tools and confidence to apply these principles in their own creative endeavors, contributing to the development of sustainable and aesthetically pleasing offerings.

PLATE-8. Lecture delivered by Dr. Sneha Pandey on 20.05.2024 during Ist Session

Session-2

Speaker- Dr. Sudhir Singh

Topic Covered-"Marketing strategies for recycled paper product"

In the evening session, participants were privileged to attend a captivating lecture by Dr. Sudhir Singh on "Marketing Strategies for Recycled Paper Products." Dr. Singh, with his extensive experience in marketing and sustainability, provided invaluable insights into effectively promoting recycled paper products in the marketplace. The lecture commenced with an exploration of the unique challenges and opportunities associated with marketing recycled paper products. The lecturer highlighted the growing consumer demand for eco-friendly alternatives and the increasing importance of sustainability in purchasing decisions.

Participants gained insights into the key components of successful marketing strategies for recycled paper products. Expert discussed the importance of storytelling and branding in conveying the environmental benefits and unique value propositions of recycled paper products to consumers. He emphasized the need for authenticity and transparency in marketing efforts, urging participants to communicate the eco-friendly credentials of their products clearly and effectively. The expert then delved into specific marketing tactics and channels that can be utilized to reach target audiences and drive sales of recycled paper products. From social media and e-commerce platforms to eco-friendly marketplaces and retail partnerships, participants learned about a variety of avenues for promoting their products and connecting with environmentally-conscious consumers.

Participants were inspired to think creatively and strategically about their own marketing efforts, leveraging the unique qualities of recycled paper products to differentiate themselves in the marketplace. The session concluded with a discussion on the importance of collaboration and advocacy in advancing the market for recycled paper products. Dr. Singh encouraged participants to engage with stakeholders across the supply chain, including manufacturers, retailers, and consumers, to drive collective action towards a more sustainable future. Participants left the session equipped with the knowledge and confidence to promote their products successfully and contribute to the growing movement towards sustainability in consumer markets.

Day-5 (21.05.2024)

Session-1

Speaker- Dr. Nisha Singh

Topic covered-"Introduction to bio-waste recycling technologies."

In the morning session, participants attended an enlightening lecture by Dr. Nisha Singh on "Introduction to Bio-Waste Recycling Technologies." The lecture began with an introduction to the types of bio-waste, including agricultural residues, food waste, and organic industrial waste. She explained the environmental challenges posed by bio-waste and the urgent need for effective recycling solutions to mitigate these issues.

Participants learned about composting, the aerobic decomposition of organic materials to produce nutrient-rich compost; anaerobic digestion, where microorganisms break down organic matter in the absence of oxygen, producing biogas and digestate; vermicomposting, the use of worms to decompose organic waste resulting in high-quality vermicompost; biochar production. Throughout the session, Dr. Nisha Singh highlighted the advantages and limitations of each technology, providing practical insights into their implementation and scalability. Participants were encouraged to consider the specific contexts and requirements of their own projects when selecting appropriate bio-waste recycling technologies. The lecture concluded with a discussion on the importance of integrating bio-waste recycling into broader sustainability initiatives, emphasizing the potential for these technologies to contribute to circular economies, reduce greenhouse gas emissions, and promote environmental conservation.

Dr. Nisha Singh's session offered participants a thorough understanding of the principles and practices of bio-waste recycling, equipping them with the knowledge to explore and implement sustainable waste management solutions in their communities and industries.

PLATE-13. Lecture delivered by Dr. Nisha Singh on 21.05.2024 during Ist Session

Session-2

Speaker- Dr. Prashant Sharma

Topic covered- "Operational processes of a bio-waste recycling plant "

In the evening session, a lecture on "Operational Processes of a Bio-Waste Recycling Plant" was delivered by Dr. Prashant Sharma. He began by outlining the critical steps necessary for the efficient operation of a bio-waste recycling plant, starting with the collection and transportation of bio-waste. He emphasized the importance of segregating organic waste at the source to enhance the efficiency of subsequent recycling processes.

The lecture progressed to cover the initial processing stages, where collected bio-waste is inspected and pre-treated to remove contaminants and prepare it for recycling. Lecturer explained how this pre-treatment phase ensures that the bio-waste is suitable for further processing, highlighting techniques such as shredding, pulping, and homogenization. He detailed the core recycling processes, including anaerobic digestion and composting. He discussed how anaerobic digestion converts organic matter into biogas and digestate, elaborating on the technical requirements and operational parameters that optimize biogas production. Similarly, he explained the composting process, from the formation of compost piles to the management of temperature and moisture levels to accelerate decomposition and produce high-quality compost.

Dr. Prashant Sharma's session provided participants with a detailed understanding of the operational processes of a bio-waste recycling plant, offering practical insights into the technical, logistical, and economic aspects of managing bio-waste recycling operations effectively. Participants left the session equipped with the knowledge to improve and implement bio-waste recycling processes in their own contexts.

PLATE-14. Lecture delivered by Dr. Dr. Prashant Sharma on 21.05.2024 during 2nd Session

Output of the Value- aided- Course

Working on a paper recycling plant demonstrates the concept of recycling waste into 'wealth'.The mini paper recycling plant is an appropriate system for turning waste paper into paper that can be used for all purposes. The paper recycling plant is an effective technology which is simpler to use by the students for turning waste paper into reusable paper products like folders, pen holders, material for display board, envelopes, lampshades etc.

Waste paper recycling unit located at COA, has allotted bins in various departments to source the waste paper.

Hands-on workshops are conducted from time to time for the students for making different recycled products out of the waste paper collected from the college premises.

During this 30 Hours for 05 days Certificate Course from 15th May to 21st May 2024 in college campus has provided the students and faculty with hands-on training on how to set up an entrepreneurial venture and become self-reliant.

All the participants had handled the equipments themselves to produce good quality recycled paper. Students had creatively made their own cards, files, folders and invitation cards for the college.

5 Days Value Added Certificate Course on

"Hands on Practice for Bio-waste Management"

Submitted by

Dr. Nisha Sapre

Dr. Narendra Kumawat

COLLEGE OF AGRICULTURE, INDORE – 452 2001 (M.P.)

2024-25

PREFACE

The value added five days certificate course **"Hands on Practice for Bio/Waste Management"** organized under the Mission Life programme from 17 May to 21 May 2024 for Experiential Learning Programme students at College of Agriculture, Indore (M.P.). The present training certificate course has been designed to provide a holistic experience and skill in management of bio/waste. This programme boosted the students with the knowledge of bio/waste management into value added products.

I place on record my sincere gratitude and thanks to Dean, College of Agriculture, Indore for encouragement and guidance in organizing the training programme.

The team work of convener and course co-coordinators with their meticulous planning has immensely helped me in organization and smooth execution of this value added ten days certificate course.

The resource persons are gratefully acknowledged for giving their consent to deliver the lectures.

Programme Co-ordinator

Course content

Theory

Unit-I

Bio waste management " A specific tool for environmental health" : Introduction to biowaste, Use of bio waste in agriculture, environmental safety, Chemical pollution and its ill effect on Human and soil health.

Unit-II

Crop residues and its management for soil health: Dominating cropping systems, farm resource conservation, conservation tillage, post harvest management of crop residues and value addition.

Unit- III

Pest management through bio wastes: Major insect pests of *kharif* and rabi crops, Insect pest control though enrich vermicompost

Unit-IV

Organic farming and bio waste management: Nutrient management through FYM, vermicompost, NADEP compost and other farm waste compost, value addition of farm byproducts

Unit -V

Bio waste management in Natural farming: Panchgavya, Jeewamrit, Neemastra etc.

Practical

- Hands on practice for Preparation of Enrich vermicompost
- Hands on practice for Preparation of FYM.
- Hands on practice for Preparation of Vermicompost
- Hands on practice for Predation of Bio-fertilizers
- Hands on practice for Preparation of Garden waste compost
- Hands on practice for Preparation of Bio zymes

Date and Duration

(30 Hours for 05 days Course from 17th May 2024 to 21st May 2024)

Course Schedule:

S. No.	Title of the lecture	Date	Duration	Speaker
Day 1 (17.5.2024)				
1	"Bio-waste management: A specific tool for environmental health"	Lecture	1 hour	Dr. S. K. Chaudhary
		Discussion	1 hour	
2.	Chemical pollution and its ill effect on Human and soil health	Lecture	1hour	Dr. Nisha sapre
		Discussion	1 hour	
3.	"Hands on Practice Session on "Bio-waste management/ Identification of domination cropping systems and its residue management at farm level	Practical	3 hours	Dr. Nisha Sapre
Day 2 (18.05.2024)				
4.	Identification of important insect pests and its through enriched vermi compost"	Lecture	2 hours	Dr. Anand Harshana
		Discussion	1 hour	
	"Hands on Practice Session on "Bio-waste management/ Preparation of enrich vermicompost	Lecture	3 hours	Dr. Anand Harshana
		Day 3 (19.5.2024)		
	Conservation tillage and *Parali* management.	Lecture	1hour	Dr. Nisha Sapre
		Discussion	1 hour	
	Postharvest management of crop residues and value addition."	Lecture	1.5 hours	Dr. Nisha Sapre
		Discussion	1 hour	
	"Hands on Practice Session on "Bio-waste management / crop residue management at COA farm.	Practical	3 hours	Dr. Nisha Sapre
		Day 4 (20.05.2024)		
	Bio waste management in organic farming	Lecture	1hour	Dr. Nisha Sapre
		Discussion	0.5 hour	
	Natural farming and bio-waste management	Lecture	1hour	Dr. Narendra Kumawat
		Discussion	0.5 hour	
	"Hands on Practice Session on	Practical	3 hours	Dr. Narendra

