Preface

The Self Study Report of the University for Academic Session 2016-17 to 2020-21 is prepared to get accreditation of the University from National Agricultural Education Accreditation Board, Indian Council of Agricultural Research, New Delhi. It is a compilation of information provided by the Office of the Director Research Services, Director Instructions, Director Extension Services, The Registrar, The Comptroller, Director Farms, Dean Student Welfare and all the constituent Colleges of the University.

My grateful thanks are due to Prof. S.K. Rao, Vice Chancellor, RVSKVV, Gwalior for regulating education to meet quality expectations of the Council and providing unstinted support and guidance in preparation of the report.

The Self Study Report of the University is prepared as per the Guidelines for Accreditation of Higher Agricultural Education Institutions in India provided by National Agricultural Education Accreditation Board, Indian Council of Agricultural Research, New Delhi. All the sub-sub heads of nine sub heads of point 6.6 are covered in the report in reference to the University.

I would like to record my appreciation for the Director Research Services, Director Extension Services, Director Instructions, All Deans of constituents Colleges, Registrar and Comptroller of RVSKVV Gwalior without whose support the report would not have been structured. Meticulous effort made by Dr. Akhilesh Singh, Nodal Officer (ICAR) and Technical Officer, Office of the Dean Faculty of Agriculture in compilation of the report are cherished.

At the end, I would like to thank one and all, who directly or indirectly helped us in preparation of the report.

*Dean Faculty of Agriculture
Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya
Gwalior*

SELF STUDY REPORT
FOR
ACCREDITATION OF THE UNIVERSITY
(RVSKVV, GWALIOR)

6.6.1. UNIVERSITY GOVERNANCE

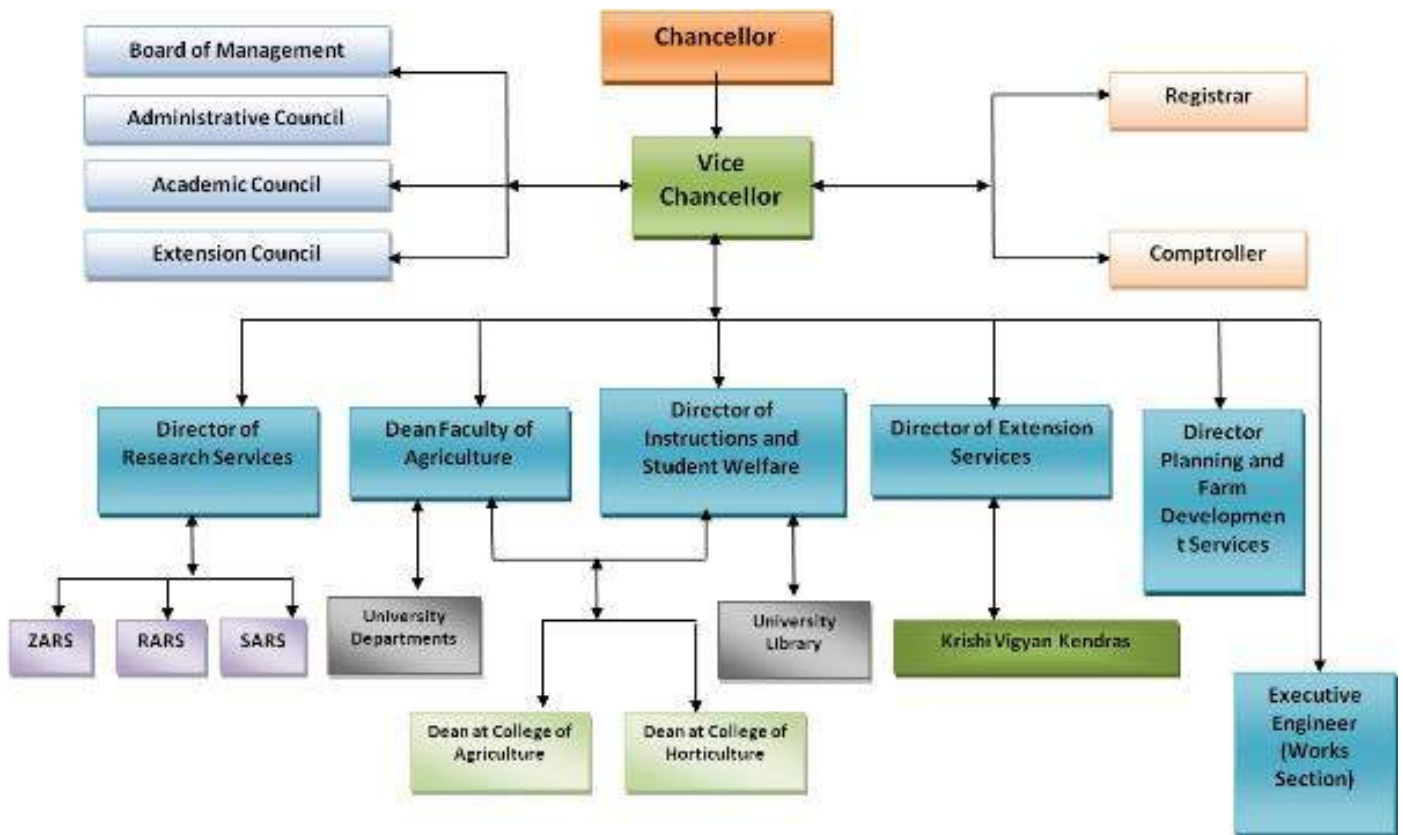

Hon'ble Governor of Madhya Pradesh is the Chancellor of the University, and Vice-Chancellor is the Academic Head and Chief Executive of the University, who is supported by the following authorities:

- Board of Management
- Academic Council
- Administrative Council

The University comprises of Faculty of Agriculture headed by Faculty Dean. The constituent colleges are headed by the respective Deans. Heads of the Departments are the key persons for teaching, research and extension of the respective discipline/department. Committee of Faculty of Agriculture and Extension Council are also constituted by Vishwa Vidyalaya.

Director Instructions, Director Research Services and Director Extension Services are responsible University authorities for Human Resource Development, Research and Extension activities, respectively. Registrar and Comptroller support the Vice-Chancellor in administration and financial matters. The organizational setup of the University is presented in the following flow chart.

Organizational Setup

Area of Jurisdiction:

RVSKVV, Gwalior is responsible for Agricultural Education, Research and Extension activities in following 26 revenue districts of the state: Sheopur, Morena, Bhind, Gwalior, Shivpuri, Guna, Ashoknagar, Datia, Dewas, Shajapur, Agar Malwa, Ujjain, Indore, Dhar, Jhabua, Alirajpur, Ratlam, Mandsaur, Neemuch, Khargone, Badwani, Khandwa, Burhanpur, Bhopal, Sehore and Rajgarh.

The area under University jurisdiction is a part of the Deccan Plateau and comprises plateaus with mean elevation of 1600 feet above mean sea level; inter spread with the mountains of the Vindhya and Satpura ranges. The maximum height of 1350 m is recorded in Satpura range on the other hand 150 m height is found in Chambal Valley. The main river systems are the Betwa, Chambal, Narmada, Sindh and Tapti. Nearly one third of the state area is covered with tropical forest. The area contains three types of soils, varying from alluvial to medium and heavy black Vertisols with six agro climatic zones.

The geographical area of the state under the University jurisdiction is 137.16 lakh hectares out of this, 74.72 lakh hectares is under cultivation, 24.51 lakh hectares under Kharif and 36.45 lakh hectare under rabi fallow. Out of the total cultivated area, 49.42% is irrigated. However, the area under irrigation varies from as low as 18.85% in Jhabua district to as high as 75.63% in Datia district.

The economy of the area is primarily agriculture based. Nearly 75% population is engaged in agriculture. The Malwa region abounds in rich black cotton soil. The low lying areas of Gwalior and Bundelkhand have light soils, whereas the Narmada Valley is formed by deep rich alluvial deposits.

6.6.1.1. VISION, MISSION AND GOALS:

Vision:

- *To transform the Agricultural landscape of Madhya Pradesh by producing excellent dynamic and result oriented skilled human resource in modern Agriculture, thereby creating higher income, employment, gender equity, accessibility, sustainable production system and achieving social welfare for all.*

Mission:

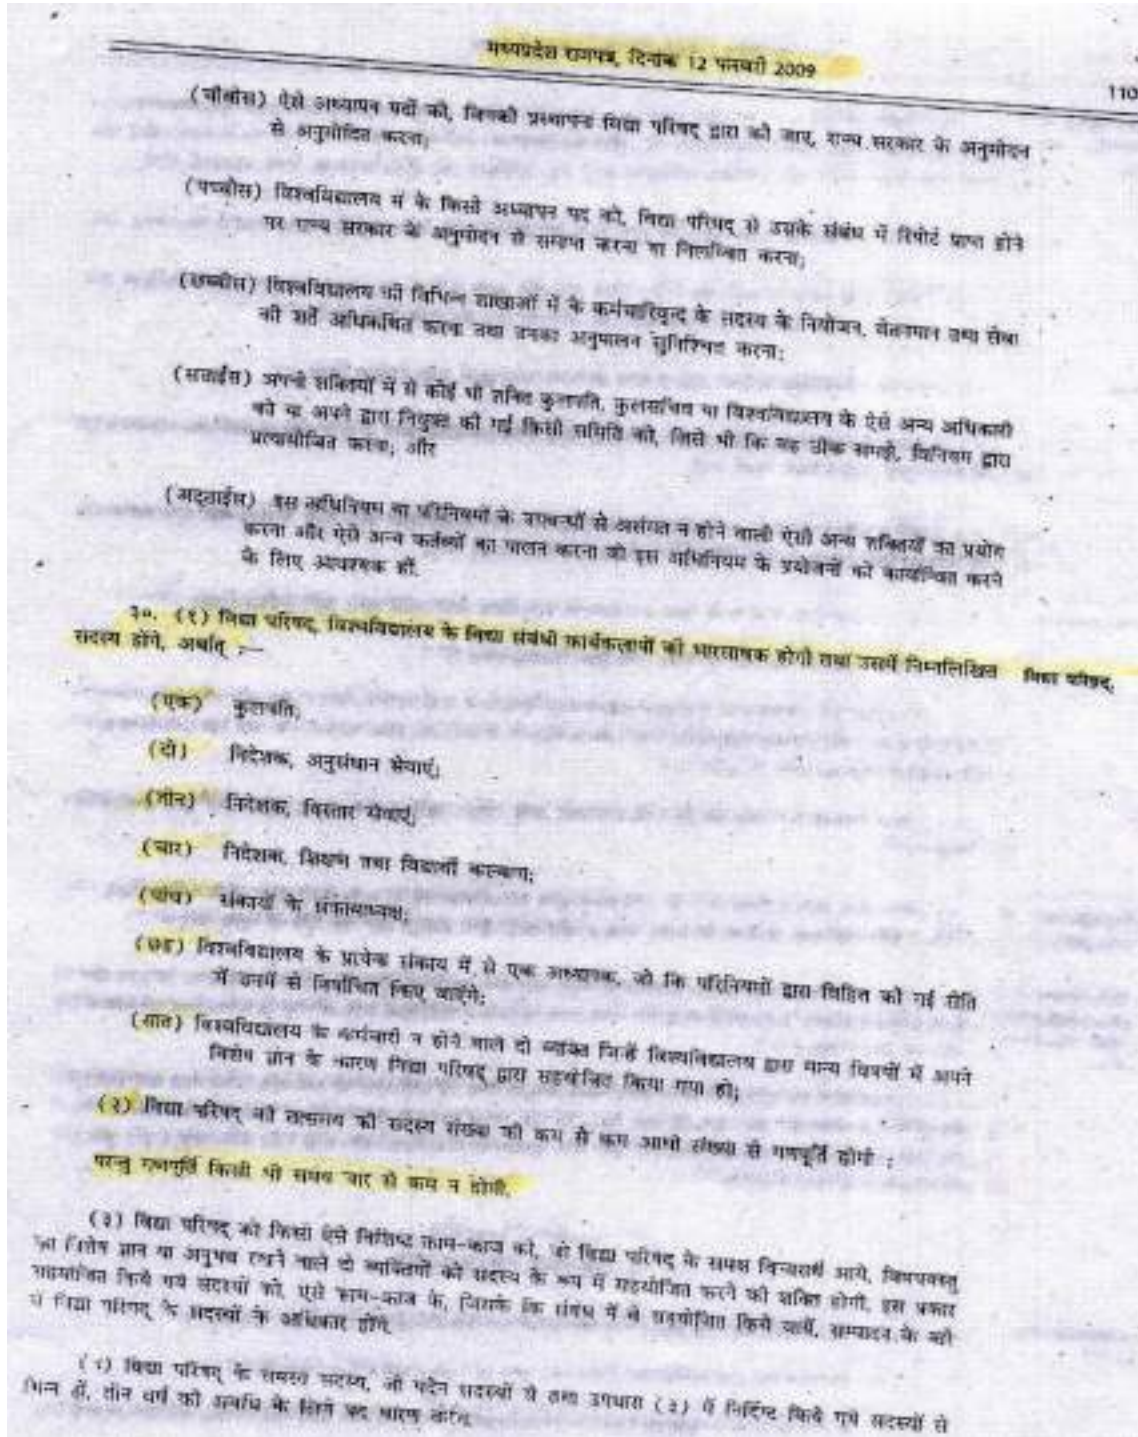

- *To impart education, conduct research and extension activities for enhancing productivity, optimization of profit, sustainability of agriculture and allied sectors and improving rural livelihood in the state of Madhya Pradesh.*

Goals:

- *To serve as a centre of higher education in the field of agriculture and allied sciences.*
- *To conduct basic, strategic, applied and anticipatory research in the field of agriculture and allied sciences.*
- *To disseminate technologies to farmers, extension personnel and organizations engaged in agricultural development through various extension programmes.*
- *To produce and supply genuine seed and planting material to the farmers.*

6.6.1.2. Statutes and Regulations: Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, has been established by Govt. of Madhya Pradesh ordinance No. 4 of 2008 notified in the extraordinary Gazette No. 507 dated August 19, 2008 .

विद्या परिषद् की शक्तियाँ और कर्तव्य	<p>३१. विद्या परिषद् — (क) इस अधिनियम तथा परिनिषदों के उपबन्धों के अधीन रहते हुए, विश्वविद्यालय के अध्यक्ष, अनुसंधान तथा विश्वविद्यालय की सेवा का सामन्तः विनियमित करेगी और उन पर नियंत्रण रखेगी और उनका उत्तर बनाने रखने एवं उपायिक अधिग्रहण करने हेतु अपेक्षाओं की पूर्ति कराने के लिये उत्तरदायी होगी;</p> <p>(ख) विश्वविद्यालय के बोर्ड की तक अन्य प्राधिकारियों को विद्या संबंधी समस्त विषयों पर सलाह देगी;</p> <p>(ग) ऐसी अन्य शक्तियों का प्रयोग करेगी तथा ऐसे अन्य कर्तव्यों का पालन करेगी जो इस अधिनियम द्वारा या उसके अधीन उसे प्रदत्त की जाए या उदा पर अधिरोपित किये जाएं.</p>
संकाय	<p>३२. (१) विश्वविद्यालय में ऐसे संकाय होंगे जो परिनिषदों द्वारा विहित किये जाएं.</p> <p>(२) प्रत्येक संकाय में ऐसे सदस्य होंगे और उन्हें ऐसी शक्तियाँ होंगी और ये ऐसे कर्तव्यों का पालन करेंगे जो परिनिषदों द्वारा विहित किये जाएं.</p> <p>(३) प्रत्येक संकाय के लिये एक संकायाध्यक्ष होगा जो कुलाधिपति द्वारा ऐसी रीति में तथा ऐसे कालावधि के लिए नियुक्त किया जाएगा जो परिनिषदों द्वारा विहित किया जाए.</p>
अध्ययन-विभाग	<p>३३. (१) प्रत्येक संकाय में ऐसा अध्ययन-विभाग होगा जैसा परिनिषदों द्वारा विहित किया जाए.</p> <p>(२) प्रत्येक अध्ययन-विभाग के लिये एक विभागाध्यक्ष होगा.</p> <p>(३) कुलापति, प्राध्यापकों में से एक को विभागाध्यक्ष के रूप में नामनिर्दिष्ट करेगा और यदि कोई प्राध्यापक न हो तो संकाय का संकायाध्यक्ष ऐसे विभाग के अध्यक्ष के रूप में तब तक कार्य करेगा जब तक कि सभ्यक रूप से अर्हित व्यक्ति उपलब्ध नहीं हो जाता.</p> <p>(४) विभागाध्यक्ष को नियुक्ति के नियमन तथा शर्तों, उसके कर्तव्य तथा कृत्य परिनिषदों द्वारा विहित किए जाएंगे.</p>
विश्वविद्यालय के अन्य प्राधिकारी	<p>३४. ऐसे अन्य प्राधिकारियों के, जो परिनिषदों द्वारा विश्वविद्यालय के प्राधिकारी होना घोषित किए जाएं, गठन, उनकी शक्तियाँ तथा कर्तव्यों के लिये संबंध परिनिषदों द्वारा विहित की गई रीति में किए जाएंगे.</p>
कृषि अनुसंधान केन्द्र तथा कृषिक सामीप्य जीवन तथा विस्तार सेवाएँ	<p>३५. (१) विश्वविद्यालय, समस्त संकायों में, मूल तथा अनुप्रायोगिक दोनों ही अनुसंधान के लिये केन्द्रीय या राज्य कृषि अनुसंधान केन्द्र, समुचित क्षेत्रीय तथा अन्य उपकेन्द्र, अपनी प्रादेशिक अधिकारिता के भीतर स्थापित करेगा और/या उन्हें बनाए रखेगा.</p> <p>(२) विश्वविद्यालय कृषिक प्राचीन जीवन तथा विस्तार सेवा भी चलाएगा जो इस अधिनियम तथा परिनिषदों के उपबन्धों के अधीन रहते हुए, कृषकों तथा गृहणियों को उनकी सहायता कराने, उनकी समस्याओं को हल करने के लिये उपयुक्त जानकारी उपलब्ध कराएगा और युवा व्यक्तियों में कृषिक जीवन के प्रति रुचि बढ़ाने की दृष्टि से समस्त आवश्यक उपाय करेगी.</p>
अध्याय — पाँच विश्वविद्यालय निधि आदि.	
विश्वविद्यालय निधि	<p>३६. (१) विश्वविद्यालय एक निधि स्थापित करेगा जो विश्वविद्यालय निधि कहलाएगी.</p> <p>(२) निम्नलिखित विश्वविद्यालय निधि का भाग होंगे या उसमें संदत्त किए जाएंगे—</p> <p>(क) केन्द्रीय या राज्य सरकार या किन्हीं निम्नलिखित निकाय द्वारा दिया गया कोई उधार, अधिदाय या अनुदान;</p>

**6.6.1.3. University Statutory officers and their selection process:**

S. No.	Name of the position (sanctioned)	Officer	Appointment	Tenure	Appointed/Nominated
1.	Hon'ble Vice-Chancellor	Prof. S.K. Rao	26-10-2017	5	Appointed
2.	Dean, Faculty of Agriculture	Dr. D.H. Ranade	21-09-2020	3	Nominated
3.	Director Research Services	Dr. M. P. Jain	29-06-2019	3	Nominated
4.	Director Extension Services	Dr. S. N. Upadhyay	31-08-2019	3	Nominated
5.	Director Instructions & Student Welfare	Dr. A. K. Singh	31-05-2018	3	Nominated
6.	Registrar	Shri D.L. Kori	02-05-2017	3	Appointed
7.	Comptroller	Mr. Ajay Kumar Sharma	01-09-2020	3	Appointed
8.	Associate Director Research (Seed & Farm)	Dr. S.S. Tomar	14-02-2011	9	Appointed
9.	Dean, Student Welfare	Dr. S. P. S. Tomar	04-11-2008	12	Nominated
10.	Dean College of Agriculture, Gwalior	Dr. J. P. Dixit	28-08-2019	3	Nominated
11.	Dean College of Agriculture, Indore	Dr. A.K. Sharma	01-01-2021	3	Nominated
12.	RAK, Dean College of Agriculture, Sehore	Dr. H. D. Verma	26-08-2019	3	Nominated
13.	BM, Dean College of Agriculture, Khandwa	Dr. U. P. S. Bhadauria	05-09-2019	3	Nominated
14.	KNK, Dean College of Horticulture, Mandsaur	Dr. Mridula Billore	07-09-2020	3	Appointed
15.	I PRO	Mr. Y.M. Indapurkar	06-09-2008	12	Appointed

6.6.1.4. Decentralization of power

Vice-Chancellor:

- To sanction recurring and nonrecurring expenditure within the approved budget of the University provided he may re-appropriate amounts within the various units of appropriations.
- To countersign on own T.A. Bills subjects to the provisions of the University T.A. rules.
- To open account on behalf of the University in the Schedule Bank in accordance with subsection (3) of section 34 of the Act and to authorize any drawing and disbursing officer of the University to operate such an account.
- To grant leave as per delegation of powers for duties emoluments terms and conditions of service and powers and duties of officer of the University other than Chancellor and Vice-Chancellor.
- Vice-Chancellor in absence of the Chancellor preside any convocation of the University.
- Vice-Chancellor is the ex-officio member and chairman of the Board, Academic and Administrative Council.
- Vice-Chancellor has power to convene meetings of Board, Academic and Administrative Council.
- In any emergency, he may take action as deems necessary and at the earliest opportunity thereafter report his action to such officer, authority of body as would have in the ordinary course dealt with the matter.

Deans of Faculty

- Chairman of the faculty
- Administration and execution of faculty policy
- Implementation of statutes and other regulation related to faculty
- Over all control on the staff working on teaching in the faculty
- Overall in-charge of teaching for Bachelor degrees offer by the faculty
- To perform duty of the Vice Chancellor in his absence

Registrar

- Official correspondence for the University
- Custodian of records, common seal and other property of the University
- Act as secretary in meeting of the Board, Academic council and any other bodies and committees and issue notice
- Preparation and finalization of annual report
- Official correspondence for Board, Academic Council and other bodies
- Administer statutes of the University with respect to admission of student
- Organize examination, evaluation of answer sheet and declaration of result of various degree programmes
- Issue certificates of various degree programmes

Comptroller

- Exercise general supervision over the funds of the University and shall advise the Board in regard to its financial policy subject to the control of the Board
- Manage the property and investment of the University

- Be responsible for seeing that all moneys are expended on the purpose for which they are granted or allotted and no expenditure not authorized in the budget, is incurred by the University
- Preparation of the financial estimate of the university
- Disburse payment to the employees

Director Research Services

- Planning and prosecution of research activities in the University
- Preparation and approval of research programmes
- Preparation and approval of annual budget of research activities
- Over all control on the staff working under research project
- Approval on publications related to research
- Correspondence on projects with agencies providing financial assistance

Director Extension Services

- Planning and prosecution of extension activities in the University
- Preparation and approval of extension programmes
- Preparation and approval of annual budget of extension activities
- Over all control on the staff working on extension activities
- Approval on publications related to extension
- Over all control of on campus and off campus educational work involving farmers and rural families

Director Instructions

- Over all in-charge of education at Master and Doctorate level
- To control uniform standard of teaching of examination of the university
- To improve teaching at the University level
- Arrange external examiner for various examination at Master and Doctorate level
- Permission to the staff to participate in various training programme for human resource development

Director of Farms

- Over all control on the University farms
- Planning, development and management of farms
- Preparation of annual budget proposal of the farms
- Sale of farm produce

Dean Student welfare

- To plan and organize all co and extracurricular activities of student
- Management of physical education activities, NCC and other alive activities
- Management of student hostel
- Maintenance of student discipline
- Supervise medical facility
- Arrangement of scholarship
- Communicate guardian of student

6.6.1.5. Supporting Units:

Maintenance cell: Following work is being carried out by Maintenance Cell

1. Computer System Maintenance department:

- Data Center of RVSKVV Maintain and administer computer networks and related computing environments, including computer hardware, systems software, applications software, and all configurations
- Website & Software support and maintenance, preparation of requirements, uploading of data on University Website: <http://www.rvskvv.net>.
- Lease line and BSNL line for Internet Maintenance & support
- Maintenance & support of CCTV cameras and keep the backup of video recorded.
- Telephone & Intercom system support with Plan, coordinates, and implements telephone security measures in order to protect data, software, and hardware.
- Cabling, instrument maintenance, intercom system configuration etc.
- Printer repairing & maintenance viz. analyze printer, purchasing of new printers, repairing of existing dot matrix, laser jet, desk jet printers

2. Electrical Maintenance department:

- In college campus including college building, boy's hostels, girls' hostel, staff quarter, canteen and mess.
- To provide uninterrupted electrical power supply
- Installation, testing, commissioning operation and maintenance of electrical lines, cable, panels, capacitor units, equipments etc.
- Internal electrification of distribution and utilization work.
- Operation & maintenance of 11/0.44 KV distribution transformer.
- Operation & maintenance of 250 KVA Diesel Generator set.
- Energy saving & energy audit management work.
- 24/7 hours duties of electrical staff.
- Electrical safety & electrical inspection work in the campus.
- A 75 KVA Diesel Genset as a standby is installed to take care of uninterrupted power supply to the entire campus including hostels and quarters.

3. Civil Maintenance department:

- Water supply to whole campus including college building, hostels, Admin block & staff quarters.
- Maintain the garden & landscape of the campus.
- Repairing & Maintain plumbing facility.
- Housekeeping & cleanliness in the campus.
- Repair & maintenance structural issues in buildings & roads.
- Cost estimate of material or labors to determine projects economical feasibility.
- Maintenance of Central Seminar Hall & Gymkhana
- Spacious parking facility is provided for all types of vehicles of staff and students.

SC/ST Cell:

The Scheduled Caste (SC) and Scheduled Tribes (ST) Cell in an institute promotes the special interests of students in the reserved category. It is expected to provide special inputs in areas where the students experience difficulties.

1. Remedial/Co-Curricular Coaching:

At RVSKVV, remedial/co-curricular classes are conducted in the following areas, depending upon the students' interest: ÿ Language classes for English, ÿ Skill workshops for use of the library, writing an assignment, making presentation in class, public speaking, job selection and job interviews, ÿ Coaching in basic subjects such as social research and field work recordings, and ÿ Orientation on scholarships available for higher studies.

2. Grievance Redressal:

The SC/ST/OBC/PWD students can approach the Section Officer/Liaison Officer of the Cell for redressal of any grievance(s) regarding academic, administrative or social problems. The Section Officer/Liaison Officer will meet the concerned students, understand their problem and take necessary action and/or render them necessary advice/help to resolve the matter.

Health Facilities: The colleges provide health care facility to the students by providing First-Aid and other basic facilities and when required a separate room is earmarked. Doctors are available on call whenever the need arises. Medical facility is also extended to the physical education department of the college at the time of matches like volleyball, cricket, table tennis etc.

Furthermore at the time of college outings first-aid facility is made available to the students. College health-service programs provide low-cost, primary medical care for the students on college campuses. Just as modern medicine has changed, so too has the scope of services provided by college health centers. Medical developments are allowed for most injuries and illnesses to be treated by ambulatory clinics, and this same trend is seen in most college health centers. These centers often provide care for acute illnesses and injuries on an outpatient basis, while also meeting the needs of students with continued and chronic illnesses and providing wellness education to the campus community.

Staffing: College health-service staffs vary widely in the range and level of services they provide. Once directed mainly by part-time medical doctors, most college health centers.

Services: The most common, and a primary focus of college health-service programs, is that of intervention and health, or wellness, education. Although all student health centers concern themselves with the immediate healing of ill students, most will also work to educate students about approaches to healthier lifestyles in order to prevent future illness or injury. Wellness themes exhibited on many college campuses are health and nutrition, stress management, eating disorder awareness, smoking cessation and prevention, time management, alcohol abuse prevention, strategies to avoid depression, and issues around sexually transmitted diseases and their prevention. Some colleges maintain twenty-four-hour care for students; however, most colleges maintain regular weekly hours during the academic year with a system for emergency assistance when needed.

- The quality education is the top most priority for which.
- It is necessary to improve the infrastructure and teaching capabilities of the faculty under HRD.
- The teachers, scientist and subject matter specialist of the university are allowed to obtain trainings from national and international institutions to update their knowledge.
- Faculty also participate in national and international seminars, symposia, conferences, workshops, group meetings, travelling workshops etc. in order to get acquainted with new technologies, innovative approaches and strengthen the linkages and coordination
- The colleges have well equipped laboratories, libraries, instructional farms, ARIS cells linked with global information system, class-room facilities and qualified faculty.
- Inter campus movement is also allowed to the students to conduct their research for utilizing the expertise and infrastructure facilities.

6.6.1.6. Technology Support: The Colleges have been made well equipped with latest technological support systems like internet, e-dias, LCD projectors, multimedia projectors, interactive boards, Laptops, Desktops, CCTV Cameras, *etc.* which have been immensely advantageous in numerous ways including preparation of good quality teaching materials for students and better convincing way of presentation of course contents in the class rooms. The modernized learning atmosphere empowers the students to develop better understanding of the course content to prepare themselves for various interviews and competitive examinations. The installation of Biometric attendance machine has been worthwhile in several ways.

Smart classroom facility: In order to produce the world class highly skilled Graduates in the present globalized scenario, the Smart classrooms are the need of the hour. From the means of communication to the building of smart cities, from bullet trains to digitalization of almost everything, when everything is technology driven, the psyche of the learners are ready to grab the knowledge when presented through the involvement of state-of-the-art gadgets. The smart class rooms may be one of such means that will duly facilitate the bent of mind of the technology driven modern young generation that well absorbs the concepts when presented with the help of power point projector as the class room manager takes the help of the selected and important topics from the ocean of knowledge. In a smart class room, the learners are facilitated with the controlled environment with the installation of air conditioners thereby furnishing noiseless surroundings for better meditative concentration. Both the manner and matter of learning in a smart class room make a student ready to meet the ensuing challenges head on in the tough world of competition.

6.6.1.7. Institutional Data Base and Website Update: The conventional definition of data would include factual information (as measurements or statistics) used as a basis for
RAJMATA VIJAYARAJE SCINDIA KRISHI VISHWA VIDYALAYA, GWALIOR (M.P.)

recording, characterization, reasoning, discussion or calculation. The Data for the purpose of these guidelines would include all those education, research and extension products necessary to validate the integrity of published or reported work. It would, therefore, potentially consist of much more than just information and observations written in a lab notebook as part of scientific inquiry but also the materials, the means and the products of that inquiry.

All data collected/generated from research, educational or allied activities conducted at the Institute and using RVSKVV, Gwalior resources shall belong to ICAR, including data generated from student education and research work or by consultants hired by Institute/ICAR. This shall imply retaining the data after the project is completed and the right to transfer data to third parties. Exceptions may be subject to restrictions stipulated in Institute/ICAR-approved agreements for collaborative research, sponsored research, contract research or contractual services rendered to third parties.

The PME Cell of the institute shall be the nodal unit in the institute to manage data from education, research and extension activities under various projects. The Director of the institute shall be the Competent Authority to implement these guidelines and take appropriate decisions as per the guiding principles.

6.6.1.8. Interdepartmental Linkages:

The university is currently adopting decentralized, participatory, adaptive and multifarious demand-supply side extension-research-academic approach by involving faculty of all the sectors i.e. research, teaching and extension to fulfil all the three mandates by integrated approach.

Public, private and civil society are involved in research and extension programmes and strengthening capacity of farmers, researchers and extension workers. Many research projects extension activities are under operation successfully to fulfill the objectives.

For utilization of facilities in research and teaching linkage between university/college are strengthened. International linkage are developed to establish the enterprises and infuse efficiency. International linkage for dual degree programme and admission of foreign students. Student and faculty exchange programme at international level has been established.

RVSKVV has signed MoU with Dalhousie University, Canada, Research Institute of Organic Agriculture, Fibl, Switzerland, Crops Research Institute for the Semi-Arid Tropics (hereinafter referred to as "ICRISAT", Hyderabad, Wageningen University , Netherland, Borlaug Institute for south Asia (BISA), Jabalpur, CGIAR System Management Office, France, ICARDA 1000, Avenue Agropolis F-34394, France, International maize and wheat improvement centre (CIMMYT), Mexico.

further , there is collaboration between Rajmata Vijayaraje Scindia Krishi Scindia Krishi Vishwa Vidyalaya, Gwalior and different Institutes like Entrepreneurship

6.6.1.9. Monitoring Mechanism: For governance of the Colleges teaching, research and extension different councils have been constituted to regulate the teaching research and extension.

The University has well organized system of monitoring and evaluation through their Directors and Deans and finally by Vice-Chancellor. For this purpose, Deans and Directors meet every month for effective Monitoring and Evaluation of the system. Further, a separate Project Monitoring & Evaluation (PME) cell has been constituted to monitor and evaluate research project.

The monitoring of KVKs is a regular feature of the Directorate of Extension for which three Joint Director, three Associate Professors and one Scientists have been engaged. Beside this Hon'ble Vice-Chancellor, Director Research Services, Director Extension Services and Dean (s) of the Colleges also visit KVKs for monitoring of mandatory activities. The Directorate make all the communication through email with KVKs thereby promptness in communication and information exchange is ensured.

The dean of each constituent college arranges a meeting with students of Bachelor, Master and Doctorate degree programme separately. Feedback pro forma is circulated amongst the out-going students regarding teaching-learning process. The meeting covers views of the students on improvement of teaching and learning

How to improve class room teaching?

- Why students are not interested to participate in the class?
- How to improve course curriculum?
- Quality of teacher according to students
- How to improve practical classes?
- Provision of Semester break

- Improvement in time table
- How to make class viable
- System of examination
- Facilities of library
- Separate classes for poor and extraordinary students
- Classes to improve command on English
- Other please specify

Co-curricular activities

- NCC
- NSS
- Coaching for competitive examination
- Career guidance
- Personality development
- Educational tour
- Other please specify

Extras curricular activities

- Sports activities and facilities
- Cultural activities and facilities
- Other regular competition
- Other please specify

Infrastructure

- Classroom facilities
- Hostel facilities
- Sports facilities
- Internet
- Other specify

Specific views of students to improve teaching and learning at Master and Doctorate degree level on point other than mentioned above

- Seminar
- Examination
- Curricular research
- Thesis
- Other specify
- *Other points related to teaching and learning may be included.*

6.6.1.10. Institute Quality Assurance Cell /PME Cell:

Prioritization, Monitoring and Evaluation Cell:

The PME Cell of the institute shall be the nodal unit in the institute to manage data from education, research and extension activities under various projects. The Director of the institute shall be the Competent Authority to implement these guidelines and take appropriate decisions as per the guiding principles.

About PME

- i) To coordinate and synthesize the recommendations of QRT, RAC, IRC, Vision Documents of University and to recommend research priorities of the university (priority setting)
- ii) Annual updating and presenting the report to the Hon'ble V.C of the university for assigning research projects.
- iii) To coordinate and arrange for annual monitoring of each on-going project and evaluation of completed projects through internal and external experts.
- iv) To coordinate and arrange for technology validation and/or impact assessment of successful technology claimed by scientist(s) through internal and external experts.
- v) Regularly sensitizing and capacity building of research managers and scientists through training programmes.
- vi) Maintaining information on publications, technologies developed, IPRs, consultancies, projects undertaken in the past 10 years and on-going projects.

Project Monitoring and Evaluation Committee (PMC)

Chairman

All Heads of Divisions

Members

I/c PME Cell

Member Secretary

VISION AND MISSION OF THE ONGOING IDP-NAHEP

Vision:

Create a dynamic first stop agricultural education learner centre through RVSKVV IDP to strengthen the undergraduate system for addressing the skill needs of agri-entrepreneurship by designing successful entrepreneurship oriented professionals with an international outlook that are scholarly acclaimed, life enhancing, socially sensitive and environmentally responsible.

Mission:

To develop globally competent quality human resources with national and international outlook to lead the educational institutions, developmental organizations and agri - based industries through a network of all stakeholders for knowledge sharing and value addition for achieving acclaimed output.

Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya (RVSKVV), Gwalior has been contributing immensely in the field of education while revolutionizing agriculture in Madhya Pradesh since its inception in the year 2008 and has made an indelible mark within a short spell of time. However, to develop globally competent quality human resources with national and international outlook RVSKVV IDP is planned to be implemented to face the ever changing agricultural scenario by strengthening the undergraduate education system for addressing the skill needs of entrepreneurs in agriculture relevant to the agro-eco region. The proposal focuses on improving the quality education in RVSKVV with emphasis on providing a conducive learning environment, developing relevant curriculum, modernization of classrooms, state of the art library, reforms in governance and capacity building of students and faculties. Development of a strong alumni network to work with mentor mentee system will be a priority. Project also aims to lay emphasis on infusion of soft skills in students with an objective to train them as job providers by enabling them to opt for self-employment rather than to place their preferences to serve various agri-based industries, educational institutions and other development organizations. The project also envisages developing forward and backward linkages with the industries for mutual benefits. Such linkage shall provide internship opportunities for the students to gain vital hands-on experience in agribusiness and a platform to transform themselves into a successful new generation of agri-business leaders. The project has been designed with objective wise activity plan, quantifiable deliverables, and measurable indicators that can be monitored. The total outlay of the IDP project is Rs 2441.04 Lakhs.

6.6.1.11. Collaboration with Academic Institutions and Industry: Research and Extension type collaboration are currently in place with academic institutions and industry are given below:

INTER INSTITUTIONAL COLLABORATION:

The University has established close linkages with national and international research institutes/organizations for conducting collaborative research programmes at Post Graduate and Ph.D. levels. In these programmes, students complete their course work at the university and carry out their research at other institutions.

MOU OF UNIVERSITY (RVSKVV) WITH DIFFERENT INSTITUTIONS /UNIVERSITIES

Item No. 7

M. ADESHI, CHIEF OF THE DEPARTMENT OF ANIMAL SCIENCE

1. What are the major achievements of the department during the last five years?

The department has been successful in many areas. In the field of research, we have published several papers in national and international journals. We have also secured several research grants from various agencies. In the field of extension, we have organized many seminars, workshops, and field days for the benefit of the farmers. We have also conducted many training programs for the students and staff.

2. What are the major problems faced by the department during the last five years?

The department has faced several major problems during the last five years. One of the major problems is the shortage of staff. This has led to an increase in the workload of the existing staff, which has affected the quality of the work. Another major problem is the lack of funds. This has led to a shortage of resources for the department, which has affected the progress of the research and extension activities.

3. What are the major recommendations made by the department during the last five years?

The department has made several major recommendations during the last five years. One of the major recommendations is to increase the number of staff. This would help to reduce the workload of the existing staff and improve the quality of the work. Another major recommendation is to increase the funds. This would help to provide the department with the resources it needs to carry out its research and extension activities.

<p>and the two main departments of the Government of Madhya Pradesh. The Government of Madhya Pradesh has been the mainstay of the Government of India in the field of agriculture and rural development. 	<p style="text-align: center;">(2)</p> <p>Question-02(a) Answer</p> <p>1. What are the major sources of water for irrigation?</p> <p>Water is the most important natural resource for agriculture. It is essential for the growth of crops and the survival of livestock. The major sources of water for irrigation are:</p> <ul style="list-style-type: none"> • Surface water: This includes water from rivers, streams, and canals. It is the most common source of water for irrigation. • Groundwater: This is water that is stored in the soil and rocks beneath the ground. It is accessed through wells and boreholes. • Atmospheric water: This is water that falls from the sky as rain or snow. It is the most natural source of water for agriculture. • Desalination: This is the process of removing salt from seawater to make it suitable for drinking and irrigation. • Wastewater treatment: This is the process of treating wastewater from cities and industries to make it suitable for irrigation. <p>2. What are the major sources of energy for irrigation?</p> <p>Energy is essential for the operation of irrigation systems. The major sources of energy for irrigation are:</p> <ul style="list-style-type: none"> • Electricity: This is the most common source of energy for irrigation. It is used to power pumps and motors. • Diesel fuel: This is another common source of energy for irrigation. It is used to power diesel engines that drive pumps and motors. • Solar energy: This is a clean and renewable source of energy for irrigation. It is used to power solar pumps and motors. • Wind energy: This is another clean and renewable source of energy for irrigation. It is used to power wind pumps and motors. <p>3. What are the major sources of fertilizer for agriculture?</p> <p>Fertilizer is essential for the growth of crops. The major sources of fertilizer for agriculture are:</p> <ul style="list-style-type: none"> • Chemical fertilizers: These are synthetic fertilizers that are made from chemical compounds. They provide plants with the nutrients they need to grow. • Organic fertilizers: These are natural fertilizers that are made from animal manure, plant matter, and other organic materials. They provide plants with nutrients and improve the soil. • Biological fertilizers: These are fertilizers that are made from living organisms, such as bacteria and fungi. They help plants to absorb nutrients from the soil. <p>4. What are the major sources of pest control for agriculture?</p> <p>Pest control is essential for the protection of crops. The major sources of pest control for agriculture are:</p> <ul style="list-style-type: none"> • Chemical pesticides: These are synthetic pesticides that are used to kill or control pests. They can be very effective, but they can also be harmful to the environment and to humans. • Biological pest control: This is the use of natural predators to control pests. It is a more sustainable and environmentally friendly method of pest control. • Physical pest control: This is the use of physical methods to control pests, such as traps and barriers. It is also a more sustainable and environmentally friendly method of pest control.

1. The first part of the report discusses the overall performance of the university in the field of agriculture. It highlights the university's commitment to providing quality education and research in various agricultural disciplines. The report also mentions the university's efforts to promote sustainable agriculture and rural development.

2. The second part of the report focuses on the university's academic programs and research activities. It provides a detailed overview of the various courses offered by the university, including undergraduate, postgraduate, and doctoral programs. The report also discusses the university's research output, including the number of research papers published, books written, and patents granted.

3. The third part of the report discusses the university's infrastructure and facilities. It provides a detailed overview of the university's campus, including the various buildings, laboratories, and libraries. The report also discusses the university's efforts to improve its infrastructure and facilities to provide a better learning and research environment for its students and faculty.

