Last date for Registration: 14/07/2020 at 11.59 PM
Introduction

Madhya Pradesh has diverse climates and soil for cultivation of horticulture crops providing ample opportunities for the development of fruit industry but the extreme challenge in the present scenario is to produce abundant fruits to feed the ever-increasing human population. This demands infusion of technological intervention for an efficient utilization of resources for deriving higher output per unit of input with excellent quality of the produce within short span of time. In the present era of open economy; it has become increasingly necessary that our produce is competitive, both in the domestic as well as in international markets. This would be possible only through deployment of high-tech application and precision farming methods. The fruit and vegetable growing not only support to face these problems with increasing the farmers' income but it also helps to lift the greenery in our blue planet. The proven modern technologies are now available for growing valuable crops utilizing space nearby home at terraces, balcony etc. The concept is more important in the present scenario of unavailability of reliable vegetables and horticultural products to consumers. The future looks bright for innovative entrepreneurs, who possess the skills and experiences needed for the challenges of this entrepreneurship. Entrepreneurship is the capacity of innovator and calibre to introduce innovative techniques in business operations. It is only the innovative entrepreneur who has the power to dream, transform new situations into thoughts and resolve them into action. Thus, entrepreneurs through alternate horticulture based farming system can play an important role in increasing production and in turn contribute for economic development of the country.

Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior is organizing, One-day National Webinar on “Entrepreneurship opportunities through alternate horticulture based farming system” to be held on July 16, 2020. Renowned experts from across the country will share their expertise on innovative ideas and experiences on modern cropping technologies under open and protected condition which have the significant role in utilizing resources and in improving the income of the farmers. The students and faculty may join with us and participate in the webinar.

<thead>
<tr>
<th>Time (Hrs)</th>
<th>Topics</th>
<th>Speakers</th>
</tr>
</thead>
<tbody>
<tr>
<td>10:00</td>
<td>Welcome</td>
<td>Dr. M. P. Jain, Director Research Services, RVSKVV, Gwalior</td>
</tr>
<tr>
<td>10:10</td>
<td>Inaugural Address</td>
<td>Dr. S. K. Rao, Hon'ble Vice Chancellor, RVSKVV, Gwalior</td>
</tr>
<tr>
<td>10:20</td>
<td>Chief Guest Remarks</td>
<td>Prof. V.S. Tomar, Founder VC, RVSKVV, Gwalior</td>
</tr>
<tr>
<td>10:30</td>
<td>Introduction to status of horticulture crop and major constant in doubling the farmer income</td>
<td>Shri Pushkar Singh, Commissioner, Department of Horticulture and Food Processing, Bhopal</td>
</tr>
<tr>
<td>11:00</td>
<td>Present scenario of horticulture crop and approaches for improvement</td>
<td>Dr. Navneet Patle, Deputy Commissioner (Hort.), Government of India, New Delhi</td>
</tr>
<tr>
<td>11:30</td>
<td>High Density Planting System in Fruit Crops</td>
<td>Dr. Manjunath B.L. Principal Scientist, ICAR-IIHR, Bengaluru</td>
</tr>
<tr>
<td>12:00</td>
<td>Multilayer vegetable cropping system in irrigated ecosystem</td>
<td>Dr. Prakash Patil, Project Coordinator, AICRP on Fruits, ICAR-IIHR, Bengaluru</td>
</tr>
<tr>
<td>12:30</td>
<td>Technologies for container fruit growing for urban and semi urban areas</td>
<td>Dr. K. K. Srivastava, Principal Scientist, ICAR-Central Institute for Subtropical Horticulture, Lucknow</td>
</tr>
<tr>
<td>01:00</td>
<td>Space and time utilization in new and old orchards: an income improving approach</td>
<td>Dr. S.K. Singh, Head, Division of Fruits and Horticultural Technology, IARI, New, Delhi</td>
</tr>
<tr>
<td>02:30</td>
<td>Modern systems of Horticultural crop cultivation in urban and semi urban areas</td>
<td>Shri Rupesh Jain, Agronomist, Evergreen Rooftop Agritech, Indore</td>
</tr>
<tr>
<td>03:00</td>
<td>Protected cultivation technology for enhancing farmer’s income in Central India</td>
<td>Dr. G.L. Sharma, Associate Professor &amp; Incharge, Centre of Excellence for Protected Cultivation and Precision Framing, IGKV, Raipur</td>
</tr>
<tr>
<td>03:30</td>
<td>Success stories</td>
<td>Experience of 5 innovative farmers from Dhar, Jhabua, Khargone and Badwani Districts</td>
</tr>
<tr>
<td>04:00</td>
<td>Vote of thanks</td>
<td>Dr. Nitin Soni, College of Horticulture, Mandsaur</td>
</tr>