	"Bio-waste management/Preparation of FYM and vermicompost,			Kumawat
		Day 5 (21.5.2024)		
	Kitchen waste and its use in daily routine	Practical	1 hour	Mrs. Shruti Pateria
	"Hands on Practice Session on "Bio-waste management/Preparation Kitchen waste compost	Practical	1 hour	Ms. Dori Pateria
	"Hands on Practice Session on "Bio-waste management/biozymes	Practical	1 hour	Ms. Dori Pateria
	"Hands on Practice Session on "Bio-waste management/Preparation of Vermicompost	Practical	1 hour	Dr. Narendra Kumawat
	"Hands on Practice Session on "Bio-waste management/Preparation of Panchgavya, Jeewamrit, Neemastra	Practical	2 hours	Dr. Narendra Kumawat

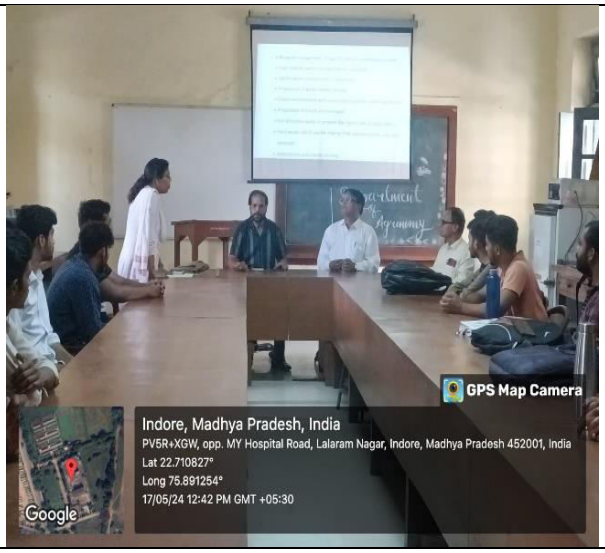
Activities

First Day

In the value added five days certificate course **"Hands on Practice for Bio/Waste Management" under Mission Life** 21 ELP students were registered.

Inaugurated the program by Dean College of Horticulture, Indore and Dr. S.K. Choudhary, Professor & HS Agronomy. Blessing word given by Dean to students. All registered students given their introduction. Vote of thanks given by Dr. Nisha Sapre, Co-ordinator of course.

- Lecture delivered by Dr. S. K. Choudhar on Bio-waste management: A specific tool for environmental health.
- Lecture delivered by Dr. Nisha Sapre on Chemical pollution and its ill effect on Human and soil health.
- Lecture delivered by Dr. Nisha Sapre on Hands on Practice Session on "Bio-waste management/ Identification of domination cropping systems and its residue management at farm level.
- After every lecture discussion also done with students.

Inauguration of Programme	**Lecture delivered**

Second Day

Topic 1 : Identification of important insect pests and its through enriched vermicompost"

Topic 2 : "Hands on Practice Session on "Bio-waste management/ Preparation of enrich vermicompost

Speaker: Dr. A. Harshana, Assistant Professor, Entomology, College of Agriculture, Indore

Vermicompost has the potential to provide plants with a systemic approach to defend against pest attacks. As compared to inorganic fertilizer, it contains nutrients and several other compounds that provide systemic resistance to plants against pest. It acts as a strong repellent against hard bodied pests. Reveals the pesticidal activity of various vermicompost prepared from different wastes. Vermicompost prepared by mixing cow dung (3kg) and biomass efficiently reduced the pest attack and served as eco-friendly bio-pesticide.

Enriched vermicompost

Third Day

Topic 1 : Conservation tillage and *Parali* management.

Topic 2 : "Postharvest management of crop residues and value addition vermicompost

Topic 3 : Hands on Practice Session on "Bio-waste management / crop residue management at COA farm

Speaker: Dr. Nisha Sapre, Scientist, AICRP on Sorghum, College of Agriculture, Indore

India being an agriculture-dominant country produces more than 500 million tons of crop residues annually. These residues are used as animal feed, for thatching of homes, and as a source of domestic and industrial fuel. A large portion of unused crop residues are burnt in the fields primarily to clear the left-over straw and stubbles after the harvest. Non-availability of labour, high cost of residue removal from the field and increasing use of combines in harvesting the crops are main reasons behind burning of crop residues in the fields. Burning of crop residues causes environmental pollution, is hazardous to human health, produces greenhouse gases causing global warming and results in loss of plant nutrients like N, P, K and S. Therefore, appropriate management of crop residues assumes a great significance.

Crop residue

Crop Residue Management

Forth Day

Topic 1 : Bio waste management in organic farming.
Speaker: Dr. Nisha Sapre, Scientist, AICRP on Sorghum, College of Agriculture, Indore
Topic 2 : Natural farming and bio-waste management
Speaker: Dr. Narendra Kumawat, Scientist, AICRP on Sorghum, College of Agriculture, Indore
Topic 3 : Hands on Practice Session on "Bio-waste management/Preparation of FYM and vermicompost
Speaker: Dr. Narendra Kumawat, Scientist, AICRP on Sorghum, College of Agriculture, Indore

NADEP is an aerobic method of composting. The finished product is obtained through that process of composting within 90-120 days. Top soils are used in this system of composting which carry soil microbes which are responsible for decomposition process as the Cow dung does not contain these type of microbes. Moreover, it helps aeration with the compost materials. In this method minimum quantity of cattle dung is need. Vermicompost is nothing but the excreta of earthworms which is rich in humus. We can rear earthworms artificially in a brick tank or near the stem/trunk of trees (specially horticultural trees). By feeding these earthworms with bio-mass and watering property the food (bio-mass) of earthworms, we can produce the required quantities of Vermicompost.

Different activities of FYM and vermicompost management and preparation natural product

Fifth Day

Topic 1 : Bio waste management in organic farming.
Speaker: Mrs. Shruti Pateria, Indore
Topic 2 : Hands on Practice Session on "Bio-waste management/Preparation Kitchen waste compost
Speaker: Ms. Dori Pateria, Indore
Topic 3 : Hands on Practice Session on "Bio-waste management/biozymes
Speaker: Ms. Dori Pateria, Indore
Topic 4 : Hands on Practice Session on "Bio-waste management/Preparation of Vermicompost
Topic 3 : Hands on Practice Session on "Bio-waste management/Preparation of Panchgavya, Jeewamrit, Neemastra
Speaker: Dr. Narendra Kumawat, Scientist, AICRP on Sorghum, College of Agriculture, Indore

Composting organic waste from your kitchen and garden is an effective way to reduce waste, improve soil quality, and create a free, natural fertilizer. Composting organic waste is a simple process that involves breaking down food scraps and garden waste into nutrient-rich soil. The process is simple: all you need is a compost bin or pile, organic waste, and a bit of patience. As the organic waste breaks down, it creates nutrient-rich soil that can be used to improve soil quality and promote healthy plant growth.

At the end of the programme certificates were distributed to the Participants, recourse person, Course Directors and Coordinators.

5 Days Value Added Certificate Course on

"Hands-On training on Processing of Fruits, Vegetable and Food crops"

The present training certificate course has been designed to provide a holistic experience and skill in Post-harvest management and value addition in fruit and vegetable crops. This programme boosted the students with the knowledge of management of harvested fruits, vegetables and food crops into value added products.

Objectives

To equip personnel with the knowledge and skills necessary to produce safe, high quality food products efficiently and sustainability, while also introduce innovation and Employment generation

Target Group – B.Sc. (Hons.) Ag. IV Year Students
Duration – 30 Hrs

Organizing Institution

PREFACE

The value added five days certificate course **"Hands-On training on Processing of Fruits, Vegetables and Food crops"** organized from 20 May to 24 May 2024 for Experiential Learning Programme students at College of Agriculture, Indore (M.P.). The present training certificate course has been designed to provide a holistic experience and skill in Post-harvest management and value addition in fruit and vegetable crops. This programme boosted the students with the knowledge of management of harvested fruits, vegetables and food crops into value added products.

I place on record my sincere gratitude and thanks to Dean, College of Agriculture, Indore for encouragement and guidance in organizing the training programme.

The team work of convener and course co-coordinators with their meticulous planning has immensely helped me in organization and smooth execution of this value added Five days certificate course.

The resource persons are gratefully acknowledged for giving their consent to deliver the lectures.

Dean

Course content

Theory

Unit-I

Importance and scope of Value Addition of Fruit, Vegetable and Food crops; Post Harvest Management and its need for value addition and processing.