4. The fourth part of the report discusses the university's financial performance. It provides a detailed overview of the university's income and expenditure, including the various sources of income and the various expenses incurred. The report also discusses the university's efforts to improve its financial performance and ensure the sustainability of its operations.

5. The fifth part of the report discusses the university's social and community service activities. It provides a detailed overview of the various programs and projects implemented by the university to promote social and community development. The report also discusses the university's efforts to engage with the local community and promote sustainable development.

6. The sixth part of the report discusses the university's future plans and goals. It provides a detailed overview of the various initiatives and projects planned by the university for the next few years. The report also discusses the university's efforts to improve its overall performance and ensure its long-term sustainability.

7. The seventh part of the report discusses the university's achievements and accomplishments. It provides a detailed overview of the various awards and honors received by the university and its faculty members. The report also discusses the university's contributions to the field of agriculture and rural development.

8. The eighth part of the report discusses the university's challenges and opportunities. It provides a detailed overview of the various challenges faced by the university and the opportunities available to it. The report also discusses the university's efforts to address these challenges and seize these opportunities.

9. The ninth part of the report discusses the university's impact on the society. It provides a detailed overview of the various ways in which the university has contributed to the development of the society. The report also discusses the university's efforts to promote social and community development.

10. The tenth part of the report discusses the university's vision and mission. It provides a detailed overview of the university's long-term vision and the mission that guides its operations. The report also discusses the university's efforts to realize this vision and mission.

1. The University is a member of the Indian Council of Agricultural Universities (ICAU) since its formation in 1962. It is also a member of the Central Board of Secondary Education (CBSE) since its formation in 1956. The University is a member of the Central Board of Secondary Education (CBSE) since its formation in 1956. The University is a member of the Central Board of Secondary Education (CBSE) since its formation in 1956.

1. Introduction

The purpose of this study is to evaluate the performance of the agricultural university in terms of its research, extension, and teaching activities. The study is based on a self-study report prepared by the university and is intended to provide a comprehensive overview of its activities and achievements.

The objectives of the study are to identify the strengths and weaknesses of the university, to assess its impact on the agricultural sector, and to provide recommendations for its improvement.

The methodology used in this study is a self-study approach, which involves the collection and analysis of data from various sources, including the university's reports, documents, and records. The data is then analyzed to identify trends and patterns, and to draw conclusions about the university's performance.

The results of the study are presented in the following sections. The first section discusses the university's research activities, which are aimed at advancing the frontiers of knowledge in agriculture. The second section discusses the university's extension activities, which are aimed at providing technical assistance and training to farmers and other stakeholders in the agricultural sector. The third section discusses the university's teaching activities, which are aimed at providing quality education to students and faculty members.

The conclusions drawn from the study are that the agricultural university has made significant progress in its research, extension, and teaching activities. However, there are still some areas where improvement is needed, such as in the areas of infrastructure, faculty development, and financial resources. The recommendations provided in the study are intended to address these issues and to ensure the continued growth and development of the university.

1. The first part of the report discusses the overall performance of the university in the field of agriculture. It highlights the university's commitment to providing quality education and research in various agricultural disciplines. The report also mentions the university's efforts to promote sustainable agriculture and rural development.

2. The second part of the report focuses on the university's academic programs. It provides a detailed overview of the undergraduate and postgraduate courses offered, along with the faculty members involved in teaching and research. The report also discusses the university's infrastructure and facilities, including laboratories, libraries, and student organizations.

3. The third part of the report addresses the university's financial and administrative aspects. It provides information on the university's budget, income sources, and expenditure. The report also discusses the university's governance structure and the role of various committees and boards.

4. The fourth part of the report discusses the university's outreach and extension activities. It highlights the university's efforts to provide technical assistance and training to farmers and rural communities. The report also mentions the university's involvement in various social and cultural activities.

5. The fifth part of the report discusses the university's future plans and goals. It outlines the university's vision for the next five years and the strategies to achieve this vision. The report also mentions the university's commitment to continuous improvement and innovation in agriculture.

6. The sixth part of the report discusses the university's impact on society. It highlights the university's contributions to the development of the region and the country. The report also mentions the university's role in promoting social justice and equality.

7. The seventh part of the report discusses the university's challenges and opportunities. It identifies the key areas where the university needs to improve and the opportunities available to it. The report also mentions the university's commitment to addressing these challenges and seizing these opportunities.

8. The eighth part of the report discusses the university's achievements and awards. It highlights the university's success in various fields, including research, teaching, and extension. The report also mentions the university's recognition by various national and international organizations.

9. The ninth part of the report discusses the university's future prospects. It outlines the university's potential for growth and development in the coming years. The report also mentions the university's commitment to maintaining its high standards of quality and excellence.

10. The tenth part of the report discusses the university's conclusion. It summarizes the key findings of the self-study report and provides recommendations for improvement. The report also mentions the university's commitment to transparency and accountability.

[Faint, illegible text in the bottom section of the page]

1. The first part of the report deals with the general information about the university. It includes the name of the university, its location, the year of its establishment, and the area under its jurisdiction. It also mentions the number of colleges and departments, the number of students, and the number of faculty members. The second part of the report deals with the academic activities of the university. It includes the details of the courses offered, the number of students enrolled, and the number of faculty members. The third part of the report deals with the research activities of the university. It includes the details of the research projects, the number of students involved, and the number of faculty members. The fourth part of the report deals with the extension activities of the university. It includes the details of the extension projects, the number of students involved, and the number of faculty members. The fifth part of the report deals with the financial activities of the university. It includes the details of the income and expenditure, and the financial position of the university. The sixth part of the report deals with the infrastructure of the university. It includes the details of the buildings, the equipment, and the facilities. The seventh part of the report deals with the administrative activities of the university. It includes the details of the administrative structure, the number of staff members, and the administrative procedures. The eighth part of the report deals with the future plans of the university. It includes the details of the proposed projects, the number of students, and the number of faculty members.

[Faint, illegible text in the bottom section of the page]

1. The first step in the process of self-study is to identify the areas of the university that are most in need of improvement. This is done by conducting a SWOT analysis (Strengths, Weaknesses, Opportunities, Threats) of the university's current performance. The results of this analysis are used to develop a strategic plan that outlines the university's vision, mission, and goals for the next five to ten years.

2. The second step is to establish a self-study committee. This committee is responsible for coordinating the self-study process and reporting to the university's governing body. The committee typically includes representatives from all major departments and faculties, as well as students and staff members.

3. The third step is to conduct a comprehensive review of the university's current performance. This involves collecting data on a wide range of factors, including academic quality, research productivity, financial health, and student satisfaction. The data is then analyzed to identify strengths and weaknesses, and to determine the causes of any problems.

4. The fourth step is to develop a self-study report. This report provides a detailed account of the university's current performance, as well as the findings of the self-study process. It also includes recommendations for improvement and a plan of action to address the identified weaknesses.

5. The fifth and final step is to implement the recommendations of the self-study report. This involves developing a detailed implementation plan that outlines the specific actions to be taken, the responsible parties, and the timeline for completion. The university's governing body is responsible for overseeing the implementation process and ensuring that the recommendations are fully implemented.

1. The first step in the process of self-study is to identify the areas of the university that are most in need of improvement. This is done by conducting a SWOT analysis (Strengths, Weaknesses, Opportunities, Threats) of the university's current performance. The results of this analysis are used to develop a strategic plan that outlines the university's vision, mission, and goals for the next five to ten years.

2. The second step is to establish a self-study committee. This committee is responsible for coordinating the self-study process and reporting to the university's governing body. The committee typically includes representatives from all major departments and faculties, as well as students and staff members.

3. The third step is to conduct a comprehensive review of the university's current performance. This involves collecting data on a wide range of factors, including academic quality, research productivity, financial health, and student satisfaction. The data is then analyzed to identify strengths and weaknesses, and to determine the causes of any problems.

4. The fourth step is to develop a self-study report. This report provides a detailed account of the university's current performance, as well as the findings of the self-study process. It also includes recommendations for improvement and a plan of action to address the identified weaknesses.

5. The fifth and final step is to implement the recommendations of the self-study report. This involves developing a detailed implementation plan that outlines the specific actions to be taken, the responsible parties, and the timeline for completion. The university's governing body is responsible for overseeing the implementation process and ensuring that the recommendations are fully implemented.

The objective of the study is to assess the current status of the university and to identify the areas where improvement is needed. The study is based on a survey of the faculty, staff, and students. The survey was conducted in the form of questionnaires and interviews. The data collected was analyzed and the findings are presented in this report.

The study has identified several areas where improvement is needed. These include the need for more faculty members, the need for more staff members, the need for more infrastructure, and the need for more financial resources. The study also identified several areas where the university is doing well, such as its academic standards, its research output, and its community service activities.

The findings of the study suggest that the university has a long way to go to reach its full potential. However, with the right leadership and support, it can become a leading agricultural university in India. The study also suggests that the university should focus on improving its infrastructure, increasing its financial resources, and expanding its faculty and staff. It should also continue to focus on its academic standards, research output, and community service activities.

The study has identified several areas where improvement is needed. These include the need for more faculty members, the need for more staff members, the need for more infrastructure, and the need for more financial resources. The study also identified several areas where the university is doing well, such as its academic standards, its research output, and its community service activities.

The findings of the study suggest that the university has a long way to go to reach its full potential. However, with the right leadership and support, it can become a leading agricultural university in India. The study also suggests that the university should focus on improving its infrastructure, increasing its financial resources, and expanding its faculty and staff. 1. **Introduction**

The Agricultural University, Gwalior (M.P.) was established in the year 1960. It is one of the leading agricultural universities in India. The university has a long and rich history of providing quality education and research in the field of agriculture. The university is committed to the development of the agricultural sector and the welfare of the farmers.

The university has a wide range of programs and courses in various disciplines related to agriculture. It has a strong emphasis on practical training and research. The university has a large number of faculty members and staff who are dedicated to providing the best possible education and research to the students.

The university has a large number of students who are enrolled in various programs and courses. The university has a strong reputation for its quality education and research. The university is committed to the development of the agricultural sector and the welfare of the farmers.

2. **Objectives**

The main objectives of the Agricultural University, Gwalior (M.P.) are:

- To provide quality education and research in the field of agriculture.
- To develop the agricultural sector and the welfare of the farmers.
- To promote the use of modern agricultural technologies.
- To provide training and extension services to the farmers.

The university has a long and rich history of providing quality education and research in the field of agriculture. It has a strong emphasis on practical training and research. The university has a large number of faculty members and staff who are dedicated to providing the best possible education and research to the students.

The university has a large number of students who are enrolled in various programs and courses. The university has a strong reputation for its quality education and research. The university is committed to the development of the agricultural sector and the welfare of the farmers.

Main body of the self-study report containing multiple paragraphs of text, likely describing university activities, achievements, and challenges. The text is significantly faded and difficult to read.

The Department of Agricultural Education, Agricultural University, Gwalior (M.P.) has been established in the year 1972. It is a part of the Agricultural University, Gwalior (M.P.). The Department is engaged in the study, research and dissemination of knowledge in the field of Agricultural Education. It is also engaged in the training of teachers and staff in the field of Agricultural Education. The Department has been successful in the past few years in carrying out its various responsibilities. It has been able to secure the attention of the Government and the public towards the importance of Agricultural Education. It has also been able to secure the necessary funds for its various activities. The Department has been successful in carrying out its various responsibilities. It has been able to secure the attention of the Government and the public towards the importance of Agricultural Education. It has also been able to secure the necessary funds for its various activities.

The Department of Agricultural Education, Agricultural University, Gwalior (M.P.) has been successful in the past few years in carrying out its various responsibilities. It has been able to secure the attention of the Government and the public towards the importance of Agricultural Education. It has also been able to secure the necessary funds for its various activities. The Department has been successful in carrying out its various responsibilities. It has been able to secure the attention of the Government and the public towards the importance of Agricultural Education. It has also been able to secure the necessary funds for its various activities.

1. The first step in the development of a self-study report is to identify the objectives of the report. The objectives should be clear, concise, and measurable. They should also be aligned with the mission and vision of the institution.

2. The next step is to gather data. This can be done through a variety of methods, including interviews, surveys, focus groups, and document analysis. It is important to ensure that the data is reliable and valid.

3. Once the data has been gathered, it needs to be analyzed. This involves identifying patterns, trends, and areas of concern. It is also important to consider the context of the data and how it relates to the objectives of the report.

4. The final step is to write the report. This should be a clear and concise summary of the findings of the study. It should also include recommendations for improvement and a plan of action.

5. The report should be shared with the stakeholders of the institution, including faculty, staff, and students. This will allow them to provide feedback and input into the process of improvement.

6. The report should be used as a tool for self-reflection and improvement. It should be reviewed regularly and used to inform decision-making and planning. It should also be used to communicate the findings of the study to the wider community.

7. The report should be a living document that evolves over time. It should be updated as new data is gathered and as the institution's needs and priorities change.

8. The report should be a catalyst for change. It should inspire and motivate the stakeholders of the institution to work together to improve the quality of education and research.

9. The report should be a source of pride and accomplishment for the institution. It should demonstrate the institution's commitment to self-improvement and excellence.

10. The report should be a model for other institutions. It should provide a clear and concise example of how to conduct a self-study and use the findings to improve the institution.

The report is submitted in accordance with the guidelines issued by the Council of Agricultural Universities, Government of India, New Delhi, India. The report is submitted in accordance with the guidelines issued by the Council of Agricultural Universities, Government of India, New Delhi, India.

The report is submitted in accordance with the guidelines issued by the Council of Agricultural Universities, Government of India, New Delhi, India. The report is submitted in accordance with the guidelines issued by the Council of Agricultural Universities, Government of India, New Delhi, India.

The self-study report is a comprehensive document that provides a detailed overview of the university's performance and activities. It is a key tool for self-reflection and improvement, allowing the university to identify its strengths and weaknesses, and to develop strategies for future growth and development.

The report is structured into several sections, each focusing on a different aspect of the university's operations. These sections include:

- Introduction:** This section provides an overview of the university's mission, vision, and values. It also outlines the scope and objectives of the self-study report.
- Academic Performance:** This section discusses the university's academic achievements, including its research output, teaching quality, and student outcomes. It also identifies areas for improvement in these areas.
- Administrative Performance:** This section examines the university's administrative functions, including its financial management, human resources, and infrastructure. It also identifies areas for improvement in these areas.
- External Relations:** This section discusses the university's relationships with its stakeholders, including its government, industry, and community. It also identifies areas for improvement in these areas.
- Conclusion:** This section summarizes the key findings of the self-study report and provides recommendations for future action.

The self-study report is a valuable tool for the university's leadership and staff, providing them with the information they need to make informed decisions about the university's future. It is also a key document for external stakeholders, providing them with a clear and concise overview of the university's performance and activities.

1. The first part of the report deals with the general information about the university. It includes the name of the university, its location, the year of its establishment, and the names of its founders. It also mentions the affiliation of the university and the name of its governing body.

2. The second part of the report deals with the academic structure of the university. It includes the names of the faculties, the departments, and the courses offered. It also mentions the names of the heads of the faculties and departments.

3. The third part of the report deals with the administrative structure of the university. It includes the names of the various offices and their heads. It also mentions the names of the various committees and their members.

4. The fourth part of the report deals with the financial structure of the university. It includes the names of the various sources of income and the names of the various expenditure heads. It also mentions the names of the various committees and their members.

5. The fifth part of the report deals with the infrastructure of the university. It includes the names of the various buildings and their areas. It also mentions the names of the various committees and their members.

6. The sixth part of the report deals with the human resources of the university. It includes the names of the various staff members and their designations. It also mentions the names of the various committees and their members.

7. The seventh part of the report deals with the achievements of the university. It includes the names of the various awards and honors received by the university. It also mentions the names of the various committees and their members.

8. The eighth part of the report deals with the future plans of the university. It includes the names of the various projects and schemes. It also mentions the names of the various committees and their members.

9. The ninth part of the report deals with the conclusion of the study. It includes the names of the various findings and recommendations. It also mentions the names of the various committees and their members.

10. The tenth part of the report deals with the annexures. It includes the names of the various documents and reports. It also mentions the names of the various committees and their members.

11. The eleventh part of the report deals with the bibliography. It includes the names of the various books and articles. It also mentions the names of the various committees and their members.

12. The twelfth part of the report deals with the index. It includes the names of the various pages and their contents. It also mentions the names of the various committees and their members.

13. The thirteenth part of the report deals with the list of abbreviations. It includes the names of the various abbreviations and their meanings. It also mentions the names of the various committees and their members.

14. The fourteenth part of the report deals with the list of symbols. It includes the names of the various symbols and their meanings. It also mentions the names of the various committees and their members.

15. The fifteenth part of the report deals with the list of figures. It includes the names of the various figures and their meanings. It also mentions the names of the various committees and their members.

16. The sixteenth part of the report deals with the list of tables. It includes the names of the various tables and their meanings. It also mentions the names of the various committees and their members.

17. The seventeenth part of the report deals with the list of references. It includes the names of the various references and their meanings. It also mentions the names of the various committees and their members.

18. The eighteenth part of the report deals with the list of appendices. It includes the names of the various appendices and their meanings. It also mentions the names of the various committees and their members.

19. The nineteenth part of the report deals with the list of footnotes. It includes the names of the various footnotes and their meanings. It also mentions the names of the various committees and their members.

20. The twentieth part of the report deals with the list of endnotes. It includes the names of the various endnotes and their meanings. It also mentions the names of the various committees and their members.

1. **Introduction**

The purpose of this report is to provide a comprehensive overview of the current status and future prospects of the institution. It is intended to serve as a reference for the stakeholders and to provide a basis for the development of the institution's strategic plan.

The report is organized into several sections, including an overview of the institution, a detailed analysis of the current status, and a discussion of the future prospects. The findings and recommendations are presented in a clear and concise manner, and are intended to provide a basis for the development of the institution's strategic plan.

2. **Current Status**

The institution has a long and distinguished history, and has achieved significant milestones in the field of agriculture. It has a strong academic reputation, and is recognized as a leading institution in the region. The institution has a wide range of programs and services, and is committed to providing high-quality education and research to its students and faculty.

The institution has a strong focus on research and development, and has made significant contributions to the field of agriculture. It has a strong network of collaborations with other institutions and organizations, and is committed to promoting the development of the agricultural sector in the region.

The institution has a strong focus on social service and extension activities, and is committed to providing support and assistance to the farmers and rural communities in the region. It has a strong network of collaborations with other organizations and institutions, and is committed to promoting the development of the agricultural sector in the region.

Table with multiple columns and rows containing text, mostly illegible due to extreme blurriness.

The study was conducted over a period of one year from January to December 2020. The data was collected through various sources including interviews, focus group discussions, and document analysis. The findings of the study are presented in the following sections.

The first section discusses the current status of the university and its various departments. The second section discusses the strengths and weaknesses of the university. The third section discusses the recommendations for the improvement of the university.

The study has identified several key areas for improvement, including the need for more faculty members, the need for more infrastructure, and the need for more research and development. The recommendations are based on the findings of the study and are intended to provide a roadmap for the future of the university.

The study has also identified several strengths of the university, including its long history, its reputation, and its commitment to research and development. These strengths are intended to be leveraged to improve the university and to ensure its continued success.

The study has provided a comprehensive overview of the university and its various departments. It has also identified several key areas for improvement and provided recommendations for the future of the university. The study is intended to provide a roadmap for the future of the university and to ensure its continued success.

The study has also identified several weaknesses of the university, including the need for more faculty members, the need for more infrastructure, and the need for more research and development. These weaknesses are intended to be addressed through the recommendations provided in the study.

The study has also identified several key areas for improvement, including the need for more faculty members, the need for more infrastructure, and the need for more research and development. These areas are intended to be addressed through the recommendations provided in the study.

The study has provided a comprehensive overview of the university and its various departments. It has also identified several key areas for improvement and provided recommendations for the future of the university. The study is intended to provide a roadmap for the future of the university and to ensure its continued success.

The study has also identified several weaknesses of the university, including the need for more faculty members, the need for more infrastructure, and the need for more research and development. These weaknesses are intended to be addressed through the recommendations provided in the study.

The study has also identified several key areas for improvement, including the need for more faculty members, the need for more infrastructure, and the need for more research and development. These areas are intended to be addressed through the recommendations provided in the study.

The study has provided a comprehensive overview of the university and its various departments. It has also identified several key areas for improvement and provided recommendations for the future of the university. The study is intended to provide a roadmap for the future of the university and to ensure its continued success.

<p>1. The first part of the report is a general introduction to the university, its history, and its present status. It also includes a list of the various departments and institutes of the university.</p> <p>2. The second part of the report is a detailed account of the various departments and institutes of the university. It includes a description of the various courses of study, the faculty, and the facilities available to the students.</p> <p>3. The third part of the report is a description of the various research projects and programmes of the university. It includes a list of the various research projects, the faculty involved, and the results of the research.</p> <p>4. The fourth part of the report is a description of the various extension and public relations programmes of the university. It includes a list of the various extension programmes, the faculty involved, and the results of the extension programmes.</p> <p>5. The fifth part of the report is a description of the various administrative and financial matters of the university. It includes a list of the various administrative matters, the faculty involved, and the results of the administrative matters.</p> <p>6. The sixth part of the report is a description of the various achievements and accomplishments of the university. It includes a list of the various achievements, the faculty involved, and the results of the achievements.</p> <p>7. The seventh part of the report is a description of the various challenges and problems of the university. It includes a list of the various challenges, the faculty involved, and the results of the challenges.</p> <p>8. The eighth part of the report is a description of the various recommendations and suggestions of the university. It includes a list of the various recommendations, the faculty involved, and the results of the recommendations.</p>	<p>1. 1. The self-study report is prepared by the members of the Quality Assurance Cell (QAC) who were selected by the University. The QAC members were given the necessary orientation about the process of self-study report.

2. The QAC members were provided with the necessary data and information related to the various departments and offices of the University. They were also provided with the necessary access to the University website and other resources.

3. The QAC members were given the necessary training and guidance regarding the format and content of the self-study report. They were also provided with the necessary software and tools for data analysis and reporting.

4. The QAC members conducted a series of meetings and discussions with the various departments and offices of the University to gather the necessary data and information. They also conducted a series of field visits and observations to assess the current status of the various departments and offices.

5. The QAC members analyzed the collected data and information and identified the strengths and weaknesses of the various departments and offices. They also identified the areas for improvement and proposed the necessary measures for the same.

6. The QAC members prepared the self-study report in accordance with the format and content guidelines provided. They also provided the necessary supporting documents and evidence for the findings and recommendations.

7. The self-study report was submitted to the University and the necessary actions were taken for the implementation of the recommendations. The QAC members will continue to monitor the progress and provide the necessary support and guidance.

8. The QAC members will continue to monitor the progress and provide the necessary support and guidance. They will also conduct a series of follow-up meetings and discussions with the various departments and offices of the University to assess the implementation of the recommendations.

9. The QAC members will also conduct a series of field visits and observations to assess the current status of the various departments and offices. They will also provide the necessary training and guidance to the staff members regarding the quality assurance process.

10. The QAC members will also provide the necessary data and information related to the various departments and offices of the University. They will also provide the necessary access to the University website and other resources.

11. The QAC members will also provide the necessary training and guidance regarding the format and content of the self-study report. They will also provide the necessary software and tools for data analysis and reporting.

12. The QAC members will also conduct a series of meetings and discussions with the various departments and offices of the University to gather the necessary data and information. They will also conduct a series of field visits and observations to assess the current status of the various departments and offices.

13. The QAC members will also analyze the collected data and information and identify the strengths and weaknesses of the various departments and offices. They will also identify the areas for improvement and propose the necessary measures for the same.

14. The QAC members will also prepare the self-study report in accordance with the format and content guidelines provided. They will also provide the necessary supporting documents and evidence for the findings and recommendations.

15. The self-study report will be submitted to the University and the necessary actions will be taken for the implementation of the recommendations. The QAC members will continue to monitor the progress and provide the necessary support and guidance.

1. The first part of the report deals with the general information about the university. It includes the name of the university, its location, the year of its establishment, and the area under its jurisdiction. It also mentions the number of colleges and departments, the total number of students, and the faculty strength. The report also mentions the various facilities available to the students, such as libraries, laboratories, and sports grounds.

2. The second part of the report deals with the academic performance of the university. It includes the details of the various courses offered, the number of students enrolled in each course, and the results of the examinations. It also mentions the various awards and honors received by the university and its students.

3. The third part of the report deals with the financial performance of the university. It includes the details of the various sources of income, the expenditure incurred, and the overall financial position of the university. It also mentions the various schemes and projects funded by the government and other organizations.

4. The fourth part of the report deals with the infrastructure and facilities of the university. It includes the details of the various buildings, grounds, and equipment. It also mentions the various schemes and projects for the improvement of the infrastructure and facilities.

5. The fifth part of the report deals with the various activities and programs of the university. It includes the details of the various seminars, conferences, and workshops. It also mentions the various schemes and projects for the promotion of research and development.

6. The sixth part of the report deals with the various achievements and accomplishments of the university. It includes the details of the various awards and honors received by the university and its students. It also mentions the various schemes and projects for the promotion of research and development.

7. The seventh part of the report deals with the various challenges and problems faced by the university. It includes the details of the various issues related to the infrastructure, facilities, and financial performance. It also mentions the various schemes and projects for the resolution of these issues.

8. The eighth part of the report deals with the various recommendations and suggestions for the improvement of the university. It includes the details of the various measures to be taken for the promotion of research and development, the improvement of the infrastructure and facilities, and the financial performance.

9. The ninth part of the report deals with the various conclusions and observations of the study. It includes the details of the various findings and results of the study. It also mentions the various recommendations and suggestions for the improvement of the university.

10. The tenth part of the report deals with the various appendices and annexures. It includes the details of the various tables, figures, and charts. It also mentions the various documents and records related to the study.

6.6.2.2. Innovation and Best Practices: Teaching-learning and Evaluation: The Teaching-Learning-Evaluation process in the University is given the meticulous attention as indicated below:

Preparing Clear Course Plans/Course Schedules: Prepared by the faculty, these are made available in the student of the University.

Academic Calendar and the detailed Syllabus and Regulations: published annually – these contain the curriculum, the method of teaching and evaluation, and the plans for co-curricular and extra-curricular activities, seminars, workshops, conferences, training programs, etc.

Use of e-resources and ICT: Every classroom and laboratory has LCD projectors and access to the campus intranet giving access to the repository of lectures by experts.

Encouragement of Cooperative learning through projects, presentations and online group work.

Conducting Orientation programmes for the first-year students familiarizes them with the opportunities available at the university and its expectations from them.

Internal assessment: 40% for it motivates the students to study continuously.

Student Feedback is collected on teaching and learning and is communicated by the Academic In-Charge of the Colleges and respective faculty members.

Faculty development programmes targeting the personal and professional growth of the faculty are organized every semester.

Providing Remedial Courses in language and communication skills are provided to students from vernacular medium.

Automation of the examination processes and timely declaration of results: Results have always been published within a month of the close of the examinations. 100% automation of the examination division, with an approved set of regulations and operating procedures, is in place.

6.6.2.3. Library: Library system of different constituent Colleges of Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior continue to play the pivotal role in dissemination of information amongst the users.

Entire academic community continue to harness the benefits of this useful information system. Textbooks, Reference books, Competitive examination books, digital library e-books, scientific periodicals, theses, reports, encyclopedias, CDs relevant to teaching and research activities etc. have been stocked in the library of constituent Colleges of the University.

Books and Journals available:

S. No.	Particulars	No. of books
1.	Total No. of books available in different College Libraries of Vishwa Vidyalaya.	1,36,566
2.	New books purchased during 2019-20	9239
3.	e-Books	-

Central Library: The fund provided by ICAR has been utilized by the Central Library of the University. The much awaited and highly needed books on various subjects have been purchased. The basic infrastructural facility has been developed that has made the academic atmosphere of the libraries more conducive for the research scholars, students and teachers alike. The computerization of all the e-libraries of Vishwa Vidyalaya has made the functioning smoother now, therefore every user is assisted promptly. The e-library is fully functional connecting the local user through World Wide Web to the global scenario of knowledge. The good quality book cases keep study material safe and intact, and the comfortable furniture is a kind of great relief to the voracious readers. In central library there are 10341 total books in number, 9718 printed books, 139 e-books, 07 printed magazines, 1303 gifted books, 15 printed journals and 52 E-magazines available for the readers.

6.6.2.4. Center for Excellence/Advance Studies/Centre for Advanced Faculty Training: Clearly mention about the name, number and year of establishment, funding agency and outcome of Centre for Excellence/Advance Studies/Centre for Advanced Faculty Training.

- Centre of excellence in cotton (RKVY) at College of Agriculture, Khandwa

6.6.2.5. Incubation Center/Start up units/Venture capital: The National Bank for Agriculture and Rural Development, Mumbai has sanctioned grant assistance of Rs. 707.12 Lakh for setting up of Agri. Business Incubation Centre at Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior. The Incubation Centre is set up as a Special Purpose Vehicle (SPV) by incorporating it as a, “not for profit Section 8 Company” under the name, "Centre for Agribusiness Incubation and Entrepreneurship". The main objective of the Centre is to promote agri-startups and create the agripreneurial ecosystem in the Chambal region, Madhya Pradesh and also on Pan India basis.

6.6.2.6. Technology Enabled Learning Resources:

1ST STUDENTS AGRICULTURAL RESEARCH CONFERENCE (SARC)

"Cotyledon 2019"

1st Students Agricultural Research Conference (SARC) "Cotyledon 2019" was organized by Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior from June 7-9 2019. The department wise presentations were held separately and a total of 125 PG and Ph.D students from different campus of the Vishwa Vidyalaya presented their thesis research work in the conference. Out of 125 58, 27, 20, 16 and 04 students were participated from Gwalior, Indore, Sehore Mandsur and Khandwa respectively.

The entire programme was nicely organized and students have shown their potentials and were discussing that it is a good initiative for the development of scientific and presentation skill among the students.

The presentations made by the students of respective department were evaluated by expert, head of the department and senior professors. The eminent experts were invited from different parts of the country. After the compilation of the result, 1st, 2nd and position holders of the respective department were hounerd with the certificate and memento during the closing ceremony on June 9, 2019.

6.6.2.7. Integrated Learning Systems (Experiential Learning): As per the recommendations of Fifth Dean’s Committee the B.Sc. (Hons.) Agriculture/Horticulture graduates must have adequate hands on experience on different aspects of agriculture/horticulture. For this purpose, the experiential learning programme has been introduced in the final year that includes different aspects of Horticulture and Agriculture.

At present 19 ELP modules are being operated in the University. Out of these 04 modules are offered at College of Agriculture, Gwalior, 04 modules at College of Agricultural Indore, 04 at College of Agriculture, Sehore, 03 at College of Agricultural Khandwa and 04 at College of Horticulture, Mandasaur.

EL Modules	Support from	Manager	Students trained	Product developed	Revenue earned (Rs.)	% Share distributed to students
College of Agriculture, Gwalior (MP)						
PHM Unit (Deptt. of Horticulture)	ICAR	Dr. Rashmi Bajpai	12	Different processed products like Mango RTS, Chips, Papad, Aam Papad, pickles, Jam etc made and marketed by ELP students after getting the FSSAI Registration	10000-/-	NA
Massive in vitro propagation of important horticulture and medicinal plants	ICAR	Dr. M.K. Tripathi	12	Plant materials of Banana, Guava and Lemon were prepared in the unit	NA	NA
Soil testing (Deptt. of Soil Science)	Non-ICAR	Dr. Shashi S. Yadav	09	Procedure of soil sampling, sample processing, testing of different physico-chemical parameters and how to give the recommendation	NA	NA

Blended RTS from blending of pineapple + beal.	15524.00	-

6.6.2.8. Academic Industry Interface:

Agro-Industrial Attachment (AIA):

Technology and globalization are ushering an era of unprecedented change. The need and pressure for change and innovation is immense. To enrich the practical knowledge of the students, in-plant training shall be mandatory in the last semester for a period of up to 3 weeks. In this training, students will have to study a problem in industrial perspective and submit the reports to the college. Such in-plant trainings will provide an industrial exposure to the students as well as to develop their career in the high tech industrial requirements. In-Plant training is meant to correlate theory and actual practices in the industries. It is expected that sense of running an industry may be articulated in right way through this type of industrial attachment mode.

Objectives

1. To expose the students to Industrial environment, this cannot be simulated in the university.
2. To familiarize the students with various Materials, Machines, Processes, Products and their applications along with relevant aspects of shop management.
3. To make the students understand the psychology of the workers, and approach to problems along with the practices followed at factory
4. To understand the scope, functions and job responsibilities in various departments of an organization.
5. To expose various aspects of entrepreneurship during the programme period.

Placement

- Students shall be placed in Agro-and Cottage industries and Commodities Boards for three weeks.
- Industries include Seed/Sapling production, Pesticides-insecticides, Post harvest-processing-value addition, Agri-finance institutions, etc.

6.6.2.9. National Ranking (ICAR/MHRD): Mention about the rank of the University in last five years in the NIRF from ICAR/MHRD.

- **ICAR Ranking: University is ranked Number 10 amongst Agricultural Universities.**

Proceeding of the Research Council Meeting

The first research council meeting of RVSKVV, Gwalior was held in the meeting hall of the Directorate of Research Services on June 28, 2019 at 11:00 AM. The Following members of the council was present in the meeting;

- | | | |
|-----|---|------------------|
| 1. | Dr. B. S. Baghel, Director of Research Services, RVSKVV, Gwalior | Chairman |
| 2. | Dr (Mrs.) Mridulla Billore Dean Faculty of Agriculture, RVSKVV, Gwalior | Member |
| 3. | Dr R.N.S Baner Director Extension Services, RVSKVV, Gwalior | Member |
| 4. | Dr A. K. Singh Director Instructions, RVSKVV, Gwalior | Member |
| 5. | Dr M. P. Jain, Dean, College of Agriculture, Gwalior | Member |
| 6. | Dr Ashok Krishna, Dean, College of Agriculture, Gwalior | Member |
| 7. | Dr S.N.Upadhyay, Dean, College of Agriculture, Gwalior | Member |
| 8. | Dr S.N.Mishra, Dean, College of Horticulture, Mandasaur | Member |
| 9. | Dr S. S. Tomar, Associate Director Research, ZARS, Morena | Member |
| 10. | Dr I. S. Tomar, Associate Director Research, ZARS, Jabua | Member |
| 11. | Dr R. N. Sharma, U/c Librarian, RVSKVV, Gwalior | Member |
| 12. | Dr V. S. Kandalkar Head, Plant Breeding and Genetics, College of Agriculture, Gwalior | Member |
| 13. | Dr. S. S. Tomar, Associate Director Research (HQ), RVSKVV, Gwalior | Member Secretary |

The meeting was chaired by Dr. B.S. Baghel, Director Research Services, RVSKVV, Gwalior. The meeting started with a welcome by Director Research Services. Following agenda were discussed in the meeting

S.No.	Agenda items	Decision Taken and Action to be taken
1.	Preparation of vision documents of Research 2050.	A committee already constituted for the preparation of vision documents of Research 2050.
2.	Compilation of zone wise all activities of Research/RARS/SARS and preparation of Annual report.	Annual Report (2018-19) may be published with Compilation of zone wise all activities of Research/RARS/SARS
3.	Publication of Research Accomplishment and Recommendations at Directorate level.	Published
4.	Establishment of biodiversity park at Sirsod for research purpose.	Collection and evaluation of germplasm at biodiversity park at Sirsod for research purpose
5.	Establishment of Nutrient rich/Bio fortified crop park at Sirsod for research purpose.	[Action: Incharge, Biodiversity Park, Sirsod & Incharge, SRS, Sirsod]

6.	Registration of farmers varieties to protect them IPR.	Collect the information in prescribed format for registration of farmers varieties from Colleges/Research Stations/KVKs of the University and send to PPVFR. A IPR cell may be constituted in near future under the Chairmanship of Plant Breeder. [Action: Deans of the College, ADR-ZARS, Incharge of the Research Station & SSH of the KVKs]
7.	Profile of each ZARS/RARS/SARS.	Profile of each ZARS/RARS/SARS may be prepared with consultation with CRISP [Action: ADR, Incharge of the station]
8.	Establishment of State of art lab in biotech building for quality research.	Detail proposal may be submitted for Establishment of State of art lab in biotech building for quality research. [Action: Incharge, Biotechnology Centre]
9.	Strengthening of ZARS facilities for quality research.	Detail proposal may be submitted to Strengthening of ZARS facilities for quality research [Action: ADR-ZARS]
10.	Establishment of sugarcane research centre at Bagwai.	A committee may be constituted to assess the possibilities for sugarcane research at Bagwai [Action: Dean, CoA, Gwalior]
11.	Establishment of sesame research centre at Bhind.	Proposal may be submitted for Voluntary centre of AICRP on Sesame to ICAR [Action: Incharge, SRS, Bhind]
12.	Establishment of paddy research centre at Bagwai.	Proposal may be submitted for Establishment of paddy research centre at Bagwai [Action: Dean, CoA, Gwalior]
13.	Establishment of ravine rehabilitation research centre at Aisah, Morena.	Proposal may be submitted for Establishment of ravine rehabilitation research centre at Aisah, Morena [Action: Dean, CoA, Gwalior]
14.	Establishment of spices research centre at Jaora.	Proposal may be submitted for Establishment of spices research centre at Jaora [Action: Dean, CoH, Mandsaur]

15.	Establishment of centre of excellence for spices and medicinal and aromatic plants at CoH, Mandasaur.	Proposal may be submitted for Establishment of centre of excellence for spices and medicinal and aromatic plants at CoH, Mandasaur. [Action: Dean, CoH, Mandasaur]
16.	Approach for National and International MoU.	Under Process

The meeting ended with a vote of thanks to the Chair

6.6.3.2. Directorate of Research: Give brief information about the present establishment of the Directorate of Research, staff pattern, research coordination mechanism, research and seed production centres and contribution in academic programmes.

The Directorate of Research Services came into existence with the establishment of the University in August, 2008. This Directorate is serving as nodal office to coordinate location specific, strategic and anticipatory research focused on increasing the productivity, profitability, stability and sustainability of agricultural and allied sectors under the area jurisdiction of the University.

THE MANDATE

- Administration, planning, budgeting, monitoring, evaluation of research projects and programmes running at different centres of the university.
- Developing new research technologies and crop varieties for sustainable production, profitability and livelihood.
- Coordination of fundamental and applied research.
- Publication of research reports, highlights, research papers and research bulletins.
- Resource generation through consultancy processing cell.
- Maintenance breeding of varieties, production of nucleus, breeder and hybrid seed to enhance the productivity and profitability of crops in a sustainable manner to ensure food security.
- Strengthening of national and international linkages to improve the research quality and quantity
- Facilitating HRDs through national and international exposures, trainings and visits.

THE ADMINISTRATIVE JURISDICTION

The research network of the university spreads over six agro-climatic zones of Madhya Pradesh and covers 26 revenue districts. These agro-climatic zones are Gird, Malwa Plateau, Nimar Valley, Jhabua Hills, Vindhyan Plateau and Bundelkhand zones. Accordingly, five Zonal Agricultural Research stations, four Regional Agricultural Research Stations and five Special Research Stations have been operating to enhance the productivity and livelihood security of farming community (Table 1). Presently, 24 All India Coordinated Research Projects on crop improvement, natural resource management and horticulture are being run at different centres. Besides these, 7 plan, 12 non plan, 12 tribal sub plan, 05 Gramin Krishi Mausam Sewa [GKMS] projects and 02 FASAL projects are running with the financial aid of Govt. of India and that are the research strength of the university.

Table 1: Research stations of the university

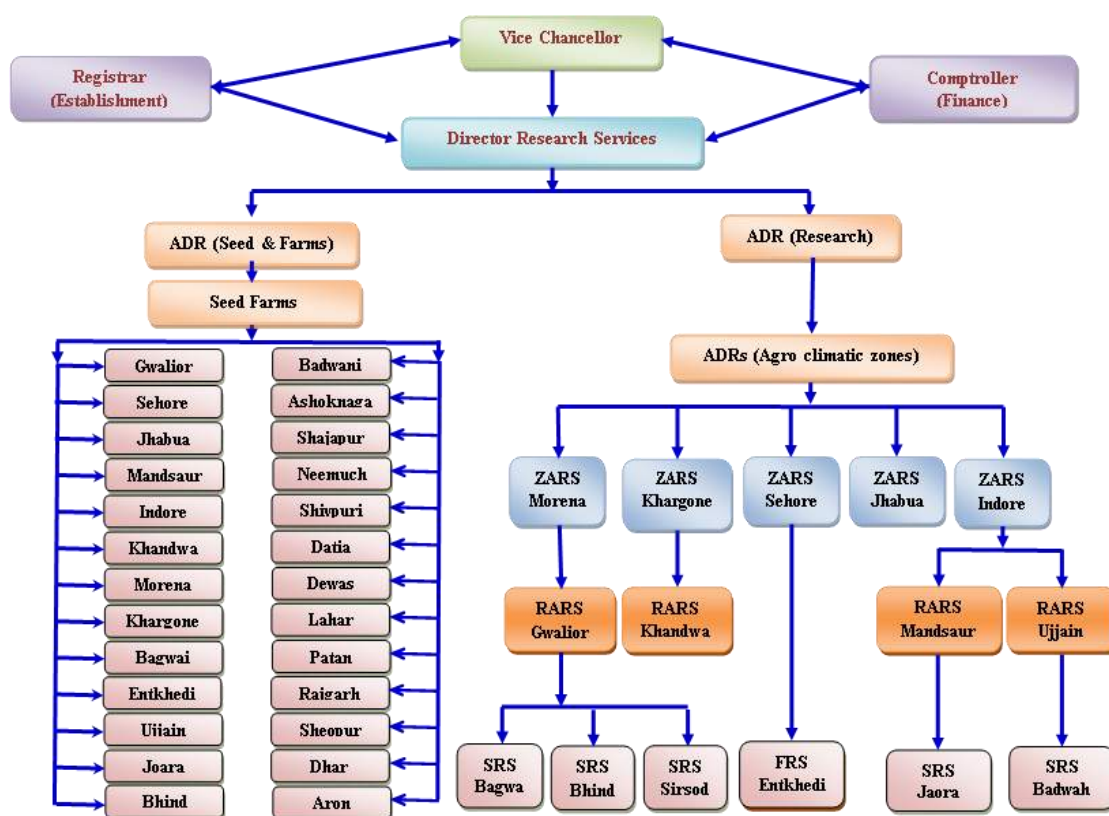

Particulars	No.	Location and Establishment year
Zonal Agricultural Research Station	05	Indore (1924), Sehore (1952), Khargone (1964), Morena (1981) and Jhabua (1989)
Regional Agricultural Research Station	04	Gwalior (1916), Khandwa (1964) Ujjain (1989) and Mandsaur (1964)

Special Research Station	07	Enthkedi (1962), Joara (1964), Bagwai (1964), Badwah (1969), Bhind (2010), Sirsod (2011) and Aisah (2012)
--------------------------	----	---

The seed activities in the university are managed with the help of twenty-seven seed production farms. These farms are located in twenty-six districts and six agro-climatic zones of Madhya Pradesh. Currently, the university has a total of 1210.85 ha farm land. Out of the total farm land available with the university, only 65.01% (826.37 ha) is under cultivation. Out of the cultivated area, only 15.81 and 32.66 % is irrigated and partially irrigated, respectively. Rest of the farm area is under rainfed farming. The area under plantation crop is about 82.02 ha. Remaining farm area is under fallow or pastures land or occupied by road and buildings.

