NDSU NORTH DAKOTA STATE UNIVERSITY

Date: October 27, 2023

Dr. Rakesh Kumar Singh
Department of Plant Pathology
RVSKVV, College of Agriculture,
Indore M. P. 452001, India

Attn: Successful completion of three months training at North Dakota State University.

Dear Dr. Singh,

Congratulations!

You have successfully completed the three-month research training from August 1, 2023 to October 27, 2023 in my laboratory in the Department of Plant Pathology at North Dakota State University, Fargo, ND, USA.

It was my immense pleasure to host you in my laboratory. Your diligence, perseverance, and scientific abilities are outstanding which helped you achieve significant research progress within a short period of time. The research you conducted in wheat stem rust population studies, phenotypic characterization of wheat wild relatives for resistance against rust diseases, and molecular plant pathology has yielded findings of considerable significance. These findings hold the promise of high-quality research manuscripts in the near future.

During your visit, you effectively harnessed your time to acquire new skills in molecular plant pathology techniques including the developing bacterial competent cells, gene cloning in plasmid vectors, and virus-induced gene silencing. This expertise is an invaluable asset for your future research endeavors at your home institution.

I hope that your interactions with fellow colleagues within our department and across the university, hailing from diverse cultural and scientific backgrounds, were both enjoyable and enriching. I am sure you have also cultivated new friendships during your time at NDSU.

In conclusion, I extend our heartfelt gratitude to you for the substantial contributions you made to my program and NDSU as a whole. Your visit was very productive and mutually beneficial and it paved the way for exciting possibilities in terms of future collaborations and joint projects. I wish you success in your forthcoming research and academic pursuits.

Sincerely,