Unit-II

Valuer addition of various products like aonla candy, tamarind chutney, kaith chutney, tuty fruity, mukhwas, Turmeric pickle

Unit- III

Technology for processed products like pickles, chutneys, sauces and quality evaluation parameter through 10-point headonic scale

Unit-IV

Processing and Packaging of value added products of fruit, vegetable and food crops.

Unit –V

Dehydration of fruits and vegetables using various drying technologies like sun drying, solar drying (natural and forced convection), Preparation of Energy drink

Practical

- Hands on practice for Preparation of Turmeric Pickle
- Hands on practice for Preparation of Tamarind chutney
- Hands on practice for Preparation of Orange Squash
- Hands on practice for Predation of Tea Masala
- Hands on practice for Preparation of Aonla Candy
- Hands on practice for Preparation of Powdered mukhwas

Date and Duration

(30 Hours for 05 days Course from 20th May 2024 to 24th May 2024)

Course Schedule:

Activities

First Day

In the value added five days certificate course **"Hands-On training on Value Addition of Fruits, vegetable and food crops"** for ELP 22 registered students.

Inaugurated the program by Dean College of Agriculture, Indore with the Introductory session on Five days certificate course at ELP unit. All registered students given their introduction.

- Lecture delivered by Dr. Swati Barche, Profressor, Horticulture on Value ADDITION OF fruits
- Lecture delivered by Dr. Swati Barche on Value ADDITION OF Vegetables
- Lecture delivered by Dr. Swati Barche on FASSAI, HACCP and Marketing Strategies
- After every lecture discussion also done with students.

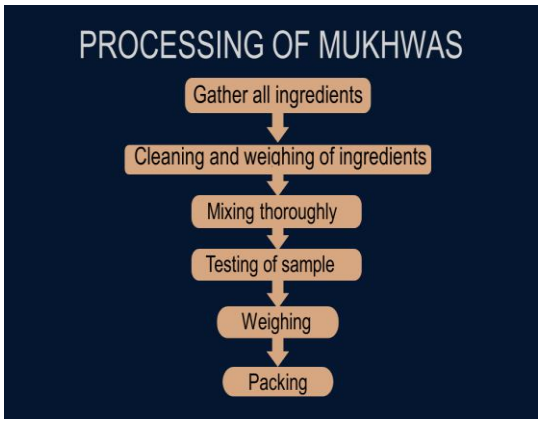
Lecture delivered

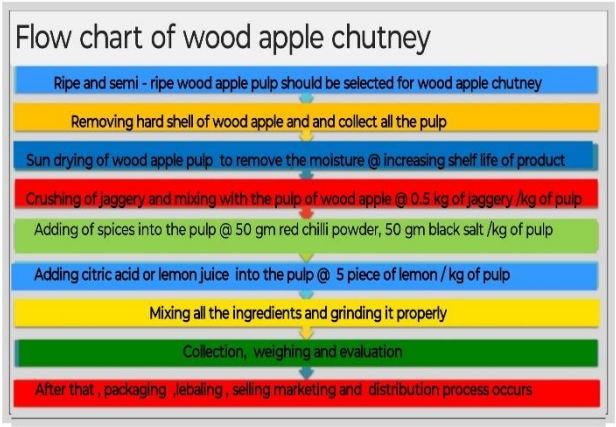
Second Day

Topic 1 : Preparation of value added products of fruit crops

Topic 2 : "Preparation of Mukhwas and Kaith Chutney

Speaker: Dr. Swati Barche





Prepared by finely grinding whole ingredients of mukhwas, target customer group included old and ageing citizens, due to grinding the flavours are more readily released and also offer a change in taste and texture from normal mukhwas pocket-sized packets were readily sold as it was a new and unique product

Preparation of Various types of mukhwas and Kaith chutney

Third Day

Topic 1 : Packing and selling of various types of Mukhwas

Topic 2 : “Packing and selling of Kaith Chutney

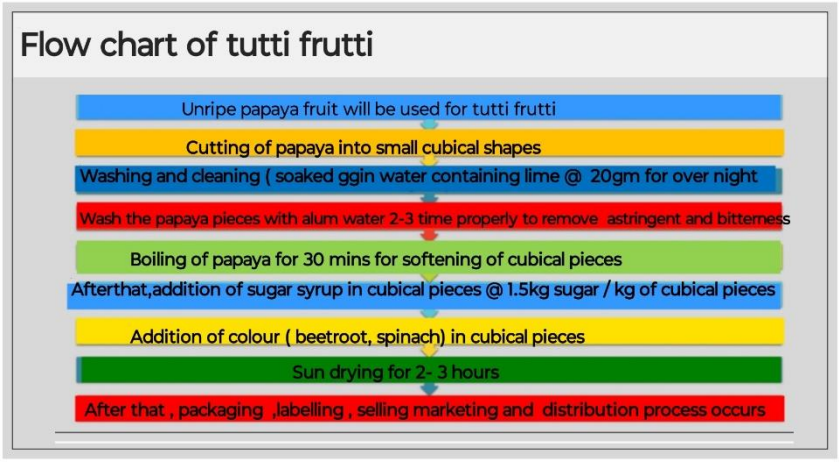
Speaker: Dr. Swati Barche, Professor, Horticulture

It was carried out primarily in the Krishi Nagar area. Students put up stalls in the morning to attract morning walkers. They also sold products to our family members and friends and juniors in college. In addition, they also put up a stall during Agri fair 'Tarang' organised by NABARD. It enabled them to broaden our customer base and receive valuable feedback. It was carried out primarily in the Krishi Nagar area. We put up stalls in the morning to attract morning walkers. We also sold products to our family members and friends and juniors in college. In addition, we also put up a stall during Agri fair 'Tarang' organised by NABARD. It enabled us to broaden our customer base and recieve valuable feedback

Forth Day

Topic 1 : Preparation of Tuti fruity with natural colour
Speaker: Dr. Swati Barche, Professor, Horticulture

Process of preparation of Tuti Fruity with natural colour :- Before use of papaya wash it properly to remove papain. →To improve sour taste of papaya soak papaya in lime water →sun dry should be done to remove moisture and for increasing the shelf life of tutti frutti → use natural colour which is beneficial to health



Fifth Day

Topic 1 : Presentation and group discussion of value added products prepared by students

Speaker/Evaluator : Dr. Anvita Sharma, Contractual Teacher, Horticulture

Presentation of students participated in 5 Days Value Added Certificate Course on "Hands-On training on Processing of Fruits, Vegetable and Food crops" were taken at last day on the value added products prepared by them. Students were also given the opportunity to discuss their doubts in the last session of group discussion. After the successful completion of Presentation and Group Discussion, Certificate were distributed to the students by The Dean, College of Agriculture, Indore.

Report on
Life mission by CoA, Sehore

Introduction

Agriculture has been the cornerstone of human civilization, providing sustenance and livelihoods for billions of people worldwide. However, the rapidly changing climate and environmental degradation pose significant threats to this vital sector. To secure a sustainable future, it is imperative to educate the younger generation on innovative agricultural practices and environmental stewardship. The Life Programme for Climate-Smart Agriculture and Environmental Awareness is designed to address these pressing issues by fostering awareness and proactive engagement among students. This program encompasses key areas such as climate-smart agriculture, soil health management, rainwater harvesting, and pollution mitigation. Through a series of educational and hands-on activities, students will gain the knowledge and skills needed to become champions of sustainable agriculture and environmental conservation.

The Life Programme for Climate-Smart Agriculture and Environmental Awareness is a vital initiative to equip students with the knowledge, skills, and motivation to address the challenges of climate change and environmental degradation. By focusing on key areas such as climate-smart agriculture, soil health management, rainwater harvesting, and pollution prevention, the program aims to create a generation of informed and proactive individuals committed to sustainable practices.

1. Workshop on

“Climate Smart Agriculture”

Report on Climate Smart Agriculture Workshop

R.A.K. College of Agriculture, RVSKVV, Sehore

One day workshop on climate Smart Agriculture was held on 20th May 2024, at RAK, College of agriculture, Sehore (M.P.). The workshop was conducted in the presence of Dr. R. P. Singh, Principle Scientist, Department of Agronomy, Dr. D. R. Saxena, Pr. Scientist (Plant Pathology) Dr Vandana Yadav, Astt. Prof. Vet. Science, Dr. Ashruti Keshawani Contractual Teacher (CT) Plant Pathology and Dr. M. K. Tarwariya CT Agronomy.

At the beginning Dr. Saxena highlighted the need of the workshop on climate smart agriculture in present situation of changing climate. He delivered thought provoking lecture on the step taken by the college scientists on making crops climate smart particularly chickpea and soybean. In chickpea thermotolerant varieties have been bread, while in soybean excess water tolerant varieties are developed. Dr. R.P. Singh focused on various topics, like soil and water conservation to mitigate unfavorable climatic condition for crop production. Dr. Vandana Yadav delivered his talk on effects of climate change on animals and fodder crops. About 60 students of the college has participated in the workshop and took full interest and interacted with the speakers. Dr. Tarwaria has organized the event in consultation with Dr. D.R. Saxena and nicely conducted the proceedings of events and expressed vote of thanks to the participants.