The instructional post graduate research, applied research, maintenance breeding of seed chain varieties, nucleus and breeder seed production, hybrid seed production, technological demonstrations and production of quality planting materials are the major activities of these farms.

6.6.4.2: Directorate of Extension Services: Directorate of Extension Services has been established in August 2008 with the inception of the university. The Directorate has a key role in dissemination of latest agricultural and allied technologies in the jurisdiction of the university through a well-established network of KVKs. The Directorate is constantly affianced in dissemination of technologies emanating from research programmes of Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya and other leading agricultural institutions of the country and abroad for the welfare of farming community through well trained extension scientists to minimize the existing technological gaps for enhancing productivity, profitability and sustainability of agricultural production systems and living standard of rural people.

The Directorate of Extension Services has been giving technical guidance to 27 Krishi Vigyan Kendras (KVKs) which come under the jurisdiction of RVSKVV, Gwalior that has been established with the financial support of ICAR. Out of these, 22 are under the direct

RAJMATA VIJAYARAJE SCINDIA KRISHI VISHWA VIDYALAYA, GWALIOR (M.P.)

administrative control of the Directorate of Extension Services and five under NGOs/ ICAR institute.

The Directorate is committed to serve the farmers through network of Krishi Vigyan Kendras, which play a vital role in dissemination and transfer of recent emanated research technologies in agriculture, horticulture, livestock production and allied fields. The KVKs are assessing the technological needs of the farmers of the districts and revalidating the technology for adoption through On Farm Testing. The KVKs are disseminating technologies and strengthening the farmers through Frontline Demonstrations, Training Programmes for Farmers and Farm Women, Extension functionaries and Vocational Training Courses for Rural Youth and other regular Extension Activities in selected villages of the concerned district. Thus, they contribute in minimizing the gap between prevailing farmers' yield and production potential in specific area.

MISSION

Directorate of Extension Services is committed to serve farmers through a well organized network of scientists covering six agro-climatic zones of the state. The Directorate is engaged in transfer of agricultural and allied technologies, directly to the farmers. It also offers capacity building programmes to state extension functionaries, who own the responsibility of transferring agro-based technologies to farmers. The motto of the university is to reach the unreached through its well built extension system in Madhya Pradesh. The main objectives are:

- ❖ Transfer of technology and their assessment, application, refinement and feedback for the researcher.
- ❖ Up gradation of knowledge and skill of extension functionaries as well as farming community.
- ❖ Development and dissemination of technology through print and electronic media for mass communication.
- ❖ Catering the needs of farming community through single window system.
- ❖ Linkage with line departments and NGOs.
- ❖ Reviewing the activities of KVKs and technological backstopping of KVK scientist and help in formulating action plan.
- ❖ Popularization of low draft improved agricultural implements.

ROLE OF THE DIRECTORATE

- ❖ Assessment, refinement and transfer of proven agricultural and allied technologies.

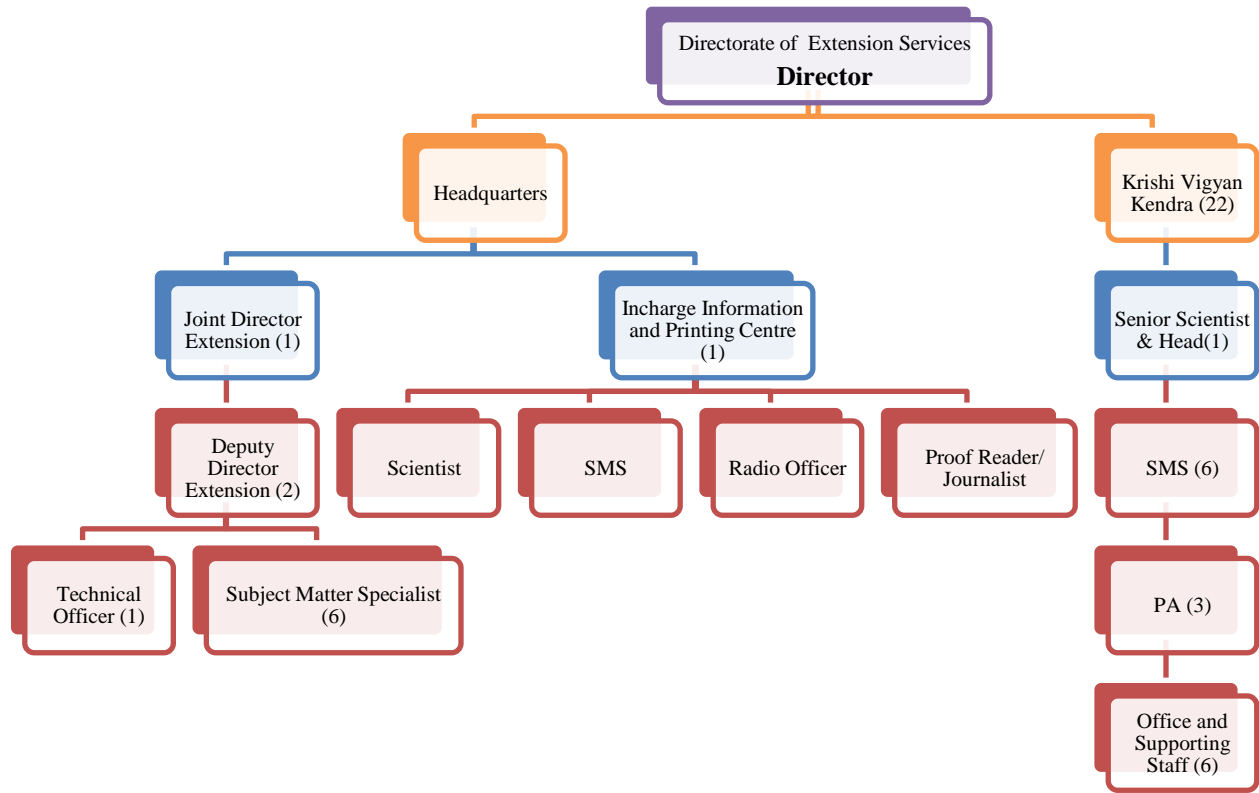

- ❖ Providing feedback to the research system.
- ❖ Upgradation of knowledge and skill of extension functionaries as well as farming community.
- ❖ Dissemination of technologies through print and electronic media for mass access.
- ❖ Catering farmers' need through single window system.
- ❖ Establishing linkages and convergence with line departments.
- ❖ Reviewing KVK activities and technological backstopping of KVK scientists.

MAJOR ACTIVITIES OF THE DIRECTORATE

- ❖ Planning, implementation & monitoring of KVK Activities.
- ❖ Training programmes for extension personnel.
- ❖ Organize extension activities viz; KisanMela, Exhibition etc and interface with line departments.
- ❖ Technical backstopping
- ❖ Diagnostic team visits
- ❖ Co-ordination & linkages with KVKs and other stakeholders.
- ❖ Publication of literature and farmers Networking through Kisan Mobile Advisory Services (KMAS)
- ❖ Farmer-scientist interaction

ORGANIZATIONAL STRUCTURE OF DES

The Directorate of Extension Services (DES) is headed by the Director Extension Services. It functions on the recommendations of the Scientific Advisory Committee (SAC), university Board of Management (BOM) and guidelines received from Indian Council of Agricultural Research (ICAR)/State Govt. The flow chart given below provides detail organizational set up of the DES.

Present Establishment of the Directorate of Extension Services

Designation	Posted	Remarks
Director Extenaion Services	01	-
Joint Director Extension Services	01	-
Deputy Director Extension Services	01	-
Subject Matter Specialists	05	Three SMS attached to various university units
Technical Officer	01	-
Subject Matter Specialists	01	Information and Printing Centre
Personal Secretary	01	Attached to DRS office
Programme Asstant	01	Information and Printing Centre, Attached to IPRO office
Stenographer Grade - III (Hindi)	02	-
Assistant Grade - III cum stenotypist	01	-
Assistant Grade - III	01	-
Driver cum Maechanic	02	-

Helper	02	Information and Printing Centre
--------	----	---------------------------------

KRISHI VIGYAN KENDRAS (KVKs)

Twenty-two Krishi Vigyan Kendras of RVSKVV are located at the districts of Agar-Malwa, Alirajpur, Ashok Nagar, Badwani, Bhind (Lahar), Datia, Dewas, Dhar, Manawar (Dhar-II), Guna (Aron), Gwalior, Jhabua, Khandwa, Khargone, Mandsaur, Morena, Neemuch, Rajgarh, Shajapur, Sheopur, Shivpuri and Ujjain. KVK Bhopal is working under administrative control of ICAR - CIAE and KVKs in districts Indore, Sehore, Ratlam and Burhanpur are working under the aegis of reputed NGOs, with technical backstopping of RVSKVV. Thus, at present a total of 27 KVKs are functioning under Directorate of Extension Services, RVSKVV, Gwalior. KVKs facilitate the process of assessment of technology through OFT, skill upgradation through training programmes, and technology dissemination through method and result demonstrations, KisanMelas, Seminars and mass campaigns etc.

AGRO-CLIMATIC ZONE WISE LOCATION OF KVKs

Agro-climatic Zone	Features	District / KVK's under the Zone
Gird Zone	Semi-arid climate, situated between 152-224msl, annual rainfall 566-977 mm and soils are Alluvial medium black, mixed red black and red yellow in colour.	Sheopur, Morena, Bhind, Gwalior, Shivpuri (Partial), Guna (Partial) and Ashok Nagar
Bundelkhand	High temperature, situated between 266-560msl, annual rainfall 750-1200mm with shallow clayey loam soil	Datia, Shivpuri (Partial)
Malwa Plateau	Semi-arid climate, situated between 450-675 msl , annual rainfall 800-1200mm, soil is medium to deep black (vertisol)	Neemuch, Mandsaur, Ujjain, Shajapur, Rajgarh, Dewas and Dhar (Partial), Manawar (Dhar II), Indore Ratlam and Agar-Malwa
Jhabua Hills	Undulated topography, situated between 450-700 msl, erratic rainfall (600-800mm) and shallow to medium skeletal gravely soil	Alirajpur, Jhabua and Dhar (Partial)
Nimar Valley	Hot and dry weather, situated between 450-700 msl, less annual rainfall (600-800mm),	Badwani, Khargone, Khandwa, Burhanpur

	soil is deep black clayey (vertisol)	
Vindhyan Plateau	Hot humid climate, undulated topography, situated between 350-600 msl, annual rainfall, 1000-1200mm and medium black soil.	Guna (Partial), Bhopal, Sehore

MANDATE OF KVKs

The major mandate of KVKs is the assessment, refinement and demonstration of technology/ products.

The major activities of KVKs are given below:

- ❖ Work as resource and knowledge centre of agricultural technologies for supporting initiatives of public, private and voluntary sector for improving the agricultural economy of the district.
- ❖ On farm testing for assessing the suitability of technology for various farming systems.
- ❖ Frontline demonstrations to establish production potentials of newly released technologies on farmers' fields and provide feedback.
- ❖ Training of farmers and farmwomen to upgrade their knowledge and skills in modern agricultural technologies and training of extension personnel to orient them in the frontier areas of technology development.
- ❖ Create awareness about frontier technologies through a number of extension activities viz: Farmer fair, Field day, Campaign, Ex-trainees meet, etc.
- ❖ KVKs are taking up the activities of producing quality seed and planting material for enhancing the productivity through increased seed replacement rate and use of quality planting material.

THRUST AREAS IDENTIFIED BY THE KVKs

- ❖ Enhancement crop productivity through, intensive vocational trainings of farmers, farm women and rural youth.
- ❖ Demonstrate and disseminate the integrated approach encompassing the feasible components of farming and related technologies targeting towards enhancing the farm family income.
- ❖ Crop diversification with suitable oilseed, pulse, fruit and vegetable cultivation.
- ❖ Testing of early maturing high yielding varieties of major crops on farmers’ field.
- ❖ Awareness regarding different methods of water harvesting and conservation including construction of small water retention structures (Rain-Water harvesting)
- ❖ Soil fertility improvement for sustainable soil health.
- ❖ Integrated nutrient management in different crops.
- ❖ Popularization of resource conservation technologies.
- ❖ Post harvest value addition and entrepreneurship development for agricultural produce.
- ❖ Balanced feeding and reproduction of livestock and poultry.
- ❖ Clean milk production and processing of dairy products.
- ❖ Promotion of exotic and off-season cultivation of vegetables, medicinal and aromatic plants.
- ❖ Promotion of organic farming.
- ❖ Use of improved implements for drudgery reduction.
- ❖ Demonstrations of improved farm machinery among the farmers.
- ❖ Demonstrations on utilization of innovative traditional knowledge of the farmers.

KVKs IDENTIFIED AS CENTRE OF EXCELLENCE

S. No.	Name of KVKs	Specialization
1.	Agar -Malwa	Newly established KVK (2018)
2.	Alirajpur	Newly established KVK (2018)
3.	Aron (Guna)	Coriander Production Technology
4.	Ashok Nagar	Durum Wheat Production Technology
5.	Badwani	Chilli Production and Value addition of spices
6.	Datia	Natural Resource Management
7.	Dewas	Integrated Farming System
8.	Dhar	High tech vegetable cultivation

9.	Manawar (Dhar-II)	Newly established KVK (2019)
10.	Gwalior	<ul style="list-style-type: none"> • Hi tech Horticulture • Vermi-composting Technology
11.	Jhabua	Kadaknath rearing in Integrated Farming System
12.	Khandwa	Cotton Production Technology
13.	Khargone	Pomegranate & Watermelon Production Technology
14.	Lahar(Bhind)	Crop diversification
15.	Mandsaur	Seed spices
16.	Morena	<ul style="list-style-type: none"> • Apiculture • Conservation agriculture
17.	Neemuch	Garlic Processing Technology
18.	Rajgarh	Hi tech fruit nursery
19.	Shajapur	Mandarin Production Technology
20.	Sheopur	Management of soil & water resources & IFS
21.	Shivpuri	Mechanization in ground nut and Hi - tech tomato production
22.	Ujjain	Integrated Nutrient Management
23.	Bhopal	Farm mechanization
24.	Sehore	Integrated Farming System
25.	Ratlam	Dairy Management and Dairy Technology
26.	Indore	Organic Farming
27.	Burhanpur	Banana Production Technology

Extension Coordination Mechanism

A. Monitoring mechanism for Flagship programmes viz. KMA, NICRA, Tribal Sub Plan-Pulses, ARYA, Cluster Demonstrations, PPV&FRA, Skill Development, Seed hub, Mera Gaon Mera Gaurav:

- Directorate of Extension regularly monitors through Field visits, Review Meetings, Progress reports & SAC Meetings
- Progress is also reviewed by ICAR/ Officials from Ministry of Agriculture, Govt. of India, Hon'ble Vice-Chancellor through visits and meetings.
- Review and monitoring is done through checklist of various activities

- For monitoring of cluster demonstrations, monitoring teams involving Principal Scientist from concerned Colleges/Research Centers and Officials from Directorate are constituted.
- Seed Hub programme is monitored by a university level committee headed by Director Farm with the nodal officer. The programme is also monitored by IIPR Kanpur as Nodal Agency appointed by ICAR for Seed hub.

B. Monitoring mechanism for ARYA Project

ARYA Project is monitored as per the monitoring mechanism set by the ICAR in which zonal and district level committees are constituted involving all stakeholder for effective implementation of this flagship project.

C. Monitoring mechanism for TSP /Aspirational Districts

- Comptroller, RVSKVV, Gwalior directly monitors the progress as per specifications of Ministry of Finance in coordination with Directorate of Extension.
- The ATARI, Zone VII, Jabalpur also monitors these programmes.
- Overall Monitoring is done in supervision and Guidance of Hon'ble Vice Chancellor.
- Monitoring committee for Aspirational District programme is constituted at Directorate level

D. Financial monitoring mechanism for monthly expenditure statement

- Monthly monitoring mechanism is supervised by the Comptroller in close coordination with DES.
- The KVKs submit their actual expenditure on monthly basis.
- The online reporting process through IUMS is in progress.

E. Process of Authentication for publications of KVKs

- To maintain the quality, draft of Technical Booklets/ Bulletins/ Books etc. submitted to the DES has been referred to the experts through PME cell of the university and after incorporation of their suggestions the publication is authenticated by allotting the Accession number from DES.
- Leaflets/ Pamphlets/ Folders etc. are published after scrutiny by the concerned Dean of the college and experts nominated by PME cell.

F. Finalization of KMA Content

The contents for KMA are prepared by Scientists/SMS and programme coordinators based on the Recommendations of the Universities/ICAR institutes as per the requirements of prevailing agriculture situations in district and are finalized in consultation with the concerned Head of the Departments and Dean of the college and if required, University level experts nominated by DRS/DES are also consulted before sending SMS to the farmers under KMA.

6.6.4.3 Extension Planning and Technological Impact: Directorate of Extension Services organize annual review meetings every year to monitor the proposed AAP (Annual Action Plan) by its KVKs for making the programme more realistic and effective in resolving the issues of farming community of that particular district. The KVKs formulate their AAP every year based on participatory rural appraisal (PRA) surveys of their adopted villages. The AAP includes newer farming technologies developed and approved for a particular agro climatic zone. The KVKs are directed to organize OFTs (On Farm Testing) for assessment and refinement of technologies released from research stations for a particular agro ecological situation. The assessed and refined technologies are then taken up for conduction of FLDs (Front Line Demonstrations) for show casing the impact of technologies to farmers and extension functionaries through organizing Field Days on the demonstration sites. KVKs are also advised to organize various training programmes including in service, farmers and vocational ones. Following technologies were popularized and adopted on larger scale in the districts of RVSKVV jurisdiction.

- 1. Kadaknath Poultry Farming:** An Indian poultry breed, *Kadaknath* is native to Jhabua district of Madhya Pradesh. *Kadaknath* is famous for its black meat which is known for its meat quality, texture and flavor. The demand of Kadaknath bird is increasing day by day due to its excellent medicinal properties, high *protein* (21-24%) and low *fat content* (1.96-2.6 %). The Meat contains several essential amino acids, vitamins and minerals but due to high demand, slow growth, backyard rearing and higher mortality rate, it had started to extinct in Jhabua. The Directorate of Extension and Research services jointly made efforts during last five years for its scientific rearing and expansion of its farming in other nontraditional districts of Madhya Pradesh. These efforts have resulted in sizable expansion of its rearing by the farmers and un employed youths. A total of 2054 Kadaknaath Poultry Farming units have been established in 436 villages of Madhya Pradesh. In addition to this, it is rapidly spreading in other states like Chhattisgarh, Rajasthan, Maharastra, Punjab and Haryana.
- 2. Apiculture:** Beekeeping is promoted in district Morena and other parts of M.P. in different cropping systems for exploring the pollination potential and production of honey and other bee by-products like wax, propolis, pollen etc. Honey bee contributes about 80% in pollination among the insect pollinators. The farmers get an extra income of Rs 6000 -8000/hive/ year through honey production. The technology has

- been spread in more than 105 villages of district Morena where approximately 5600 farmers are actively maintaining 75000 bee colonies. An Integrated Bee Development Centre (IBDC) has been established at KVK Morena with financial support from National Bee Board functioning under Ministry of Agriculture and Cooperation, Govt. of India for promotion and entrepreneurship development through Bee keeping.
3. **Broad Bed and Furrow (BBF) Planting in Soybean:** Creation of furrows after every four/five rows help in conserving *in-situ* moisture and proper drainage of access water in medium to deep black soil. The higher availability of water to the crops results in increase in yield by 33.8 % and higher moisture in the soil at harvest in 15-30 cm soil depth. The BBF has horizontally spread in 74000 ha area of 378 villages of Madhya Pradesh.
 4. **Balance animal feeding:** Balance feeding using locally available feeding ingredients viz. Pearl millet 18%,Wheat-20%, mustard oil cake-32%, Chana-Chuni-14%, Arhar chuni-12%, mineral and vitamin mixture-1%, salt-2% and limestone powder-1%. The feed is prepared to give 68-72% TDN and 14-16% DCP to dairy animals. Mineral and vitamin mixture are added to take care of dietary requirements and to reduce the incidences of anoestrus due to mineral deficiencies. More than three fourth of the farmers have adopted balanced feeding of dairy animals which has increased 9-12 per cent of milk yield.
 5. **Area expansion in pigeon pea short duration variety ICPL 88039 and Pusa 992 (145-150 Days):** Long duration Pigeon pea variety which is severely affected by frost and hailstorm has been replaced with introduction of improved short duration variety of Pigeon pea ICPL-88039 with yield potential of 24.5 q/ha with no chances of losses due to frost and hailstorm. The area of pigeon pea has increased from 3000 ha to 21000 ha in district Morena after this intervention.
 6. **Temperature tolerant variety RVW 4106 :** This variety was released from RVSKVV, Gwalior during 2012 tolerant to high temperature (above 30 °C) during reproductive phase of crop and 50 q/ha yield potential. The variety spread in 3.26 lac ha in the state of M.P. after KVK intervention.
 7. **Short duration Chick Pea variety RVG 202** This variety was released from RVSKVV, Gwalior during 2014 with wilt & dry root rot resistance and also suitable for late sown conditions. The yield potential of the variety is 18-20 q/ha. The variety spread in 1.25 lac ha in the state of M.P. after KVK intervention.
 8. **Nutritional literacy and security through Nutri Smart Village** The nutritional gardens have been established by the KVKs in 54 villages of all districts under the University's jurisdiction to improve nutritional literacy and security by adopting the concept of Nutri Smart Village with most malnourished population. These nutritional gardens provide nutritional security to the farmers and farm women by using backyard or unused area of rural household. They also provide healthy and pesticide free vegetables for the family round the year and contribute in family's income by selling of extra produce from nutrition garden.
 9. **Azolla as a supplementary Animal feed:** Azolla's composition makes it one of the most economic and efficient feed substitutes for livestock and poultry, particularly as can be easily digested by livestock due to its high protein and low lignin content. Poultry chickens can be raised on a diet including fresh Azolla. It has high content in

proteins, essential amino acids, vitamins (vitamin A, vitamin B12, Beta Carotene), growth promoter intermediaries and minerals. It displays high rate of growth in water with natural ecological systems. Cultivating Azolla for livestock feed and its profitability when used as a livestock feed as protein source. Farmers which are using Azolla for their livestock as feed are satisfied with this new intervention as this reduces feed cost Rs 16.5/day/cow with increase milk yield 10-15% additional net return of Rs28.5/day/cow. Again after 4-5 days farmer can harvest 12 kg azolla per pit. In one lactation of cow Rs 4620 is saved from concentrate feed cost and Rs 7980 is additional income per cow . Total profit per cow by using azolla as a source of protein is Rs 12600, as a result majority of the livestock farmers are willing to start azolla production. The azolla technology has been spread in 402 villages where 1436 units were established under V.V jurisdiction.

10. Ridge and furrow cultivation in soybean growing districts: Ridge and furrow method of sowing is conserving *in-situ* moisture and proper drainage of access water in medium to deep black soil. The higher availability of water to the crops resulting in increase in yield by 35-40 % in erratic rainfall conditions. The Ridge and furrow technology became a very common practice among farmers of soybean growing districts.

11. Mushroom Production Technology: Mushroom production is an enterprise with low initial investment to improve the income of farmers and also for creation of employment in rural youth. It provides high economic return along with guarantee for improving protein and Vitamin D deficiency. The mushroom cultivation is rapidly gaining popularity in all districts of V.V. jurisdiction specially in districts like Gwalior Morena, Datia, Shivpuri and Bhind.

Other prominent technologies gaining popularity in V.V. Jurisdiction are

- Vermi compost Production
- Plastic mulching in vegetable production
- De-worming of calves
- Balanced use of fertilizer through STV based fertilizer application

6.6.4.4 Implementation of National Initiatives:

1. Rural Agricultural Work Experience (RAWE): The University has identified 09 KVKs for conduction of Rural Agricultural/ Horticultural Work Experience (RAWE/RHWE) under its student READY programme. The identified batches of final year Under Graduate students (Boys and Girls) are being placed in nearby villages of KVKs under the technical guidance of KVK scientists. The students placed under this programme directly work with the farmers and conduct agricultural practices in practical manner and conduct other important surveys as per RAWE course manual. During last five years, a total of 611 students have been placed under RAWE programme through KVKs.

2. Farmers FIRST Project: The Farmers FIRST as a concept of ICAR is developed as farmer in a centric role for research problem identification, prioritization and conduct of experiments and its management in farmers' conditions. The focus is on farmer's Farm, Innovations, Resources, Science and Technology (FIRST). Two terms 'enriching knowledge' and 'integrating technology' qualify the meaning of Farmer FIRST in Indian context. Enriching knowledge signifies the need for the research system as well as farmers to learn from each other in context of existing farm environment, perception of each other and interactions with the sub-systems established around. Technology integration is looked from the perspective that the scientific outputs coming out from the research institutions, many times do not fit as such in the farmers' conditions and thus, certain alterations and adaptations are required at field level for their acceptance, adoption and success. 'Farmer FIRST' programme aims at enhancing farmer-scientist interface for technology development and application. It will be achieved with focus on innovations, technology, feedback, multiple stakeholder's participation, multiple realities, multi method approaches, vulnerability and livelihood interventions.

The Farmers' FIRST Project is being implemented in RVSKVV since 2016-17 in ZARS/KVK, Morena.

3. Mera Gaon Mera Gaurav (MGMG): The programme is being implemented by the University through its five constituent colleges *i.e.* College of Agriculture, Gwalior, Indore, Sehore, Khandwa and College of Horticulture, Mandsaur and three ZARS *viz*; Jhabua, Khargore and Morena. The V.V. units are organizing regular extension activities under MGMG in their identified villages through 41 teams of 159 scientists since 2015-16.

4. National Innovations on Climate Resilient Agriculture (NICRA): National Innovations on Climate Resilient Agriculture (NICRA) is a network project of the Indian Council of Agricultural Research (ICAR) launched in February, 2011. The project aims to enhance resilience of Indian agriculture to climate change and climate vulnerability through strategic research and technology demonstration. The research is on adaptation and mitigation covers crops, livestock, fisheries and natural resource management. The project consists of four components *viz.* Strategic Research, Technology Demonstration, Capacity Building and Sponsored/Competitive Grants. The project was formally launched by the Hon'ble Union Minister for Agriculture & Food Processing Industries Shri Sharad Pawarji on 2nd February 2011.

NICRA is being implemented by five KVKs under RVSKVV, Gwalior since 2011. Three KVKs namely Datia, Guna and Morena have implemented the project with its inception in 2011 whereas two more KVKs *i.e.* Jhabua and Ratlam were included in NICRA during 2015-16. KVK Datia was awarded as Best NICRA KVK twice during 2014 and 2019 for outstanding work in water conservation under technology demonstration component.

5. Attracting and Retaining Youth in Agriculture (ARYA): In order to create interest and confidence among rural youth in agriculture, there is need to make agriculture more profitable. Retaining youth in agriculture and making agriculture more profitable are thus, big challenges. There is a continuous increase in migration of rural youth to urban areas. On the other hand, small holdings are on the rise which poses challenge to food security for increasing population. Thus, it was felt to bring a comprehensive model for the development of rural youth in general and agricultural youth in particular. Thus, realizing the importance of rural youth in agricultural development especially from the point of view of food security of the country, ICAR has initiated a programme on "Attracting and Retaining of Youth in Agriculture (ARYA)" with following objectives;

1. To attract and empower the Youth in Rural Areas to take up various Agriculture, allied and service sector enterprises for sustainable income and gainful employment in selected districts.
2. To enable the Farm Youth to establish network groups to take up resource and capital intensive activities like processing, value addition and marketing.
3. To demonstrate functional linkage with different institutions and stakeholders for convergence of opportunities available under various schemes/program for sustainable development of youth.

KVK, Gwalior was selected for implementing ARYA project during 2016-1 in first phase and currently five KVKs under RVSKVV are implementing this project.

6. Cluster Front Line Demonstrations (CFLD) on Oilseed and Pulses

A. Pulses

Indian government imports large quantity of pulses to fulfill domestic requirement of pulses. In this regard, to sustain this production and consumption system, the Department of Agriculture, Cooperation and Farmers Welfare has sanctioned the project "Cluster Frontline Demonstrations on pulses from 2015-16" to ICAR-ATARI, Jabalpur through National Food Security Mission. The basic strategy of the Mission is to promote and extend improved technologies, *i.e.*, seed, micro-nutrients, soil amendments, integrated pest management, farm machinery and implements, irrigation devices along with capacity building of farmers. This project was implemented by all KVKs under RVSKVV, Gwalior with main objective to boost the production and productivity of pulses through CFLDs with latest and specific technologies

B. Oilseed

Oil seed crops have ecological conditions in India, resulted in the production of 7.87 m tonnes of seed mustard in 2013-2014 and our productivity is 10.9kg/ha. It is now widely accepted fact that training to farmers and farm women increases the technical knowledge regarding package of practices. KVKs are playing a vital role across the rural economy in

distinguish field as animal husbandry, horticulture, plant protection and food processing. India is an important rape seed mustard growing country in the world, occupying largest area and has second position in production after China.

7. Seed Hub Project: The Government of India has launched Seed Hub Project during 2016-17 to promote indigenous production of pulses in India by creating 150 Seed Hubs in KVKs across the country. ICAR-IIPR, Kanpur is the nodal agency at National level. Four KVKs namely Datia, Dewas, Morena and Ujjain have been selected for implementation of Seed Hub project among KVKs under RVSKVV, Gwalior. Major crop like Black gram, Green gram, Pigeon pea, chick pea and fields pea are being taken up for seed production under the seed hub project.

8. Swatch Bharat Abhiyan: Swachhta Diwas and activities on keeping India clean are being regularly organized in all KrishiVigyan Kendras under 'Swachcha Bharat Abhiyan' in which farmers and farm women are conveyed the message of cleanliness through various lectures, performances and presentations.

9. International Soil Health Day: Krishi Vigyan Kendras celebrate International Soil Day regularly on 5th December, by organizing Kisan Sammelans and distributing Soil Health Cards to the farmers.

10. Jal Shakti Abhiyan: All the KVKs under RVSKVV, Gwalior organized Jal Shakti Abhiyan Mela at different blocks of the districts during 2019. The farmers and other stakeholders were motivated and made aware about proper water conservation strategies and use.

6.6.4.5 Innovation and Best Practices/Initiatives:

A. Initiatives of Directorate of Extension Services

1. Information and Printing Centre: This sub unit of DES has been established in the premises of the directorate during 2008 with the inception of university. Since then, the centre is engaged in regular publication of farmers' friendly literature, V.V. diary, calendar and other important publications as per need.

2. Agriculture Technology Information Centre (ATIC): The construction work of ATIC building has been completed and it is being furnished with cutting edge technological display and mechanisms of information delivery for the farmers and other stakeholders as a single window system.

3. Agricultural Technology Museum: The construction work of Agricultural Technology Museum building is already completed and the process of furnishing it is in process and the museum will be functioning soon.

4. Establishment of RVSABIC: During current financial year, the Directorate of Extension Services has got a project from NABARD for the establishment of Rajmata Vijayaraje Scindia Agri-business Incubation Centre (RVSABIC) to promote entrepreneurship in the field of agriculture.

5. Directorate of Extension Services Initiated "Raj Vijay Fulwari"- Directorate of Extension Services, RVSKVV, Gwalior (M.P.) has been regularly organizing "Raj Vijay Fulwari" at the University headquarters Gwalior during the month of January-February since last three years. This three-day exhibition cum sangosthi is providing a splendid display of exhibits of quality fruits, vegetables, variety of flowers and preserved fruit items. The exhibition is being recognized and visited by well-known personalities like Ministers, Vice-chancellors, Directors, Scientists, Entrepreneurs, achiever farmers and horticulture lovers since last three years.

The three days long exhibition is getting an overwhelming response of the exhibitors from 27 districts under RVSKVV, Gwalior and KVKs, academic institutions, industries, entrepreneurs and farmers from Gwalior and nearby districts. The participants get registered with their exhibits under various categories and are being awarded after proper evaluation by the expert panel.

6. Western Region Agricultural Fair (Krishi Vijay - 2020)

Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior (M.P.) organized Western Region Agriculture Fair (Krishi Vijay-2020) at College of Agriculture Campus, Gwalior during **January 28-30, 2020** in collaboration with Directorate of Extension, Department of Agriculture, Cooperation & Farmers Welfare, Ministry of Agriculture Cooperation & Farmers Welfare, Government of India, New Delhi. The theme of the fair was Farmers' Empowerment through Agri-preneurial Ventures. The farmers' fair was inaugurated by Sh. Sachin Yadav, Hon'ble Minister, Department of Farmers Welfare and Agriculture Development, Govt. of Madhya Pradesh and Mr. Lakhan Singh Yadav, Hon'ble Minister, Department of Animal Husbandry, Govt. of Madhya Pradesh in gracious presence of Prof. S. K. Rao, Hon'ble Vice Chancellor, RVSKVV, Gwalior.

Sh. M. B. Ojha, Commissioner, Gwalior division and Prof. S. K. Rao, Hon'ble Vice Chancellor, RVSKVV, Gwalior were present as Chief guests during valedictory ceremony of the 03-days long grand farmers' event. Hon'ble Vice Chancellor acquainted the guests about the overwhelming response of the exhibitors from across the country.

More than 3600 farmers and agriculture professionals from western region states i.e. Madhya Pradesh, Rajasthan, Gujarat, Maharashtra, Chhattisgarh participated in the fair. The fair exhibit more than 100 stalls showcasing latest agricultural technologies from

various public and private sector organizations, NGOs, FPOs, SHGs, KVKs, Progressive framers etc. for updating the stakeholders of agriculture on most recent advancements. The fair focused on latest technological attractions like IFS models, food processing and value addition, entrepreneurial ventures in agriculture and allied areas, crop diversification, water management technologies, Nutri-sensitive agriculture, climate resilient technologies, organic-*Paramparagat* farming, Hi-tech horticultural technologies, IPM, INM, Medicinal and Aromatic Plants and advancement in seed technology etc. Enough space was provided for sale counters of seed, planting materials, Bio-fertilizers and Bio-pesticides etc. Furthermore, a regular *Krishak Sangosthi* was organized on relevant subjects for the farmers with reputed experts in five sessions during the fair. The fair was a grand success.

7. National Webinar on Rehabilitation of Non-agriculture Migrant Labourers due to COVID -19 Pandemic: Challenges and Opportunities:

Directorate of Extension Services organised a National Webinar on Rehabilitation of Non-agriculture Migrant Labourers due to COVID-19 Pandemic: Challenges and Opportunities during June 19, 2020. A total number of six technical sessions were held during the webinar covering entire theme thoroughly. The experienced panel of the webinar includes, Prof. S. K. Rao, Vice Chancellor, RVSKVV Gwalior, Prof. Vijay Singh Tomar, Former Vice Chancellor and Board member, RVSKVV, Gwalior, Prof. P. K. Bisen, Vice Chancellor, JNKVV, Jabalpur, Dr Anupam Mishra, Director ICAR-ATARI Zone IX, Jabalpur, Dr. Yogesh Dwivedi, CEO FPO Federation Madhya Pradesh, Bhopal and Mr Sanjeev Raman, AGM, NABARD, Gwalior. The problems, suggestions and feedback of the migrant labourers, farmers and KVK scientists were also collected during live sessions of the webinar. About 1000 participants got registered for the webinar through online mode and gave their input on subject through You Tube live chat.

8. Raj Vijay Kitchen Garden Kit: The Directorate has launched a vegetable seed mini kit with the name of Raj Vijay Kitchen Garden Kit for promoting nutritional security among stakeholders. A large scale production of vegetable seed is being done for providing these mini kits to a larger number of clients.

9. Raj Vijay Krishi Sandesh (Weekly Online Programme): The Directorate has recently initiated a weekly online technical advisory programme for farmers, extension workers. Under this programme, one expert directly interacts with the farmers, extension workers on a topic of current importance/need through an online platform every week.

10. Review Workshop and Capacity Building programmes: Capacity building/ HRD programmes and workshops/ review workshops are regularly being organized for KVK scientists and extension workers from district line departments by the Directorate of Extension Services.

B. Initiatives of KVKs

1. **Kisan Mobile Advisory Services:** Kisan Mobile Advisory (KMA) is the easiest ICT tool working successfully for dissemination of latest information to the farmers and farm women since last eight years. This is a unique programme for making linkages between different stakeholders who are key players for making agriculture more productive. During the year 2019, a total of 1519 farm advisory were issued by the KVKs from which 1043704 beneficiaries directly benefited. In addition to this, KVKs also provided audio, video and photo based advisories to more than 45000 farmers and extension workers through WhatsApp.

Year wise Advisories and Beneficiaries KMA

Year	Number of Advisories	Number of Beneficiaries
2015-16	2248	560470
2016-17	1126	585766
2017-18	1409	1063722
2018-19	1291	1352832
2019-20	1519	1043704

2. Identification of exposure visit spots
3. Rural Library
4. Input Dealer Meet
5. Transfer of technology through Whatsapp
6. Custom Hiring Centre
7. Agro-technological park and eco-tourism centre

6.6.5. FACULTY AND STAFF DEVELOPMENT

6.6.5.1. Recruitment and Promotional Avenue:

The detailed recruitment procedure for faculty, technical, supporting and administrative staff:

1. The list of the vacant positions for faculty, technical, supporting and administrative staff of the university is prepared by the registrar office. The vacant positions are determined as per the sanctioned posts in University headquarter, college, KVKs, AICRP, Research projects (plan and non plan).
2. The list is then sent to state Government through Principal Secretary, Department of farmers' welfare and agricultural development, Bhopal for its approval and permission.
3. Once the approval is received from the state government, the posts are categorized as per the roster process and guidelines of state government.
4. The qualification, eligibility proforma, score card based on ICAR, UGC, state government guidelines depending upon the posts are prepared by the competent committee.
5. The compiled list and the proforma are then submitted for its approval from academic council and board of management.
6. After the approval from the competent authority, the wide spread publicity for the filling of these posts are given through VV website, national news papers and application are invited.
7. After the last date of receiving application, the list of the eligible candidates is prepared by a competent committee inclusive of directors, head of the departments, external experts based on the essential and desirable qualifications and other criteria's.
8. A committee of the external experts (other than university) is then invited to final scrutiny and ranking based on the criteria laid in proforma.
9. The eligible and meritorious candidates are then invited for attending the interview before the selection board. The board is represented by external experts, board nominee, state nominee, ICAR nominee, Governor Nominee, registrar and representative of department of farmers' welfare and Agricultural Development, Bhopal.
10. Finally, the appointments letters are issued by the Registrar, RVSKVV and recruitment process is completed.

Recruitment of supporting and administrative staff:

Recently for the recruitment of supporting and administrative staff, the whole process was outsourced and the professional education board (PEB) Vyapam Madhya Pradesh was asked to get selected steno typist/computer database operator as per the vacancy in the RVSKVV. The exam was conducted by the PEB and the list of selected candidates based on their rank was provided to VV for further processing. Accordingly, the candidates are given offer letters from the RVSKVV and recruitment process is completed and they are posted during 2019-20 in the RVSKVV. (List and other relevant documents are attached)

Career advancement procedure

Similarly, career advancement procedure and its implementation for all categories shall be given.

For CAS, notification is issued by the Registrar for receiving the applications in the prescribed proforma for each round of CAS from the eligible Assistant Professor/Scientist/Subject Matter Specialist and Associate Professor/Senior Scientist who fulfill the requisite years of service in the particular stage/cadre and other eligibility criteria up to a particular date for up-gradation to the next higher grade. The screening process including eligibility, score card and ranking is completed by the external experts and further up-gradation to next stage is carried out through interview process wherever required (from grade pay 8000 to 9000 and 9000 to 10000). After getting the approval, the orders are issued on the recommendations of the Selection Committee, constituted under the provisions of section 5, 3 (B) (i) of the R.V.S.K.V.V., Statute 2014 and approval of Hon'ble Vice Chancellor, for upgradation on next higher scale under Career Advancement Scheme (for 15th Round of C.A.S.) for Teachers under the Faculty of Agriculture of the Vishwa Vidyalaya, for the Assistant Professors/Scientists are found eligible for upgradation from different Stages 2 to Stage 3 i.e. with a rise of A.G.P. from Rs. 7000- to Rs. 8000, from 8000 to 9000, from 9000 to 10000/- (with effect from the date of eligibility. RVSKVV has completed the CAS for 16th round recently.