2. Group Discussion on

“ Soil Health Management”

Proceedings Of Group Discussion On Soil Health Management

A seminar and group discussion on Soil Health Management was held in the Department of Soil Science at R.A.K. College of Agriculture, Sehore, on May 17, 2024. The event was presided over by Dean Dr. M. Yasin as the chief guest.

The faculty from the Soil Science Department, including Dr. S.C. Gupta, Head of the Department, Dr. R.C. Jain, In-Charge of P.G. Academic Soil Science, Dr. Astha Pandey, Assistant Professor (Contract Teacher), and Smt. Sarita Mandekar, Lab Technician, along with postgraduate and some undergraduate students of Soil Science and Agronomy, attended the program. Postgraduate students in Soil Science presented lectures: Dhruti Dewda on Soil Pollution, Preeta Parmar on the Importance of Organic Manures in Soil Health Management, Mr. Saurabh on the Importance of Soil Health Cards in Soil Health Management, and Mr. Kuldeep on the Importance of Micronutrients in Balanced Nutrition and Soil Health Management. Each presentation was followed by a 10-minute group discussion. Professors, scientists, the Dean, and other attendees actively participated in the discussions.

Dr. Astha Pandey concluded the seminar by encouraging students to further their practical knowledge of Soil Science and expressed the vote of thanks. Sarita Mandekar documented the proceedings, and Anil Parmar assisted with the hall arrangements.

Dr. S.C. Gupta

Dr. R.C. Jain

3. Awareness programe on

“Rain water Harvesting and its efficient Use”

Report on Awareness Program on Rainwater Harvesting and Its Efficient Use

Date:16.05.2024

An Awareness Program on Rainwater Harvesting and its Efficient Use was organized on May 16, 2024, at the RAK College of Agriculture. The event aimed to educate students on the criticalimportance of rainwater harvesting, its application, and the engineering aspects involved. Thisprogram was a collaborative effort led by Dean Dr. M. Yasin, Engineer S. S. Kushwah and Dr.
D. K. Raidas.

Dean Dr. M. Yasin inaugurated the program with an insightful session on the significance of rainwater harvesting. Dr. Yasin explained that rainwater harvesting is a sustainable solution to water scarcity. It involves collecting and storing rainwater for later use, reducing the dependency on groundwater and ensuring a steady water supply, especially in arid and semi- arid regions.He discussed various methods to implement rainwater harvesting systems at home, on campus, and in agricultural fields. The key applications include: Simple rooftop systems to collect rainwater for household chores; Large-scale storage systems to provide water for gardens, flush toilets, and other non-drinking purposes; Constructing ponds and check dams to store rainwater, which can then be used for irrigation during dry spells.

Following Dr. Yasin's session, Engineer S. S. Kushwah provided a detailed explanation of the engineering aspects of rainwater harvesting systems. Key points covered include:

He gave insights on the The essential components of a rainwater harvesting system, including catchment areas (roofs), gutters, downspouts, filters, storage tanks, and distribution systems. He also shared his views in the Step-by-step guidance on setting up a rainwater harvesting system, emphasizing proper design to maximize efficiency and minimize contamination.

The program also featured an awareness rally conducted by the students of RAK College of Agriculture. The rally aimed to spread awareness about the importance of rainwater harvesting among the local community. Students carried banners and placards with slogans promoting water conservation and the benefits of rainwater harvesting. They interacted with community members, distributing pamphlets that contained information on setting up rainwater harvesting systems and their environmental benefits.

The Awareness Program on Rainwater Harvesting and its Efficient Use was a resounding success. It provided students with valuable knowledge and practical insights into sustainable water management practices. The active participation of the students in the awareness rally further amplified the program's impact, promoting a broader understanding of rainwater harvesting within the community. This initiative, guided by Dean Dr. M. Yasin and Engineer
S. S. Kushwah, underscores our commitment to fostering environmental stewardship and sustainable practices among our students and the wider community.

4. Soil Health Management

“Go Green Save Green”

Proceedings of Go Green Save Green

A One Day Programme on go green save green held on dated 21/05/2024 at RAK College of Agriculture sehore under the chairmanship of honorable Dean Dr. M Yasin and convener Dr. R C Jain. This programme is organized by department of Horticulture RAK College of Agriculture, Sehore. Under this programme the UG, PG students is participated and planted evergreen tree sapling in RAK College campus.

The Go Green Programme aimed to promote environmental awareness and sustainable practices within our community. Through a series of initiatives and campaigns, the program sought to educate students about the importance of preserving our planet and inspire actionable steps towards a greener lifestyle.

The aim of this programme is "Saving green to adopting environmentally friendly practices that not only benefit the planet but also result in cost savings. The students are also instructed for save the plants and prevent the pollution. Dr. R K Dhakad and Dr. Astha Pandey concluded this programme and all the staff of department of horticulture present on this programme.

“Theme: Pollution is never a solution (Save Earth)”

Proceedings Of "Pollution is never a Solution"

The Life Mission program at RAK College of Agriculture, Sehore, concluded successfully with a series of engaging activities, including Poster Making, Quiz Competition, Extempore Competition, Model Making, Rangoli Making, and Slogan Making Competition. These events, conducted under the expert guidance of Dr. B.R. Baraiya, Dr. Abhilasha Sharma, Dr. Varsha Uikey, Dr. Bharat Lal, and Dr. Ashruti Kesarwani, were brought to a close by Dr. R.C. Jain. The enthusiastic participation of students such as Meenal Kelwa, Mansi Kelwa, Abhay Patidar, Jitesh Kuswah, Shubham Patidar, Sanskriti Tyagi, Anjali Yadav, Raina Sharma, and Shrushti Poddar was commendable, with many achieving top honors in their respective competitions. The program not only showcased the talents of the students but also fostered a spirit of creativity and collaboration within the college community.

In the End Students realized that **pollution is never a solution. It harms our health, environment, and future generations. We must act now to reduce emissions, manage waste responsibly, and adopt sustainable practices. Every small effort counts, from using public transport to recycling and supporting clean energy. Together, we can create a cleaner, healthier planet. Let's commit to being mindful of our actions and their impact on the world around us. Our choices today shape tomorrow's legacy. Thank you for your dedication to this vital cause. Let's strive for a pollution-free world.**

प्रतियोगिता का हुआ आयोजन

सीहोर. शहर के आरएके कॉलेज में अधिष्ठाता डॉ. एम यासीन की अध्यक्षता में मिशन लाइफ जागरूकता अभियान सप्ताह का आयोजन किया। इसके तहत जैलवायु स्मार्ट कृषि पर कार्यशाला का आयोजन डॉ. डीआर सक्सेना व डॉ. एमके तरवरिया ने किया। मृदा स्वास्थ्य प्रबंधन पर समूह चर्चा डॉ. एससी गुप्ता, डॉ. आरसी जैन व वर्षा जल संचयन पर जागरूकता कार्यक्रम रैली डॉ. डीके रैदास, डॉ. प्रियंका गुर्जर के नेतृत्व में निकली। पर्यावरण जागरूकता व प्रदूषण की रोकथाम से संबंधित विषयों पर पोस्टर मेकिंग, क्विट, भाषण, रंगोली, मॉडल मेकिंग, स्लोगन आदि प्रतियोगिता का आयोजन डॉ. बीआर बारिया, डॉ. अभिलाषा शर्मा, डॉ. भरतलाल, डॉ. वर्षा उईके ने किया। प्रतियोगिता में संस्कृति, अंजली, शुभम, मीनल ने प्रथम स्थान प्राप्त किया।

Conclusion :

In conclusion, the Life program at RAK College of Agriculture, Sehore, has successfully created awareness among students on crucial topics such as climate-smart agriculture, soil health management, rainwater harvesting, and the importance of combating pollution. Through a series of interactive activities and competitions, students gained valuable insights and practical knowledge. The guidance from our esteemed faculty and the enthusiastic participation of our students have made this program a resounding success. Let us continue to apply these principles and practices, ensuring a sustainable and healthy environment for future generations. Thank you all for your commitment and participation.

The Life program at RAK College of Agriculture, Sehore, has truly been a beacon of educational enlightenment, emphasizing the importance of sustainable practices in agriculture and environmental management. This initiative has not only informed but also inspired students to adopt and advocate for practices that are both ecologically sound and economically viable.

- **Climate-Smart Agriculture**

  One of the key components of the Life program was educating students on climate-smart agriculture. This approach addresses the challenges posed by climate change and aims to transform agricultural systems to be more resilient and sustainable. By understanding the principles of climate-smart agriculture, students are now better equipped to implement practices that reduce greenhouse gas emissions, enhance productivity, and improve the resilience of agricultural systems to climate variability.

- **Soil Health Management**

  Soil health is fundamental to agriculture, and the Life program placed significant emphasis on soil health management. Healthy soil is the cornerstone of a productive agricultural system, and maintaining its health is crucial for food security and sustainable agriculture. Through various workshops and activities, students learned about the importance of maintaining soil fertility, the role of organic matter, and the benefits of crop rotation and cover cropping. These practices not only enhance soil health but also contribute to increased crop yields and environmental sustainability.

- **Rainwater Harvesting**

  Water is a precious resource, and effective management is essential for sustainable agriculture. The Life program highlighted the importance of rainwater harvesting as a means to conserve water and mitigate the effects of drought. Students were introduced to different techniques of rainwater harvesting, such as rooftop harvesting and the construction of ponds and check dams. By learning these techniques, students can help promote water conservation practices in their communities, ensuring a more reliable water supply for agricultural and domestic use.

- **Combating Pollution**

  Pollution poses a significant threat to both the environment and human health. The Life program underscored the message that "pollution is never a solution." Students participated

in activities and discussions that highlighted the sources and effects of pollution, as well as strategies to reduce it. By understanding the impacts of pollution and the importance of sustainable waste management, students are now better prepared to take action in reducing pollution in their daily lives and advocating for policies that protect the environment.

- **Interactive Activities and Competition**

  The success of the Life program can be attributed to its interactive and engaging approach. Through a variety of activities and competitions, students were able to apply their knowledge in practical settings. Events such as poster making, quiz competitions, extempore competitions, model making, rangoli making, and slogan making competitions not only made learning fun but also fostered a spirit of creativity and teamwork among the students.

  We must advocate for policies that support these practices and work together to implement them in our daily lives. A Call to Action In conclusion, the Life program at RAK College of Agriculture, Sehore, has been a resounding success in creating awareness and inspiring action on critical issues related to sustainable agriculture and environmental management. The guidance of our esteemed faculty and the enthusiastic participation of our students have been instrumental in achieving this success. Let us commit to applying the principles and practices we have learned. Let us continue to educate ourselves and others, and take action to create a sustainable and healthy environment for future generations. The responsibility lies with each one of us, and together, we can make a difference.

05 Days (30 Hours) Value Added Certificate Course "Hands on Practice for Bio-waste Management"

Submitted by

Dr. D. K. Shrivastava
Dr. M.K. Kureel

B. M. COLLEGE OF AGRICULTURE, KHANDWA 450001 (M.P.)

2023-24

PREFACE

The value-added five days (30 hours) certificate course **"Hands on Practice for Bio/Waste Management"** will be organized under the **"Mission Life"** program from 7th to 11th June, 2024 at B.M. College of Agriculture, Khandwa for Experiential Learning Program students.

In an era where environmental sustainability and resource conservation are becoming increasingly critical, effective bio-waste management is not just a necessity but a responsibility for all of us. This training program is designed to equip participants with practical knowledge, essential skills, and innovative techniques for managing bio-waste effectively and sustainably. This training will start a comprehensive journey covering various aspects of bio-waste management. From understanding the fundamental principles and regulatory frameworks to exploring advanced technologies and best practices, this program aims to provide a holistic view of the bio-waste management landscape. It will cover the basics of bio-waste management, including types of bio-waste, sources, and the environmental and health impacts of improper management, and will delve into the regulatory standards and policies that govern bio-waste management, ensuring a solid foundational knowledge.

The training will focus on waste segregation and collection techniques and different methods of bio-waste segregation, the importance of source segregation, and the logistics of efficient waste collection systems. Practical exercises will help participants understand the challenges and solutions in real-world scenarios. The processing and treatment technologies available for bio-waste will also be addressed. From composting and anaerobic digestion to modern biotechnological applications, the trainees will gain insights into various methods of converting bio-waste into valuable resources. Hands-on sessions will enable them to experience these technologies first-hand.

This training is designed to be interactive, engaging, and practical. The students will be encouraged to actively participate, ask questions, and share their experiences. By the end of this program, they will have a deeper understanding of bio-waste management and the confidence to apply this knowledge in their professional and personal lives.

Course Coordinators

ACKNOWLEDGEMENT

We would like to extend our heartfelt gratitude to all those who contributed to the successful organization and execution of the five days (30 hours) certificate course "Hands on Practice for Bio/Waste Management," held under the "Mission Life" program from 7th to 11th June, 2024 at B.M. College of Agriculture, Khandwa.

First and foremost, we express our sincere thanks to Dr. D.H. Ranade, Dean and faculty of B.M. College of Agriculture for their unwavering support and encouragement. Their commitment to providing a conducive learning environment has been instrumental in the success of this program.

We are deeply grateful to our expert trainers and guest speakers, whose invaluable knowledge and experience have greatly enriched this training. Their dedication to imparting practical skills and innovative techniques in bio-waste management has provided our participants with a comprehensive understanding of the subject.

Special thanks to the administrative and support staff, whose meticulous planning and logistical arrangements ensured the smooth execution of every session. Their behind-the-scenes efforts made this program not only possible but also seamless and enjoyable for all involved.

We would also like to acknowledge the enthusiastic participation of the Experiential Learning Program students. Their active engagement, inquisitiveness, and willingness to learn have been the driving force behind the success of this course. It is their passion for environmental sustainability and resource conservation that inspires us to continue our mission.

Lastly, we express our gratitude to the "Mission Life" program for its vision and support in promoting sustainable practices. Their commitment to environmental stewardship has made initiatives like this training possible, fostering a generation of responsible and knowledgeable individuals.

Thanks to all for their contributions and for making this training program a resounding success. Together, we are taking meaningful steps towards a more sustainable and environmentally responsible future.

In compliance to VV order No/ DFA/2024-25/208 dated 15/05/2024 following committee is here by constituted for organizing a Value Added Certificate Course on "Hands on Practice for Bio/Waste Management" for students.
Organizing Committee :

Patron	:	Dr.D.H. Ranade, Dean, B. M. College of Agriculture, Khandwa
Convener	:	Dr. D.K.Vani Dr. D.S.Sasode Dr. D.K.Shrivastava Dr. M.Kureel
Programme Coordinator	:	Dr. D.S.Sasode Dr. Y.K.Shukla Dr .S.K.Arsia
Course Coordinator	:	Dr. D.K.Shrivastava Dr. M.Kureel
Co- Coordinator	:	Dr. Amit Kumar Dr. R.S.Dangi Shri Vikas Kumar

Dean

Value added certificate course "Hands on Practice for Bio/Waste Management,"

From 7th to 11th June 2024 (30 Hrs)

Prgramme schedule

Date	Time	Lectures (Theory/Practical)	Faculty
07/06/2024	9:00-9.15	Registrations	Dr. Smita Agrawal, Vikas Kumar, Abhay Shrivastava
	9:20 – 9.30	Inaugural session	
	9:30 - 11:00	New technology in management of Agri-bio waste (T)	Dr. Y.K. Shukla
	11:30 - 12:30	Management of bio-waste from vegetable market (HOP)	Dr. Mukesh Gupta
	2:00 - 5:00	Farm bio residue and its use in composting (HOP)	Dr. M. Kureel, Dr. D.K. Shrivastava, Dr. R.S. Dangi
08/06/2024	9:30 - 11:00	Management of post-harvest residuals of crop straws (T)	Dr. D.K. Shrivastava
	11:30 - 12:30	Fast track decomposition of Bio-Waste (HOP)	Dr. D.S. Sasode
	2:00 - 5:00	Utilization of Agri-bio-Waste decomposers in management of crop residues in field (HOP)	Dr. D.K. Shrivastava, Dr. M. Kureel, Dr. Amit Kumar
09/06/2024	9:30 - 11:00	Fruits peels and its industrial use(T)	Dr. M. Kureel, Mr. Vikas Kumar
	11:00 - 12:30	Waste decomposer and its utilization in cultivation (HOP)	Dr. D.K. Shrivastava, Dr. M. Kureel, Dr. Amit Kumar
	2:00 - 5:00	Dairy Bio-Waste management and formulation of *Zeevamrut* (HOP)	Dr. M. Kureel, Dr. Y.K. Shukla, Mr. Vikas Kumar
10/06/2024	9:30 - 11:00	Management of Orchard Bio-Waste (T)	Dr. M. Kureel, Dr. Amit Kumar
	11:00 - 12:30	Banana residues and its utilization in industry (HOP)	Dr. Amit Kumar
	2:00 - 5:00	Ex-situ decomposition of leaf litters in Orchards (HOP)	Dr. M. Kureel, Dr. D.K. Shrivastava, Dr. Amit Kumar
11/06/2024	9:30 - 11:00	Role of biofertilizers in Agri-Waste management (T)	Mr. Vikas Kumar
	11:00 - 12:30	Management of Papaya residue (HOP)	Dr. M. Kureel
	2:00 - 5:00	Mass multiplication of Waste decomposer at Farm level (HOP)	Dr. D.K. Shrivastava, Mr. Vikas Kumar
	5:00 - 5:20	Closing ceremony: Feedback from Students	Dr. D.H. Ranade, Dr. D.K. Vani, Dr. D.S. Sasode, Dr. S.K. Parsai
	5:20 - 5:40	Distribution of Certificates	Dr. D.H. Ranade
	5:40 - 6:00	Closing remark	Dr. D.S. Sasode

Activities

Day: 1

Topic: New technologies in management of Agri-bio waste
Speaker: DR. Y.K. Shukla

The management of agricultural bio-waste has seen significant advancements through the integration of new technologies, aiming to enhance sustainability and efficiency. One prominent technology is anaerobic digestion, which transforms organic waste into biogas and digestate. This process not only reduces waste but also generates renewable energy, contributing to energy sustainability.