The above upgradation is against the post held by the incumbent at entry point in service under Vishwa Vidyalaya, which is upgraded for the purpose. This upgradation of post shall be personal to the incumbent. The incumbent shall be eligible for withdrawal of the arrears as per V.V. rules.

By the order of Hon'ble Vice Chancellor

How many staff has been recruited directly at the higher positions in the last five years?

The recruitment process for the filling of the higher positions initiated in 2015 for the posts of Director Research services, Director Extension services, director instructions and head of the departments. Even the interview and selection process was completed for these posts, but recruitment process could not be initiated for the want of its approval by the university Board of management and the whole process was withheld. Thus during last five years, none of the staff could be recruited directly at the higher positions.

However, recently advertisement for the staff to be recruited at higher positions directly has been made and applications have been invited. The scrutiny process is completed in October 2021 and call letters would be issued and interview would be conducted very shortly.

 **RAJMATA VIJAYARAJE SCINDIA KRISHI VISHWA VIDYALAYA, GWALIOR**

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर

क्र./कु.स./स्वा.सो/2019/1303

ग्वालियर दिनांक 30/07/2019

//आदेश//

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर अंतर्गत पद वीएस-55 कनिष्ठ शोधलेखक सह कम्प्यूटर ऑपरेटर पद पर सीधी भर्ती हेतु प्रोफेशनल एग्जामिनेशन बार्ड, वयन गगन गोपाल मोडो द्वारा समूह-4 के अंतर्गत प्राप्त प्राथम्य सूची अनुसार विश्वविद्यालय द्वारा गठित दरतादेज स्थापन समिति की अनुशंसा एवं कुलपति जी के अनुमोदनानुसार श्री चन्द्रशेखर लोखण्डे S/O श्री सुखदेव लोखण्डे, ग्राम न पोस्ट-तिवरखंड, तहसील-मुलताई-480005 जिला वैपूल (म.प्र.) को कनिष्ठ शोधलेखक सह कम्प्यूटर ऑपरेटर के पद पर वेतनमान रु 5200-20200+2800 ग्रेड में (पुनरीकृत सातवें वेतनमान लेवल-7 में मूल वेतन रु 28700 + विश्वविद्यालय नियमानुसार भत्ते) पर अन्य पिछड़ा वर्ग श्रेणी के अंतर्गत प्रथम क्रिया जाकर उक्त पद पर उपस्थित होने की दिनांक से अस्थाई रूप से कार्यालय मरिष्ठ वैज्ञानिक एवं मनुष्य कृषि विज्ञान केन्द्र काबुआ में नियुक्ति शर्तों के अधीन परन्तु किये जाते हैं-

2. नियुक्ति की शर्त एवं नियम निम्नानुसार होंगे -

1. यह नियुक्ति 02 वर्ष की परीक्षा अवधि पर की जा रही है। परीक्षा अवधि में अधिन वेतनवृद्धियाँ भी स्वीकृत नहीं की जायेंगी।
2. विश्वविद्यालय द्वारा अंगीकृत M090 शासन, सामान्य प्रशासन विभाग के ज्ञापन क्रमांक एफ-सी-15/2012/1/3, दिनांक 24 नवंबर 2012 के तहत नियुक्त अभ्यर्थी के चरित्र सत्यापन की प्रत्याशा में नियुक्ति आदेश जारी किये जा रहे हैं, अतः इस संकेत में सामान्य प्रशासन विभाग द्वारा जारी शर्त एवं उपस्थिति के तथ्य निर्धारित प्रमाण में प्रस्तुत करना अनिवार्य होगा। नव नियुक्त अभ्यर्थी का चरित्र सत्यापन शासकीय सेवाओं पर लागू निर्देशों या अनुदेशों के अधीन पर किया जायेगा। चरित्र के संबंध में किसी भी प्रकार की प्रतिकूल निष्कर्ष की दशा में नियुक्ति अधिकारी द्वारा नियुक्त अधिकारी की सेवाएं बिना कोई कारण बताये तत्काल रद्द कर दी जायेंगी।
3. आदेश जारी होने के दिनांक से एक महीने के भीतर आवश्यक रूप से कार्यालय तहान करेंगे, अन्यथा नियुक्ति आदेश स्वयं निरस्त समझा जायेगा।
4. नियुक्त अभ्यर्थियों द्वारा कार्यभार ग्रहण करने के पूर्व उनकी शैक्षणिक अर्हता मान्यता प्राप्त सरकारी या मूल प्रमाणपत्र, मूल अंकसूचियों, राक्षस अधिकारी द्वारा जारी आरक्षित श्रेणी का वैध जाति प्रमाणपत्र, M090 मूल निवासी प्रमाणपत्र तथा जनसंख्यिकी स्थापन हेतु वांछित प्रमाणपत्र प्रस्तुत करना होगा, संबंधित अधिकारी द्वारा सभी प्रमाण-पत्रों की धारा मूल दस्तावेजों के आधार पर जांच/सत्यापन स्थल पर की जायेगी। यदि प्रमाण-पत्रों में कोई विसंगति दिखाई देती है, तो कार्यभार ग्रहण करने के पूर्व प्रार्थना जायकारी नियुक्ति अधिकारी अर्थात् कुलपति राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर को भी जाकर उक्त प्रमाणपत्र प्राप्त किया जायेगा एवं प्रस्तुत प्रमाणपत्र सही नहीं पाये जाने की स्थिति में नियुक्ति समाप्त की जा सकेगी।
5. अभ्यर्थी को शासकीय सेवा ग्रहण करने के दिनांक से वे सभी शर्तें M090 विधि (सेवा की सामान्य शर्तें) नियम 1961 एवं सासनादेश मन्व्य होने की संज्ञक-समाय पर शासन द्वारा जारी किए जा चुके हैं अथवा जारी दिए जायेंगे जिन्हें विश्वविद्यालय द्वारा अंगीकृत किया गया है।

(Signature)

/ / 2 / /

6. नियुक्त अभ्यर्थी को कार्यभार ग्रहण करने के समय मेडीकल बोर्ड से उपयुक्तता (फिटनेस) प्रमाण-पत्र प्राप्त कर प्रस्तुत करना आवश्यक होगा।
7. नियुक्त अभ्यर्थियों की परिष्कृत विश्वविद्यालय में पी.ई.बी. भोपाल द्वारा जारी चयन सूची के मेरिट क्रम के अनुसार संचारित होगी।
8. अस्थाई नियुक्ति के दौरान उनकी संख्याएं किसी भी समय समय पक्ष द्वारा एक माह का नोटिस देकर समाप्त की जा सकेंगी।
9. घयनित अभ्यर्थी द्वारा एक माह का नोटिस या उसकी एजेंट में एक माह का चयन तथा नाले का भुगतान किया जाकर सेवा से त्यागपत्र दिया जा सकेगा। एक माह का वेतन तथा एक माह का नोटिस दिये बिना शासकीय सेवा छोड़ने पर उपरोक्त शर्तों के अनुसार देय रकम भू-संजख या बचाया देय राशि से वसूल की जा सकेगी।
10. नियुक्त अभ्यर्थियों को निर्देशित किये जाने पर समय-समय पर आयोजित प्रशिक्षण कार्यक्रमों में उपस्थित होना अनिवार्य है, साथ ही विहित विभागीय परीक्षा आदि नियत समयावधि में उत्तीर्ण करना होगा। विभागीय परीक्षा उत्तीर्ण कर लेने पर एवं कार्य के मूल्यांकन संतोषजनक पाये जाने पर MOPRO सिविल सेवा नियम 1981 के नियम 8(6) के अनुसार सेवासे नियमित की जाकर परीक्षा अवधि समाप्त होने पर ही वेतनवृद्धि की पात्रता होगी। परीक्षा अवधि में नियुक्ति पत्र का भूगतान वेतन देय होगा।
11. राज्य शासन के अधीन दिनांक 01.01.2005 अथवा इसके बाद नियुक्त होने वाले कर्मचारियों को परिभाषित अंशदान पेंशन प्रणाली लागू होगी। सेवा संबंधी अन्य मुद्दे नियमित शासकीय संघकों को लागू किया जाये के अध्याधीन रहेगा।
12. विश्वविद्यालय द्वारा जारी नियुक्ति आदेश में प्रविष्ट पदस्थापना स्थल से अभ्यर्थी की संशय परीक्षा अवधि के दौरान स्थानान्तरित नहीं की जा सकेगी।
13. यह नियुक्ति आदेश पुलिस चरित्र सत्यापन की प्रत्याशा में जारी किया जा रहा है, यदि पुलिस चरित्र सत्यापन की रिपोर्ट में कोई नियुक्त अभ्यर्थी शासकीय सेवा के अयोग्य पाया जाता है तो उसकी नियुक्ति तत्काल प्रभाव से समाप्त की जावेगी। कार्यभार ग्रहण करने के तत्काल पश्चात निर्धारित प्रपत्र में अनुप्रमाणन प्रपत्र चरित्र सत्यापन हेतु एवं सलमन शपथ पत्र प्रारूप में कार्यालय प्रमुख को प्रस्तुत करना अनिवार्य होगा।
14. न्यूनप्रदेश सिविल सेवा (सेवा की सामान्य शर्त) नियम, 1981 के नियम 6 के अनुसार शासकीय सेवा में नियुक्ति के लिए निम्नलिखित अभ्यर्थी अपात्र होंगे—
 - i. कोई भी अभ्यर्थी जिसकी एक से अधिक पत्नी जीवित हों, इसी प्रकार महिला उम्मीदवार जिसने किसी ऐसे व्यक्ति से विवाह किया हो, जिसकी पूर्व से ही एक पत्नी जीवित हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त की जा सकेगी।
 - ii. कोई भी अभ्यर्थी जिसे महिलाओं/पुरुषों के अपराध के दुरुद्ध किसी भी अपराध का सिद्धचोष उहपाया गया हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त कर दी जावेगी।
 - iii. चयनित अभ्यर्थी जिसने विवाह के लिए विहित की गई न्यूनतम आयु से पूर्व विवाह कर लिया हो, तो उसका/उसकी नियुक्ति आदेश निरस्त किया जा सकेगा।
 - iv. कोई भी अभ्यर्थी जिसकी दो से अधिक सन्तान हैं, जिनमें से एक का जन्म 25 जनवरी, 2001 को या उसके पश्चात हुआ है, परन्तु निरर्हित नहीं होगा। यदि एक सन्तान के जीवित रहते आगामी प्रसव में दो या दो से अधिक सन्तान का जन्म होता है उसकी नियुक्ति निरस्त की जा सकेगी।

//3//

15. अभ्यर्थी के शैक्षणिक/व्यवसायिक एवं अन्य प्रमाणपत्रों के प्रकरण में अनिर्दिता (अपूर्णता) की स्थिति प्रकट होती/गती है, तो नियुक्ति निरस्त भाती जावेगी। जिस पर दावा पेश नहीं होगा।
16. अभ्यर्थी को कार्य पर उपस्थिति होने की तिथि से एक माह के अंदर विश्वविद्यालय द्वारा देय नियत मासिक चिकित्सा नक्का प्राप्त करने हेतु विकल्प प्रस्तुत करना होगा अन्यथा उक्त चिकित्सा क्षतिपूर्ति की सुविधा प्रदान नहीं की जावेगी।
17. नियुक्त अभ्यर्थी की सेवाये विश्वविद्यालय के अंतर्गत कृषि विज्ञान केन्द्रों के अतिरिक्त अन्य किसी इकाई में स्थानांतरित नहीं की जा सकेंगी एवं कृषि विज्ञान केन्द्रों में पदस्थ कर्मचारियों की पृथक से वरिष्ठता संधारित की जावेगी।
18. भारतीय कृषि अनुसंधान परिषद नई दिल्ली द्वारा यदि भविष्य में वेतनमान में कमी की जाती है तो उसी अनुसार आपके वेतनमान में भी कमी की जा सकती है।

स्वयंप्रदेश लोक सेवा (अनुसूचित जातियों, अनुसूचित जनजातियों एवं अन्य पिछड़ा वर्गों के आरक्षण) अधिनियम 1994 (क्रमांक-21 सन् 1994) के उपबंधों और अधिनियम के उपबंधों के प्रकाश में सरकार द्वारा जारी अनुदेशों का अनुपालन किया गया है, तथा उक्त अधिनियम की धारा-6 की उपधारा (1) के उपबंधों का पूर्ण संज्ञान है।

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर

सं./कु.स./स्था.नं./2019/1205

ग्वालियर, दिनांक 20/07/2019

// आदेश //

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर अंतर्गत पद ब्लेड-55 कनिष्ठ शीघ्रलेखक सह कम्प्यूटर ऑपरेटर पर पर सीधी भर्ती हेतु प्रोफेशनल एग्जामिनेशन बोर्ड, धरम भवन, नेपाल नं090 द्वारा, समूह-4 के अंतर्गत प्राप्त प्रावीण्य सूची अनुसार विश्वविद्यालय द्वारा गठित दस्तावेज सत्यापन समिति की अनुपस्थिति एवं कुलपति जी के अनुमोदन/परामर्श कु. मेधा सविता D/O श्री जालता प्रसाद, शिव विहार कॉलोनी, उनाह रोड, दतिया- 475063 (M.P.)को कनिष्ठ शीघ्रलेखक सह कम्प्यूटर ऑपरेटर के पद पर वेतनमान रु 5200-20200+2800 पेड पे (पुनर्शिक्षित सालवे वेतनमान लेवल-7 में मूल वेतन रु 28700 + विश्वविद्यालय नियमानुसार भत्ते) पर अन्ध-पिल्ला वर्ग (महिला) श्रेणी के अंतर्गत चयन किया जाकर उक्त पद पर उपस्थित होने की दिनांक से अस्थाई रूप से कार्यालय वरिष्ठ वैज्ञानिक एवं प्रमुख, कृषि विज्ञान केन्द्र आरोन (पुना) में निम्नलिखित शर्तों के अधीन पदस्थ किया जाता है:-

2. नियुक्ति की शर्त एवं नियम-निम्नानुसार होगी -

1. यह नियुक्ति 02 वर्ष की परीक्षा अवधि पर की जा रही है। परीक्षा अवधि में अग्रिम वेतनयुक्तियों भी स्वीकृत नहीं की जाएगी।
2. विश्वविद्यालय द्वारा अंगीकृत MOPRO शासन, सामान्य प्रशासन विभाग के ज्ञाप क्रमांक एफ-सी-15/2012/1/3 दिनांक 24 नवंबर 2012 के तहत नियुक्ति अभ्यर्थी को चरित्र सत्यापन की प्रत्याशा में नियुक्ति आदेश जारी किये जा रहे हैं, अतः इस संबंध में सामान्य प्रशासन विभाग द्वारा जारी संपन्न एवं उपस्थिति की समस्त निर्धारित प्रमाणों में प्रस्तुत करना अनिवार्य होगा। नत नियुक्ति अभ्यर्थी का चरित्र सत्यापन शासकीय लेवलों पर लागू नियमों या अनुदेशों के आधार पर किया जायेगा। चरित्र के संबंध में किसी प्रतिकूल निष्कर्ष की दशा में नियुक्ति प्राधिकारी द्वारा नियुक्त अधिकारी की सेवायें बिना कोई कारण बताये तत्काल रद्द कर दी जायेंगी।
3. आदेश जारी होने के दिनांक से एक सप्ताह के भीतर आवश्यक रूप से कार्यालय चरण करेंगे, अन्यथा नियुक्ति आदेश स्वयंसेव निरस्त समझा जायेगा।
4. नियुक्त अभ्यर्थियों द्वारा कार्यालय प्रवेश करने के पूर्व उनकी शैक्षणिक अर्हता सामान्यता प्राप्त संस्था का मूल प्रमाणपत्र, मूल अनुसूचियों, रक्षण अधिकारी द्वारा जारी आरक्षित श्रेणी का वैध जारी प्रमाणपत्र, MOPRO मूल लिखती प्रमाणपत्र तथा अन्नादिधि सत्यापन हेतु वांछित प्रमाणपत्र प्रस्तुत करना होगा, संबंधित अधिकारी द्वारा सभी प्रमाण-पत्रों की जांच मूल दस्तावेजों के आधार पर पदस्थता स्थल पर की जायेगी। यदि प्रमाण-पत्रों में कोई विसंगति दिखाई देती है, तो कार्यालय प्रवेश करने के पूर्व इसकी जानकारी नियुक्ति प्राधिकारी अर्थात् कुलसचिव राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर को दी जाकर उन्से परामर्श प्राप्त किया जायेगा एवं प्रस्तुत प्रमाणपत्र सही नहीं पाये जाने की स्थिति में नियुक्ति समाप्त की जा सकेगी।
5. अभ्यर्थी को शासकीय सेवा ग्रहण करने के दिनांक से वे सभी शर्तें MOPRO सिविल सेवा (सेवा की सामान्य शर्तें) नियम 1961 एवं शासनोदेश मान्य होंगे जो समय-समय पर शासन द्वारा जारी किए जा चुके हैं अथवा जारी किए जायेंगे जिन्हें विश्वविद्यालय द्वारा अंगीकृत किया गया हो।

(Handwritten Signature)

1/2/1

8. नियुक्त अभ्यर्थी को कार्यभार प्रारंभ करने के समय मेडीकल बोर्ड से उपयुक्तता (फिटनेस) प्रमाण-पत्र प्राप्त कर प्रस्तुत करना आवश्यक होगा।
7. नियुक्त अभ्यर्थियों की त्रिस्तरीय विश्वविद्यालय में पी.ई.बी. भोपाल द्वारा जारी बयान सूची के मेरिट क्रम के अनुसार संधारित होगी।
8. अस्थाई नियुक्ति के दौरान उनकी सेवायें किसी भी समय उभय पक्ष द्वारा एक माह का नोटिस देकर समाप्त की जा सकेंगी।
9. चयनित अभ्यर्थी द्वारा एक माह का नोटिस या उसकी एज में एक माह का वेतन तथा भत्ते का भुगतान किया जाकर सेवा से त्यागपत्र दिया जा सकेगा। एक माह का वेतन तथा एक माह का नोटिस दिये बिना शासकीय सेवा छोड़ने पर उपरोक्त शर्तों के अनुसार देय रकम भू-राजस्व या बकाया देय राशि से वसूल की जा सकेगी।
10. नियुक्त अभ्यर्थियों को निर्दिष्ट किये जाने पर समय-समय पर आयोजित प्रशिक्षण कार्यक्रमों में उपस्थित होना अनिवार्य है, साथ ही विहित विभागीय नरीजा आदि नियत समयावधि में उत्तीर्ण करना होगा। विभागीय परीक्षा उत्तीर्ण कर लेने पर एवं कार्य के मूल्यांकन संतोषजनक पाये जाने पर 2010 सिविल सेवा नियम 1981 के नियम 8(6) के अनुसार सेवायें नियमित की जाकर परिवीक्षा अवधि समाप्त होने पर ही वेतनवृद्धि की पात्रता होगी। परिवीक्षा अवधि में नियुक्ति पद का न्यूनतम वेतन देय होगा।
11. राज्य शासन के अधीन दिनांक 01/01/2005 अथवा इसके बाद नियुक्त होने वाले कर्मचारियों को परिभाषित अक्षदान पैशन प्रणाली लागू होगी। सेवा संबंधी अन्य मुद्दे नियमित शासकीय सेवकों को लागू किया जाये, के अधीन रहेगा।
12. विश्वविद्यालय द्वारा जारी नियुक्ति आदेश में प्रविष्ट पदस्थापना स्तर से अभ्यर्थी की सेवायें परिवीक्षा अवधि के दौरान रक्षानान्तरित नहीं की जा सकेंगी।
13. यह नियुक्ति आदेश पुलिस चरित्र सत्यापन की प्रत्याशा में जारी किया जा रहा है, यदि पुलिस चरित्र सत्यापन की रिपोर्ट में कोई नियुक्त अभ्यर्थी शासकीय सेवा के असंगत पाया जाता है तो उसकी नियुक्ति तत्काल प्रभाव से समाप्त की जावेगी। कार्यभार ग्रहण करने के तत्काल पश्चात निर्धारित प्रपत्र में अनुप्रमाणन प्रपत्र चरित्र सत्यापन हेतु एवं सलग्न सपथ पत्र प्रारूप में कार्यालय प्रमुख को प्रस्तुत करना अनिवार्य होगा।
14. मध्यप्रदेश सिविल सेवा (सेवा की सामान्य शर्त) नियम, 1981 के नियम 8 के अनुसार शासकीय सेवा में नियुक्ति के लिए निम्नलिखित अभ्यर्थी अपात्र होंगे-
 - i. कोई भी अभ्यर्थी जिसकी एक से अधिक पत्नी जीवित हों, इसी प्रकार महिला उम्मीदवार जिसने किसी ऐसे व्यक्ति से विवाह किया हो, जिसकी पूर्व से ही एक पत्नी जीवित हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त की जा सकेगी।
 - ii. कोई भी अभ्यर्थी जिसे महिलाओं/पुरुषों के अपराध के विरुद्ध किसी भी अपराध का सिद्धांत उठराया गया हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त कर दी जावेगी।
 - iii. चयनित अभ्यर्थी जिसने विवाह के लिए विहित की गई न्यूनतम आयु से पूर्व विवाह कर लिया हो, तो उसका/उसकी नियुक्ति आदेश निरस्त किया जा सकेगा।
 - iv. कोई भी अभ्यर्थी जिसकी दो से अधिक सन्तान है, जिनमें से एक का जन्म 28 जनवरी, 2001 को या उसके पश्चात हुआ है, परन्तु निरर्हित नहीं होगा यदि एक सन्तान को जीवित रहते आगामी प्रसव में दो या दो से अधिक सन्तान का जन्म होता है उसकी नियुक्ति निरस्त की जा सकेगी।

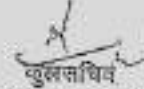

11/3/19

15. अभ्यर्थी के शैक्षणिक/व्यवसायिक एवं अन्य प्रमाणपत्रों के प्रकरण में अनर्हता (अधोगत्या) की स्थिति प्रकट होती/बनती है, तो नियुक्ति भिरसा मानी जावेगी। जिस पर टाका पैसा नहीं होगा।
16. अभ्यर्थी को कार्य पर उपस्थिति होने की तिथि से एक माह के अंदर विश्वविद्यालय द्वारा देय नियत मासिक चिकित्सा भत्ता प्राप्त करने हेतु चिकित्सक प्रस्तुत करना होगा अन्यथा उसे चिकित्सा भत्तापूर्ति की सुविधा प्रदान नहीं की जावेगी।
17. नियुक्त अभ्यर्थी की सहाय्य विश्वविद्यालय के अंतर्गत कृषि विज्ञान केंद्रों के अतिरिक्त अन्य किसी इकाई में स्थानांतरित नहीं की जा सकेंगी एवं कृषि विज्ञान केंद्रों में पदस्थ कर्मचारियों की पृथक् से वरिष्ठता संशोधित की जावेगी।
18. भारतीय कृषि अनुसंधान परिषद नई दिल्ली द्वारा यदि भविष्य में वेतनमान में कमी की जाती है तो उसी अनुसार आपके वेतनमान में भी कमी की जा सकती है।

राज्यप्रदेश लोक सेवा (अनुसूचित जातियों, अनुसूचित जनजातियों एवं अन्य पिछड़ा वर्गों के आरक्षण) अधिनियम 1994 (क्रमांक-21 राग 1994) के उपबंधों और अधिनियम के उपबंधों के प्रकारों से सरकार द्वारा जारी अनुदेशों का अनुपालन किया गया है। तथा उक्त अधिनियम की धारा-6 की उपधारा (1) के उपबंधों का पूर्ण रक्षण है।

2. नियुक्ति की शर्त एवं नियम निम्नानुसार होंगी -

1. यह नियुक्ति 02 वर्ष की परीक्षा अवधि पर की जा रही है; परीक्षा अवधि में अग्रिम वेतनवृद्धिमें भी स्वीकृत नहीं की जायेगी।
2. विश्वविद्यालय द्वारा अंगीकृत 4090 शासन, सामान्य प्रशासन विभाग के ज्ञाप क्रमांक एफ-सी-15/2012/1/3, दिनांक 24 नवंबर 2012 के तहत नियुक्त अम्पर्थी के चरित्र सत्यापन की प्रत्याशा में नियुक्ति आदेश जारी किये जा रहे हैं, अतः इस संबंध में सामान्य प्रशासन विभाग द्वारा जारी शपथ पत्र उपस्थिति के समय निर्धारित प्रारूप में प्रस्तुत करना अनिवार्य होगा। नव नियुक्त अम्पर्थी का चरित्र सत्यापन शासकीय सेवकों पर लागू नियमों या अनुदेशों के आधार पर किया जायेगा। चरित्र के संबंध में किसी प्रतिकूल निष्कर्ष की दशा में नियुक्ति प्राधिकारी द्वारा नियुक्त अधिकारी की सेवाये बिना कोई कारण बताये तत्काल रद्द कर दी जायेगी।
3. आदेश जारी होने के दिनांक से एक माह के भीतर आवश्यक रूप से कार्यभार ग्रहण करेंगे, अन्यथा नियुक्ति आदेश स्वमेव निरस्त समझा जावेगा।
4. नियुक्त अम्पर्थियों द्वारा कार्यभार ग्रहण करने के पूर्व उनकी शैक्षणिक उर्ध्वत मान्यता प्राप्त संस्था का मूल प्रमाणपत्र, मूल अंकसूचियाँ, चक्षम अधिकारी द्वारा जारी अंकित श्रेणी का वैध जाति प्रमाणपत्र, 4090 मूल निवासी प्रमाणपत्र तथा जन्मतिथि सत्यापन हेतु पंक्ति प्रमाणपत्र प्रस्तुत करना होगा, संबंधित अधिकारी द्वारा सभी प्रमाण-पत्रों की जांच मूल दस्तावेजों के आधार पर मंदरथापना स्थल पर की जावेगी। यदि प्रमाण-पत्रों में कोई विसंगति दिखाई देती है, तो कार्यभार ग्रहण कराने को पूर्व इसकी जानकारी नियुक्ति प्राधिकारी अर्थात् कुलसचिव राजमता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर को दी जाकर उनसे परामर्श प्राप्त किया जायेगा एवं प्रस्तुत प्रमाणपत्र सही नहीं पाये जाने की स्थिति में नियुक्ति समाप्त की जा सकेगी।
5. अम्पर्थी को शासकीय सेवा ग्रहण करने के दिनांक से दो सप्ताह शर्त 4090 सिविल सेवा (सेवा की सामान्य शर्त) नियम 1981 एवं शासन-देश बाध्य होने की समय-समय पर शासन द्वारा जारी किए जा चुके हैं अथवा जारी किए जायेंगे जिन्हें विश्वविद्यालय द्वारा अंगीकृत किया गया हो।

//2//

6. नियुक्त अभ्यर्थी को कार्यालय ग्रहण करने के समय मेडिकल बोर्ड से उपयुक्तता (फिटनेस) प्रमाण-पत्र प्राप्त कर प्रस्तुत करना आवश्यक होगा।
7. नियुक्त अभ्यर्थियों की करिबत विश्वविद्यालय में पी.ई.सी. नोभल द्वारा जारी चयन सूची के मेरिट क्रम के अनुसार संधारित होगी।
8. अस्थाई नियुक्ति के दौरान उनकी सेवाये किसी भी समय समय पक्ष द्वारा एक माह का नोटिस देकर समाप्त की जा सकेगी।
9. चयनित अभ्यर्थी द्वारा एक माह का नोटिस या उसकी एजेंट में एक माह का वेतन तथा भत्ते का भुगतान किया जाकर सेवा से त्यागपत्र दिया जा सकेगा। एक माह का वेतन तथा एक माह का नोटिस दिये बिना शासकीय सेवा छोड़ने पर उमरोक्त शर्तों के अनुसार देय रकम भू-राजस्व या बकरवा देय राशि से वसूल की जा सकेगी।
10. नियुक्त अभ्यर्थियों को निर्देशित किये जाने पर समय-समय पर आयोजित प्रशिक्षण कार्यक्रमों में उपस्थित होना अनिवार्य है, जहाँ ही विहित विभागीय परीक्षा आदि नियत समयवाधि में उत्तीर्ण करना होगी। विभागीय परीक्षा उत्तीर्ण होने एवं कार्यों के मूल्यांकन संतोषजनक पाये जाने पर 100प्र0 सिविल सेवा नियम 1961 के नियम 8(6) के अनुसार सेवाये नियमित की जाकर परिधीक्षा अवधि समाप्त होने पर ही वेतनवृद्धि की पात्रता होगी। परिधीक्षा अवधि में नियुक्ति पद का न्यूनतम वेतन देय होगा।
11. राज्य शासन के अधीन दिनांक 01.01.2005 अथवा इसके बाद नियुक्त होने वाले कर्मधारियों को परिभाषित असादान पेंशन प्रणाली लागू होगी। सेवा संबंधी अन्य मुद्दे नियमित शासकीय सेवकों को लागू किया जाये के अधधीन रहेगा।
12. विश्वविद्यालय द्वारा जारी नियुक्ति आदेश में प्रविष्ट पदस्थापना स्थल से अभ्यर्थी की सेवाये परिधीक्षा अवधि के दौरान स्थानान्तरित नहीं की जा सकेगी। परिधीक्षा अवधि समाप्ति पश्चात कर्मधारी की सेवाये विश्वविद्यालय से अतर्गत आने वाली किसी भी इकाय/योजना को स्थानान्तरित की जा सकेगी।
13. "यह नियुक्ति आदेश पुलिस चरित्र सत्यापन की प्रत्याशा में जारी किया जा रहा है, यदि पुलिस चरित्र सत्यापन की रिपोर्ट में कोई नियुक्त अभ्यर्थी शासकीय सेवा में अयोग्य पाया जाता है तो उसकी नियुक्ति तत्काल प्रभाव से समाप्त की जायेगी।" कार्यधार प्रहण करने के तत्काल पश्चात निर्धारित प्रपत्र में अनुप्रमाणन प्रपत्र चरित्र सत्यापन हेतु एवं संलग्न शपथ पत्र प्रारूप में कार्यालय प्रमुख को प्रस्तुत करना अनिवार्य होगा।
14. मध्यप्रदेश सिविल सेवा (सेवा की सामान्य शर्त) नियम, 1961 के नियम 8 के अनुसार शासकीय सेवा में नियुक्ति के लिए निम्नलिखित अभ्यर्थी अपात्र होंगे-
 - i. कोई भी अभ्यर्थी जिसकी एक से अधिक पत्नी जीवित हों, इसी प्रकार महिला उन्मीदवार जिसने किसी ऐसे व्यक्ति से विवाह किया हो, जिसकी पूर्व से ही एक पत्नी जीवित हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त की जा सकेगी।
 - ii. कोई भी अभ्यर्थी जिसे महिलाओं/पुरुषों के अपराध के विरुद्ध किसी भी अपराध का सिद्धादोष उहाराया गया हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त कर दी जावेगी।
 - iii. चयनित अभ्यर्थी जिसने विवाह के लिए विहित की गई न्यूनतम आयु से पूर्व विवाह कर लिया हो, तो उसका/उसकी नियुक्ति आदेश निरस्त किया जा सकेगा।

K. H. Jadhav

// 3 //

- iv. कोई भी अभ्यर्थी जिसकी दो से अधिक सन्तान है, जिनमें से एक या जिनमें 26 जनवरी, 2001 को या उसके पर्याप्त हुआ है, परन्तु निरक्षित नहीं होगा यदि एक सन्तान के जीवित रहते आगामी प्रसव में दो या दो से अधिक सन्तान का जन्म होता है उसकी नियुक्ति निरस्त की जा सकेगी।
15. अभ्यर्थी के शैक्षणिक/व्यवसायिक एवं अन्य प्रमाणपत्रों के प्रकरण में अनहोला (अयोग्यता) की स्थिति प्रकट होती/बनती है, तो नियुक्ति निरस्त मानी जावेगी। जिस पर छात्रा वेत नहीं होगा।
16. अभ्यर्थी को कार्य पर उपस्थिति होने की तिथि से एक माह के अंदर विरघविद्यालय द्वारा देय नियत मासिक शिक्षा भत्ता प्राप्त करने हेतु विकल्प प्रस्तुत करना होगा अन्यथा उसी शिक्षा क्षतिपूर्ति की सुविधा प्रदान नहीं की जावेगी।

मुख्यप्रदेश लोक सेवा (अनुसूचित जातियों, अनुसूचित जागजातियों एवं अन्य पिछड़ा वर्गों के आरक्षण) अधिनियम 1994 (प्रमाणक-21 सन 1994) के उपबंधों और अधिनियम के उपबंधों के प्रकाश में सरकार द्वारा जारी अनुदेशों का अनुपालन किया गया है, तथा उक्त अधिनियम की धारा-8 की उपधारा (1) के उपबंधों का पूर्ण सन्तान है।

माननीय कुलपति जी के आदेशानुसार

10. नियुक्त अभ्यर्थियों को निर्देशित किये जाने पर समय-समय पर आयोजित प्रशिक्षण कार्यक्रमों में उपस्थित होना अनिवार्य है, साथ ही विहित विभागीय परीक्षा आदि नियत समयोत्तम में उत्तीर्ण करना होगी। विभागीय परीक्षा उत्तीर्ण होने एवं कार्यों के मूल्यांकन संतोषजनक पाये जाने पर मद्रास सिविल सेवा नियम 1961 के नियम 8(6) के अनुसार सेवायें नियमित की जाकर परीक्षा अवधि समाप्त होने पर ही वेतनवृद्धि की पात्रता होगी। परीक्षा अवधि में नियुक्ति पद का न्यूनतम वेतन देय होगा।
11. राज्य शासन के अधीन दिनांक 01.01.2005 अथवा इसके बाद नियुक्त होने वाले कर्मचारियों को परिभाषित अधदान गैशन प्रणाली लागू होगी। सेवा संबंधी अन्य मुद्दों के नियमित शासकीय संवकों का लागू किया जाये, वे अध्याधीन रहेगा।
12. विश्वविद्यालय द्वारा जारी नियुक्ति आदेश में प्रविष्ट पदस्थापना स्थल से अभ्यर्थी को सेवायें परीक्षा अवधि के दौरान स्थानान्तरित नहीं की जा सकेंगी। परीक्षा अवधि समाप्ति पश्चात कर्मचारी की सेवायें विश्वविद्यालय के अंतर्गत आने वाली किसी भी इकाई/योजना को स्थानान्तरित की जा सकेंगी।
13. "यह नियुक्ति आदेश पुलिस चरित्र सत्यापन की प्रत्याशा में जारी किया जा रहा है, यदि पुलिस चरित्र सत्यापन की रिपोर्ट में कोई नियुक्त अभ्यर्थी शासकीय सेवा के अयोग्य पाया जाता है तो उसकी नियुक्ति तत्काल प्रभाव से समाप्त की जावेगी।" कार्यभार ग्रहण करने के तत्काल पश्चात निर्धारित प्रपत्र में अनुप्रभाग प्रपत्र चरित्र सत्यापन हेतु एवं संलग्न शपथ पत्र प्रारूप में कार्यालय प्रमुख को प्रस्तुत करना अनिवार्य होगा।
14. मध्यप्रदेश सिविल सेवा (सेवा की सामान्य शर्त) नियम, 1961 के नियम 6 के अनुसार शासकीय सेवा में नियुक्ति के लिए निम्नलिखित अभ्यर्थी अपात्र होंगे—
 - i. कोई भी अभ्यर्थी जिसकी एक से अधिक पत्नी जीवित हों, इसी प्रकार महिला उम्मीदवार जिसने किसी ऐसे व्यक्ति से विवाह किया हो, जिसकी पूर्व से ही एक पत्नी जीवित हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त की जा सकेगी।
 - ii. कोई भी अभ्यर्थी जिसे महिलाओं/पुरुषों के अपराध के विरुद्ध किसी भी अपराध का सिद्धदोष उठराया गया हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त कर दी जावेगी।
 - iii. चयनित अभ्यर्थी जिसने विवाह के लिए विहित की गई न्यूनतम आयु से पूर्व विवाह कर लिया हो, तो उसका/उसकी नियुक्ति आदेश निरस्त किया जा सकेगा।

1/01/1

iv. कोई भी अन्यथा विस्तार दी से अधिक सन्तान है, जिन्में से एक का जन्म 26 जनवरी, 2021 को या उसके पश्चात हुआ है, परन्तु निरहित नहीं होगा यदि एक सन्तान के जीवित रहने आगामी प्रत्येक से दो या दो से अधिक सन्तान का जन्म होता है उसकी नियुक्ति निरस्त की जा सकेगी।

15. अन्यथा के शैक्षणिक/अवसरायिक एवं अन्य प्रमाणपत्रों के प्रकरण में अनिर्दिष्ट (अव्यक्त) की स्थिति प्रकट होती/बनती है, जो नियुक्ति निरस्त मानी जावेगी। जिस पर वादा पेश नहीं होगा।
16. अन्यथा के कार्य पर उपस्थिति होने की स्थिति से एक माह के अंदर विश्वविद्यालय द्वारा देय नियत शैक्षणिक/वित्तीय/पत्राचार प्रकट करने हेतु विस्तृत प्रस्तुत करने होगा अन्यथा उसे शैक्षणिक क्षतिपूर्ति की सुविधा प्रदान नहीं की जावेगी।

मध्यप्रदेश लोक सेवा (अनुसूचित जातियों, अनुसूचित जनजातियों एवं अन्य पिछड़े वर्गों के आरक्षण) अधिनियम 1994 (क्रमांक-21 रा.नु. 1994) के उपबंधों और अधिनियम के उपबंधों के प्रकाश में सरकार द्वारा जारी अनुदेशों का अनुपालन किया गया है, तथा उक्त अधिनियम की प्राव-6 की उपघात (1) के उपबंधों का पूर्ण सन्तान है।

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर

क्र./एड.स./स्था.को/2019/126 ई

ग्वालियर, दिनांक 20/07/2019

//आदेश//

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर अंतर्गत प्लट कोड-54 सहायक ग्रेड-3 सह स्टेनोटायपिस्ट पद पर सूची भर्ती हेतु प्रोफेशनल एग्जामिनेशन बोर्ड, अयन भवन भोपाल म0प्र0 द्वारा, सन्-4 के अंतर्गत प्राप्त प्राथम्य सूची अनुसार विश्वविद्यालय द्वारा गठित दस्तावेज सत्यापन समिति की अनुशंसा एवं कुलपति जी के अनुमोदनोपरान्त कु. शिवानी राव D/O श्री रामेश्वर, कुमेडी कालोनी ताल बरवाजा, टीकमगढ़-472001 (म.प्र.) को सहायक ग्रेड-3 सह स्टेनोटायपिस्ट के पद पर वेतनमान रु 5200-20200+1900 ग्रेड पे (पुनरीक्षित सतत वेतनमान लेवल-4 में मूल वेतन रु 19500 + विश्वविद्यालय नियमानुसार भत्ते) पर अनुसूचित जाति (मडिला) श्रेणी के अंतर्गत अयन किया जाकर उक्त पद पर तैयार होने की दिनांक से अस्थायी रूप से कार्यालय, लेखानियंत्रक राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर में निम्नलिखित शर्तों के अधीन पदस्थ किया जाता है:-

2. नियुक्ति की शर्त एवं नियम निम्नानुसार होंगे -

1. यह नियुक्ति 02 वर्ष की परीक्षा अवधि पर की जा रही है। परीक्षा अवधि में अग्रिम वेतनवृद्धियाँ भी स्वीकृत नहीं की जायेंगी।
2. विश्वविद्यालय द्वारा अंगीकृत म0प्र0 शासन, सामान्य प्रशासन विभाग के ज्ञाप क्रमांक एफ-सी-15/2012/1/3, दिनांक 24 नवंबर 2012 के तहत नियुक्त अन्यर्था के चरित्र सत्यापन की प्रत्याशा में नियुक्ति आदेश जारी किये जा रहे हैं, अतः इस संबंध में सामान्य प्रशासन विभाग द्वारा जारी शपथ पत्र उपस्थिति के समय निर्धारित प्रारूप में प्रस्तुत करना अनिवार्य होगा। नव नियुक्त अन्यर्था का चरित्र सत्यापन शासकीय सेवाओं पर लागू नियमों या अनुदेशों के आधार पर किया जायेगा। चरित्र के संबंध में किसी प्रतिकूल निष्कर्ष की दशा में नियुक्ति प्राधिकारी द्वारा नियुक्त अधिकारी की सेवाएं बिना कोई कारण बताये तत्काल रद्द कर दी जायेंगी।
3. आदेश जारी होने के दिनांक से एक माह के भीतर आवश्यक रूप से कार्यभार ग्रहण करेंगे, अन्यथा नियुक्ति आदेश स्वयं निरस्त समझा जायेगा।
4. नियुक्त अन्यर्था द्वारा कार्यभार ग्रहण करने के पूर्व उनकी दैनिक अर्हत मान्यता प्राप्त सस्था का मूल प्रमाणपत्र, मूल अंकसूचियाँ, रक्षक अधिकारी द्वारा जारी गारंजित श्रेणी का वेध जाति प्रमाणपत्र, म0प्र0 मूल निवासी प्रमाणपत्र तथा जन्मतिथि सत्यापन हेतु वांछित प्रमाणपत्र प्रस्तुत करना होगा, संबंधित अधिकारी द्वारा सभी प्रमाण-पत्रों की जांच मूल दस्तावेजों के आधार पर पदस्थाना स्थल पर की जायेगी। यदि प्रमाण-पत्रों में कोई विरंगति दिखाई देती है, तो कार्यभार ग्रहण कराने के पूर्व इसकी जानकारी नियुक्ति प्राधिकारी अर्थात् कुलपति राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर को दी जाकर उनसे परामर्श प्राप्त किया जायेगा एवं प्रस्तुत प्रमाणपत्र सही नहीं पाये जाने की स्थिति में नियुक्ति समाप्त की जा सकेगी।
5. अन्यर्था को शासकीय सेवा ग्रहण करने के दिनांक से वे सभी शर्तें म0प्र0 सिविल सेवा (सेवा की सामान्य शर्तें) नियम 1901 एवं शासनादेश मान्य होंगे जो समय-समय पर शासन द्वारा जारी किए जा चुके हैं अथवा जारी किए जायेंगे जिन्हें विश्वविद्यालय द्वारा अंगीकृत किया गया हो।