Composting has also evolved with the introduction of in-vessel composting systems. These controlled environments accelerate the decomposition process, ensuring a more efficient conversion of bio-waste into nutrient-rich compost. This technology minimizes Odor and contamination risks, making it suitable for urban and peri-urban settings.

Biochar production is another innovative approach, involving the pyrolysis of organic waste. Biochar enhances soil fertility and sequesters carbon, providing a dual benefit of improving agricultural productivity and mitigating climate change. The use of enzyme-based treatments to accelerate the breakdown of lignocellulosic materials in crop residues is also gaining traction. These treatments enhance the decomposition rate and improve the quality of the resulting compost or mulch.

In summary, new technologies in Agri-bio waste management, from anaerobic digestion and advanced composting systems to biochar production and precision agriculture tools, are transforming waste into valuable resources, promoting sustainability, and reducing the environmental footprint of agricultural practices.

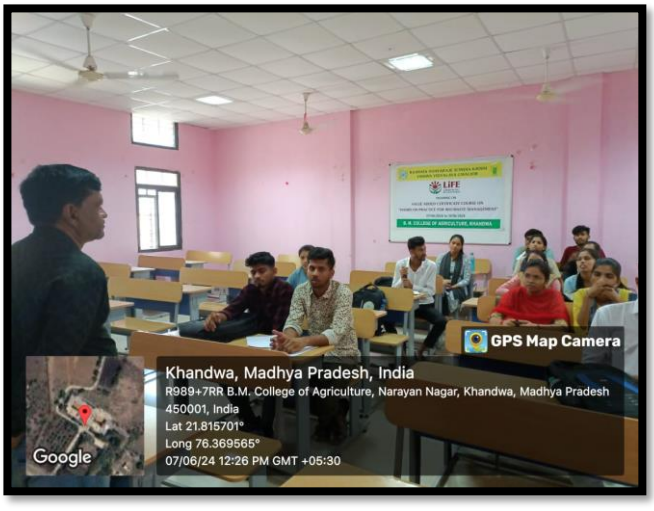
Topic: Management of bio waste from vegetable market
Speaker: Mr. Mukesh Gupta

Managing bio-waste from vegetable markets is crucial for environmental sustainability and public health. One effective approach is source segregation, where waste is categorized into organic and inorganic components at the point of generation. Organic waste, primarily consisting of vegetable scraps and spoiled produce, can be collected separately and transported to composting facilities.

Composting is a widely adopted method, transforming vegetable waste into nutrient-rich compost that can be used to enhance soil fertility in agricultural fields. Advanced composting techniques, such as in-vessel composting, expedite the decomposition process and minimize odors, making them suitable for urban areas.

Another innovative solution is anaerobic digestion, which processes vegetable waste in oxygen-free environments to produce biogas and digestate. The biogas can be used as a renewable energy source, while the digestate serves as a bio-fertilizer.

Implementing community awareness programs and training market vendors on waste segregation practices further enhances the effectiveness of bio-waste management. By adopting these strategies, vegetable markets can significantly reduce their environmental footprint and contribute to a circular economy.

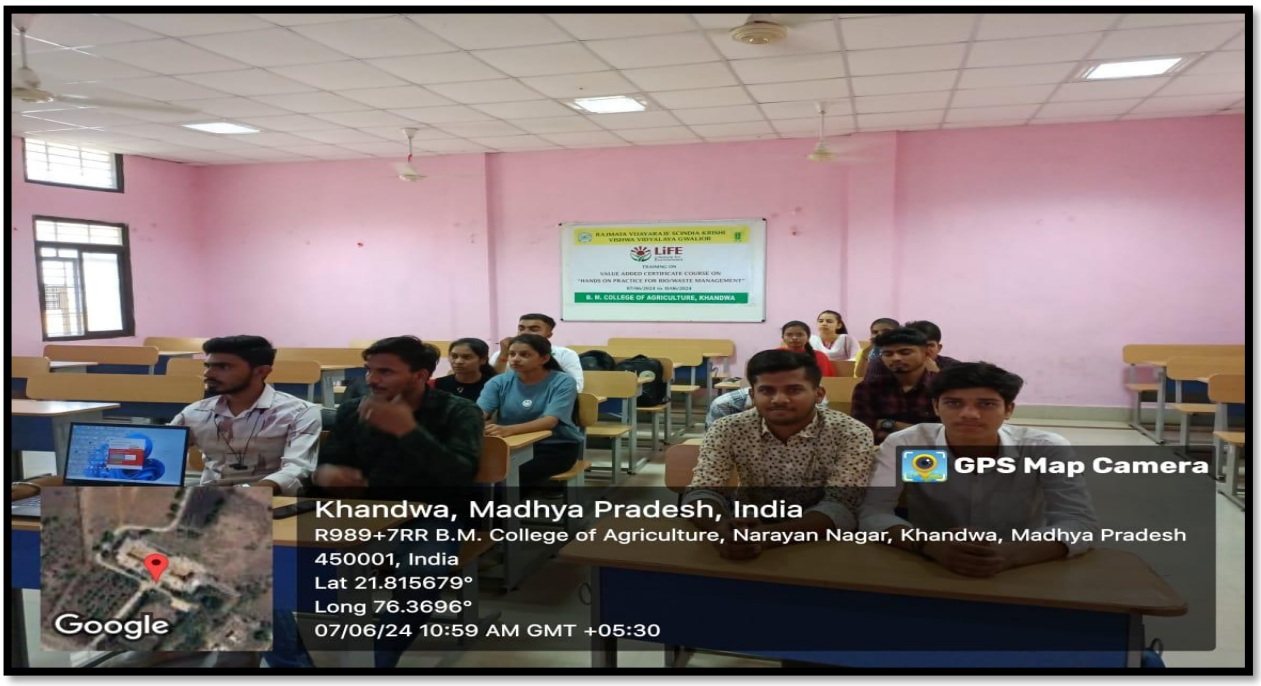


Topic: Farm bio residue and its use in composting
Speaker: Dr. M. Kureel, Dr. D.K. Shrivastava, Dr. R.S. Dangi

Farm bio residues, including crop stalks, leaves, and husks, represent a significant source of organic material that can be effectively utilized through composting. Composting these residues transforms them into nutrient-rich humus, which enhances soil fertility and structure. This process not only recycles valuable nutrients back into the soil but also reduces the reliance on chemical fertilizers, promoting sustainable agriculture.

Advanced composting techniques, such as windrow and in-vessel composting, allow for efficient decomposition of farm bio residues. Windrow composting involves piling organic matter into long rows, which are periodically turned to introduce oxygen and speed up the decomposition process. In-vessel composting, on the other hand, takes place in enclosed containers, offering better control over environmental conditions like temperature and moisture, thus accelerating composting and minimizing Odors.

The resulting compost from farm bio residues is rich in essential nutrients like nitrogen, phosphorus, and potassium, crucial for plant growth. By integrating farm bio residues into composting practices, farmers can enhance soil health, boost crop yields, and contribute to a more sustainable and eco-friendly agricultural system.



Day: 02

Topic: Management of post-harvest residuals of crop straws.

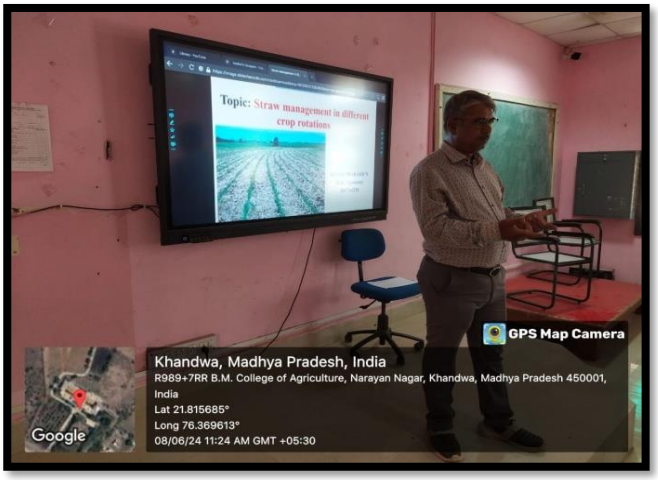
Speaker: Dr. D.K. Shrivastava (Department of Plant breeding, AICRP)

The management of post-harvest residuals of crop straws is essential for sustainable agriculture and environmental conservation. Traditional practices like burning crop straws are environmentally harmful, releasing pollutants and greenhouse gases. Instead, innovative and sustainable methods are being adopted.

One effective method is incorporating crop straws into the soil through techniques like mulching and ploughing. This enriches the soil with organic matter, improving soil fertility and structure. Another method is converting crop straws into biochar through pyrolysis. Biochar is a valuable soil amendment that enhances soil moisture retention and nutrient availability while sequestering carbon.

Crop straws can also be utilized as feedstock for bioenergy production through anaerobic digestion. This process produces biogas, a renewable energy source, and digestate, a nutrient-rich fertilizer.

Furthermore, crop straws can be processed into animal feed or used in the production of biodegradable packaging materials. By adopting these sustainable practices, farmers can effectively manage post-harvest crop straws, reducing environmental impact, and enhancing agricultural productivity.