// 2 / /

6. नियुक्त अभ्यर्थी को कार्यभार ग्रहण करने के समय मेडीकल बोर्ड से उपयुक्तता (फिटनेस) प्रमाण-पत्र प्राप्त कर प्रस्तुत करना आवश्यक होगा।
7. नियुक्त अभ्यर्थियों की दरिद्रता विश्वविद्यालय में पी.ई.सी. थोपाल द्वारा जारी समय सूची के मेरिट क्रम के अनुसार संधारित होगी।
8. अल्थाई नियुक्ति के दौरान उसकी सेवाएँ किसी भी समय समय पक्ष द्वारा एक माह का नोटिस देकर समाप्त की जा सकेंगी।
9. सचिवित अभ्यर्थी द्वारा एक माह का नोटिस या उसकी एजेंट में एक माह का वेतन तथा पत्नी का भुगतान किया जाकर सेवा से त्यागपत्र दिया जा सकेगा। एक माह का वेतन तथा एक माह का नोटिस दिने बिना शासकीय सेवा छोड़ने पर उपरोक्त शर्तों के अनुसार दस स्थग भू-राजस्व या दसवां देय राशि से दसूल की जा सकेंगी।
10. नियुक्त अभ्यर्थियों को निर्दिष्ट किये जाने पर समय-समय पर आयोजित प्रशिक्षण कार्यक्रमों में उपस्थित होना अनिवार्य है, साथ ही विहित विभागीय परीक्षा आदि विधित समयवधि में उत्तीर्ण करना होगा। विभागीय परीक्षा उत्तीर्ण होने एवं कर्षों के मूल्यांकन संतोषजनक पाये जाने पर 10 प्रो सिविल सेवा नियम 1981 के नियम 8(6) के अनुसार सेवाएँ नियमित की जाकर परीक्षा अवधि समाप्त होने पर ही वेतनवृद्धि की पात्रता होगी। परीक्षा अवधि में नियुक्ति पक्ष का न्यूनतम वेतन देय होगा।
11. राज्य शासन के अधीन दिनांक 01.01.2006 अथवा इसके बाद नियुक्त होने वाले कर्मचारियों को परिभाषित अंशदान पेंशन प्रणाली लागू होगी। सेवा संबंधी अन्य मुद्दे नियमित शासकीय श्रेणियों को लागू किया जाये, के अधीन रहेगा।
12. शिक्षाविद्यालय द्वारा जारी नियुक्ति आदेश में प्रविष्ट पदस्थापना स्थल से अभ्यर्थी की संवादे परीक्षा अवधि के दौरान स्थानान्तरित नहीं की जा सकेगी। परीक्षा अवधि समाप्ति पश्चात कर्मचारी की सेवाएँ विश्वविद्यालय के अंतर्गत जाने वाली किसी भी इकाई/योजना को स्थानान्तरित की जा सकेंगी।
13. यह नियुक्ति आदेश पुलिस चरित्र सत्यापन की प्रत्याशा में जारी किया जा रहा है, यदि पुलिस चरित्र सत्यापन की रिपोर्ट में कोई नियुक्त अभ्यर्थी शासकीय सेवा के अयोग्य पाया जाता है तो उसकी नियुक्ति तत्काल प्रभाव से समाप्त की जावेगी। कार्यभार ग्रहण करने के तत्काल पश्चात निर्धारित प्रपत्र में अनुप्रमाण प्रपत्र चरित्र सत्यापन हेतु एवं संलग्न शपथ पत्र प्रारूप में कार्यालय प्रमुख को प्रस्तुत करना अनिवार्य होगा।
14. मध्य प्रदेश सिविल सेवा (सेवा की सामान्य शर्त) नियम, 1981 के नियम 8 के अनुसार शासकीय सेवा में नियुक्ति के लिए निम्नलिखित अभ्यर्थी अपात्र होंगे-
 - i. कोई भी अभ्यर्थी जिसने एक से अधिक पत्नी जीवित हों, इसी प्रकार महिला उम्मीदवार जिसने किसी ऐसे व्यक्ति से विवाह किया हो, जिसकी पूर्व से ही एक पत्नी जीवित हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त की जा सकेगी।
 - ii. कोई भी अभ्यर्थी जिसे महिलाओं/पुर्णों के अपराध के विरुद्ध किसी भी अपराध का सिद्धोप उद्घाटन नया हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त कर दी जावेगी।
 - iii. सचिवित अभ्यर्थी जिसने विवाह के लिए विहित की गई न्यूनतम आयु से पूर्व विवाह कर लिया हो, तो उसका/उसकी नियुक्ति आदेश निरस्त किया जा सकेगा।

// 3 //

- iv. कोई भी अग्र्यर्थी जिसकी दो से अधिक सन्तान है, जिनमें से एक का जन्म 26 जनवरी, 2001 को या उसके पश्चात हुआ है, परन्तु निरहित नहीं होगा यदि एक सन्तान के अधीन रहते अग्र्यर्थी जरायु में दो या दो से अधिक सन्तान का जन्म होता है उसकी नियुक्ति निरस्त की जा सकेगी।
15. अग्र्यर्थी के शैक्षणिक/व्यवसायिक एवं अन्य प्रमाणपत्रों के प्रकरण में अनर्हता (अयोग्यता) की स्थिति प्रकट होती/हगती है, तो नियुक्ति निरस्त मानी जावेगी। जिस पर दावा पेश नहीं होगा।
16. अग्र्यर्थी को कार्य पर उपस्थिति होने की तिथि से एक माह के अंदर विश्वविद्यालय द्वारा देय नियत मासिक चिकित्सा भत्ता प्राप्त करने हेतु विकल्प प्रस्तुत करना होगा अन्यथा उसे चिकित्सा क्षतिपूर्ति की सुविधा प्रदान नहीं की जावेगी।

मध्यप्रदेश लोक सेवा (अनुसूचित जातियों, अनुसूचित जनजातियों एवं अन्य विछडा वर्गों के आरक्षण) अधिनियम 1994 (क्रमांक-21 सन् 1994) के उपबंधों और अधिनियम के उपबंधों के प्रकाश में सरकार द्वारा जारी अनुदेशों का अनुपालन किया गया है, तथा उक्त अधिनियम की धारा-6 की उपधारा (1) के उपबंधों का पूर्ण संज्ञान है।

माननीय कुलपति जी के आदेशानुसार

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर
 को./कृ.स./स्था.दो/2019/15/3
 ग्वालियर, दिनांक: 15/11/2019
 //आदेश//

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर अंतर्गत पद कोड-55 कनिष्ठ शीघ्रलेखक सह कम्प्यूटर ऑपरेटर पद पर सीधी भर्ती हेतु प्रोफेशनल एग्जामिनेशन बोर्ड, चयन भवन, सोपाना मण्डल द्वारा, समूह-4 के अंतर्गत प्राप्त प्रार्थना सूची अनुसार विश्वविद्यालय द्वारा गठित दस्तावेज सत्यापन समिति की अनुशंसा एवं कुलपति जी के अनुमोदनोपरान्त श्री सहुल पर्वैया S/O श्री राजेन्द्र सिंह पर्वैया, खरगेश्वर मंदिर के पास, गणेश कॉलोनी, चार शहर का नाका, हजीरा, ग्वालियर-474003 (म.प्र.) को कनिष्ठ शीघ्रलेखक सह कम्प्यूटर ऑपरेटर के पद पर पेंशनमान रु 5200-20200+2800 ग्रेड पे (पुनरीक्षित रातये दैतनमान लेवल-7 में मूल पेंशन रु 28700 : विश्वविद्यालय नियमानुसार मतो) पर अनारक्षित श्रेणी के अंतर्गत चयन किया जाकर उक्त पद पर उपस्थित होने की दिनांक से अस्थाई रूप से कार्यालय वरिष्ठ वैज्ञानिक एवं प्रमुख, कृषि विज्ञान केंद्र, इचोपुर में निम्नलिखित शर्तों के अधीन पदरथ किया जाता है:-

2. नियुक्ति की शर्त एवं नियम निम्नानुसार होंगे :-

1. यह नियुक्ति 02 वर्ष की परीक्षा अवधि पर की जा रही है। परीक्षा अवधि में अग्रिम वेतनवृद्धियाँ भी स्वीकृत नहीं की जाएंगी।
2. विश्वविद्यालय द्वारा अंगीकृत मंत्रालय शासन, सामान्य प्रशासन विभाग के ज्ञापन क्रमांक एफ-सी-15/2012/1/3, दिनांक 24 नवंबर 2012 के तहत नियुक्त अभ्यर्थी के वरिष्ठ सत्यापन की प्रत्याशा में नियुक्ति आदेश जारी किये जा रहे हैं, अतः इस संबंध में सामान्य प्रशासन विभाग द्वारा जारी शपथ पत्र उपस्थिति के समय निर्धारित प्रारूप में प्रस्तुत करना अनिवार्य होगा। नव नियुक्त अभ्यर्थी का वरिष्ठ सत्यापन शाराकीय सेवकों पर लागू नियमों का अनुदेशों के आधार पर किया जायेगा। वरिष्ठ के संबंध में किसी प्रतिकूल निष्कर्ष की रक्षा में नियुक्ति प्राधिकारी द्वारा नियुक्त अधिकारी की सेवायें बिना कोई कारण बताये तत्काल रद्द कर दी जायेगी।
3. आदेश जारी होने के दिनांक से एक माह के भीतर आवश्यक रूप से कार्यभार ग्रहण करेंगे, अन्यथा नियुक्ति आदेश समेक निरस्त समझा जावेगा।
4. नियुक्त अभ्यर्थियों द्वारा कार्यभार ग्रहण करने के पूर्व उनकी शैक्षणिक अर्हता मान्यतः प्राप्त संस्था का मूल प्रमाणपत्र, मूल अंकसूचियाँ, सक्षम अधिकारी द्वारा जारी अनारक्षित श्रेणी का वैध जाति प्रमाणपत्र, मंत्रालय मूल निवासी प्रमाणपत्र तथा जन्मतिथि सत्यापन हेतु साक्षित प्रमाणपत्र प्रस्तुत करना होगा, संबंधित अधिकारी द्वारा सही प्रमाण-पत्रों की जांच मूल दस्तावेजों के आधार पर पदस्थापना स्थल पर की जावेगी। यदि प्रमाण-पत्रों में कोई विरसंगति दिखाई देती है, तो कार्यभार ग्रहण करने के पूर्व इसकी जानकारी नियुक्ति प्राधिकारी अर्थात् कुलसचिव राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर को दी जाकर उनसे परामर्श प्राप्त किया जायेगा एवं प्रस्तुत प्रमाणपत्र सही नहीं पाये जाने की स्थिति में नियुक्ति समाप्त की जा सकेगी।

क्रमांक.....2

//2//

5. अभ्यर्थी को शासकीय सेवा ग्रहण करने के दिनांक से वे सभी शर्तें MOPRO सिविल सेवा (सेवा की सामान्य शर्तें) नियम 1961 एवं शासनादेश मान्य होंगे जो समय-समय पर शासन द्वारा जारी किए जा चुके हैं अथवा जारी किए जावेंगे जिन्हें विश्वविद्यालय द्वारा अंगीकृत किया गया हो।
6. नियुक्त अभ्यर्थी को कार्यभार ग्रहण करने के समय मेडीकल बोर्ड से उपयुक्तता (फिटनेस) प्रमाण-पत्र प्राप्त कर प्रस्तुत करना आवश्यक होगा।
7. नियुक्त अभ्यर्थियों की वरिष्ठता विश्वविद्यालय में पी.ई.सी. भोपाल द्वारा जारी ध्यान सूची के मेरिट क्रम के अनुसार संधारित होगी।
8. अस्थाई नियुक्ति के दौरान उनकी सेवारत किसी भी समय उभय पक्ष द्वारा एक माह का नोटिस देकर समाप्त की जा सकती।
9. वयनित अभ्यर्थी द्वारा एक माह का नोटिस या उसकी एवज में एक माह का वेतन तथा भत्ते का भुगतान किया जाकर सेवा से त्यागपत्र दिया जा सकेगा। एक माह का वेतन तथा एक माह का नोटिस दिये बिना शासकीय सेवा छोड़ने पर उपरोक्त शर्तों के अनुसार देय रकम भू-राजस्व या बकाया देय राशि से वसूल की जा सकेगी।
10. नियुक्त अभ्यर्थियों को निर्देशित किये जाने पर समय-समय पर आयोजित प्रशिक्षण कार्यक्रमों में उपस्थित होना अनिवार्य है, साथ ही विहित विभागीय परीक्षा आदि नियत समयावधि में उत्तीर्ण करना होगा। विभागीय परीक्षा उत्तीर्ण कर लेने पर एवं कार्य के मूल्यांकन संतोषजनक पाये जाने पर MOPRO सिविल सेवा नियम 1961 के नियम 8(8) के अनुसार सेवारत नियमित की जाकर परीक्षा अवधि समाप्त होने पर ही वेतनशुद्धि की पात्रता होगी। परीक्षा अवधि में नियुक्ति पद का न्यूनतम वेतन देय होगा।
11. राज्य शासन के अधीन दिनांक 01.01.2005 अथवा इसके बाद नियुक्त होने वाले कर्मचारियों को परिभाषित अंशदान पेंशन प्रणाली लागू होगी। सेवा संबंधी अन्य मुद्दे नियमित शासकीय सेवकों को लागू किया जाये, के अधीन रहेगा।
12. विश्वविद्यालय द्वारा जारी नियुक्ति आदेश में प्रविष्ट पदस्थापना स्थल से अभ्यर्थी की सेवारत परीक्षा अवधि के दौरान स्थानान्तरित नहीं की जा सकेगी।
13. 'यह नियुक्ति आदेश पुलिस चरित्र सत्यापन की प्रत्याशा में जारी किया जा रहा है, यदि पुलिस चरित्र सत्यापन की रिपोर्ट में कोई नियुक्त अभ्यर्थी शासकीय सेवा के अयोग्य पाया जाता है तो उसकी नियुक्ति तत्काल प्रभाव से समाप्त की जावेगी।' कार्यभार ग्रहण करने के तत्काल पश्चात निर्धारित प्रपत्र में अनुप्रमाणन प्रपत्र चरित्र सत्यापन हेतु एवं सलग्न शपथ पत्र प्रारूप में कार्यालय प्रमुख को प्रस्तुत करना अनिवार्य होगा।
14. मध्यप्रदेश सिविल सेवा (सेवा की सामान्य शर्तें) नियम, 1961 के नियम 6 के अनुसार शासकीय सेवा में नियुक्ति के लिए निम्नलिखित अभ्यर्थी अपात्र होंगे—
 - i. कोई भी अभ्यर्थी जिसकी एक से अधिक पत्नी जीवित हों, इसी प्रकार महिला उम्मीदवार जिसने किसी ऐसे व्यक्ति से विवाह किया हो, जिसकी पूर्व से ही एक पत्नी जीवित हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त की जा सकेगी।

क्रमशः.....3

//3//

- ii. कोई भी अभ्यर्थी जिसे महिलाओं/पुरुषों के अपराध के विरुद्ध किसी भी अपराध का सिद्धदोष ठहराया गया हो, नियुक्ति के लिए पात्र नहीं होगा/होगी तथा उसकी नियुक्ति निरस्त कर दी जावेगी।
 - iii. दायनित अभ्यर्थी जिसने विवाह के लिए विहित की गई न्यूनतम आयु से पूर्व विवाह कर लिया हो, तो उसका/उसकी नियुक्ति आदेश निरस्त किया जा सकेगा।
 - iv. कोई भी अभ्यर्थी जिसकी दो से अधिक सन्तान है, जिनमें से एक का जन्म 26 जनवरी, 2001 को या उसके पश्चात हुआ है, परन्तु निरहित नहीं होगा यदि एक सन्तान के जीवित रहते आगामी प्रसव में दो या दो से अधिक सन्तान का जन्म होता है उसकी नियुक्ति निरस्त की जा सकेगी।
15. अभ्यर्थी के शैक्षणिक/व्यवसायिक एवं अन्य प्रमाणपत्रों के प्रकरण में अनर्हता (अयोग्यता) की स्थिति प्रकट होती/बनती है, तो नियुक्ति निरस्त मानी जावेगी। जिस पर दावा पेश नहीं होगा।
 16. अभ्यर्थी को कार्य पर उपस्थिति होने की तिथि से एक माह के अंदर विश्वविद्यालय द्वारा देय नियत मासिक चिकित्सा भत्ता प्राप्त करने हेतु विकल्प प्रस्तुत करना होगा अन्यथा उसी चिकित्सा क्षतिपूर्ति की सुविधा प्रदान नहीं की जावेगी।
 17. नियुक्त अभ्यर्थी की सेवाएं विश्वविद्यालय के अंतर्गत कृषि विज्ञान केन्द्रों के अतिरिक्त अन्य किसी इकाई में स्थानांतरित नहीं की जा सकेंगी एवं कृषि विज्ञान केन्द्रों में उच्चतर कर्मचारियों की पृथक से वरिष्ठता संचारित की जावेगी।
 18. भारतीय कृषि अनुसंधान परिषद नई दिल्ली द्वारा यदि भविष्य में वेतनमान में कमी की जाती है तो उसी अनुसार आपके वेतनमान में भी कमी की जा सकती है।
 19. अभ्यर्थी का विश्वविद्यालय के बाहर समान पद पर आवेदन अश्रेष्ठ नहीं किया जायेगा। साथ ही समान पद पर अन्य विभाग में नियुक्ति होने पर कार्यमुक्त भी नहीं किया जायेगा।
- मध्यप्रदेश लोक सेवा (अनुसूचित जातियों, अनुसूचित जनजातियों एवं अन्य पिछड़ा वर्गों के आरक्षण) अधिनियम 1994 (क्रमांक-21 सन् 1994) के उपबंधों और अधिनियम के उपबंधों के प्रकाश में सरकार द्वारा जारी अनुदेशों का अनुपालन किया गया है, तथा उक्त अधिनियम की धारा-8 की उपधारा (1) के उपबंधों का पूर्ण संज्ञान है।

माननीय कुलपति जी के आदेशानुसार

विषय- जवाहरलाल नेहरू कृषि विश्वविद्यालय एवं राजमता विजयाराजे सिंधिया कृषि विश्वविद्यालय की गंभीर आर्थिक स्थिति के समाधान हेतु दिनांक 02 जुलाई 2016 को उच्च स्तरीय बैठक का कार्यवाही विवरण।

00

जवाहरलाल नेहरू कृषि विश्वविद्यालय एवं राजमता विजयाराजे सिंधिया कृषि विश्वविद्यालय दोनों कृषि विश्वविद्यालय की आर्थिक समस्याओं के निराकरण हेतु माननीय मुख्य सचिव महोदय की अध्यक्षता में दिनांक 2 जुलाई 2016 को बैठक आयोजित हुई, बैठक में संलग्न सूची अनुसार अधिकारियों ने भाग लिया।

बैठक में सर्वप्रथम कुलपति जवाहरलाल नेहरू कृषि विश्वविद्यालय जयलपुर द्वारा विश्वविद्यालय की गतिविधियों एवं आर्थिक स्थिति के संबंध में पावरपॉइंट प्रिजेंटेशन प्रस्तुत किया गया।

1. देश की विभिन्न प्रदेशों में स्थापित कृषि विश्वविद्यालयों को यहाँ की सरकार द्वारा दिये जा रहे अनुदान की तुलना में मध्यप्रदेश कृषि विश्वविद्यालयों को दिया जा रहा अनुदान आर्थिक रूप से भी कम है। म.प्र.शासन द्वारा आयोजनेत्तर एवं आयोजन-मद में विश्वविद्यालय को उपलब्ध कराये जा रहे अनुदान की स्थिति निम्नानुसार है।

1.1 आयोजनेत्तर मद अन्तर्गत शासन द्वारा वित्तीय वर्ष 2015-16 एवं वर्ष 2016-17 में क्रमशः राशि रु. 2900.00 एवं राशि रु. 2900.00 लाख अनुदान के रूप में उपलब्ध करायी गई। जबकि इसके विरुद्ध विश्वविद्यालय द्वारा वित्तीय वर्ष 2015-16 एवं वर्ष 2016-17 में क्रमशः राशि रु. 3316.34 लाख एवं 3847.97 लाख वेतन भत्तों पर व्यय किया जायेगा।

1.2 इसी प्रकार आयोजन-मद अन्तर्गत शासन द्वारा वित्तीय वर्ष 2015-16 एवं वर्ष 2016-17 में क्रमशः राशि रु. 5650.00 लाख एवं 4356.00 लाख अनुदान उपलब्ध कराया गया है, जिसके विरुद्ध विश्वविद्यालय जयलपुर द्वारा वित्तीय वर्ष 2015-16 एवं 2016-17 में क्रमशः राशि रु. 4752.69 लाख एवं 8500.00 लाख वेतन, भत्ते एवं अनुसंधान कार्य में व्यय होगा।

1.3 जवाहरलाल नेहरू कृषि विश्वविद्यालय की गंभीर आर्थिक समस्या का मुख्य कारण पेंशन भुगतान है। विश्वविद्यालय अधिनियम की धारा 55(2) के अन्तर्गत सेवा निपूता पेंशनर्स का भुगतान दायित्व शासन का है, इसी प्रकार स्ववैत्तीय पेंशन का भुगतान दायित्व विश्वविद्यालय का था, आर्थिक स्थिति ठीक न होने के कारण प्रकरण शासन स्तर पर लाया गया, मंत्रीपरिषद के निर्णय उपरान्त 01.01.2014 से स्ववैत्तीय पेंशन को उच्च वेतनमान के अनुसार लागू कर, शासन द्वारा इन मद के अन्तर्गत आवश्यकतानुसार राशि उपलब्ध कराई

जाने का निर्णय हुआ, किन्तु राशि आवश्यकतानुसार उपलब्ध नहीं कराई गई। वित्तीय वर्ष 2015-16 से 55(2) के पेंशन भुगतान एवं स्ववित्तीय पेंशन भुगतान हेतु क्रमशः राशि रु. 2017.00 लाख एवं 2783.00 लाख की आवश्यकता थी, राशि उपलब्ध न होने से विश्वविद्यालय का भुगतान संतुलन प्रभावित हुआ। इसी प्रकार चालू वित्तीय वर्ष 2016-17 में 55(2) पेंशन के भुगतान हेतु राशि रु. 2360.00 लाख एवं स्ववित्तीय पेंशन भुगतान हेतु राशि रु. 2400.00 लाख की आवश्यकता विश्वविद्यालय को है।

1.4 पवारखेड़ा में स्थापित नवीन कृषि महाविद्यालय का शैक्षणिक सत्र जुलाई 2016 से प्रारंभ किया जागा है, इसके लिये वित्तीय वर्ष 2016-17 में शासन द्वारा स्वीकृत राशि रु. 1163.50 लाख की आवश्यकता विश्वविद्यालय को है, पवारखेड़ा कृषि महाविद्यालय को यह राशि आयोजना सामान्य गद के अन्तर्गत प्राप्त होगी।

1.5 अन्य लम्बित स्वत्वों के निराकरण हेतु राशि रु. 4580.41 लाख की आवश्यकता विश्वविद्यालय को है, जिसके अन्तर्गत अवकाश नगदीकरण, छठवे वेतनमान की 20 प्रतिशत राज्यांश राशि, भविष्य निधि में कमी, परियोजनाओं की उधारी, 55(2) पेंशन समेकन एरिडर 26 माह की राशि, पदोन्नति/कमोन्नति एरियर, 25 प्रतिशत राज्यांश (भारतीय कृषि अनुसंधान परियोजनाओं का) एवं आडिट फीस का भुगतान शामिल है।

उपरोक्त समस्त गदों के अन्तर्गत विश्वविद्यालय जबलपुर को वित्तीय वर्ष 2016-17 में राशि रु. 20384.91 लाख की निम्नलिखित आवश्यकता बतायी गई है।

1.6 बिन्दु क्रमांक 1.1 से 1.5 तक बैठक में निर्णय हुआ कि यह राशि रु. 20384.91 लाख प्रशासकीय विभाग द्वारा पुनर्विनियोजन के माध्यम से जवाहरलाल नेहरू कृषि विश्वविद्यालय को उपलब्ध कराई जावे। तथा वित्त विभाग द्वारा अनुपूरक अनुमान के माध्यम से भी आवश्यकतानुसार राशि उपलब्ध कराई जावेगी।

1.7 कुलपति जवाहरलाल नेहरू कृषि विश्वविद्यालय द्वारा संशोधित स्ववित्तीय पेंशन योजना के संबंध में अवगत कराया कि मंत्रीपरिषद निर्णय के अनुसार दिनांक 01.04.2014 से छठवे वेतनमान से स्वीकृत की गई है, तथा शासन द्वारा 1 जुलाई 2016 को जारी आदेश क्रमांक बी-4/14/2013/14-2 के संबंध में बताया कि विश्वविद्यालय द्वारा 01.04.2014 के पूर्व से ही विश्वविद्यालयीन कर्मचारियों को छठवे वेतनमान से पेंशन निर्धारित कर पेंशन का भुगतान किया जा रहा है, तब ऐसी स्थिति में 1 जुलाई 2016 के आदेशानुसार दिनांक 01.04.2014 के पूर्व 5 वे वेतनमान से पेंशन निर्धारित करने पर कठिनाईयाँ उत्पन्न होगी। इस पर विचारोपरान्त वित्त विभाग द्वारा गणित का परीक्षण करने का निर्णय हुआ।

2. राजमाता विजयराजे सिंधिया कृषि विश्वविद्यालय के कुलपति द्वारा पादर पाइंट डिजेन्टेशन प्रस्तुत किया गया जिसमें विश्वविद्यालय की आर्थिक स्थिति से अवगत कराया।

2.1 आयोजनेत्तर मद के अन्तर्गत वित्तीय वर्ष 2014-15, 2015-16 एवं वर्ष 2016-17 में लगातार राशि रु. 1900.00 लाख स्वीकृत की जा रही है, जबकि विश्वविद्यालय द्वारा वर्ष 2016-17 में राशि रु. 2210.00 लाख की आवश्यकता बताई गई है। अतः राशि रु. 310.00 लाख की अतिरिक्त आवश्यकता होगी।

2.2 आयोजना मद के अन्तर्गत वित्तीय वर्ष 2015-16 में राशि रु. 2200.00 लाख शासन द्वारा उपलब्ध कराई गई थी, जिसमें अद्योसंरचना विकास हेतु राशि रु. 400.00 लाख प्राधानित की गई थी, किन्तु वर्ष 2016-17 में अद्योसंरचना मद में कोई भी राशि उपलब्ध नहीं कराई गई है, तथा वेतन मत्त हेतु राशि रु. 1800.00 लाख स्वीकृत की गई है, अतः इस मद अन्तर्गत राशि रु. 4021.95 लाख की आवश्यकता होगी।

2.3 अनुसूचित जाति उपयोजना अंतर्गत वित्तीय 2015-16 में राशि रु. 841.00 लाख उपलब्ध कराई गई थी, तथा वर्ष 2016-17 में राशि रु. 815.10 लाख उपलब्ध कराई गई है, वित्तीय वर्ष 2016 में विश्वविद्यालय को अतिरिक्त राशि रु. 256.41 लाख की आवश्यकता होगी। नवीन कृषि विश्वविद्यालय होने के कारण अद्योसंरचना विकास कार्य पूर्ण नहीं हो पा रहे हैं, ये कार्य पूर्ण करने हेतु विश्वविद्यालय को इस राशि की नितांत आवश्यकता है।

2.4 अदिवासी क्षेत्र उपयोजनान्तर्गत वित्तीय वर्ष 2015-16 में राशि रु. 988.00 लाख उपलब्ध कराई गई थी, जिसमें अद्योसंरचना विकास हेतु राशि रु. 326.00 लाख समितित थी, किन्तु वित्तीय वर्ष 2016-17 में शासन द्वारा अद्योसंरचना विकास हेतु कोई भी राशि उपलब्ध नहीं कराई गई है, अतः इस मद के अन्तर्गत राशि रु. 391.00 लाख की आवश्यकता घाटू वित्तीय वर्ष में होगी।

2.5 बिन्दु क्रमांक 2.1 से 2.4 के संबंध में निर्णय लिया गया कि राशि रु. 5169.36 लाख की व्यवस्था प्रशासकीय विभाग द्वारा पुनर्विनिर्धारण के माध्यम से राजमाता विजयराजे सिंधिया कृषि विश्वविद्यालय को उपलब्ध कराई जावे। तथा वित्त विभाग द्वारा अनुपूरक के माध्यम से भी आवश्यकतानुसार राशि उपलब्ध कराई जावेगी।

2.6 विभागीय आदेश बी-4/11/2005/14-2 दिनांक 12.09.2008 के अनुसार नवीन विश्वविद्यालय ग्यालियर की स्थापना हेतु राशि रु. 5469.23 लाख स्वीकृत की गई थी, किन्तु इस मद में अभी तक कोई भी राशि विश्वविद्यालय को उपलब्ध नहीं कराई गई है।

2.7 बिन्दु क्रमांक 2.6 के संबंध में निर्णय हुआ कि यदि इस राशि में से कोई भी राशि प्राप्त नहीं हुई है तब उक्त राशि गण्डी बोर्ड की अद्योसंरचना एवं विकास निधि के अर्जित व्यय से उपलब्ध कराई जावेगी।

3. दोनों कृषि विश्वविद्यालयों के अन्तर्गत रिक्त शैक्षणिक पदों के संबंध में दोनों कुलपति द्वारा बैठक में अवगत कराया गया, पदों के रिक्त होने से विश्वविद्यालय के शैक्षणिक, अनुसंधान एवं प्रचार प्रसार कार्यक्रम प्रभावित हो रहे हैं। शैक्षणिक रिक्त पदों के संबंध में निर्णय हुआ कि विश्वविद्यालय में शिक्षण/अनुसंधान आदि के सुचारु रूप से संचालन हेतु वैधानिक आवश्यकताओं अनुसार पदों की अद्यतन स्थिति, उनके वेतन व्यवस्था एवं पद भरने के प्रक्रिया एवं प्रश्नर का विस्तृत एकजायी प्रस्ताव शासन को प्रस्तुत करें। शासन स्तर पर नियमानुसार

पदों की स्वीकृती एव भरने के अनुमति प्रदान की जाने वाली अशैक्षणिक पदों के संबंध में विश्वविद्यालय नियमानुसार कार्यवाही कर पदों को भरे।

4. विश्वविद्यालय अपने स्तर पर आय वृद्धि की विधि अनुरूप संभावित गतिविधियों को विहित कर शासन को अवगत करादे।

अन्त में अध्यक्ष महोदय को धन्यवाद के साथ बैठक समाप्त हुई।

विषय- राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर अन्तर्गत तृतीय एवं चतुर्थ श्रेणी के रिक्त पद भरने बाबत।

संदर्भ- आपका पत्र क्रमांक 825/2250/2017/14-2 दिनांक 3 अगस्त, 2018।

उपरोक्त संदर्भित पत्र के माध्यम से चाही गई जानकारी का बिन्दुवार विवरण निम्न है-

1. म.प्र. शासन द्वारा जवाहरलाल नेहरू कृषि विश्वविद्यालय, जबलपुर की स्थापना वर्ष 1964 में की गई। जबकि कृषि महाविद्यालय, ग्वालियर वर्ष 1950, सीहोर वर्ष 1952, इन्दौर वर्ष 1959 में इनकी स्थापना राज्य शासन के अंतर्गत हुई थी। शासन द्वारा संयोजित उक्त कॉलेजों को जवाहरलाल नेहरू कृषि विश्वविद्यालय, जबलपुर की स्थापना के पश्चात इसके अधीन संविलियन किया गया था। म.प्र. शासन द्वारा स्वीकृत पदों का विवरण संबंधी अभिलेख जवाहरलाल नेहरू कृषि विश्वविद्यालय, जबलपुर से इस विश्वविद्यालय को प्राप्त नहीं हुए हैं, इसलिए संलग्न नहीं किये गये हैं। किन्तु राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय ग्वालियर की स्थापना 2008 प्रमुख सचिव, किसान कल्याण तथा कृषि विकास विभाग, भोपाल क्रमांक बी-4-11-2005-वीदह-2 दिनांक 20 फरवरी 2009 से संलग्न मध्यप्रदेश राजपत्र की धारा-57(2)(क) जवाहरलाल नेहरू कृषि विश्वविद्यालय के वे कर्मचारी (एक) जो विश्वविद्यालय की अधिकारिता के भीतर स्थित महाविद्यालयों या अनुसंधान केन्द्रों में उक्त तारीख को कार्य कर रहे थे या उनसे संलग्न थे एव (दो) अनुसार इस विश्वविद्यालय के कर्मचारी होंगे। (संलग्न-परिशिष्ट-1 स.क्र. 1 से 4 तक)

विश्वविद्यालय में तृतीय एवं चतुर्थ श्रेणी पदों के भर्ती/पदोन्नति नियम पृथक से तैयार नहीं किये गये हैं म.प्र. शासन के भर्ती/पदोन्नति नियमों अनुसार सीधी भर्ती के पदों पर विश्वविद्यालय स्तर/पी.ई.वी. भोपाल के माध्यम से की जाती है तथा पदोन्नति भी म.प्र. शासन के पदोन्नति नियम अनुसार ही की जाती है। पूर्व में भेजे गये पदों में पदोन्नति से भरे जाने वाले पद सहायक वर्ग-1, सहायक वर्ग-2 एवं सहायक वर्ग-3 के 25 प्रतिशत पद पदोन्नति से भरे जाते हैं। उन्हें उक्त पदों के रिक्त पद विवरण में नहीं दर्शाया गया है। (संलग्न-परिशिष्ट-2 स.क्र. 5)

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय ग्वालियर की स्थापना वर्ष 2008 के पश्चात ज.ने.कृ.वि.जबलपुर द्वारा स्वीकृत पदों की हस्ताक्षरयुक्त जानकारी इस विश्वविद्यालय को प्रेषित की गई थी एवं ज.ने.कृ.वि.जबलपुर से कृषि महाविद्यालय इन्दौर/खण्डवा एवं उद्यानिकी महाविद्यालय मंदसौर को स्वीकृत पदों का विवरण दिया गया था, जिसे आपको पूर्व में प्रेषित किया गया है।

दिनांक 18/11/2017

प्रति,

अवर सचिव,
म.प्र. शासन,
विज्ञान कल्याण तथा कृषि विकास विभाग,
मंत्रालय, भोपाल (म.प्र.)

विषय: रा.वि.सि.कृ.वि.वि., ग्वालियर से अंतर्गत कृषि/उद्यानिकी महाविद्यालयों के अंतर्गत सूचीय/चतुर्थ श्रेणी के रिक्त पदों को भरने की पदवार प्रशासकीय स्वीकृति प्रदान करने कायद।

- संदर्भ: 1. अवर सचिव पत्र क्रमांक/340/411/2016/14-2 भोपाल, दिनांक 23.02.2016
2. उप सचिव कार्यवाही विवरण पृष्ठांकन क्र./वी-4/24/2016/14-2 दिनांक 10.09.2016
3. अवर सचिव पत्र क्रमांक/1513/2290/2017/14-2 भोपाल, दिनांक 25.09.2017

विषयान्तर्गत निवेदन है कि संदर्भित पत्र क्रमांक 1513/2290/2017/14-2 दिनांक 25.09.2017 पर क्रमांक 2 एवं 3 में विश्वविद्यालय कुलसचिव, जने.कृ.वि.वि., जबलपुर के हस्ताक्षरयुक्त विभाजित पदों की सूची भेजने हेतु निर्देश प्राप्त हुये थे, निर्देशों के परिपालन में विश्वविद्यालय कुलसचिव, जने.कृ.वि.वि., जबलपुर द्वारा अंतिम पुष्ट पत्र किये गये हस्ताक्षर अनुसार हस्तान्तरित पद की सूची संलग्न है। जिस अनुसार प्रस्ताव संशोधित कर पुनः प्रस्तुत किया जा रहा है।

- महाविद्यालयों में अशैक्षणिक कर्मचारियों के रिक्त पदों का विवरण निम्नानुसार है-
(अ) नवीन सूची अनुसार तृतीय श्रेणी के 108 पद रिक्त है। (संलग्न सूची 1)
(ब) नवीन सूची अनुसार चतुर्थ श्रेणी के रिक्त 74 पदों का विवरण। (संलग्न सूची 2)
अतः अनुरोध है कि विश्वविद्यालय के अंतर्गत महाविद्यालयों के शैक्षणिक कार्य सुचारु रूप से संचालित करवाने हेतु अशैक्षणिक पदों को भरने की प्रशासकीय स्वीकृति प्रदान करने का कष्ट करें। रिक्त पदों की पूर्ति पर होने वाला व्यय भार विश्वविद्यालय को प्राप्त अनुदान से ही किया जायेगा।

संलग्न- उपरोक्तानुसार (20 पृष्ठ)

डी.एस. कोरी
कुलसचिव

कार्यालय कुलसचिव,
राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय,
ग्वालियर (म.प्र.)

Ph: 0731-2379515 (3), 0731-2379516 (3 lines)
E-mail: reg@scvau.ac.in / scvau@scvau.ac.in

क्र/ कु.स. / २५४ / २०२० / २३८५

दिनांक २६.११.२०२०

प्रति,

प्रमुख सचिव
म. प्र. शासन
विज्ञान कल्याण तथा कृषि विकास विभाग,
मंत्रालय, भोपाल

विषय: राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय, ग्वालियर अंतर्गत तृतीय एच चतुर्थ श्रेणी के रिक्त पद भरने बाबत।

संदर्भ:- आगम्य मंत्र क्रमांक ७१/२०२०/१४(A.G.R.) दिनांक ०६ अक्टूबर २०२०

उपरोक्त संदर्भित पत्र के माध्यम से चार्ज गैर जनकारी का निन्दुवार विवरण निम्न है-

1. म.प्र. शासन द्वारा स्वीकृत पदों का विवरण संकेत अभिलेख जगहराल नेहरू कृषि विश्वविद्यालय, जबलपुर से इस विश्वविद्यालय के प्राप्ति नहीं हुए हैं और न ही इस विश्वविद्यालय हेतु स्वीकृत पदों के शपान द्वारा कोई आवेदन विद्ये है. विश्वविद्यालय अंतर्गत कृषि/उद्योगिकी महाविद्यालयों के लिये स्वीकृत पदों की जनकारी इस विश्वविद्यालय के स्थापना वर्ष २००६ के पश्चात अनेक विज्ञान विभाग द्वारा स्वीकृत पदों की दोनों विश्वविद्यालय के कुलसचिव के संयुक्त हस्ताक्षरयुक्त जनकारी प्रेषित की गई था वह संलग्न कर आपकी प्रेषित है। (संलग्न-परिशिष्ट-१ स.क.०३ से १५ तक) विश्वविद्यालय परिचय २०१५ के परिचय क्रमांक ६ में की धारा-४ में उल्लेखित नियम एवं अन्य शर्तें संलग्न कर आपकी ओर प्रेषित की जा रही है। (संलग्न-परिशिष्ट-२ स.क.१६ से १८ तक) विश्वविद्यालय में तृतीय एच चतुर्थ श्रेणी पदों के वर्गीकरण/पदोन्नति विश्वविद्यालय परिचय/विश्वविद्यालय द्वारा आंगीकृत शपान नियमद्वारा की जाती है। विश्वविद्यालय अंतर्गत महाविद्यालयों में तृतीय एवं चतुर्थ श्रेणी के स्वीकृत रिक्त एवं भरे पदों का विवरण एवं पदोन्नति हेतु स्वीकृत रिक्त एवं भरे पदों का विवरण संलग्न है। (संलग्न-परिशिष्ट ३ स.क. १९ से २२ तक)

राजमाता विजयाराजे सिंधिया कृषि विश्वविद्यालय ग्वालियर की स्थापना २००६ के पश्चात विश्वविद्यालय अधिनियम २००९ की धारा-६१(२)(क) जगहराल नेहरू कृषि विश्वविद्यालय के वे जनकारी (एच) को विश्वविद्यालय के अधिकारिता के अंतर्गत शिक्षण महाविद्यालयों या अनुसंधान केंद्रों में रिक्त पदों को करने तक रहने या उनसे सहायता एवं (दो) अनुसार इस विश्वविद्यालय के कर्मचारी होंगे। (संलग्न परिशिष्ट-४ स.क.२३ से २५ तक) उक्त संलग्न विज्ञान कल्याण तथा कृषि विकास विभाग, भोपाल क्रमांक बी-४/११/२००५/१४-२ दिनांक २८.०२.२००९ के निम्न क्रमांक ०२ में वर्तमान में जिनमें दो श्रेणियां एवं नौ श्रेणियों जनकारी/कर्मचारी जनकारी एवं जिन पद एवं शपान पर सहायता या मदद है. वह जिस विश्वविद्यालय के कार्यक्षेत्र में आ गये हैं. उन्हें इस विश्वविद्यालय को आवेदन पाना जाये. जिसका उल्लेख जारी अधिसूचना के संलग्न अधिनियम के धारा-२ के नियम क्रमांक-१ (२) में दिए गए विवरण अनुसार कार्य क्षेत्र निर्धारित नियम पाना है। (संलग्न-परिशिष्ट-५ स.क.२६ से ३० तक)

कृपया... २

// / 2 / /

2. महाविद्यालयों द्वारा कोई भी कार्य केवल सुरक्षा एजेंसी को छोड़कर आउटसोर्स नहीं किये गये, और न ही कर्मचारी को आउटसोर्स पर रखा गया एवं किसी भी कर्मचारी को पद विरुद्ध कार्य पर भी नहीं रखा गया है। किन्तु महाविद्यालयों का कार्य संचालन हेतु श्रमायुक्त, इंदौर द्वारा निर्धारित दैनिक दर पर कार्य की आवश्यकता को देखते हुए आकस्मिक निधि भुगतान के आधार पर आवश्यकता अनुसार कुशल/अकुशल श्रमिकों से कार्य लिया जा रहा है, एवं सेवानिवृत्त कर्मचारियों को विश्वविद्यालय बोर्ड द्वारा अनुमोदित दर अनुसार एक निश्चित मानदेय पर रखकर कार्य लिया जा रहा है।

विश्वविद्यालय की नयीन स्थापना उपरान्त आज दिनांक तक कृषि/उद्यानिकी महाविद्यालय के तृतीय एवं चतुर्थ श्रेणी के पूर्व से स्वीकृत पद रिक्त है। जिससे कि दिन प्रतिदिन कार्य में बाधा उत्पन्न हो रही है। अतः आपसे अनुरोध है कि स्वीकृत पदों के विरुद्ध रिक्त पदों को भरने की प्रशासकीय स्वीकृति अनुमति प्रदान करने का कष्ट करें, जिससे महाविद्यालयों का कार्य सुचारु रूप से संचालित हो सके।

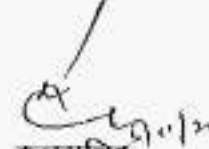

संलग्न: उपरोक्तानुसार।

(माननीय कुलपतिजी द्वारा अनुमोदित)

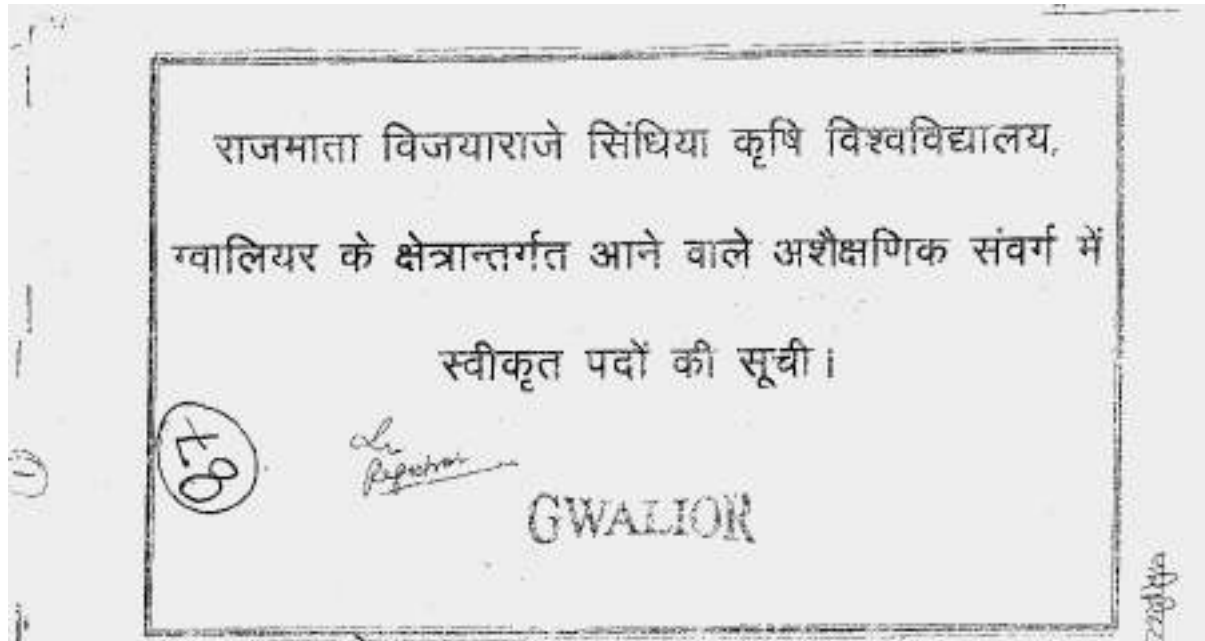

पृष्ठा. क्र./कु.स./स्था./2020/2370

परिशिष्ट-२.