Topic: Fast track decomposition of bio waste.
Speaker: Dr. D.S. Sasode

Fast track decomposition of bio-waste involves accelerating the natural breakdown process of organic materials, transforming waste into valuable compost more quickly. This approach is vital for managing large volumes of bio-waste efficiently and sustainably.

One effective method is using microbial inoculants or compost accelerators. These contain beneficial microorganisms that speed up the decomposition process. By enhancing microbial activity, these inoculants break down complex organic matter into simpler compounds faster, producing nutrient-rich compost.

Another technique is the use of in-vessel composting systems. These enclosed units maintain optimal conditions for decomposition, such as temperature, moisture, and aeration, significantly reducing composting time. Additionally, mechanical turning and shredding of bio-waste increase surface area, facilitating quicker microbial action.

Thermophilic composting, which involves maintaining higher temperatures, can also hasten decomposition. This method not only accelerates the process but also ensures the elimination of pathogens and weed seeds, resulting in safer compost.

Fast track decomposition of bio-waste not only manages waste efficiently but also produces high-quality compost that enhances soil health and supports sustainable agriculture.

Topic: Utilization of Agri-bio-waste decomposers in management of crop residues in field.
Speaker: Dr. D.K. Shrivastava, Dr. M. K. Kureel, Dr. Amit Kumar

The utilization of agri-bio-waste decomposers offers a sustainable solution for managing crop residues in fields, addressing both environmental and agricultural challenges. These decomposers, often comprising microbial consortia or specific enzymes, accelerate the breakdown of agricultural residues such as crop stalks, leaves, and roots. By enhancing decomposition, they contribute to nutrient recycling, releasing essential elements like nitrogen, phosphorus, and potassium back into the soil.

Moreover, Agri-bio-waste decomposers mitigate the negative impacts of residue burning, which causes air pollution and degrades soil health. Instead, they promote soil organic matter accumulation, improving soil structure, moisture retention, and overall fertility. This approach not only supports sustainable farming practices but also reduces greenhouse gas emissions associated with agricultural activities.

Implementing these decomposers requires integrating them into existing agricultural practices, ensuring compatibility with different crop residues and local environmental conditions. Research continues to refine these technologies, aiming to optimize decomposition efficiency and maximize agricultural productivity while minimizing environmental footprint. Ultimately, utilizing agri-bio-waste decomposers represents a pivotal step towards achieving sustainable and resilient agricultural systems worldwide.

DAY 03

Topic: Fruit peels and its industrial use
Speaker: Dr. M. K. Kureel

Fruit peels, often discarded as waste, hold significant potential for industrial applications due to their rich content of bioactive compounds, fibers, and essential oils. In the food industry, fruit peels can be transformed into natural additives, such as pectin from citrus peels, used as a gelling agent in jams and jellies. Their antioxidant and antimicrobial properties also make them valuable for extending the shelf life of food products.

In the pharmaceutical and cosmetics industries, fruit peels are a source of essential oils, vitamins, and flavonoids. These compounds are utilized in the formulation of skincare products, dietary supplements, and natural remedies, leveraging their health-promoting and anti-aging benefits.

Furthermore, fruit peels are increasingly used in the production of biofuels and biodegradable packaging materials. The conversion of peels into bioethanol or biogas presents a renewable energy source, while their fibrous nature is ideal for creating eco-friendly packaging solutions.

Overall, the industrial utilization of fruit peels not only adds value to agricultural waste but also promotes sustainability and innovation across various sectors.

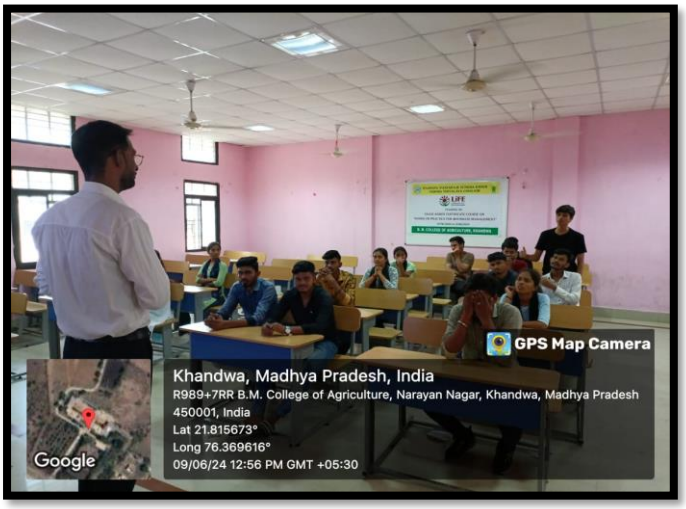
Topic: Waste decomposer & its utilization in cultivation
Speaker: Mr. Vikash Kumar

Waste decomposers are bio-formulations containing beneficial microorganisms that accelerate the decomposition of organic waste materials. In cultivation, they are pivotal for transforming crop residues, kitchen waste, and other organic matter into nutrient-rich compost. This compost enhances soil fertility, improves soil structure, and boosts microbial activity, promoting healthier plant growth.

Utilizing waste decomposers in agriculture offers multiple benefits. They reduce the need for chemical fertilizers by recycling nutrients back into the soil, thus lowering input costs for farmers. Additionally, decomposers help in managing agricultural waste, mitigating the environmental impact of burning crop residues, which can cause air pollution and soil degradation.

Application of waste decomposers is straightforward, typically involving mixing the decomposer solution with water and spraying it on organic waste. This initiates rapid decomposition, transforming waste into humus within a few weeks. The resulting compost can then be applied to fields, enriching the soil with organic matter and essential nutrients.

In essence, waste decomposers support sustainable farming practices by recycling organic waste into valuable soil amendments, enhancing crop yields, and promoting environmental stewardship.



Topic: Dairy bio waste management and formulation of *Zeevamurit*
Speaker: Dr. M. Kureel, Dr. Y.K. Shukla, Mr. Vikash Kumar

Dairy bio waste management is crucial for mitigating environmental impacts and enhancing sustainability in dairy farming. Dairy farms generate substantial organic waste, including manure, wastewater, and feed residues. Efficient management involves converting this waste into valuable resources like biogas, compost, and bio-fertilizers, reducing greenhouse gas emissions and preventing water pollution.

One innovative solution in this domain is the formulation of Zeevamurit, an organic bio-fertilizer derived from dairy waste. Zeevamurit is produced through a process that involves anaerobic digestion and composting of dairy manure, combined with beneficial microorganisms. This bio-fertilizer is rich in essential nutrients such as nitrogen, phosphorus, and potassium, as well as organic matter that improves soil health and fertility.

Utilizing Zeevamurit in agriculture promotes sustainable farming by reducing reliance on chemical fertilizers, enhancing soil structure, and increasing microbial activity. Its application results in better crop yields and healthier plants while minimizing the environmental footprint of dairy operations. By transforming dairy bio waste into a valuable agricultural input, Zeevamurit exemplifies the potential for integrated waste management practices to contribute to circular economies and sustainable agriculture.

DAY 4

Topic: Management of Orchard bio-waste.
Speaker: Dr. M. Kureel

Fruit peels, often discarded as waste, hold significant potential for industrial applications due to their rich content of bioactive compounds, fibers, and essential oils. In the food industry, fruit peels can be transformed into natural additives, such as pectin from citrus peels, used as a gelling agent in jams and jellies. Their antioxidant and antimicrobial properties also make them valuable for extending the shelf life of food products.

In the pharmaceutical and cosmetics industries, fruit peels are a source of essential oils, vitamins, and flavonoids. These compounds are utilized in the formulation of skincare products, dietary supplements, and natural remedies, leveraging their health-promoting and anti-aging benefits.

Furthermore, fruit peels are increasingly used in the production of biofuels and biodegradable packaging materials. The conversion of peels into bioethanol or biogas presents a renewable energy source, while their fibrous nature is ideal for creating eco-friendly packaging solutions.

Overall, the industrial utilization of fruit peels not only adds value to agricultural waste but also promotes sustainability and innovation across various sectors.

Topic: Banana residues and its utilization in industry
Speaker: Dr. Amit Kumar

Banana residues, including peels, stems, and leaves, present valuable opportunities for industrial utilization due to their rich composition of nutrients, fibers, and bioactive compounds. In the food industry, banana peels can be processed into flour, which serves as a nutritious ingredient in baked goods and snacks. Additionally, extracts from banana peels are used as natural colorants and preservatives, thanks to their antioxidant properties.

In the textile industry, banana fibers extracted from stems and leaves are increasingly used to produce eco-friendly fabrics. These fibers are strong, biodegradable, and have a low environmental footprint compared to synthetic fibers. Banana fibers are also utilized in the production of biodegradable packaging materials, offering sustainable alternatives to plastic.

Furthermore, banana residues are employed in the production of biofuels. Through anaerobic digestion, banana waste can be converted into biogas, providing a renewable energy source. The residues are also used to produce bio-fertilizers, which enhance soil fertility and promote sustainable agriculture.

Overall, the industrial utilization of banana residues not only adds value to agricultural waste but also supports sustainability across various sectors, contributing to a circular economy.