अनुसूची 4 (ए)]

मध्यप्रदेश राज्यपाल, दिनांक 11 जुलाई 2014

207

- (डीन) यह विश्वविद्यालय को संस्था तथा विस्तार से संबंधित मामलों के संदर्भ में, जानके कि लिए वह सीधे कुलपति के प्रति उत्तरदायी होगा, ऐसी अन्य शक्तियाँ एवं प्रयोग करेगा जैसी कि परिश्रितियों या विनियमों द्वारा विहित की जाएं या बोर्ड या कुलपति द्वारा समय-समय पर अपेक्षित की जाएं।
- (चार) यह अधिनियम की धारा 19 की उपधारा (3) में परिभाषित अपने उत्तरदायित्वों तथा कर्तव्यों के निर्वाहन के प्रयोजन के लिए जून भी कभी आवश्यक हो, बोर्ड की बैठक में उपस्थित होगा।
- (पांच) वह ऐसी अन्य कृत्यों का निर्वाहन करेगा जैसे कि कुलपति द्वारा उसे समय-समय पर सौंपे जाएं।
- (ग) विश्वविद्यालय को देय किसी धन के संबंध में संस्था नियंत्रक, बोर्ड द्वारा या इन संबंध में समय-समय से, लिखित में प्राधिकृत किसी व्यक्ति या किसी व्यक्तियों द्वारा जारी की गई परीक्षा, ऐसी प्राप्ति के लिए जारी की गई प्रत्येक राशि की जाएगी।

परिनिधान क्रमांक 5

चयन समिति की संरचना, चयन की प्रक्रिया तथा नियुक्ति की अन्य बातें

1. अधिकारी तथा अन्य कर्मचारियों -
 - (1) विश्वविद्यालय को वे अधिकारी होंगे जो अधिनियम की धारा 12 के खण्ड (क) त (घ) में निर्दिष्ट हैं।
 - (2) अधिनियम की धारा 12 में निर्दिष्ट अधिकारियों के अतिरिक्त, विश्वविद्यालय का पुरस्कारालयाध्यक्ष भी विश्वविद्यालय का अधिकारी होगा।
2. अधिकारियों के पदों के लिए अर्हताएं - अधिनियम की धारा 12 में तथा निर्दिष्ट विश्वविद्यालय के अधिकारियों (कुलपति तथा कुलपति से निम्न) के पदों पर नियुक्ति हेतु आवश्यक विद्या परिषद् द्वारा की गई अनुसंधानों पर समय-समय से विचार करने के पश्चात् बोर्ड द्वारा अधिस्थित की जाएगी। विश्वविद्यालय अनुदान आयोग के यतनमान वाले अध्यापकों/अधिकारियों के पदों के मामले में, अनुसंधान मुख्यतः भारतीय कृषि अनुसंधान परिषद् द्वारा समय-समय पर दिए गए दिशा-निर्देशों के पैटर्न पर आधारित होंगी और अधिकारियों के शेष पदों के मामले में, जो मध्यप्रदेश सरकार द्वारा स्वीकृत यतनमान वाले पद हैं अर्हता प्रशासनिक परिषद् द्वारा अधिस्थित की जाएगी।

परन्तु विहित अर्हता को, समय-समय से ऐसी रीति में, जैसी कि विश्वविद्यालय द्वारा समय-समय पर विहित की जाए, समय-समय से प्रभावित किया जाएगा तथा चयन प्रक्रिया, मध्यप्रदेश सरकार से रिक्त पदों को भरने हेतु प्रशासकीय अनुमोदन अग्रिम करने के परभाव ही, जारी होगी।
3. अधिकारियों, अध्यापकों एवं सेवा कर्मियों की नियुक्ति के लिए चयन समिति का गठन -
 - (1) कुल सचिव, प्रत्याभूति विनियमों को भरने या विश्वविद्यालय के गठन को रिक्त पदों की पूर्ति करने के लिए कुलपति द्वारा गठित चयन समिति हेतु कार्यवाही प्रारंभ करेगा और नियुक्ति कार्य संचालित करेगा।
 - (2) कालम (1) में बर्णित हुए विनियम पदों के लिए, कालम (2) में बर्णित पर अनुसंधान नियमलिखित चयन समितियाँ होंगी -

15

<p>(क) महाविद्यालयी अनुसंधान केंद्रों तथा कृषि विज्ञान केंद्रों आदि में रोपणों में प्रवेश के समय सहायक ग्रेड-तीन, क्षेत्र विस्तार अधिकारी, प्रयोगशाला तकनीशियन, कामप्यूटर अपरेटर, स्टेनो-टाइपिस्ट, प्रयोगशाला सहायक तथा पुस्तकालय सहायक आदि त्रिभुज/अलिपित्रीय स्टाफ के पद,</p>	<p>(1) कोई भी निर्देशक - अध्यक्ष (2) लेखा नियंत्रक (3) उस इकाई/विभाग के दो सदस्य जहाँ से पद भरे जाते हैं जो संबंधित संकायाध्यक्ष/निदेशक द्वारा नामनिर्दिष्ट किए जाएंगे। (4) किसी संकाय/संभालनालय/विभाग से एक सदस्य जो कुलपति द्वारा नामनिर्दिष्ट किया जाएगा। (5) एक कुल सचिव सदस्य - सचिव होगा।</p>
<p>(ख) विश्वविद्यालय के विभिन्न कार्यालयों में तकनीकी (अलिपित्रीय) पद जैसे साधन कालक, फोटोघोषण, मशीन अपरेटर, ड्रेपर, क्लीनर, गार्डनर, कारपोन्टर आदि।</p>	<p>(1) कोई भी निर्देशक - अध्यक्ष (2) कुलसचिव (3) लेखा नियंत्रक (4) कुलपति द्वारा नामनिर्दिष्ट एक-दो कुल सचिव (5) कुलपति द्वारा नामनिर्दिष्ट एक सदस्य जो उस कार्यालय का ही छात्रों से पद भरे जाना है (6) किसी भी संकाय/संभालनालय/विभाग से कुलपति द्वारा नामनिर्दिष्ट दो अधिकारी (7) एक कुलसचिव सदस्य - सचिव होगा।</p>

टीप :-

- (क) यह समिति, सेवा में प्रवेश के समय, पदों पर नियुक्ति तथा छुट्टार पदों पर पर्योन्नति से संबंधित कार्य भी करेगी, तथापि तकनीकी पदों पर पर्योन्नति के मामले में, समिति का अध्यक्ष, वहीं से पद भरे जाते हैं जहाँ के संबंधित संकाय/संकायाध्यक्ष/संबंधित अधिकारी होंगे,
- (ख) प्रत्येक पदग समिति के लिए, सदस्यों की कुल संख्या की आधी संख्या (+) एक से नामपूर्ति होगी।
- (ग) समान श्रेणियों में, अनुसूचित जाति, अनुसूचित जनजाति और अन्य पिछड़े वर्गों के नामनिर्देशितों, इस परिनिषेध के अंतर्गत, राज्यप्रवेश परीक्षा के मापदंडों के अनुसार भाग लेंगे।
- (घ) विश्वविद्यालय, त्रिभुज, अलिपित्रीय तथा तकनीकी पद जो वर्ग-तीन तथा वर्ग-चार के पदों में आते हैं, के समस्त पदों के लिए सेवा में प्रवेश के समय, समय-समय पर अधिकतम प्रशिक्षण के अनुसार, पात्रता परीक्षा संबंधित कर सकेगा।

4. चयन की प्रक्रिया

- (1) अधिनियम की धारा 12 के अंतर्गत तथा निम्नलिखित विश्वविद्यालय के अधिकारियों के समस्त पद (कुलसचिव, कुलपति तथा संकायाध्यक्ष को छोड़कर) तथा अधिनियम की धारा 2 (द) के अंतर्गत तथा परिभाषित पुस्तकालयाध्यक्ष एवं अकादमिक और समन्वय प्रवर्गों के पद, बोधवत्ता के आधार पर और अखिल भारतीय विज्ञान से प्राप्त द्वारा भरे जाएंगे :

कुलसचिव धारा 20 के उपबंधों के अनुसार, कुलसचिव, राज्य सरकार द्वारा, संभालनालय, सिविल कल्याण एवं कृषि विकास विभाग के अवर सचिवों में से नियुक्त किया जाएगा।

लेखा नियंत्रक -- कोई, विश्वविद्यालय के हिस में, लेखा नियंत्रक का पद, राज्यप्रवेश आयोग के विश्वविद्यालय के ऐसे अवर संचालक की सेवा प्रतिनिधित्व पर अधिग्रहण करने पर ही विचार कर सकेगा जिसे समुचित अनुभव हो और जो योग्य हो।

सहकार्यक समन्वय, दिनांक: 11 जुलाई 2014 711

(2) आचार्य, राठ आचार्य, सहायक आचार्य या किसी समतुल्य पद, विश्वविद्यालय पुराकालयाध्यक्ष, सहायक पुराकालयाध्यक्ष, प्रमुख अधिकारी के पद पर नियुक्ति के लिए अर्जित न्यूनतम अर्हताएं ऐसी होंगी जैसी कि विश्वविद्यालय द्वारा समय-समय पर विहित की जाए और वह कि केवल वे ही अभ्यर्थी जिन्होंने न्यूनतम अर्हताएं पूर्ण करने के अलावा आई.सी.ए.आर. या यू.जी.सी./सी.एस.आई.आर. द्वारा संचालित राष्ट्रीय पात्रता परीक्षा (एन.ई.टी.) में अर्हता प्राप्त की हो, सहायक आचार्य या समतुल्य पद पर समय और नियुक्ति के लिए पात्र होंगे। पी.एच.डी. तदनुषंग करने वाले अभ्यर्थियों के लिए राष्ट्रीय पात्रता परीक्षा (एन.ई.टी.) की अर्हता अनिवार्य नहीं होगी, तथापि अन्य बातें समान होने पर, ऐसे अभ्यर्थियों को जिन्होंने पी.एच.डी. की है तथा आई.सी.ए.आर. या यू.जी.सी./सी.एस.आई.आर. द्वारा संचालित राष्ट्रीय पात्रता परीक्षा (एन.ई.टी.) उत्तीर्ण की हो, उन्हें भी अधिमान दिया जाएगा। ऐसे मामलों में जहां उन विषयों में, जिन्हें आई.सी.ए.आर. या यू.जी.सी./सी.एस.आई.आर. के द्वारा राष्ट्रीय पात्रता परीक्षा (एन.ई.टी.) संचालित नहीं की गई हो, शिक्षकों की पूर्ति, विश्वविद्यालय की भर्ती प्रक्रिया का अनुसरण करते हुए की जाएगी।

परन्तु पशु चिकित्सा विज्ञान तथा पशुपालन संकलन के अन्तर्गत आने वाले पदों के लिए राष्ट्रीय पशुचिकित्सा परिषद् द्वारा कोई मानक्य अधिकारिता लिए गए हों, तो सहायक आचार्य तथा उसके समतुल्य पद पर नियुक्तियों के लिए भी वे लागू होंगे।

(3) विश्वविद्यालय के ऐसे कर्मचारी जो अपेक्षित अर्हता या अन्य शर्तें (यदि कोई हों) भक्ति करते हैं, आवेदन करने के लिए पात्र होंगे और उनके आवेदन अन्य अभ्यर्थियों के साथ विचारण में लिए जाएंगे।

(4) अधिनियम तथा इस परिचयन के द्विती उपबंध में किसी प्रतिभूत बात से अन्तर्गट होते हुए भी सहायक आचार्य तथा राठ आचार्य के प्रवर्ग में अभ्यर्थियों को भारतीय भूमि अनुदान परिषद् तथा मध्यप्रदेश सरकार द्वारा समय-समय पर अधिस्थित किए गए मानक्यों के अनुसार योग्यता पदोन्नति स्कीम के अधीन क्रमशः राठ आचार्य तथा आचार्य के पदों पर पदोन्नत किया जा सकेगा। परन्तु ये अध्यापक जिन्होंने पञ्जाब लाल नेहरू कृषि विश्वविद्यालय, लखनपुर में सेवा करते हुए योग्यता पदोन्नति स्कीम के अधीन पदोन्नति/नियुक्ति के लिए विकल्प दिया है वे दिनांक 27.07.1988 तक, वे उसी स्कीम द्वारा संश्लित होते रहेंगे तथा योग्यता पदोन्नति स्कीम के अधीन उसमें विहित वेतनमान के लिए हकदार होंगे।

(5) विश्वविद्यालय के अध्यापक यदि वे विज्ञान देते हैं, तो केंद्रीय अधिदर्शन स्कीम के तहत जो कि मध्यप्रदेश सरकार, कृषि विभाग के आदेश क्रमांक -बी-4-39/87/14-2, दिनांक 9 मार्च, 1988 में अतिविष्ट है तथा जो विश्वविद्यालय अनुदान आयोग/राष्ट्रीय भूमि अनुदान परिषद्/मध्यप्रदेश सरकार तथा विश्वविद्यालय द्वारा समय-समय पर उपांतरित किए जाएं या संश्लित किए जाएं, प्राप्त करने के भी हकदार होंगे।

(6) वृत्ति अधिदर्शन स्कीम, विश्वविद्यालय के पुराकालयाध्यक्ष, सहायक पुराकालयाध्यक्ष तथा कीर्ति अधिकारी तथा उनके समतुल्य समस्त पदों को भी लागू होगी।

(7) वृत्ति अधिदर्शन स्कीम के अधीन धरन के लिए विचारण में लिए जाने वाले समस्त मामलों के लिए, समय समिति का गठन किया जायेगा तथा छ-टी/धरन, मध्यप्रदेश सरकार, कृषि विभाग के आदेश क्रमांक -बी-4-39/87/14-2, दिनांक 9 मार्च, 1988 में अतिविष्ट तथा समय-समय पर सहायक उपांतरित या संश्लित किए गए उपबंधों के अनुसार किया जाएगा।

(8) विश्वविद्यालय सेवा (सेवा की सम्पन्न शर्तें) सेवा में प्रवेश के समय को संश्लित विनियम में विनिर्दिष्ट वर्ग-एक, वर्ग-दो तथा वर्ग-तीन के रूप में परिभाषित किए अद्यतन सेवा कारिका के पद पर भर्ती, विश्वविद्यालय के कर्मचारियों में से परिष्कृत-राठ-योग्यता के आधार पर 80 प्रतिशत तक पदोन्नति द्वारा भरे जाएंगे तथा शेष 20 प्रतिशत पद विश्वविद्यालय के बाह्य स्तर में से जो उक्त पदों के लिए अपेक्षित अर्हता रखते हैं, विभागीय परीक्षा संचालित कर सर्वथा योग्यता के आधार पर विज्ञापन और चयन द्वारा भरे जाएंगे।

परन्तु यह अध्यापन सेवा धार्मिक के पदों पर भर्ती, विज्ञापन तथा वृत्ती प्रतियोगिता के माध्यम से श्रेणी प्रमेिया के अनुसार जैसी कि विश्वविद्यालय के बोर्ड द्वारा समय-समय पर अधिस्थित की जाए, की जाएगी।

117

परन्तु यह और कि विश्वविद्यालय की कार्यशाखा के वर्ग-दो तथा अन्य अन्य वर्गों के लिए, विश्वविद्यालय के कर्मचारियों में से पदोन्नति हेतु 00 प्रतिशत तक का निम्न किया जाएगा तथा 20 प्रतिशत कोटा विज्ञापन के माध्यम से खोली जाती के लिए नियत किया जाएगा। यदि शिक्षा पद की प्रकृति ऐसी है कि वांछित प्रकार के व्यक्ति की नियुक्ति या ही पदोन्नति कोटा से यह विज्ञापन के माध्यम से सीधी भर्ती द्वारा करने में विश्वविद्यालय असमर्थ है, तो कुलपति मध्यप्रदेश सरकार से उपयुक्त व्यक्ति की सेवाएं प्रतिनियुक्ति पर अधिप्राप्त कर सकेगा।

- (9) रूर अध्यापन सेवा कर्मिक, मध्यप्रदेश सरकार के सामान्य प्रशासन विभाग के अधिन कर्मांक एफ-11/1/वे.आ.प्र./09, दिनांक 17.03.1999/19.04.1999 में आवेदन पत्रों के अनुसार कर्मोन्नति योजना के तहत सम्बन्धित जैसा कि मध्यप्रदेश सरकार द्वारा समय-समय पर अधिसूचित किया जाए, के लाभों को प्राप्त करने के ही हकदार होंगे।
- (10) विज्ञापन के माध्यम से सीधी भर्ती के मामले में, विज्ञापन के आंतरण में प्राप्त आवेदनों की सर्वप्रथम कुलपति द्वारा नियुक्त की गई समिति द्वारा संश्लेष की जाएगी जो उन आवेदकों के नामों की, विज्ञापन पत्र के लिए विचार करने हेतु विहित अर्हताओं की पूर्ति की है, अनुपस्थित कुलपति को करेगी। उक्त समिति द्वारा सिफारिश किए गए तथा कुलपति द्वारा अनुमोदित आवेदकों को चयन समिति द्वारा साक्षात्कार के लिए बुलाया जाएगा। आचार्य, डॉ. आचार्य तथा उसके समतुल्य अध्यापन पदों के चयन के मामले में, चयन समिति द्वारा आवेदकों से ऐसे आवेदकों को अस्वीकृत पर जो कि साक्षात्कार की तारीख को विदेश में ही, अनुपस्थिति पर से विचार करेगी।
- (11) चयन समिति, कुलपति को प्रत्येक रिक्ति के लिए संख्या को कम से कम एक से अधिक नामों के पैक की अनुशंसा करेगी।
- (12) सीधी भर्ती के मामलों में, अनुसूचित जाति, अनुसूचित जनजाति तथा अन्य पिछड़े वर्गों के नागरिकों के साथ-साथ महिलाओं के पक्ष में (एक) मध्यप्रदेश लोक सेवा अनुसूचित जातियों, अनुसूचित जनजातियों और अन्य पिछड़े वर्गों के लिए आरक्षण अधिनियम, 1996 (कर्मिक 21 राज 1996) तथा (दो) मध्यप्रदेश स्थित सेवा (महिलाओं की नियुक्ति हेतु विशेष उपबंध) विधम, 1987 तथा चयन समय-समय पर किए गए संशोधनों के अनुसार, पदों में रिक्तियों आरक्षित रखी जाएगी।
- (13) वर्ग-दो, वर्ग-तीन तथा वर्ग-चार प्रवर्गों के जो पद सीधी भर्ती के माध्यम से भरे जाते हैं मध्यप्रदेश, सामान्य प्रशासन विभाग के अधिन कर्मांक एफ-8-2/96/पं.दि.दि.नं. 30.05.1997 तथा तत्परवर्त उक्त प्रवर्गों में आरक्षण को नियमित करने हेतु समय-समय पर जारी किये गए निर्देशों के अनुसार छह प्रतिशत पद अंश, पूर्ण तथा अन्य आर्थिक रूप से दिक्कत व्यक्तियों के लिए आरक्षित रखे जायेंगे।
- (14) विश्वविद्यालय के कर्मचारियों में से पदोन्नति द्वारा भर्ती के मामले में विश्वविद्यालय प्रत्येक वर्ग-दो वर्ग, जिसमें पदोन्नति द्वारा नियुक्ति की जाती हो, अधिप्राप्त करना जो फोडर फोडर कहलाएगा। चयन समिति केवल उन कर्मचारियों के नामों पर विचार करेगी जिन्होंने पत्र उर केंद्र में अनिश्चित न्यूनतम सेवा अवधि पूर्ण कर ली हो। पदोन्नति, मध्यप्रदेश लोक सेवा (पदोन्नति) विधम, 2002 तथा समय-समय पर उक्त किये गए संशोधन के अनुसार की जाएगी।

1. नियुक्ति की प्रक्रिया -

- (1) इस परिचय के अनुसार राज आचार्य तथा उसके समतुल्य पदों तक की सभी के-सहाय अधिकारियों तथा अध्यापन पदों के लिए सिफारिश किए गए व्यक्तियों की संख्या कम-से-कम दो-दो बार सीधी, कुलपति द्वारा अपनी स्वयं की अधिसूचित सिफारिशों के साथ विचारण के लिए बोर्ड को प्रस्तुत की जाएगी।
- (2) बोर्ड, सिफारिशों को स्वीकार और अनुमोदित कर सकेगा या सिफारिशों को अनुमोदित करने से इनकार करने के लिखित में कारण देते हुए लौटा देगा। ऐसे मामले में कुलपति, सीमांत कमानुसार सिफारिश किए गए व्यक्तियों की एक अन्य सूची सम्बन्ध अनुक्रम में उर को प्रस्तुत करेगा।
- (3) इस परिचय के अनुच्छेद 4 के उपबन्धों के अनुसार न्यूनतम अर्हता की पूर्ति को आवश्यक रखते हुए कुलपति आप्त सिद्धि में उक्त नाम से उचित कालावधि के लिए किसी अध्यापन पद पर उक्त नियुक्ति करेगा। छह मास की अवकाश के परे ऐसी शर्तों नियुक्ति के विस्तार के लिए केंद्र को अनुमोदन अपेक्षित होगा।

**6.6.5.2. Participation of Faculty in Symposia/Workshops:****FOR THE YEAR 2015-16****Research papers/Abstract (Presented & Published)/Books/Book Chapters/
Teaching Manual/ Popular Articles etc.**

S. No.	Category of publication	Nos
1	Research paper presented in the seminar/ Souvenir	60
2	Abstract Published in Seminar/Symposia/Conferences	133

1 Research papers presented in the seminar/ Symposium:

1. Arora, Asha (2015). Evaluation of leaching behavior of metribuzin under two irrigation levels. 25th Asian-Pacific Weed Science Society Conference on weed science for sustainable agriculture, environment and biodiversity, Hyderabad, India during 13-16 October, 2015, pp 438.
2. Bharvey, H. C. and Kanpre, R. N. (2015). Study of M.Sc. Theses in floriculture and landscape architecture, department at K.N.K. College of Horticulture Mandsaur, (M.P.). National conference on contrivance of academic library in digital era 2015.
3. Dwivedi, S. K. (2015). Processing and value addition in seed spices, onion and garlic in proceeding of District level seminar conducted by spices board of India during 02-03 December 2015.
4. Dwivedi, S. K.; Pandey, A.; Pandey, G. N. and Mishra, S. N. (2015). Development of protocol for preparation and preservation of ginger flavored Aonla candy for nutritional and biochemical evaluation. In proceeding during First International conference on advances in food science and technology (ICAFST-2015) during November 20-22, 2015 at Kottayam. P1.
5. Dwivedi, Shailendra Kumar; Tiwari, Rajesh and Pandey, Ankit (2016). Studies on preparation, packaging and storage stability of nutritionally rich fruit leather of bael and aonla pulp. Published in Abstract Book of Global Ravine Conference on Managing Ravines for Food and Livelihood Security organized by RVSKVV, Gwalior during March 07 to 10, 2016 at Gwalior (M.P.) pp 89.
6. Gorana, Hemlata; Singh, Om; Gallani, R.; Singh, Richa and Singh, Pratiksha (2016). Effect of zinc and boron on growth and yield of different cultivars of garlic (*Allium sativum* L.) International seminar by Samagra Vikas Welfare Society, Lucknow, India during 09-10 January 2016.
7. Gurjar, Lal Singh; Barholia, P.K.S.; Haldar, A.K. and Shrivastava, A. (2015). Effect of organic manures and inorganic fertilizers on growth and flower yield of marigold (*Tagetes erecta* L.) var. Pusa Narangi Gainda. The paper was presented in 3rd Internal Conference on Environmental Friendly Agriculture & Horticulture in planning of a smart city, held on 12-14 Dec. 2015. Sponsored by MANIT, EPCO, NHB, MPCST, JMBVSS & Sus Tran Con (USA). Organized by JANPARISHAD at Bhopal (M.P.) India. Abstract p 170.

8. Gurjar, Lal Singh; Barholia, P.K.S.; Lekhi, A.K.; R. Vasure, Narendra and Haldar, A. (2016). Effect of plant growth regulators on cucumber (*Cucumis sativus* L.) under protected cultivation in gird zone of M.P. Paper was presented in poster session of Global Ravine Conference on Managing ravines for food and livelihood security (GRC 2016). March 7-10-2016. Abstract p 217.
9. Jain, A. K.; Kushwah, S. S.; Patidar, H. and Mishra, S. N. (2016). Studies on combining ability in pea (*Pisum sativum* L.). Poster presented in National symposium on vegetable legumes for soil and human health organized from 12-14 February at IIVR, Varanasi by ISVS, Varanasi, APIV, Varanasi and ISPRD, Kanpur.
10. Kasana, B.S.; Dixit, J.P.; Tripathi, M.L. and Sharma, J. (2015). Importance of organic amelioration for sustaining the soil health under changing climate scenario. Paper presented in national seminar on organic ameliorants for soil resilience and environmental security at RVSKVV, Gwalior during 19 – 21 August, 2015. P.91.
11. Kasana, B.S.; Gupta, S.; Dixit, J.P. and Prajapati, B.L. (2015). Agromet advisory services – A safe gourd to extreme weather event. Paper presented in National seminar on climate change and smart agriculture technologies at RVSKVV, Gwalior during 13 – 14 June, 2015. P. 123.
12. Khan, K. A. (2015). Presented Poster in 50th Convention and Symposium of Indian Society of Agricultural Engineers (ISAE) organized by College of Ag. Engg. & Tech., OUAT, Bhubaneswar, Odisha on 19-21 January, 2016.
13. Khan, K. A. (2015). Youth ready for climate change organized by Indian institute of forest management, Bhopal on 28-29 July, 2015.
14. Khan, K. A. and Nema, P.K. (2015). Packaging of fruits and vegetables in retail packages for super markets” published in commodityIndia.com¹⁵.
15. Kushwah, G.; Sharma, R. K.; Kushwah, S. S. and Mishra, S. N.(2016). Effect of different organic manures, inorganic fertilizers and the varieties, on growth, yield and quality of carrot (*Daucus carota* L.). International seminar on indigenous technologies for sustainable agriculture and better tomorrow (09-10 January 2016) at NBRI, Lucknow (U.P.): 145.
16. Kushwah, S. S.; Choudhary Jitendra.; Singh, O. P. and Naruka, I. S. (2016). Evaluation of morphological, growth, yield and quality traits in Indian bean germplasm. Poster presented in national symposium on vegetable legumes for soil and human health” organized from 12-14 February at IIVR, Varanasi by ISVS, Varanasi, APIV, Varanasi and ISPRD, Kanpur.
17. Kushwah, S. S.; Maida, S.K.; Singh, O. P. and Naruka, I. S. (2015). Influence of mulching on yield, economics and water use efficiency in cauliflower (*Brassica oleracea* L. var. *botrytis*). Poster presented in National Seminar on organic ameliorants for soil resilience and environmental securities organized from 19-21 August at Gwalior by RVSKVV, Gwalior.
18. Kushwah, S.S.; Kharje, S.; Singh, O. P. and Naruka, I. S. (2015). Protected cultivation and growth regulators to mitigate the adverse climatic conditions for summer squash cultivation. Poster presented in national seminar on climate change and smart agriculture technologies organized from 13-14 June at Gwalior by RVSKVV, Gwalior.
19. Kushwah, S.S.; Singh, O. P.; Naruka, I. S. and Sharma, R. K. (2016). Annual drumstick cultivation- an option for livelihood under ravine ecosystem. Oral paper presented in

- Global Ravine Conference on managing ravine for food and livelihood security organized from 7-10 March at Gwalior by RVSKVV Gwalior.
20. Mujalde, S.; Sharma, A.K. and Ranade, D.H.(2015). Seed priming: Anew technology for improve early seed emergence and establishments of crops in rainfed conditions of India: Silver jubilee national seminar on dry land agriculture in vidarbha association for research technology and development in agriculture and rural sectors (VART-DARS).
 21. Pandey, Ankit; Somvanshi, S.P.S.; Tiwari, Rajesh and Tripathi, M.K. (2015). Impacts of climate change and adaptation strategies for Horticultural crops in Madhya Pradesh. Published in Abstract Book of National Seminar on Climate change and Smart Agriculture Technologies organized by RVSKVV, Gwalior during 13 to 14 June 2015 at Gwalior (M.P.) pp72-73.
 22. Pandey, G. N.; Patidar, B. K.; Patel, R. P. and Patidar, D. K. (2016). Study on integrated management of Ashwagandha (*Withania somnifera*) poster presented in Global ravine conference on managing ravines for food and livelihood security held at RVSKVV Gwalior. March 7-10, 2016.
 23. Parsai, S.K. and Moghe, Vinay (2015) Evaluation of insect insecticides against major sucking pest of cotton paper presented in National symposium on future Technologies: Indian cotton in the Next Decade held at Acharya Nagarjuna University, Guntur, December 17-19, 2015
 24. Patel, R. P.; Patidar, B.K.; Pandey G.N. and Tripathi M. K. (2015). Effect of temperature and R.H. on stem gall disease of coriander (*Protomyces macrosporus*). Poster presented on National seminar on climate change and smart agriculture technologies, held at RVSKVV Gwalior. June 13-15, 2015
 25. Patel, R. P.; Tripathi, M. K.; Tiwari, R.; Pandey, G. N. and Patidar, B. K. (2016). Effect of temperature, relative humidity and rain fall on powdery mildew disease spread in mhaneem (*Ailanthus excelsa*) caused by *Pseudoidium ailanthi* poster presented in Global ravine conference on managing ravines for food and livelihood security held at RVSKVV Gwalior during March 7-10, 2016.
 26. Patidar, H.; Mishra, S. N.; Pandey, G. N. Chundawat, R. S.; Patidar, B. K. and Patidar, D. K. (2016) "Evaluation of genetic diversity of ashwagandha (*Withania somnifera*)" poster presented in Global ravine conference on managing ravines for food and livelihood security held at rvskvv Gwalior during March 7-10, 2016.
 27. Rajput, A.S.; Kumar, Anuj; M., Vidhya Sankar and Mishra, S. N. (2016). Effect of nitrogen and phosphorus on growth and flowering of French marigold (*Tagetes patula* L.) cv. Pusa Arpita under Malwa region of Madhya Pradesh. Souverir-cum-abstract-international Seminar on indigenous technologies for sustainable agriculture and better tomorrow. (NBRI, Lucknow).
 28. Ramnivas, Sharma; Bharvey, H. C. and Dixit, Pradeep Kumar (2016). Study of M.Sc. Theses in Department of Agriculture Economics and Agronomy at JNKVV, Jabalpur (M.P.). 61stInternational conference of Indian library association (ILA) on sustaining the excellance: transforming libraries through technology, innovation and value added services in google era to be held at Sauransthara university library, Saurasthra University, Rajkot.

29. Ranade, D.H. (2016). Sustainable agriculture through natural resource management in a national conference on new horizons in biological sciences organized by Boston College for Professional Studies, Gwalior during 28 -29 January 2016.
30. Ranade, D.H., (2016). Sustainable agriculture through natural resource management in a national conference on new horizons in biological sciences organized by Boston College for professional studies, Gwalior during 28 -29 January 2016.
31. Ranade, D.H., Mujalde, S. and Swarup, Indu (2015). Increasing irrigation water availability through water harvesting tank – a certain way to mitigate adverse climatic condition in Malwa region. National seminar on climate change and smart agriculture technologies, 13-14 June 2015 at RVSKVV, Gwalior (M.P.).
32. Ranade, D.H., Mujalde, S. and Swarup, Indu (2016). Conversion of wasted land to water storage tank and its utilization for increasing the crop productivity in Malwa region – a case study. Global Ravines Conference, 7-10 March, 2016 at RVSKVV Gwalior (M.P.).
33. Ranade, D.H., Mujalde, S. and Swarup, Indu (2016). Conversion of wasted land to water storage tank and its utilization for increasing the crop productivity in Malwa region – A case study. Global Ravines Conference, 7-10 March, 2016 at RVSKVV, Gwalior (M.P.).
34. Sharma, R.; Singh, Om and Gallani R. (2016). Effect of integrated nutrient management practices on growth, yield and quality of coriander (*Coriandrum sativum* L.). International Seminar by Samagra Vikas Welfare Society, Lucknow, India, 09-10 January, 2016.
35. Sharma, S.K.; Chauhan, N.S.; Upadhyay, D.; Singh, V.P.; Shikarwar, R.; Tomar, S.S. (2016). Evaluation of biological interactions in acacia-rice agro-forestry system. Abstract, published in the proceedings of Global Ravine Conference on managing ravines for food and livelihood security.p106.
36. Sharma, S.K.; Chouhan, N.; Dwivedi, B. S.' Ken Taniwaki, Ken. N.Ae.; Tomar, Sudeep (2016). Rhizosphere Effect on Phosphorus Availability to Soybean Crop in Vertisols of Central India. Abstract published in the proceedings of Global Ravine Conference on managing ravines for food and livelihood security. p145.
37. Sharma, S.K.; Siddaqui, S.; Chauhan, N., Singh, V.P.; Shikarwar, R.; Tomar, S.S. (2016). Microbial Decomposition in Detrital of Agroforestry Ecosystem under Wastelands. Abstract, published in the proceedings of Global Ravine Conference on managing ravines for food and livelihood security pp117.
38. Sharma, S.K.; Sushama, Parmar; Tomar, Sudeep K.; Tomar, R.S.S.; Girothia, A.; Shikarwar, R., Singh, V.P. (2016). Trends of climate change and estimations of rainfall probabilities, soil erodability and suitable strategies for mitigation and adaptation to sustain soil and crop productivity in western M.P. Abstract, published in the proceedings of Global Ravine Conference on managing ravines for food and livelihood security.pp156.
39. Sharma, S.K.; Tomar, S.S.; Shikarwar, R., Singh, V.P.; Tomar, R.S.S.; Chauhan, N., Girothia, A. (2016). Managing vertisols for enhanced soybean production central India. Abstract, Published in the proceedings of Global Ravine Conference on managing ravines for food and livelihood security pp105.

40. Shrivastava, S.C.; Tripathi, M.K.; Naruka, I.S. and Tiwari, R. (2015). Information technologies and climate change: The adaptation and mitigation dimensions. Published in Abstract Book of National Seminar on Climate change and Smart Agriculture Technologies organized by RVSKVV, Gwalior during 13 to 14 June 2015 at Gwalior (M.P.) pp137-138.
41. Singh K. V, Bhadauria S.S., Singh Pradyumn, Naruka I.S., Kureel M. and Hada Neeraj (2015). Market Potential of Underutilized Plant Species. Third International Symposium on "Underutilized Plant Species" (Exploration and Conservation for Future Generation) at KVK, AC & RI, Madurai, Tamil Nadu, India during August 5-8, 2015, Abstracts & Souvenir. SAP-23.
42. Singh, Anil Kumar, Verma, S.K. and Singh, Akhilesh (2016). Greening of ravine: a strategy for mitigation to climate change. Global Ravine Conference on managing ravines for food and livelihood securities 7-10 March, 2016 RVSKVV, Gwalior (M.P.) India p23-33.
43. Singh, Om; Hemlata, G.; Gallani, R. and Kushwah, S.S. (2015). Effect of zinc and boron on growth and yield of different cultivars of garlic (*Allium sativum* L.). A souvenir and conference book of national conference on global research initiatives for sustainable agriculture & allied sciences. 12-13 December, 2015.
44. Singh, Pratiksha; Bihari, Shyam; Singh, Om and Singh, Richa (2016). Strengthening nutritional status of rural women through nutritional kitchen gardening. International Seminar by Samagra Vikas Welfare Society, Lucknow, India. 09-10 January, 2016
45. Singh, Ranjit; Debbarma, R.; Singh, S. and Khan, K. A. (2015). Effect of Different Roasting Temperature and Time on Mechanical Properties of Whole Soybean. *Soybean Research Journal* special issue no 2. NAAS Rating: 3.04.
46. Soni, O.P. and Vani, D.K. (2016) Sinchai Suvidhao ka Sadupayog paper presented in National Seminar: भारत में कृषि क्षेत्र की ज्वलंत समस्याएँ— कारण एवं निदान, 13-14 Feb 2016 organized by Gramin Kalyan Sansthan, Lucknow Venue : New Delhi.
47. Soni, O.P.; Gupta, M.K.; Vani, D.K; and Kumar, Devendra (2015). A cost saving approach to assess run off from watershed in Chambal basin of Madhya Pradesh. Global Ravines Conference, 7-10 March, 2016 at RVSKVV Gwalior (M.P.).
48. Sonkar, Priyamvada; Kanpure, R. N. and Patel, R. P. (2015). Problems and prospectus of citrus in Mandsaur. National symposium on Sustainable citrus production: Way forward, 27-29 Nov., 2015 at Central Citrus Research Institute, Nagpur: 110-111.
49. Swarup, Indu, Ranade, D.H., and Mujalde, S. (2016). Mitigating adverse climatic conditions through crop diversification using water harvesting tank in farmer's field. Global Ravines Conference, 7-10 March, 2016 at RVSKVV Gwalior (M.P.).
50. Tikle, A.N. (2015). Conservation and utilization of cytoplasmic male sterile lines for development of short and medium duration pigeon pea hybrids. Presented in National Seminar on Harmonizing biodiversity and climate change challenges and opportunity held at Central Inland Agricultural Research Institute, Port Blair, Andaman & Nicobar, India- April 17-19, 2015.
51. Tilgam, Monika; Yadav, K.S.; Sharma, Janmejay and Prajapati, B.L. (2015). Effect of weed management practices on yield and economics of blackgram. 25th Asian-Pacific Weed Science Society Conference on weed science for sustainable agriculture, environment and biodiversity, Hyderabad, India during 13-16 October, 2015, pp 247.