Topic: Ex-situ decomposition of leaf liters in Orchards
Speaker: Dr. M. Kureel, Dr. D.K. Shrivastava, Dr. Amit Kumar

Ex-situ decomposition of leaf litter in orchards involves collecting fallen leaves and organic debris and composting them outside the orchard environment. This method helps manage the abundant leaf litter, reducing pest and disease risks that can arise from decomposing materials left in situ. By moving the leaf litter to a designated composting area, orchardists can more effectively control the decomposition process, optimizing conditions such as moisture, temperature, and aeration.

Composting leaf litter ex-situ results in nutrient-rich compost that can be reintroduced into the orchard as a soil amendment, enhancing soil fertility and structure. This practice promotes the recycling of organic matter, enriching the soil with essential nutrients like nitrogen, phosphorus, and potassium, and boosting microbial activity.

Additionally, ex-situ decomposition minimizes the habitat for pests and pathogens that may otherwise thrive in undisturbed leaf litter. The compost produced can improve water retention, reduce soil erosion, and enhance overall soil health, contributing to sustainable orchard management. By adopting ex-situ decomposition, orchardists can effectively manage leaf litter, support soil health, and maintain a productive and healthy orchard ecosystem.

DAY: 5
Topic: Role of bio fertilizers in Agri waste management
Speaker: Mr. Vikash Kumar

Bio-fertilizers play a crucial role in agricultural waste management by converting organic waste into valuable soil amendments, thereby enhancing soil fertility and promoting sustainable farming practices. These bio-fertilizers consist of beneficial microorganisms such as bacteria, fungi, and algae that decompose organic matter, releasing essential nutrients like nitrogen, phosphorus, and potassium into the soil.

Incorporating bio-fertilizers into agricultural systems helps recycle crop residues, manure, and other organic waste, reducing the reliance on chemical fertilizers and minimizing environmental pollution. This process not only improves soil health but also boosts crop yields by enhancing nutrient availability and stimulating plant growth.

Bio-fertilizers also support the development of a healthy soil microbiome, which can suppress soil-borne diseases and pests, reducing the need for chemical pesticides. Additionally, they improve soil structure and water retention, making agricultural systems more resilient to drought and other stressors.

Overall, the use of bio-fertilizers in managing agri-waste aligns with sustainable agriculture principles, promoting a circular economy where waste is repurposed into valuable inputs for crop production.

Topic: Management of Papaya residues
Speaker: Dr. M. K. Kureel

Management of papaya residues, such as leaves, stems, and discarded fruits, is essential for maintaining environmental sustainability and agricultural productivity. These residues can be efficiently utilized through composting, which transforms organic waste into nutrient-rich compost. This compost enhances soil fertility, improves soil structure, and promotes healthy plant growth when applied to fields.

Papaya residues can also be used in biogas production through anaerobic digestion, generating renewable energy while reducing waste volume. This process not only provides a sustainable energy source but also produces nutrient-rich digestate that can be used as a bio-fertilizer.

Another approach is the extraction of valuable compounds from papaya residues. Leaves and unripe fruits contain papain, an enzyme with applications in the food, pharmaceutical, and cosmetic industries. This adds economic value to what would otherwise be waste.

Incorporating these management practices helps reduce environmental pollution, lowers disposal costs, and supports a circular economy by converting waste into valuable resources.

Topic: Mass multiplication of Waste decomposer at farm level
Speaker: Dr. D.K. Shrivastava, Mr. Vikash Kumar

Mass multiplication of waste decomposers at the farm level is an effective strategy for managing agricultural waste sustainably and economically. Waste decomposers, typically consisting of microbial consortia, can be cultured on-site using simple, cost-effective methods.

To start, a small quantity of a waste decomposer culture is mixed with jaggery (a type of unrefined sugar) and water in a large container. This mixture is left to ferment for 5-7 days, allowing the beneficial microorganisms to proliferate. The resulting solution can then be diluted and applied to crop residues, manure, and other organic waste materials.

This on-farm production of waste decomposers enables farmers to rapidly decompose organic matter, converting it into nutrient-rich compost. This compost improves soil health by enhancing nutrient content, microbial activity, and soil structure. Additionally, this practice reduces the need for chemical fertilizers, lowering production costs and minimizing environmental impact.

Mass multiplication of waste decomposers empowers farmers to manage waste efficiently, promoting sustainable agricultural practices and improving farm productivity.

कृषि महाविद्यालय में विद्यार्थी सीखेंगे जैव अपशिष्ट प्रबंधन

प्रशिक्षण कार्यक्रम को संबोधित करते अधिष्ठाता डा. दीपक रानड़े। ● नईदुनिया

नईदुनिया प्रतिनिधि, खंडवाः भगवंतराव मंडलोई कृषि महाविद्यालय में सात से 11 जून तक जैव अपशिष्ट प्रबंधन पर पांच दिवसीय प्रशिक्षण कार्यक्रम का आयोजन किया गया है। कार्यक्रम में महाविद्यालय के अधिष्ठाता डा. दीपक हरि रानड़े उपस्थित थे। इस प्रशिक्षण में महाविद्यालय के स्नातक और स्नातकोत्तर के विभिन्न छात्र ब छात्राओं की भागीदारी रहेगी। अधिष्ठाता डा. रानडे ने बताया कि वर्तमान परिप्रेक्ष्य में जैव अपशिष्ट प्रबंधन कृषि के क्षेत्र में एक महत्वपूर्ण पहलू है। प्रभावी जैव अपशिष्ट प्रबंधन का उपयोग कर हम पर्यावरण अनुकूल प्रथाओं को बढ़ावा दे सकते है। पांच दिवसीय इस प्रशिक्षण कार्यक्रम में महाविद्यालय के विभिन्न विशेषज्ञों द्वारा छात्र- छात्राओं को सैद्धांतिक और प्रायोगिक मार्गदर्शन दिया जाएगा।

छात्रों ने सब्जी, फल, औषधि विज्ञान और जैविक खेती के सर्टिफिकेट कोर्स किए

मंदसौर | उद्यानिकी महाविद्यालय में विभिन्न विषय में सर्टिफिकेट कोर्स आयोजित किए गए। मीडिया प्रभारी डॉ. अंकित पांडेय ने बताया कि एक सप्ताह के कोर्स में सब्जी, फल, औषधि विज्ञान और जैविक खेती, प्रसंस्करण विषय पर कोर्स का आयोजन किया गया। कोर्स के लिए अभ्यर्थियों का पंजीयन कर विषय विशेषज्ञ द्वारा प्रशिक्षण दिया गया। समापन अवसर पर अधिष्ठाता डॉ. इंदर सिंह तोमर ने कहा कि महाविद्यालय में इस कोर्स की प्रेरणा कुलपति डॉ. अरविंद शुक्ला से प्राप्त हुई। कुलपति का निर्देश था कि छात्र थ्योरी के साथ ऐसे विषय का ज्ञान प्राप्त करें जो व्यवहारिक हो। उन्होंने कहा कि सर्टिफिकेट कोर्स से छात्रों और वैज्ञानिकों के कौशल में वृद्धि का संवर्धन होता है। समापन अवसर पर सभी वरिष्ठ वैज्ञानिक, विभाग अध्यक्ष और कोर्स समन्वयक मौजूद रहे। सभी अभ्यर्थी को प्रमाण-पत्र प्रदान किए गए।

'सर्टिफिकेट कोर्स से कौशल में वृद्धि का संवर्धन होता है'

मंदसौर. राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय के कुलपति डॉ अरविंद शुक्ला के निर्देश में उद्यानिकी महाविद्यालय में विभिन्न विषय में सर्टिफिकेट कोर्स आयोजित किए गए।

मीडिया प्रभारी डॉ अंकित पांडेय ने बताया कि एक सप्ताह के इन कोर्स में सब्जी विज्ञान, फल विज्ञान, औषधि विज्ञान, जैविक खेती एवं प्रसंस्करण विषय पर कोर्स का आयोजन किया गया। इन कोर्स के अभ्यर्थियों का पंजीयन कर कोर्स में विषय की व्यवस्थित रूपरेखा बना कर विषय विशेषज्ञ ने उन्नत प्रशिक्षण दिया गया। समापन अवसर पर अधिष्ठाता डॉ इंदर सिंह तोमर ने मार्गदर्शन देते हुए कहा कि महाविद्यालय में इस कोर्स की प्रेरणा कुलपति डॉ अरविंद शुक्ला से प्राप्त हुई। कुलपति शुक्ला का विशेष निर्देश था कि छात्र थ्योरी के साथ ऐसे विषय का भी ज्ञान प्राप्त करें जो व्यवहारिक हो। अनेक विषय का ज्ञान एक ही जगह प्राप्त हो।

कुलपति की मंशानुसार छात्र और फैकल्टी का सर्वांगीण विकास हो इस कोर्स का मूल उद्देश्य रहा। उन्होंने कहा कि सर्टिफिकेट कोर्स से छात्रों एवं वैज्ञानिकों के कौशल में वृद्धि का संवर्धन होता है। समापन अवसर पर सभी वरिष्ठ वैज्ञानिक, विभाग अध्यक्ष और कोर्स समन्वयक उपस्थित थे। सभी अभ्यर्थी को प्रमाण पत्र प्रदान किए।