52. Tiwari, Rajesh; Shrivastava, S.C.; Pandey, Ankit and Dwivedi, Shailendra Kumar (2016). Performance of fruit based cropping system in low productive environments. Published in Abstract Book of Global Ravine Conference on Managing Ravines for Food and Livelihood Security organized by RVSKVV, Gwalior during March 07 to 10, 2016 at Gwalior (M.P.) pp 101.
53. Tomar, V.S. and Verma, S.K. (2016). Ravine land: Current status, challenges and perspectives. Global Ravine Conference on managing ravines for food and livelihood securities 7-10 March, 2016 RVSKVV, Gwalior (M.P.) India. p34-41
54. Tripathi, M.K.; Baghel, R.S.; Tiwari, R.; Tiwari, G; Ahuja, A.; Baghel, B.S.; Patel, R.P. and Verma, S. K. (2016). Role of biotechnology for conservation of biodiversity of plants appropriate for degraded lands. Published in Abstract Book of Global Ravine Conference on Managing Ravines for Food and Livelihood Security organized by RVSKVV, Gwalior during March 07 to 10, 2016 at Gwalior (M.P.) pp 135.
55. Tripathi, M.L.; Dixit, J.P.; Kasana, B.S.; and Prajapati, B.L. (2015). Optimum irrigation requirement of spring sown rajma under urd rajma cropping system in sandy soil of Chambal Command Area. Paper presented in National Seminar on Organic Ameliorants for soil resilience and environmental security at RVSKVV, Gwalior during 19 - 21 August, 2015. P130.
56. Tripathi, M.L.; Dixit, J.P.; Prajapati, B.L. and Kasana, B.S. (2015). Crop diversification under oilseed crops to mitigate the climate change in Chambal region of Madhya Pradesh. National Conference on “Global Research Initiatives for Sustainable Agriculture and Allied Sciences (GRISASS-2015)” at RVS Krishi Vishwavidyalaya, Gwalior during December 12-13, 2015, pp. 229.

For the Year 2016-17

Research papers/Abstract (Presented & Published)/Books/Book Chapters/ Teaching Manual/ Popular Articles etc.

S. No.	Category of publication	Nos
1	Research paper presented in the seminar/ Souvenir	11
2	Abstract Published in Seminar/Symposia/Conferences	66

1 Research papers presented in the seminar/ Symposium:

S. No	Author (s)	Title	Conference Proceedings	Page No.	Year	National / International
1	Jatav, Rajesh, Kanpure, R.N. and Barholia, Arun Kumar	Effect of foliar spray of urea and zinc sulphate on morphological yield and quality attributes of guava (<i>Psidium guajava</i> L.) cv. Apple Colour. Poster No. 06 ACRYN-155	Indian Horticulture Congress 2016.	292-293	2016	National
2	Dhakar, Dinesh, Barholia, Arun Kumar, Jatav, Rajesh, Vasure, Naredra and Singh, Lal	Effect of phosphorus and zinc sulphate on vegetative growth and physiological attributes of guava (<i>Psidium guajava</i> L.) cv. Gwalior-27.	International conference on Science, Technology, women studies, business and social sciences, Goa -2016	58	2016	National
3	Yadav, Sangeeta, Barholia, A.K. Singh D.K. and Singh S.K.	Assessment of yield gap and socio-economic constraints in coriander in Indian climate changing scenario.	Souvenir and Seminar Book, ISEE National Seminar	232	2016	National
4	Fatehpria P.K., Gupta.V, Sasode S. Rajni, Chobe .R. Devashish and Reeti singh	Evaluation of fungicide against <i>Sclerotium</i> under <i>in-vitro</i> condition	Presented in 3 rd National Brassica Conference held at IARI 16-18 feb 2017. Society for Rapeseed Mustard Res, Bharatpur. Rajasthan	-	2017	National
5	Asha Arora	Leaching behaviour of butachlor in soil as affected by FYM amendment.	International Conference on Contamination Site Remediation, "CleanUp India 2016". Dec 13-16, 2016, Directorate of NRM, TNAU, Coimbatore.	-	2016	International
6	Arora, Asha, Yadav, K.S., Sasode, D.S., Kasana, B.S. and Dixit J.P	Evaluation of herbicide combinations to control the complex weed flora in wheat	National Symposium on "Agrochemicals Research and Education in India: Appraisal and Road Map for Future". November 15-17, 2016, ICAR-IARI, New Delhi. Abstract No. 34.	-	2016	National
7	Arora Asha, Yadav KS, Sasode DS and Dixit JP	Management of Orobanche in Mustard	Biennial Conference of ISWS "Doubling Farmers' Income by 2022: The Role of Weed Science" 1-3 March, 2017, MPUAT, Udaipur, Rajasthan	-	2017	National
8	Varsha Gupta, Deep Singh Sasode, Shriram Osari and	Effect of weed management practices to control the problematic weeds in green gram	--	-	2017	National

Asha Arora

9	Varsha Gupta, Deep Singh Sasode Asha Arora and Ekta Joshi	Effect of weed management practices to control the problematic weeds in Black gram	The National Forage Symposium 2017" at RVSKVV, Gwalior on March, 3-4, 2017	34	2017	National
10	R.N. Kanpure	SEED Spices: A Heritage of India	Lead Paper in National Conference AGRAT 2017	1	2017	National
11	Rejani R., Rao K.V., Ranade D.H., Argal S.K., Chary G.R., Gopinath K.A., Osman M., Sammi Reddy K. and Srinivasa Rao Ch.	Spatial and Temporal Estimation Runoff under Changing Climate Scenarios at Indore.	Proceedings of 4th National Conference on Water, Environment & Society	525	2017	National

2. Abstract published in various conference/souvenir:

S. No.	Author (s)	Title	Conference Proceedings	Page No.	Year	National / International
1	Varsha Gupta, Deep Singh Sasode, Shriram Osari and Asha Arora	Effect of weed management practices to control the problematic weeds in green gram	XXIV Annual Review Meeting of AICRP-WM at MPUA&T Udaipur (Rajasthan) on February 26-28, 2017	175	2017	National
2	Deep Singh Sasode, Varsha Gupta, Asha Arora and Ekta Joshi	Evaluation of herbicide combinations to control the complex weed flora in wheat	XXIV Annual Review Meeting of AICRP-WM at MPUA&T Udaipur (Rajasthan) on February 26-28, 2017	177	2017	National
3	Ekta Joshi, Deep Singh Sasode and Varsha Gupta	Effect of Nutrient omission on productivity and economics of maize (<i>Zea mays L.</i>) in maize – wheat cropping system	The National Forage Symposium 2017" at RVSKVV, COA, Gwalior on March, 3-4, 2017	30	2017	National
4	Deep Singh Sasode, Ekta Joshi and Varsha Gupta	Nutrient Management in Forage Intercropping Systems	The National Forage Symposium 2017" at RVSKVV, Gwalior on March, 3-4, 2017	03	2017	National
5	Varsha Gupta, Deep Singh Sasode Asha Arora and Ekta Joshi	Effect of weed management practices to control the problematic weeds in Black gram	The National Forage Symposium 2017" at RVSKVV, Gwalior on March, 3-4, 2017	34	2017	National
6	Varsha Gupta, Deep Singh Sasode, Asha Arora and Ekta Joshi	Effect of integrated weed management practices on growth and yield of wheat crop	National Conference on "Advances in Global Research in Agriculture and Technology" (AGRAT 2017) at Agra (UP) on March 19-20, 2017	123	2017	National
7	Fatehpuria, P.K., Gupta,V., Chobe, D.R., and Sasode Rajni	Studies on the field evaluation of <i>Brassica</i> germplasm/varieties against <i>S. sclerotiorum</i> under inoculated condition	Proceedings of the international conference on science, Technology, Women Stu., Busi. & Social Sci., Goa	58	2016	National

SELF STUDY REPORT OF AGRICULTURAL UNIVERSITY

S. No.	Author (s)	Title	Conference Proceedings	Page No.	Year	National / International
8	Gupta,V.; Chobe, D.R.; Fatehpuria, P.K.; Kaur, A. and Sasode Rajni	Management of seedling rot of chilli caused by <i>Rhizoctonia solani</i> using <i>Trichoderma</i> spp	14 th International Workshop on Trichoderma and Gliocladium		2016	International
9	Sharma, Satish; Kaur, Arvinder; Pachori, Amita; Sharma, Omprakash; Singh, Reeti. and Pandya, R.K.	Powdery mildew as a major biotic constraint in cluster bean	Nat. Sym. New Directions in Managing. Forage Resources and livestock productivity in 21 st Century: Challenges and Opportunities. Held on 3-4 march 2017 at RVSKVV, COA, Gwalior	4-2	2017	National
10	Sharma, Satish, Kaur, Arvinder, Pachori, Amita, Shamra Omprakash and Singh, Reeti	Fruit tree based agro Forestry system for livelihood security in Gird Zone	National Conference on Diversification of Agric. For Food and Nutrition security held at School of Agriculture, ITM University, Gwalior feb 27-28,	53	2017	National
11	Kaur, A, Singh Reeti , Kushwaha S.R. , Gupta J.C and Singh S.K	use of signaling molecule in minimizing post harvest losses of fruit	6 th International Conference on Technology Innovation and Management for Technology Innovation and Management For Sustainable Development. ITM univ. Gwalior M.P. India held 11-13 feb.		2016	International
12	Pachori, A., Sharma O.P., Rai, A., Singh , R. and Pandya ,R.K.	Anthracoze of clusterbean on guar (<i>Cyamopsis tetragonaloba</i>) as a cause of biotic stress	National Symposiumon new directions in Managing Forage Resources and Livestock Productivity in 21 st century: Challenges And Opportunities. Held on 3-4 March 2017, at RVSKVV, COA, Gwalior		2017	National
13	Sasode S. Rajni., Chobe, D.R., Fatehpuria, P.K., and singh , Reeti	Effect of different combinations of fertilizers on disease intensity of Alternaria blight of cluster bean	International conference on Sustainable Natural Resource Management: from Science to Practice (SNRMSP) January 12-13	84	2017	International
14	Gupta,V., Kaur, A., Fatehpuria, P.K., Bobde, A., Chobe,D.R., and Singh, Reeti	Performance of different chilli varieties /genotypes against major diseases of chilli (Anthracoze, Leaf curl, Damping off and Dieback) under natural condition	International conference on Sustainable Natural Resource Management: from Science to Practice (SNRMSP) January12-13	75-66	2017	International
15	Fatehpuria, P.K., Chobe, D.R., Gupta,V., Sasode, S. Rajni and Singh, Reeti	In-vitro evaluation of culture media against <i>Sclerotinia Sclerotiorum</i>	International conference on Sustainable Natural Resource Management: from Science to Practice (SNRMSP) January12-13	67	2017	International
16	Dhakar, S. Lokendra, Gupta ,	In-Vitro evaluation of different culture media against	3 rd National Brassica Conference (NBC 2017) "Enhancing Oilseed	243	2017	National

SELF STUDY REPORT OF AGRICULTURAL UNIVERSITY

	J.C. Fatehpuria, P.K., Chobe, D.R., Gupta,V., and Sasode, S. Rajni	Sclerotiorum causing sclerotinia blight of mustard	Brassica Production Through Climate-Smart Technologies” Feb. 16-18, 2017, ICAR-IARI, New Delhi, India.			
17	Fatehpuria, P.K., Gupta,V., Sasode, S. Rajni., Chobe, D.R., and Singh, Reeti	Evaluaton of fungicides against mycelial growth of Sclerotinia sclerotiorum under in –vitro conditions	3 rd National Brassica Conference (NBC 2017) “Enhancing Oilseed Brassica Production Through Climate-Smart Technologies” Feb. 16-18, 2017, ICAR-IARI, New Delhi, India	245	2017	National
18	Chandel, Shivram., Gupta , J.C. Fatehpuria, P.K., Chobe, D.R., Singh B., and Sasode, S. Rajni	Evaluation of fungicides against mycelia growth of <i>Alternaria brassicae</i> under <i>in-vitro</i> condition	3 rd National Brassica Conference (NBC 2017) “Enhancing Oilseed Brassica Production Through Climate-Smart Technologies” Feb. 16-18, 2017, ICAR-IARI, New Delhi, India	246	2017	National
19	Fatehpuria, P.K., Gupta,V.,Sasode, S. Rajni., Chobe, D.R., and Singh, Reeti	Effecacy of Different Inoculation Techniques for Testing the Pathogenicity of <i>Sclerotinia sclerotioum</i> causing Sclerotinia Blight of <i>Brassica juncea</i>	International Seminar on Oilseed Brassica (ISOB 2017) Feb. 23-27, 2017. State Institute of Agriculture Management, Jaipur, Rajasthan (India)	141	2017	International
20	Fatehpuria, P.K., Gupta,V.,Chobe, D.R, Singh, Bhagyashree and Sasode, S. Rajni	Studies on Survey of Sclerotinia rot of crucifer in in Northern Madhya Pradesh	ISMPP 38 th Annual Conference & National Symposium-2016. Challenges towards Plants Health for Sustainable Agriculture Nov. 24-26, 2016. Indian Society of Mycology and Plant Pathology, RCA, MPUAT, Udaipur-313001 (Rajasthan) India.	30	2016	National
21	Sasode, S. Rajni., Fatehpuria, P.K., Chobe, D.R, and Patidar S.	Studies on <i>Bipolaris sorokiniana</i> (Sacc.) Shoemaker Causing Leaf Blight of Wheat.	National Conference on Advance in Global Research in Agriculture and Technology (Agrat 2017) March 19-20, 2017 Society of National Conference on Advance	39	2017	National
22	Fatehpuria, P.K., Chobe, D.R.,Gupta,V., Singh, Sasode, S. Rajni	Evaluation of Botanicals against Sclerotinia Blight of Mustard Caused by <i>Sclerotinia Sclerotiorum</i> Under In-Vitro Condition	in Global Research in Agriculture and Technology (Agrat 2017). March 19-20, 2017 Society of Human Resource and Innovation, Agra (U.P.) India	49	2017	National
23	Chetan M. Bondre	Population dynamics of <i>Helicoverpa armigera</i> (Hubner) on Chickpea	Advance in Global Research in Agriculture and Technology	86	2017	National
24	Khandkar, U.R., Tiwari, S.C., Sharma,R.K. and Verma, S.K.	Relative efficiency of amendments in reclamation of sodic Vertisols and their effects on crop production	National Seminar on Climate Resilient Saline Agriculture : Sustaining Livelihood Security,21-23,January 2017 held at S.K.R.A. University, Bikaner (Rajasthan)	-	2017	National
25	Deepa Ahirwar, A.K. Sharma and	Effect of sowing date on oil content and yield of safflower	--	20-	2016	International

1	Research paper presented in the seminar/ Souvenir	16
2	Abstract Published in Seminar/Symposia/Conferences	25

1 Research papers presented in the Seminar/Symposium:

1. Chaturvedi, Roopesh. 2018. Political Cynicism and Mass Migration: An overview of the Novels of Displaced Sensibility' in 62nd All India English Teachers' Conference at Hyderabad from Jan.18-20, 2018.
2. Dubliya, Yogesh; Sankar, Vidhya, M.; Kumar, Anuj and Gallani, Roshan. 2018. Evaluation of different INM practices on growth and productivity of tuberose (*Polianthes tuberosa*) in Malwa region of M.P." National conference on "Innovative technological interventions for doubling farmers' income" at SKUAST Jammu (J&K).'
3. Dwivedi, S.K. 2017. Fruit based fermented beverages. In Proceeding of ICAR-Winter school on "Hi-Tech interventions in fruit production towards hastening productivity, nutritional quality and value addition" organized by Department of fruit science, College of horticulture and forestry, Agriculture University- Kota.
4. Dwivedi, S.K. and Singh, Om. 2018. Preparation and Evaluation of Ready to Serve Beverages from Jamun fruits. During International Conference on *Invigorating Transformation of Farm Extension towards Sustainable Development: Futuristic Challenges and Prospects* - INTFES – 18. In Proceeding organized by Tamilnadu Agriculture University, Coimbatore, Tamilnadu during 9-10 March 2018.
5. Haldar, A.; Nagaich, K.N.; Meena, K.C.; Patidar, D. K., and Thakur, R. 2017. Response of variety, spacing and nitrogen on growth and tuber yield of potato with special reference to economics. International conference on *Global Research Initiatives for Sustainable Agriculture & Allied Sciences* (GRISAAS-2017) during 02-04 December 2017 at Maharana Pratap University of Agriculture & technology, Udaipur, Rajasthan.
6. Khan, K. A.; Patel, M.B. and Kapur, Tarun. 2018. Study of Suspended Particulate Matter in Traditional Seed Spices Cleaning-Grading Industry. 52nd Annual Convention of *Indian Society of Agricultural Engineers* at AAU, Anand from 8-10 January 2018.
7. Meena, A. K.; Kumar, Anuj; Sankar, Vidhya M. and Gallani, Roshan. 2017. Effect of Potassium on Growth and Flowering of French marigold (*Tagetes patula*) cv. Pusa Arpita under Malwa Region of Madhya Pradesh. International conference on *Global Research Initiatives for Sustainable Agriculture & Allied Sciences* (GRISAAS-2017) at MPUAT, Udaipur, Rajasthan.

8. Meena, K.C; Haldar, A.; Patidar, D. K.; Soni, N. and Nagaich, K.N. 2017. Quantification of physiological traits and mechanisms in pigeonpea (*Cajanus cajan*) genotypes after recovery from waterlogging. *International Conference on Advances in Agricultural and Biodiversity Conservation for sustainable development* at C.C.S University, Meerut, Uttar Pradesh, India.
9. Pandey, Ankit. 2017. Effect of different drying methods on the quality of tomato powder. International conference on *Global Research Initiatives for Sustainable Agriculture & Allied Sciences* (GRISAAS-2017) during 02-04 December 2017 at Maharana Pratap University of Agriculture & technology, Udaipur, Rajasthan.
10. Pandey, G.N.; Patel, R.P.; Patidar, B. K. and Patidar, D. K. 2017. Assessment of losses of leaf blight disease in chandrasur caused by *Alternaria alternate*. Symposium on *challenges and opportunities: Management of plant diseases under weather changes*, December,14-15, 2017, JNKVV, Jabalpur, (M.P.) India.
11. Pandey, G.N.; Patidar, B.K.; Patidar, D. K. and Patel, R. P. 2017. Management of anthracnose disease of safed musali (*Chlorophytum borivilianum*) caused by *Colletotrichum chlorophyti*. Symposium on challenges and opportunities: Management of plant diseases under weather changes, December,14-15,2017, JNKVV,Jabalpur, (M.P.) India.
12. Patel, R.P.; Pandey, G.N., D Padidar, K. and Pandey, Ankit 2018. Effect of climate change on severity of downy mildew caused by (*Peronospora arborescens* (BERK.) of opium poppy (*Papaver somniferum* L) in Mandsaur District of M.P. and Adjoining area of Rajasthan. National Conference on "*Current Trends in Plant Science and Molecular Biology for food Security and Climate Resilient Agriculture*.Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior & National Environmental Science Academy (NESA), New Delhi 15-16 February, 2018.
13. Patel, R.P.; Pandey, G.N., Pandey, Ankit and Patidar D.K. 2017. Green Mould observed on cultivated oyster mushroom beds caused by *Trichoderma* Spp. In Mandsaur District of MP. International conference on *Global Research Initiatives for Sustainable Agriculture & Allied Sciences* (GRISAAS-2017) during 02-04 December 2017 at Maharana Pratap University of Agriculture & technology, Udaipur, Rajasthan (India).
14. Singh, Om; Choudhary, Deepak; Dwivedi, S.K., Patidar, B.K. and Rathore, G.P.S.. 2017. Studies on Development and selflife of therapeutic ready to serve beverages prepared from blending of Aonla pulp and *Aloe vera* gel. International Conference on Sustainability of Smallholder Agriculture in Developing Countries under Changing Climatic Scenario.14th -17th February 2018. Jointly organized by the Society of Agricultural Professionals and Chandra Shaker Azand Univesity of Agriculture and technology, Kanpur (India).
15. Sonkar, Priyamvada; Chouhan, Anil; Kanpure, R.N.; Anjanaew, S.R. and Barde, Pravin. 2017. Effect of foliar application of urea, boronand 2,4-Don growth,quality and yield

of Acid Lime (*Citrus aurantifolia* Swingle). International Conference on *Advance Research in Applied Science, Environment Agriculture & Entrepreneurship Development*, December 4-6, 2017 at Bhopal (M.P.).

16. Tripathi, M.K. 2017. Climate change and approaches to mitigate climatic adversities in Madhya Pradesh agriculture. *International Conference on Global Research Initiatives for Sustainable and Allied Science (GRISAAS)* , MPUA&T Udaipur during December 02-04, 2017.

2. Abstract published in various conference/souvenir:

S.No	Author (s)	Title	Conference Proceedings	Page No.	Year	National / International
1	Ekta Joshi and Varsha Gupta	Nutrients omission study for better nutrient uptake and enhanced nutrient efficiencies in maize (<i>Zea mays</i> L.) under maize-wheat cropping system	National Seminar on Developments in Soil Science, 82nd Annual Convention December 11-14, 2017 Amity University, Kolkata.		2017	National
2	Varsha Gupta, Ekta Joshi and D.S. Sasode	Weed management in potato crop under organic farming	National Seminar on Developments in Soil Science, 82nd Annual Convention December 11-14, 2017 Amity University, Kolkata		2017	National
3	Ekta Joshi, Deep Singh Sasode and Varsha Gupta	Effect of nutrient omission on growth, yield, profitability and water productivity of wheat in maize – wheat cropping system	Third International Conference on 'Bioresource and Stress Management' held at State Institute of Agriculture Management, Jaipur, Rajasthan, India during 8-11th November, 2017.		2017	National
4	Ekta Joshi, Varsha Gupta and D.S. Sasode	Crop geometry and plant nutrition effect on productivity and profitability of groundnut in Gwalior region	International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2017) during 02-04 December 2017 at Maharana Pratap University of Agriculture & Technology, Udaipur, Rajasthan (India)	125	2017	International

14. Damar, Usha; Sharma, R. K.; Kushwah, S. S. and Singh, O. P. 2017. Effect of varieties, organic manures and inorganic fertilizers on growth, yield and quality of okra (*Abelmoschus esculentus* L.). International conference on *Global Research Initiatives for Sustainable Agriculture & Allied Sciences* (GRISAAS-2017) during 02-04 December 2017 at Maharana Pratap University of Agriculture & technology, Udaipur, Rajasthan.:244.
 15. Meena, Y.; Sharma, R.K.; Kushwah, S. S.; Gallani, R. 2017. Effect of varieties and nutrient levels on growth and yield of cauliflower (*Brassica oleracea* var. botrytis). Abstract in international conference on “Global research initiatives for sustainable agriculture & allied sciences (grisaas-2017)”:526-527.
 16. Nargave, Krishnkant; Sharma, R. K.; Kushwa, S. S. and Singh; O. P. 2018. Effect of varieties and fertility levels on growth, yield and quality of radish (*Raphanus sativus* L.). Abstract in National Conference on “Innovative Technological Interventions for Doubling Farmers Income” (NaCITI-2018):.17.
 17. Pandey, G.N.; Patel, R.P.; Patidar, B.K. and Patidar, D.K. .2017. Assessment of losses of leaf blight disease in chandrasur caused by *Alternaria alternata*. Symposium on challenges and opportunities: Management of plant diseases under weather changes, December, 14-15, 2017, JNKVV, Jabalpur, (M.P.) India. Abstract pp-88
 18. Pandey, G.N.; Patidar, B.K.; Patidar, D. K. and Patel, R.P. 2017. Management of anthracnose disease of safed musali (*Chlorophytum borivilianum*) caused by *Colletotrichum chlorophyti*. Symposium on challenges and opportunities: Management of plant diseases under weather changes, December, 14-15, 2017, JNKVV, Jabalpur, (M.P.) India. Abstract. pp-89
 19. Patel, R.P.; Pandey, G.N.; Patidar, D.K. and Pandey, Ankit. 2018. Effect of climate change on severity of Doeny mildew caused by (*Peronospora arborescens* (Berk.) of Opium poppy (*Papaver somniferum* L.) in Mandsaur district of Madhya Pradesh and adjoining area of Rajasthan. National conference on current trends in plant science and molecular biology for food security and climate resilient agriculture 15-16 ,February, 2018, RVSKVV, Gwalior, M,P, Souvenir & abstracts. pp 154.
 20. Patel, R.P.; Pandey, G.N.; Pandey, Ankit and Patidar, D.K. 2017. Green mould observed on cultivated oyster mushroom beds caused by *Trichoderma* spp. In Mandsaur district of Madhya Pradesh of India. International conference on *Global research initiatives for sustainable agriculture and allied sciences* (GRISAS-2017) during 2-6

- December 2017 at Maharana Pratap University of Agriculture & Technology, Udaipur, Rajasthan (India). Souvenir & Conference book pp 540
21. Patidar, H.; Pandey, G.N.; Chundawat, R.S.; Mishra, S.N. Patel, R.P. and Patidar, D.K. 2018. Evaluation and characterization of asalio/chandrashur (*Lepidium sativum* L.) germplasm in Malwa Plateau of Madhya Pradesh. National conference on current trends in plant science and molecular biology for food security and climate resilient agriculture 15-16 ,February, 2018, RVSKVV,Gwalior, M,P, Souvenir & abstracts. pp 167.
 22. R.P.S. Shaktawat, S.P.S Somvanshi, H.P. Singh, G.S. Chundawat, Durga Singh and G.S. Kulmi. 2017. Assessment of Weed Management Treatments on Yield of Soybean (*Glycine max* L.) and it's Weed Malwa Plateau zone of Madhya Pradesh. International Conference on Global Research Initiatives for sustainable Agriculture and Allied Science (GRISAAS - 2017) during 02-04 December 2017 at Maharana Pratap University of Agriculture & Technology, Udaipur, Rajasthan (India) organized by Astha Foundation, Meerut (U.P.) in Collobration with MPUAT, Rajasthan, and CSAUAT, Kanpur (U.P.: UAS, Raichur (Karnataka) & SSDAT, Meerut (U.P.):292.
 23. Sharma, R.K.; Sen, Satish; Kushwah, S.S. and Dubey, R. 2017. Effect of different weed management practices on growth and yield of cauliflower (*Brassica oleracea* var. *botrytis* L.). An international conference on "Global research initiatives for sustainable agriculture & allied sciences (grisaas-2017):159
 24. Sonkar, Priyamvada; Chouhan, A.; Kanpure, R. N.; Anjanawe, S. R. and Birde, P. 2017. Effect of foliar application of urea, boron and 2,4-D on growth, quality and yield of acid lime. ARASEAED 2017 5th International Conference on Advance Research on Applied science, Environment, Agriculture and Enterpreneurship Development, Dec. 4-6, 2017 in Bhopal. pp. 0047.

For the Year 2018-19

S. No.	Category of publication	Nos
1	Research paper presented in the seminar/ Souvenir/ Symposia/ Conferences	33

S.No	Author (s)	Title	Conference Proceedings	Page No.	Year	National / International
1	Fatehpuria Pramod K*, Pandya R.K., Sasode. R. S., Patidar J.K., Gupta. J.C. and Singh Reeti	Oxalic acid production among <i>Sclerotiniasclerotiorum</i> isolate of grid zone of Madhya Pradesh.	ISMPP 38 th Annual Conference & National Symposium on Plant and Soil Health Management: New Challenges and opportunities, Indian institute of pulses	PP 287	Nov. 16-18 2018	National
2	Fatehpuria Pramod K*, Pandya R.K., Gupta. J.C., Sasode. R. S., Patidar J.K. and Singh Reeti	<i>In-vitro</i> evaluation of <i>Sclerotiniasclerotiorum</i> isolates grid zone of M. P. under five selective media	4th National Brassica Conference (NBC-2019). CSAUA & T, Kanpur	PP 66	Feb. 01-03. 2019	National

International Journal of Advance and Innovative Research proceeding of conference held at Vijayraje Institute of Science & Management, Gwalior (M.P.) during 20-21 December 2018	117 - 124	2019	National

9. Chouhan G.S., Kushwah S.S., Singh O.P. and Sharma R.K. (2018) presented research paper on 'Genetic variability, Heritability and Genetic advance for yield and yield attributing traits in Bottle gourd [*lagenaria siceraria* (Mol.) Standl.]' in the National conference on arid horticulture for enhancing productivity & economic empowerment organized by Indian Society for arid horticulture from 27-29 October 2018 at ICAR-Central Institute for Arid Horticulture, Bikaner.
10. P.S. Dhakad and Om Singh presented research paper on Effect of weed management practices on 'weed control efficiency, growth, yield and economics of coriander (*Coriandrum sativum* L.)' Climate Change and Adaptive Crop Protection for Sustainable Agri-horticulture Land Landscape. 2018 ICAR- NRCSS, Tabiji, Ajmer (Raj.) & Society of Plant Protection Sciences ICAR-NCIPM, Pusa Campus, New Delhi

11. Dr. S.K. Dwivedi presented expert talk on topic “ Fermentation Technology for value addition in underutilized fruit crops” dated 04/08/2018 during summer school organized by SKUAST- Shalimar- Srinagar, J&K (July-6 Aug 2018)
12. Khan, Khursheed A presented *invited lecture* on ‘*Food Processing Techniques and their Impacts on Nutritive Value*’. in National conference on “Indigenous foods: How to promote it” organized by Department of food processing technology at Bilaspur university, Bilaspur from 19-20 April, 2018.
13. Kumar, Anit; Sehrawat, Rachna; Khan, Khursheed A; Upadhyay, Ashutosh; Babar, Onkar; Nigan, Shubhangi. 2018. *Natural colorants: Enhancement of extraction yield from wastage of grapes pomace using micro-fluidization*. Poster presented in 18th International Conference on Recent Advances in Food Processing Technology at Indian Institute of Food Processing Technology, Thanjavur, Tamil Nadu, India.
14. Patel, R.P; Pandey, G.N; Patidar, B.K; Singh S.B. and Chundavat. G.S.(2019) presented research paper on ‘Severity of powdery mildew on okra (*Abelmoschus esculentus* L. Moench) caused by (*erisiphe cichoracearum* DC) in shaded and non shaded field in Mandsaur district of Madhya Pradesh’ at 8th Indian Horticulture Congress-2019 (IHC) at Indira Gandhi Krishi Vishwavidyalaya , Raipur Chhattishgarh 17-21 January,2019.
15. G.S. Chouhan, S.S. Kushwah, O.P. Singh and R. K. Sharma (2018). Genetic variability, heritability and genetic advance for yield and yield attributing traits in bottle gourd [*Lagenaria siceraria* (Mol.) Standl.]. E-book of abstracts, Saroj, P.L., Sharma, B.D. and Reddy, S.V.R. (Ed.), National Conference on Arid Horticulture for Enhancing Productivity & Economic Empowerment during 27-29 October 2018 at ICAR-Central Institute for Arid Horticulture, Bikaner.:17.
16. Mukesh Dawar, Anuj Kumar, Vidhya Sankar M. and Roshan Gallani (2018). Effect of biofertilizers on growth and flowering of tuberose (*Polianthes tuberosa* L.) under Malwa Plateau of M.P. Abst. National Conference on Ornamental Horticulture to Uplift Rural Economy (11-13 January, 2019) at RCA, MPUAT, Udaipur (Raj.).
17. Asha Rokade, Vidhya Sankar M. and Kumar Anuj (2018). Response of in French marigold cv. Pusa Arpita to Biofertilizers. Abst. National Conference on Ornamental Horticulture to Uplift Rural Economy (11-13 January, 2019) at RCA, MPUAT, Udaipur (Raj.) p. 89
18. Bhandari, J and Kanpure, R.N. 2019 Effect of INM on growth, yield and quality of Acid lime (*Citrus aurantifolia* Swingle). National seminar on technological advancement in horticulture for 21st century during 18-19 February 2019 at College of Horticulture and Forestry, Jhalawar (Raj.) pp 285.
19. Nargave Krishnkant, Sharma R.K., Kushwah S.S. and Singh O.P. (2018) Effect of varieties and fertility levels on growth,yield and quality of radish(*Raphanus sativus* L.) Under Malwa region of Madhya Pradesh.National conference on Innovative technological interventions for doubling farmer’s income held from February 08-

- 10,2018 organized by Society for integrated development of agriculture, veterinary and ecological sciences at Sher-e-Kashmir university of agricultural sciences and technology of Jammu(J&K)
20. Kumrawat D., Kanpure R.N., Singh O.P., Bhandari J, and Kachouli B. (2018) Effect of integrated nutrient management on quality and yield parameters of guava (*Psidium Guajava L.*) CV,1-49. International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2018) during 28-30 October 2018 at Rajasthan Agricultural Research Institute, Durgapura, Jaipur, Rajasthan
 21. Chouhan G.S., Kushwah S.S., Singh O.P. and Sharma R.K. (2018) Genetic variability, Heritability and Genetic advance for yield and yield attributing traits in Bottle gourd [*lagenaria siceraria* (Mol.) Standl.] National conference on arid horticulture for enhancing productivity & economic empowerment organized by Indian Society for arid horticulture from 27-29 October 2018 at ICAR-Central Institute for Arid Horticulture, Bikaner
 22. Veerbhadreswar, Kushwah S.S., Sharma R.K., and Singh O.P. (2018) Studies on genetic variability, Heritability and Genetic advance for growth, yield and quality traits in bush type Indian bean. National conference on arid horticulture for enhancing productivity & economic empowerment organized by Indian Society for arid horticulture from 27-29 October 2018 at ICAR-Central Institute for Arid Horticulture, Bikaner
 23. Halder, A., Meena KC, Patidar, D.K., and Soni, N. (2018). Miricle Plant Fenugreek: A review, on the occasion of 2nd International Conference on Advances in Agricultural, Biological and Applied Sciences for Sustainable Future (ABAS 2018) during 20-22 October, 2018 at Sardar Patel Auditorium Swami Viviaakanand Subharti University, Meerut, Uttar Pradesh, India. Published by Shri Gyan Sagar Publications, Indra Nagar I, Meerut, (ISBN: 978-81-937106-7-8)
 24. Soni Nitin, Meena Kilash Chandra , Halder Ajay, Patidar Dharmendra K., Tiwari Rajesh and Patil Prakash (2018) *Valuation Of Different Colored Varieties Grapes Under Nontraditional Area Malwa Plateau : A Thin Line Tool For Doubling The Farmer Income* 8th Indian Horticulture Congress-2018 to January 17-21, 2019 at IGKV, Raipur(CG) :595
 25. Soni Nitin, Pandey S.K., Singh S.S., Meena Kilash Chandra , Halder Ajay and Patidar Dharmendra K. (2018) *Influence of growing media and Indole Butyric Acid on clonal propagation through stem cutting in Guava (Psidium guajava L.) Allhabad Safeda* 8th Indian Horticulture Congress-2018 to January 17-21, 2019 at IGKV, Raipur(CG) :596
 26. Halder, A., Meena KC, Patidar, D.K., and Soni, N. (2018). Miricle Plant Fenugreek: A review, on the occasion of 2nd International Conference on Advances in Agricultural, Biological and Applied Sciences for Sustainable Future (ABAS 2018) during 20-22 October, 2018 at Sardar Patel Auditorium Swami Viviaakanand Subharti University, Meerut, Uttar Pradesh, India. Published by Shri Gyan Sagar Publications, Indra Nagar I, Meerut, (ISBN: 978-81-937106-7-8)

1. Abstract published in various conference/souvenir:

S. No	Author (s)	Title	Conference Proceedings	Page No.	Year	National / International
1	Sasode D.S, Gupta Varsha, Kasana B.S, Joshi Ekta, Singh Y.K. and Bhadauria V.P.S.	Management of <i>Cuscuta reflexa</i> by different herbicides and its impact on yield of berseem (<i>Trifolium alexandrinum</i> L.) fodder crop.	ISWS Biennial Conference, 5-7 Feb. 2020 at ICAR- Central Coastal Agricultural Research Institute, Old Goa		2020	
2	Sasode D.S, Joshi Ekta, Gupta Varsha	Weed flora dynamics, growth and yield response of mustard (<i>Brassica juncea</i> L.) under conservation. Tillage and weed management practices	National Conference on Resource for soil Security and Jalshakti ; February 3-5, 2020 at ICAR-IISWC Research Centre, Datia (M.P.)		2020	
3	Gupta Varsha, Sasode Deep Singh, Joshi Ekta, Kasana B.S., Singh Y.K. and Bhaduarua V.P.S.	Weed management in sweet corn in maize based non-chemical cropping system.	ISWS Biennial Conference, 5-7 Feb. 2020 at ICAR- Central Coastal Agricultural Research Institute, Old Goa		2020	
4	Rawat, G.S., Sharma, Janmejay and Sasode Rajni	Seed Yield of clusterbean of as influenced by tillage and nutrient management	National Seminar on Strategies for Soil Health Management		2019	

		practices.	Achievements & Researchable Issues March, 02-03, 2019.			
5	Sharma, Janmejay, Tomar, S.S., Singh Ajay	Effect of weed control and nutrient management practices on NPK uptake by weed and crop in wheat.	National Seminar on Strategies for Soil Helth Management Achievements & Researchable Issues March,02-03, 2019.		2019	
6	Bharat lal, Bhaduarua n.s., Tomar s.p.s. and devendra vishvkarma	Seasonal incidence of sucking insect pests in brinjal and their natural in gird region of Madhya Pradesh, India.	GIASE- 2019	260	2019	International
7	Dr. Shashi S. Yadav, Dr. Priyadarshani A. Khambalkar and Dr. S. K. Trivedi	Improve the livelihood of farmers of Madhya Pradesh via good quality fodder production	Symposium on “Physiological approaches to address environmenta l challenges for increasing animal productivity and farmer`s income” (18-19 February, 2020	136	2019	National
8	Jaya Rathore	Genetic Manipulation through induced mutation for high praline and high gum content	MPCST, 34th MP. Young Scientist Congress, Bhopal	09	2019	National
9	SushmaTiwar i	Morpho-physiological and molecular Assessment for foliar disease and oleic acid content using gene based SSR markers in groundnut	Plant Genomics	41	2019,June 13-14, 2019	International at Berlin Germany

		(<i>Arachishypogea</i> L.)				
10	Sushma Tiwari , R S Tomar and M K Tripathi	Characterization and development of superior minor millets varieties for climate resilient adaptation	global conference on our biodiversity, our food and our health	Page 278	21 and 22 May 2019.	National botanical survey of India, Prayagraj (UP) during
11	Madhurjit Singh Rathore, Sushma Tiwari , M K Tripathi, Neha Gupta, S K Pooniya, Sunil Yadav and R S Sikarwar	Screening of groundnut genotype for early leaf spots and correlation with chlorophyll content	Recent Advances in Biotechnology and Nano biotechnology (Bionano-2020)	Page 26	25 th February 2020	National Conference held at Amity University, Gwalior.
12	Mohan Lal Choudhary, M K Tripathi, Sushma Tiwari	Screening of Blast Disease in Pearl Millet (<i>Pennisetum glaucum</i> L.)	Recent Advances in Biotechnology and Nano biotechnology (Bionano-2020)	Page 27	25 th February 2020	National Conference held at Gwalior.
13	Sajjan Kumar Pooniya, Sunil Yadav, Madhurjeet Singh Rathore, M K Tripathi, R S Sikarwar and Sushma Tiwari	Screening of Groundnut Germplasm for Early Leaf Spot Disease under Kharif field conditions	Recent Advances in Biotechnology and Nano biotechnology (Bionano-2020)	Page 31	25 th February 2020	National Conference held at Gwalior.
14	Sunil Yadav, Sushma Tiwari , Neha Gupta, M K Tripathi, S K Pooniya, Madhurjit Singh Rathore and R S Sikarwar.	Biochemical estimations of groundnut germplasms for sugar, chlorophyll and carotenoid content	Recent Advances in Biotechnology and Nano biotechnology (Bionano-2020)	Page 33	25 th February 2020	National Conference held at Gwalior.

15	Shivani Rana, Neha Gupta, M K Tripathi and Sushma Tiwari	Biochemical analysis of different Millet varieties for nutritional improvement	Recent Advances in Biotechnology and Nano biotechnology (Bionano- 2020)	Page 33	25 th February 2020	National Conference held at, Gwalior.
16	Kirad, K.S.,Barche, S and Gathiye,G.	Doubling the farmer's income byadopting the suitable tomato- cucurbit polyculture on the raised bed with drip system in the tribal dominating areas under Dhar district of Madhya Pradesh	22 nd Agricultural Scientists & Farmers Congress (22- 23 Feb,2020) on PHT and Management for Empowering the Rural Society and Employment Generation published in organized by Bioved Res. Institute of Agric. Tech & Sci. Prayagraj, U.P	-	2020	National
17	Gupta, A., Upadhyay, D and Barche,S	Standardization ofrecipe and preparation of mixed vegetable pickle	, published in 22 nd Agricultural Scientists & Farmers Congress (22- 23 Feb,2020) on PHT and Management for Empowering the Rural Society and Employment Generation 22- 23 Feb,2020 Souvenir & Abstracts	29	2020	National

18	Gour, S., Patel, S and Barche, S	Standardization of different ingredients in spinach juice recipe	SAME	98	2020	National
19	Jitendra Patidar	Effect of early-post-emergence herbicides against weeds in soybean in Madhya Pradesh.	35 th M. P. Young Scientist Congress. Souvenir	5	2020	National
20	Jitendra Patidar, M.L. Kewat and Shobha Sondhia	Residue concentration, persistence and dissipation of fomesafen in soybean crop and soil.	Indian Society of Weed Science Biennial Conference on "Weed Management for Enhancing Farmers' Income and Food Security". Proceedings	97	2020	National
21	Kunika Silodiya and Jitendra Patidar	Mitigation and management of herbicide residue in soil – A review	Indian Society of Weed Science Biennial Conference on "Weed Management for Enhancing Farmers' Income and Food Security". Proceedings	265	2020	National
22	M.P. Sahu, M.L. Kewat, J.K. Sharma, A.K. Jha, Jitendra Patidar and L. Badole	Effect of weed control practices and crop mulch against weeds in chickpea.	Indian Society of Weed Science Biennial Conference on "Weed Management for Enhancing Farmers' Income and Food Security". Proceedings	185	2020	National

23. Singh S. B. and Patel R. P. 2019. Management of chilli insect pests by using different doses of Emamectin Benzoate 3.7% + Difenthiuron 46.3% WP. International conference

- on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2019) during 20-22 October, 2019 at ICAR-National Academy Of Agricultural Research Management, Hyderabad, Telangana (India).
24. Patel R. P; Singh S. B; Kanpure, R. N. and Patidar, B. K. 2019. Effect of abiotic factors on occurrence of fruit rot disease on ambehahar guava (*Psidium guajava* L) caused by *Phytophthora nicotianae* Var *Parasitica* (Dastur) Waterhouse. International conference on *Global Research Initiatives for Sustainable Agriculture & Allied Sciences* (GRISAAS-2019) during 20-22 October, 2019 at ICAR-National Academy Of Agricultural Research Management, Hyderabad, Telangana (India).
25. Kanpure, R. N; Patel R. P; Singh O. P; Bhandari, J; Kacholi, B; and Patidar, D. K. 2019. Influence of foliar nutrition of Urea, Borex and Zinc Sulphate on growth yield and quality of guava (*Psidium guajava* L) CV. Rewa-72. International conference on *Global Research Initiatives for Sustainable Agriculture & Allied Sciences* (GRISAAS-2019) during 20-22 October, 2019 at ICAR-National Academy Of Agricultural Research Management, Hyderabad, Telangana (India).
26. Kushwah, L.; Sharma, R.K.; Kushwah, S.S. and Singh, O.P. (2019). Influence of organic manures, inorganic fertilizers and their combinations on growth and yield of radish (*Raphanussativus* L.). Abstract in National seminar on doubling income through sustainable and holistic agriculture (DISHA) held at YSP Uni. of Hort. and Forestry, Solan (HP) INDIA from 05-07 June, 2019.
27. Priyamvada Sonkar, Shailendra K. Dwivedi and Raju Dohre. 2019. Impact of post-harvest treatments on shelf life and quality of guava (*Psidium guajava* L.) cv. Allahabad Safeda. GUIDELINES FOR RVSKVV BEST TEACHER AWARD

1. Name of the Award

RVSKVV, Best Teacher Award.

2. Sponsor

RVSKVV, Gwalior

3. Objectives of the Award

- (i) To recognize outstanding teaching in agriculture education
- (ii) To provide incentives to teachers for excellence in agriculture education.

4. Nature of the Award

The award is proposed exclusively for teacher in recognition of his outstanding teaching contribution / innovation in agriculture sciences and allied sector. The awards are meant for individual teacher independently offering a full course or part of an integrated course. An individual award will promote innovation in teaching across the country.

5. Frequency: Every year

6. Eligibility Criteria:

All teachers are eligible provided they take on an annual average of at least 96 lectures in University (including practical) at undergraduate/post-graduate teaching while an independent teaching experience for a minimum of five academic years in the particular subject area. The awards are primarily meant for individual teachers independently teaching a course or part of an integrated course. The teaching work submitted for the award must have been done during the five years preceding the year of the award.

The person against whom any disciplinary/punitive action has been awarded by the competent authority of the V.V. or by any court of law during the preceding five year of the award shall not be eligible for the award.

7. Administration of the Award:

The award will be administered by the University. There will be a Judging Committee consisting of 3 or 5 eminent agricultural educationists including the Chairman including provision to appoint an expert. All the members and the chairperson will be nominated by the Hon'ble Vice Chancellor of the University. The Judging Committee will evaluate the nominations, identify outstanding teachers in various subject areas and make recommendations to the University. If no outstanding entries have been identified, no award will be given in the particular subject area.

8. Evaluation Criteria:

The focus will be on ability to teach and integrate, efforts made in using new education technology tools, support and guidance provided to students, and over all following efforts made in institutional education improvement:

- Design and development of instructional programme.
- Design and development of individual courses to meet specified learning objectives and to develop specific competencies
- Design, development and use of quality/advanced instructional materials required for effective teaching
- Duration of teaching and lectures taken annually (For the last 5 years)
- Development and use of appropriate and efficient teaching techniques
- Rating by students who have completed the UG/PG/Ph.D. Degree programmes.
- Mentoring of students.
- Performance of the students in examination specifically competitive exams.
- Quality of research as judged by national award like Jawaharlal Nehru Award, etc.
- Quality of papers published in National and International journals out of thesis under guidance.
- Award won by faculty.
- Communication skills and interest in participation in various co-curricular activities including games and sports.
- Discipline and punctuality.
- Participation in seminars of students.
- Efforts made for practical skill transfer to students at advanced level.

9. **Procedure:** Applications for the award will be invited during **September/October** of the year of the award. Applications made in the prescribed form, obtainable from the College Dean, will be accepted up to the **end of November /December** of the year of the award. The University Judging Committee will evaluate the nominations, identify best entries, and make recommendations to the University along with the draft citations. If no outstanding entries have been identified, no award will be given in the concerned subject areas.

APPLICATION FORM FOR RVSKVV BEST TEACHER AWARD

- 1. Name of teacher for assessment.....
2. Date and place of birth.....
3. Designation.....
4. Place of Posting.....
5. Department
6. Postal address & Bank A/c No with MICR & IFC code.....
7. Telephone, Telex, Fax, etc.....
8. Year of assessment.....
9. Educational qualifications:

Table with 6 columns: Name of the Degree, Name of the University or other examining body, Percentage of marks/OCGA obtained, Division obtained, Year of passing, Subject (s) (Major)

10. Employment record:

Table with 6 columns: Name of post, Organization, Pay scale, Period (From, To), Total Duration, Remarks if any

11. Marks distribution to the activities for best teacher award:

Step-I: Nomination of one teacher by student/Dean Faculty of Agriculture / Director Instructions):

Table with 5 columns: S. No., Criteria, Maximum Marks, Marks given, Remarks. Includes criteria like 'Commitment to excellence in Teaching' and a 'Total' row.

Step-II: Evaluation of teacher by the committee (To be filled by the Screening Committee):

S. No.	Criteria	Maximum Marks	Marks given	Remarks
STEP II	Teachers, who have been nominated by the students, are now evaluated on basis of their professional achievements and professional recognition (60 Marks)			
A	Professional achievement (Teaching/Research/Extension Experience)			
	◆ Teaching Experience (Years) and lectures taken annually (For the last 5 years)	05		
	◆ P.G. Thesis guidance as major Guide	03		
	◆ Publication of Practical Manuals	02		
	◆ Publication of Book/Chapter (IBBN/ISSN)	02		
	◆ Publication of research articles (NAAS rated)	03		
	◆ Research projects handled as principal Investigator (External funding project exceeding Rs. 10 lakhs)	03		
	◆ Professional experience in Farm and Extension Activities	02		
	◆ Design and development of instructional programme	03		
	◆ Design and development of individual courses to meet specified learning objectives and to impart specific competencies	03		
	◆ Design, development and use of quality instructional materials required for effective teaching	04		
	◆ Development and use of appropriate and efficient teaching techniques	03		
	◆ Communication skills and interest in participation in various co-curricular activities including games and sports.	02		
	◆ Discipline and punctuality	02		
	◆ Participation in seminars of students	02		
	◆ Efforts made for practical skill transfer to students	02		
B	Professional Recognition			
	◆ Awards/Honors/Resource person	-		
	(i) National	03		
	(ii) State level	02		
	◆ Conference Organized/Conference Attended	02		
	◆ Innovations/ Resource material developed	02		
	◆ Institutional building	05		
	◆ Any other information in support of outstanding contribution if not covered earlier/above	05		
	Total	60		

Step-III: Extempore Presentation by the teacher:

Step III	Selection of Teachers (Minimum 60 percent mark scored in step I & II for further screening to select Teachers for presentation) at V.V. head Quarter (Evaluation by screening committee)/faculty members of that particular field.			
	Criteria	Maximum Marks	Marks given	Remarks
	(A) Extempore Presentation (Subject/Discipline)	10		
	(B) Extempore Presentation (General Topics)	10		
	Total	20		

FINAL SUMMARY SHEET

S. No.	Criteria	Maximum Marks	Marks given	Remarks
Step I	Nomination of one teacher by each student of respective class 1 st , 2 nd , 3 rd & 4 th and M.Sc., Ph.D.	20		
Step II	Teachers, who have been nominated by the students, are now evaluated on basis of their professional achievements and professional recognition (To be filled by the Screening Committee)	60		
Step III	Selection of Teachers (Minimum 60 percent mark scored in step I & II for further screening to select Teachers for presentation) at V.V. head Quarter (Evaluation by screening committee)/ faculty members of that particular field.	20

6.6.5.4. Capacity Building and Training:

As a component of capacity building, training & exposure visits have assumed greater significance in recent times. Training of agricultural education and extension professionals has emerged as an important intervention to improve their competencies, Capacity building and increase in productivity with a purpose to accelerate the rate of agricultural development.

Objectives:

- To enhance the performance level of various actors involved in Extension setup for better management of Agricultural Technology System.
- To adopt new technologies for increasing crop production and productivity.
- To share their experience with other farmers regarding technology adoption.

Specific Objectives:

- To improve the techno- managerial skills of the extension professionals.
- To improve knowledge, attitude and practice of extension professionals on the management skills like planning, communication, motivation, leadership, time management etc.
- To enable the extension functionaries for effective and efficient dissemination of technology to the farming community.
- To redefine the role and responsibilities of the Agriculture Extension Machinery by suitably up-scaling the up-to-date technical knowhow of the field extension set up
- To enhance the sustainable net income of the farmer by taking all the enterprises on the farm into consideration, integrating them and treating the whole farm as one unit.

**6.6.6. STUDENT DEVELOPMENT****6.6.6.1. Scholarships/Stipend:**

S. No.	PARTICULARS	2015-16	2016-17	2017-18	2018-19	2019-20

	Scholarship of Gaon Ki Beti Yojna	3	2	2	-	1

6.6.6.2. Extra and Co-curricular Activities:

Colleges, within the universities are important community organizations. The strength of any organization lies in its students. The RVSKVV is a dynamic institution with its five colleges spread across Madhya Pradesh. This office provides a meaningful forum to the younger generation with thrusts for new challenges and aspires to scale new heights. The Students Welfare section of the University carries the responsibility of overall personality development of students through extracurricular activities like sports, games, literary competitions, cultural activities, NCC etc. The office also provides information and counseling on job opportunities for their career development.

Tutorial Cell

The faculty members of the university take extra classes regularly and guide students for JRF, SRF and NET examination of ICAR and several other competitions. Each department has developed model question bank to help the students in this direction. In addition to above said the students are also subjected to:

- i. Training on Skill Improvement
- ii. Training on personality development communication skill
- iii. Mock-interviews-group discussions
- iv. Interview-specific trainings
- v. Job-Oriented trainings

Student's World**Awards & Honours**

- Shri Madhurjit Singh, Ku. Natarajan Arathi, Ku. Yashaswini Gargav & Ku. Shrishtika Rajpoot student from College of Agriculture, Gwalior under R.V.S. Krishi Vishwa Vidyalaya participated in the National level Business Plan Competition Organized by

RAJMATA VIJAYARAJE SCINDIA KRISHI VISHWA VIDYALAYA, GWALIOR (M.P.)

IIM, Bangalore on August 11, 2019 and secured **Second position** in competition & received Rs. 15000 as reward price.

- Inter University Debate Competition on **“The present education system of the country is fully capable of generating employability skills among the youth”** was held at G.B. Pant University of Agriculture & Technology, Pantnagar (Uttarakhand) from 22 to 23 February, 2020. The Vishwavidyalaya Team participated in the competition. Mr. Shivansh won the “Best Content” award in this National level competition and won laurels for the Vishwa Vidyalaya at National level.

INSPIRE FELLOWSHIP

- ❖ Ku. Neelam Singh, Ph.D. student in Dept. of the Agronomy was awarded the **“Innovation in Science Pursuit for Inspired Research (INSPIRE) Fellowship”** during July 2019.

UGC FELLOWSHIP

- ❖ Mr. Roop Singh Dangi, Ph.D. student of the Dept. of Agronomy, Mr. Vikas Mandloi, Ph.D. student in Dept. of Horticulture, Mr. Pramod Kumar Yadav, Ph.D. student in Dept. of the Dept. of Plant Breeding & Genetics were awarded **UGC “National Fellowship”** for the selection year 2018-19.

All India Competitive Examinations

S. No.	Name of Exam	Years				Total

1.	NET (ICAR/UGC)	39	18	05+01	20	83
2.	ARS (Pre.)	04	-	-	-	04
3.	M.P.P.S.C (Pre.)	10	04	-	-	14
4.	Entrance Exam JNU/BHU/ Others	05	-	08	-	13

6.6.6.3. Health Facilities: The colleges provide health care facility to the students by providing First-Aid and other basic facilities and when required a separate room is earmarked. Doctors are available on call whenever the need arises. Medical facility is also extended to the physical education department of the college at the time of matches like volleyball, cricket, table tennis etc.

Furthermore at the time of college outings first-aid facility is made available to the students. College health-service programs provide low-cost, primary medical care for the students on college campuses. Just as modern medicine has changed, so too has the scope of services provided by college health centers. Medical developments are allowed for most injuries and illnesses to be treated by ambulatory clinics, and this same trend is seen in most college health centers. These centers often provide care for acute illnesses and injuries on an outpatient basis, while also meeting the needs of students with continued and chronic illnesses and providing wellness education to the campus community.

Staffing: College health-service staffs vary widely in the range and level of services they provide. Once directed mainly by full-time medical doctors, most college health centers are now lead by Licensed Nurse Practitioners (LPNs), Registered Nurses (RNs) or Physician Assistants (PAs). Some health centers continue to have full-time physicians on staff (particularly at larger universities and institutions with medical centers), while others maintain part-time relationships with local doctors to staff particular hours each week. Health centers with less comprehensive services (usually at smaller, private colleges) often act as a link to services in the immediate community.

Services: The most common, and a primary focus of college health-service programs, is that of intervention and health, or wellness, education. Although all student health centers concern themselves with the immediate healing of ill students, most will also work to educate students about approaches to healthier lifestyles in order to prevent future illness or injury. Wellness themes exhibited on many college campuses are health and nutrition, stress management, eating disorder awareness, smoking cessation and prevention, time management, alcohol abuse prevention, strategies to avoid depression, and issues around sexually transmitted diseases and their prevention. Some colleges maintain twenty-four-hour care for students; however, most colleges maintain regular weekly hours during the academic year with a system for emergency assistance when needed.

Payment: Many college health centers are funded through fees students pay to the college or university and subsidized with institutional resources. Sometimes these fees are included within the tuition charges of a college or university, while other institutions may charge a separate student health fee in addition to the college tuition. Prepayment for student health services ensures that students have access to the treatment and services needed while at school. At many colleges, basic and most common services are offered to full-time students at little or no charge.

Accidental-Insurance

All the students of the university are covered under the personal accident insurance scheme, which has been sponsored by the New India Assurance Company Ltd. The students have been insured for a sum of Rs. 1 lac each.

6.6.6.4. Sports and Cultural Facilities:

- RVSKVV organized three days Inter Collegiate games Badminton/Table Tennis/Carrom/Volleyball and Kho-Kho competition during December 12-14, 2019 at College of Agriculture, Khandwa.

- The University organized three days Inter Collegiate games Kabbadi and Athletics competition during January 15-17, 2020 at College of Agriculture, Gwalior.

- A Youth festival and cultural competition programmes was organized at College of Agriculture, Gwalior during January 09-11, 2020. The students of College of Agriculture, Gwalior received Music, Theatre, Dance and “Sahitya Shiromani Award”. The students of College of Agriculture, Indore received “Latit Kala Shiromani Award”. The students of College of Agriculture, Gwalior received “Over all Best Performance Award”.

Participation of the students in National Events

Games & sports: Inter collegiate sports/cultural meets have served to link together the five colleges of the university paving the way for participation at national level. The students have participated in **Eleven** inter university **agriunisports** and **Ten youth festivals** during 2008 to 2020. The performance of the students in various sports and cultural meets has been admired.

AGRIUNISPORTS

- Forty-Three Students (30 boys and 13 girls) of RVSKVV, Gwalior participated in XIX All India Inter Agricultural University Sports and Games meet “AGRIUNISPORTS 2019” organized at Punjab Agricultural University, Ludhiana from 02 to 05 January, 2019 and their performance was lauded by all and sundry.

Inaugural function of XIX All India Inter Agricultural University Sports and Games Meet at Punjab Agricultural University, Ludhiana

- Forty Students (28 boys and 12 girls) of RVSKVV, Gwalior participated in XX All India Inter Agricultural University Sports and Games meet “AGRIUNISPORTS 2020” organized at Sri Venkateswara Veterinary University, Tirupati (A.P.) during 01st to 05th March, 2020 and received **Gold Medal in High Jump**.

Inaugural function of XX All India Inter Agricultural University Sports and Games Meet at Sri Venkateswara Veterinary University, Tirupati (A.P.)

AGRIUNIFEST

- 19th All India Inter Agricultural University Youth Festival was organized by Sardarkrushinagar Dantiwada Agricultural University, Sardarkrushinagar, Dist: Banaskantha, Gujarat during 03rd to 07th February, 2019. Students (22) of this university actively participated in the events.

The opening and closing ceremony of 19th All India Inter Agricultural University Youth Festival at Sardarkrushinagar Dantiwada Agricultural University, Sardarkrushinagar

- Twenty-Two Students (08 boys and 14 girls) of RVSKVV, Gwalior participated in 20th All India Inter Agricultural University Youth Festival organized at Indira Gandhi Krishi Vishwa Vidyalaya, Raipur (Chhattisgarh) during 08 to 12 February, 2020 and received **Silver Medal** in Patriotic Song (Indian) and **Fourth Position** in Clay Modeling & Cartooning competitions.

The opening and closing ceremony of 20th All India Inter Agricultural University Youth Festival at Indira Gandhi Krishi Vishwa vidyalaya, Raipur (Chhattisgarh)

6.6.6.5. Student counseling and Placement Cell:

The Placement Cell organizes campus interviews and seminars for career advancement. The university produces highly skilled, competent and qualified human resource every year.

Academic year 2008 onwards, different institutions, e.g., nationalized banks, government departments, cooperatives, NGOs, corporate sector, agro-based MNCs etc have selected our students **(over 2214 in number)** who were pursuing their graduate degree and post-graduate degree in different subjects. Year wise list of placed students in given below:

- ❖ 133 students have been placed in 2015-16
- ❖ 216 students have been placed in 2016-17
- ❖ 180 students have been placed in 2017-18
- ❖ 161 students have been placed in 2018-19
- ❖ 106 students have been placed in 2019-20

Glimpses of Placement Activities

Campus interview being conducted for the placement of students

6.6.6.6. Disabled Friendly Facilities: Admission of differently abled person in various courses providing educational diversity.

- Provide special skill development programmes
- Provide guidance and counseling to differently abled persons
- Taking care of general issues concerning their learning
- Assist to gain successful employment in the public as well as private sectors

Facilities include:

- Easy access to classrooms by providing ramps, rails and lifts
- Special care facility like wheel chairs, ambulance.
- Disabled friendly washrooms
- Enquiry and information human assistance, reader, Scribes
- Assistive facilities like signposts.
- Scholarship for disabled students.

6.6.7. INFRASTRUCTURE

6.6.7.1. Physical facilities including administrative building and lands:

6.6.7.2. IT Infrastructure:

University ARIS Cell :

The University has well established Agricultural Research Information SYSTEM (aris), in all the constituents colleges by ICAR. At present the ARIS cell is interconnected all the departments in the constituents colleges.

All the Research Stations, Colleges located in different places of Madhya Pradesh and KVKs are also well connected with headquarters.

An independent ARIS Cell was established in the college for computer work for students as well as faults one member.

The colleges have well equipped laboratories, libraries, instructional farms, ARIS cells linked with global information system, class-room facilities and qualified faculty.

Wi-Fi/internet facilities:

Modern teaching aids like computer, LCD Projectors and internet facilities are available for the students .

Workshops Organized :

University in collaboration with Department of Agro-meteorology, Ministry of Earth Sciences, Government of India had organized 13th Annual Review Meeting of Gramin Krishi Mausam Sewa (GKMS) during December 18-20, 2019. Director General of IMD Dr. M. Mohapatra inaugurated the workshop in the chairmanship of Hon'ble Vice Chancellor Prof. S.K. Rao. More than 330 delegates from all the Indian states participated and presented their report in several technical sessions. The emerging issues of climate change and challenges for agro-advisories in the future were discussed through panel discussion and invited lead papers from renowned experts in the field.

The annual programme of 130 campuses under GKMS was reviewed in the meeting besides presentations of Dr. K.K. Singh and Dr. Manish Bhan in the house for effective uploading of meteorological information for timely issues of weather based advisories to the farmers in their respective areas. A one day training programme for the scientists and technical staff of District Agro Meteorological Unit (DAMU) was also organized on 21st December, 2019.

6.6.7.3. Students and Staff Amenities:

SPORTS & OTHER CURRICULAR ACTIVITIES:

- The student get ample opportunity to participate in various co-curricular and extracurricular activities for better personality development, through Inter collegiate and Inter university games sports and cultural meet.

- Travel Facilities : To facilitate, travelling by students going to their homes during the semester break and to undertake study tours in different parts of India, railway concession orders are arranged for them.
- Celebration of National Festival: Independence Day, Republic Day etc. are celebrated in a befitting manner.
- Picnic and Hiking: A few picnics to the place of scenic beauty away from the campus are arranged as and when desired and feasible.

FACULTY DEVELOPMENT:

- The quality education is the top most priority for which.
- It is necessary to improve the infrastructure and teaching capabilities of the faculty under HRD.
- The teachers, scientist and subject matter specialist of the university are allowed to obtain trainings from national and international institutions to update their knowledge.
- Faculty also participate in national and international seminars, symposia, conferences, workshops, group meetings, travelling workshops etc. in order to get acquainted with new technologies, innovative approaches and strengthen the linkages and coordination
- The colleges have well equipped laboratories, libraries, instructional farms, ARIS cells linked with global information system, class-room facilities and qualified faculty. Faculty also participate in national and international seminars, symposia, conferences, workshops, group meetings, travelling workshops etc. in order to get acquainted with new technologies, innovative approaches and strengthen the linkages and coordination
- The colleges have well equipped laboratories, libraries, instructional farms, ARIS cells linked with global information system, class-room facilities and qualified faculty.

TUTORIAL CELL:

- The faculty members of the university take regular extra classes for providing guidance to students for JRF, SRF and NET examination of ICAR and several other examinations.
- Each department has developed model question bank to help the students. In addition to the above, the students are also subjected to:
 1. Training on Skill Improvement
 2. Training on Personality development and communication skill
 3. Mock Interviews and Group discussions
 4. Interview specific trainings
 5. Job Oriented trainings

6.6.9. ACCOMPLISHMENTS

6.6.9.1. Awards for the University: The detailed list of Regional, National and International Awards received by the University in last five years:

AWARDS AND RECOGNITIONS

- **Participation in Kisan Mela 2016 at SKUAT-Jammu** A stall on new technologies was put up by University in Kisan Mela 2016 which is organized by SKUAT-Jammu during 18-19 March, 2016. University Stall got Second Prize among all stalls and First prize in Institutional categories.

- **FARMERS HONOURED**

Mr. Gangaram Baghel of Lahar and Mr. Narain Singh Batham from Gohad awarded 'Rajya Stariya Sarvotam Krishak Puraskar' along with Prize money 50,000/- (Fifty thousand) only to each farmer by Hon'ble Chief minister of M.P Shree Shivraj Singh Chauhan on May 25, 2015 for their better farming in crop production and vegetable production in the district Bind respectively.

- Workshop on Gender sensitization (Women Empowerment) was organized on March 11th, 2016 at CoA, Gwalior.
- Two days workshop on "Moving towards Climate Smart Agriculture in Madhya Pradesh: Technology, Policy and Farmers" at RVSKVV, Gwalior during April 17-18, 2015.
- Two day training on mushroom production technology was organized on August 13-14, 2015; September 21-22, 2015 and January 13-14, 2016.
- One day Mushroom training at KVK, Ujjain on January 18, 2016 (Pathology) was also organized.
- Organic Ameliorants for Soil Resilience and Environmental Securities 19-21 August, 2015. Organized by Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior.
- Global Ravine Conference on "Managing Ravines for Food and Livelihood Securities March 7-10, 2016 organized by RVSKVV, Gwalior (M.P.) India.
- National Conference on "Global Research Initiative for Sustainable Agriculture and Allied Sciences (GRISAAS-2015) jointly organized by Astha Foundation, Meerut and

RVSKVV, Gwalior at College of Agriculture, RVSKVV, Gwalior during December 12-13, 2015.

- Annual Group Meeting (Workshop) of Safflower organized on August 26-29, 2015 at College of Agriculture, Indore

AWARDS AND RECOGNITIONS FOR THE YEAR 2016-17

AWARDS AND RECOGNITION

- KVK, Dhar was conferred with the "**Best KVK of the Zone VII**" award on July 16, 2016 by Union State Minister for Agriculture Shri Purushottam Rupala. The award was given to Hon'ble Vice Chancellor Prof. A. K. Singh and KVK team.

- The Mandsoor centre awarded as **Best AICRP centre** at all India level for the year 2015-16 during annual Review workshop held at Dr. Y.S. Parmar University of Horticulture and Forestry, Solan Himachal Pradesh during September 28 to October 1, 2016.

- Dr. D.H. Ranade, College of Agriculture, Indore received **Best Research Article Award** in Journal of Agriculture research and technology volume 39(2014) at PDKV Akola on May 28, 2016.
- Dr. V K Tiwari, Scientist, Plant Breeding, ZARS, Morena has been awarded by **the "Certificate of Excellence" in the 4th Science and Technology Awards-16** for the recognition of his crop improvement work of rapeseed and mustard and soybean by the Research & Branding Review Committee at Education Expo-TV, Bangalore on June 12, 2016.
- **Reviewer Excellence Award** was awarded to Dr. S.S. Tomar as Reviewer of Indian Journal of Agricultural Research and Legume Research- An International Journal on Nov. 17, 2016. In recognition of significant and outstanding contribution to the journals for the last so many years.

- Dr. Swati Barche have conferred upon the award of Distinguished Faculty for contribution and achievement in the field of Fruit Science on July 9, 2016 by Venus International Foundation ISO-9001 Chennai, Tamil Nadu, India

FARMER AWARDS

- First Pandit Deen Dayal Upadhyay Antyoday Award to Shri Balaram Patidar, Petlavad, Jhabua on Sept. 15, 2016.

AWARDS AND RECOGNITIONS FOR THE YEAR 2017-18

AWARDS AND RECOGNITIONS

- Shri Radha Mohan Singh, Hon'ble Union Minister of Agriculture and Farmers Welfare, Govt. of India awarded Dr. I.S. Tomar, ADR, ZARS and Senior Scientist & Head of Krishi Vigyan Kendra, Jhabua and Dr. R.K. Yadav, Scientist with, **"Fakhruddin Ali Ahemad Award-2016"** in the gracious presence of Shri Sudarshan Bhagat, Hon'ble Union Minister of State, Agriculture and Farmers Welfare, Govt. of India and Prof. Trilochan Mohapatra, Hon'ble Secretary, DARE and DG, ICAR, New Delhi on the occasion of 89th Foundation Day of ICAR, New Delhi on **July 16, 2017**.

- Dr. S.C. Gupta, Principal Scientist (Soil Science), AICRP-Chickpea main centre Sehore has been conferred Indian Society of Pulses Research and Development (ISPRD) **recognition award for the year 2017** for his outstanding contribution in the field of NRM at ICAR-IIPR, Kanpur on Dec. 2, 2017.

- 33rd M.P. Young Science Congress of M.P. Council of Science & Technology was organized at Rani Durgawati University, Jabalpur during 15th-16th March, 2018, in which Smt. Pooja Singh, Assistant Professor, RVSKVV, RAK College of Agriculture Sehore has been awarded as the M.P. Young Scientist (1st prize) in the field of Agricultural Sciences.

OTHER AWARDS-

S. No.	Name of Person	Name of the Award	Awarding Organization

2	Dr Ekta Joshi	Best poster award	International conference on GRISAAS-2017 during 02-04 December 2017 held at MPUAT, Udaipur (Rajasthan)
3	Dr Ekta Joshi	Scientist of the year award	International Conference "GRISAAS" held at MPUAT, Udaipur during 2-4 December, 2017

RAJMATA VIJAYARAJE SCINDIA KRISHI VISHWA VIDYALAYA, GWALIOR (M.P.)

4	Dr. Deep Singh Sasode	Distinguished Scientist Award	All India Agricultural Student Association (AIASA) during 2nd National Agriculture Convention on “Agricultural Skill Development for Doubling Farmers Income” on 7th October, 2017 at RAJUVAS, Bikaner (Rajasthan).
5	Ekta Joshi, Deep Singh Sasode and Varsha Gupta	Best poster award	The National Forage Symposium 2017” at RVSKVV, Gwalior on March, 3-4, 2017

6. **R. K. Singh** received certificate of fellowship by Indian society of pulse research and development on Dec, 04, 2017.
7. **R. K. Singh** received best poster award in national symposium on challenges and opportunities management of plant disease under weather change and central zone meet of IPS held on Dec. 14-15, 2017 organized by JNKVV, Jabalpur and Indian Phyto pathological society, New Delhi.
8. **Dr. S.C. Gupta**, Principal Scientist received the ISPRD recognition award for outstanding contribution in pulses research under National Resource Management Category through IIPR (ICAR), Kanpur.
9. **Smt. Pooja Singh**, Assistant Professor, received the M.P. Young Scientist award (1st prize) 2018, in the field of Agricultural Sciences from M.P. Council of Science & Technology.

10. **Dr. P.P. Shastry, Dean, COA, Khandwa** was honoured with **“Professional Excellence Award”** for his outstanding contribution in Cotton research by the Hon’ble Governor of Meghalaya, Shree Ganga Prasad in an International Congress, organized by Cotton Research & Development Association, Hisar, at Barapani, Meghalaya on 20th February, 2018. Dr

- Dr Shastry has devoted 28 years in cotton research & development and also played an important role in the introduction of Bt Cotton in M.P.
11. Excellence in Extension Award to Dr D.K.Vani at International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2017) held at MPUAT, Udaipur (Raj.), 02-04 December. Organized by Astha Foundation, Meerut (U.P.)
12. Excellence in Extension Award to Dr Mukesh Gupta at International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-**RAJMATA VIJAYARAJE SCINDIA KRISHI VISHWA VIDYALAYA, GWALIOR (M.P.)**)

- 2017) held at MPUAT, Udaipur (Raj.), 02-04 December. Organized by Astha Foundation, Meerut (U.P.)
13. Young Scientist Award to S. K. Arsia at International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2017) held at MPUAT, Udaipur (Raj.), 02-04 December. Organized by Astha Foundation, Meerut (U.P.) and Society of Scientific Development in Agriculture and Technology, Meerut, U.P.
 14. Young Scientist Award to M.K. Kureel at International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2017) held at MPUAT, Udaipur (Raj.), 02-04 December. Organized by Astha Foundation, Meerut (U.P.) and Society of Scientific Development in Agriculture and Technology, Meerut, U.P.
 15. Scientist Associate Award to Dr Rashmi Shukla at International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2017) held at MPUAT, Udaipur (Raj.), 02-04 December. Organized by Astha Foundation, Meerut (U.P.)
 16. Young Scientist Award to Ashish Bobade at International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2017) held at MPUAT, Udaipur (Raj.), 02-04 December. Organized by Astha Foundation, Meerut (U.P.)
 17. Excellence in Teaching (English) Award to Dr. O.P. Sharma at International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2017) held at MPUAT, Udaipur (Raj.), 02-04 December. Organized by Astha Foundation, Meerut (U.P.) and Society of Scientific Development in Agriculture and Technology, Meerut, U.P.
 18. Young Scientist Award to Dr. Sourav Gupta at International Conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2017) held at MPUAT, Udaipur (Raj.), 02-04 December. Organized by Astha Foundation, Meerut (U.P.) and Society of Scientific Development in Agriculture and Technology, Meerut, U.P.
 19. Best Oral Presentation Award to Dr. Sourav Gupta at International conference on advances in agricultural and applied sciences for promoting food security, Kathmandu, Nepal, 13-15 May. Organized by SAID, Ranchi (Jharkhand)
 20. Best M.Sc. (Ag.) Entomology Thesis award to Dr. Shahin Khan during 02 to 04 December 2017 by SSDAT, Meerut on the occasion of International conference on Global research Initiatives for sustainable agriculture at Udaipur.
 21. Dr. R.K. Sharma received “Young Scientist Award” in the field of Vegetable Science by Astha Foundation on the occasion of International Conference on “Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS-2017)” during 2-4

- December, 2017 held at MPUAT, Udaipur (Raj.)
22. Dr. R.P. Ptel received excellent in teaching award on occasion of International conference on Global research initiatives for sustainable agriculture & allied science (GRISAAS-2017) DURING 02-04-December, 2017 held at Maharana Pratap University of Agriculture & Technology, Udaipur, Rajasthan (India)
 23. Dr. K.C. Meena received Young Scientist award 2017 on the occasion of International Conference on Advances in Agricultural and Biodiversity Conservation for sustainable development (ABCD-2017) during 27-28 October, 2017 at C.C.S University, Meerut, Uttar Pradesh, India.
 24. Dr. K.C. Meena received Young Scientist award 2017 on the occasion of International Conference on Advances in Agricultural and Biodiversity Conservation for sustainable development (ABCD-2017) during 27-28 October, 2017 at C.C.S University, Meerut, Uttar Pradesh, India.
 25. Second best poster award- Damar, Usha; Sharma, R. K.; Kushwah, S. S. and Singh, O. P (2017). Effect of varieties, organic manures and inorganic fertilizers on growth, yield and quality of okra (*Abelmoschus esculentus* L.). Abstract in international conference on “Global research initiatives for sustainable agriculture & allied sciences (GRISAAS-2017)” held from 02–04 December 2017 at MPUAT, Udaipur, Rajasthan by Astha Foundation, Meerut (Uttar Pradesh) India.
 26. Dr. Anuj Kumar received 2nd prize in poster presentation at GRISAS, 2017 by Astha Foundation, Meerut on 02 to 04 Dec, 2017. at MPUAT, Udaipur (Raj)
 27. Dr. Roshan Gallani received the best poster presentation award titled “Effect of varieties and nutrient levels on growth, yield, quality and nutrient uptake of cauliflower (*Brassica oleracea* var. botrytis L.) at Malwa region of M.P.” at International seminar on “Global research initiatives for sustainable agriculture and allied science” held at MPUAT, Udaipur during December, 02-04, 2017.
 28. Dr. K.C. Meena received Best Poster presentation Award 2017 in an International conference on global research initiatives for sustainable agriculture & allied sciences (GRISAAS-2017) during 02-04 December 2017 at Maharana Pratap University of Agriculture & Technology, Udaipur, Rajasthan.
 29. Er. Rajesh Gupta, Scientist, KVK, Mandasaur received “Distinguished Scientist Award 2017” from Green Reap Welfare Society at Indian Institute of Rice Research (IIRR), Rajendranagar, Hyderabad.
 30. Er. Rajesh Gupta, Scientist, KVK, Mandasaur received KVK Scientist Award 2018 from Samagra Vikas Welfare Society at Babasaheb Bhimrao Ambedkar University, Lucknow (U.P.).

AWARDS AND RECOGNITIONS FOR THE YEAR 2018-19

University Ranking:

ICAR Ranking: University is ranked Number 10 amongst Agricultural Universities.

India Today Ranking:

University is ranked Number 26 amongst Indian Universities and ranked Number 02 amongst Agriculture Universities.

- Dr. I.S. Tomar, Principal Scientist and Head, Krishi Vigyan Kendra, Jhabua conferred with Swami Sahajanand Saraswati Award-2017 on the occasion of Foundation Day of ICAR at New Delhi on July 16, 2018.

College of Agriculture, Gwalior:

S. No.	Name of person	Name of the Award	Awarding Organization
1	Dr. P.D. Singh	Certificate of Appreciation conferred in the Inter-Collegiate Cultural Meet “Anugoonj”	College of Agriculture, Gwalior (M.P.)
2	Dr. R. Lekhi	Best Poster Presentation	Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior, Madhya Pradesh
3	Dr. R. Lekhi	Best Poster Presentation	Department of Horticulture Jawaharlal Nehru Krishi Vishwa Vidyalaya, Jabalpur, Madhya Pradesh
4	Dr. R. Lekhi	Krishi Vigyan Gaurav	Bhartiya Krishi Anusandhan Patrika

KNK, College of Horticulture, Mandasaur:

- Dr. Vidhya Sankar, received Bharat Ratna Indira Gandhi Gold Medal Award By Global Economic Progress And Research Association (GEPRA), NEW DELHI on the occasion of 62nd National Unity Conference on “National Economic Growth through Individual Contribution” on 9th March 2019 at Bangalore.
- Dr. S.B. Singh received Excellence in Research Award for outstanding contribution in the field of entomology on the occasion of International Conference on Global Research Initiatives for Sustainable Agriculture and Allied sciences (**GRISAAS-2018**) at RAU, Durgapura, Jaipur, from 28-30, October, 2018.
- Dr. R.P. Patel conferred member of organizing committee of International Conference on Global Research Initiatives for Sustainable Agriculture and Allied sciences (**GRISAAS-2018**) at RAU, Durgapura, Jaipur, from 28-30, October, 2018.
- Dr. R.P. Patel received Excellence in Research Award for outstanding contribution in the field of Plant Pathology on the occasion of International Conference on Global Research Initiatives for Sustainable Agriculture and Allied sciences (GRISAAS-2018) at RAU, Durgapura, Jaipur, from 28-30, October, 2018.
- Shri H.C. Bharvey received best research paper poster award on “Analytic study of M.Sc. (Horticulture) thesis under the department of plantation, spices, medicinal and aromatic crops at KNK College of Horticulture, Mandasaur (M.P.)” Authored by H.C. Bharvey, R.N. Sharma and R.P. Patel. (2018). In International conference on Global Research Initiatives for Sustainable Agriculture and Allied sciences (GRISAAS-2018) at RAU, Durgapura, Jaipur, from 28-30, October, 2018.
- Dr. S.B. Singh, received best research paper poster award on “Reaction of Bt cotton hybrids against sucking insect pests in Malwa region of Madhya Pradesh” Authored by S. B. Singh, R. P. Patel, and G. S. Chundavat (2018). In International conference on Global Research Initiatives for Sustainable Agriculture and Allied sciences (GRISAAS-2018) at RAU, Durgapura, Jaipur, from 28-30, October, 2018.

AWARDS AND RECOGNITIONS FOR THE YEAR 2019-20

(1) College of Agriculture, Gwalior-

S. No.	Name of Scientists	Name of award	Name of Society/ Agency
1	Dr.V.S. Kandalkar	Best teacher award of the year	Gwalior Vikas Samiti,Gwalior
2	Dr Sushma Tiwari	Chaudhary Charan Singh Award	Global Environment and Social association (GESA), New Delhi
3	Dr Sushma Tiwari	Fellow Award	

(2) College of Agriculture, Indore- Dr. Swati Barche get BIOVED YOUNG SCIENTIST ASSOCIATE AWARD 2020 on the 22nd Agricultural Scientists and Farmers Congress on PHT & Management for empowering the rural society and Employment Generation on 22-23 Feb, 2020 at Prayagraj.

(3) KNK, College of Agriculture, Mandasaur-

1. Dr. Rajiv Dubey received Best Participant Award in ICAR sponsored 21 days (03-23 October, 2019) training (based on evaluation tests and training performance) organized by Department of Soil and Water Engineering, College of Technology and Engineering, Maharana Pratap University of Agriculture and Technology, Udaipur (Rajasthan) at MPUAT, Udaipur, Rajasthan.
2. Patel R. P; Singh S. B; Kanpure, R. N. and Patidar, B. K. received second poster award with title of poster effect of abiotic factors on occurrence of fruit rot disease on ambebahar guava (*Psidium guajava*L) caused by *Phytophthora nicotianae* Var *Parasitica* (Dastur) Waterhouse on the occasion of International conference on Global Research Initiatives for Sustainable Agriculture & Allied Sciences (GRISAAS- 2017) during 20-22 October, 2019 at ICAR-National Academy Of Agricultural Research Management, Hyderabad, Telangana (India).
3. Patel R. P. awarded with Fellow award for outstanding contribution in the field of Plant Pathology by Society for Scientific Development in Agriculture and Technology, on the occasion of International Conference on GRISAAS-2019 during 20-22 October, 2019 held at ICAR-National Academy of Agricultural Research Management, Rajendranagar, Hyderabad, Telangana, India
4. Dr. S.K. Dwivedi awarded with "Young Scientist Award-2019" in the field of Post-Harvest & Technology. During "1st Foundation Day Program was organized during 20 June 2019 at the auditorium of ICAR-Indian Institute of Sugarcane Research (IISR), Lucknow, Uttar Pradesh.
5. H C Bharvey awarded with Excellence in Communication Award given by (SSDAT) GRISAAS -2019 during 20-22 October, 2019 held at ICAR-National Academy of Agricultural Research Management, Rajendranagar, Hyderabad Telangana, India.

6.6.9.2. Accreditation Report from ICAR/Other Agencies: Whether the University and its Colleges were accredited by the ICAR and other agencies in the past? What was the recommendation of the accreditation agencies? Whether the University has taken the action taken report and submitted the reply to the accreditation agencies? Provide the detailed action taken report for each observation.

	Recommendation of NAEAB	Action Taken
1.	Implementation of ICAR Model Act in the university of Madhya Pradesh	The matter is under consideration with the Government of Madhya Pradesh
1.4	Board of Studies	It exists in the name of 'Faculty' with the same function i.e., academic affairs and constitution in RVSKVV, Act. With the recommendation of the Board its nomenclature is changed from Faculty to Board of Studies
1.5	College Level Committee on Teaching	It is established at all the constituent Colleges
1.6	Internal Quality Assurance Cell (IQAC)	The establishment is in the process
1.7	Quality Instruction Material (PME Cell)	Guidelines to publish Quality Instruction material from the fund allotted under Development Grant by ICAR has been established (PME Cell)

6.6.9.3. Inter Institutional Standings: Status of the University in the ranking announced by agencies for academics, research, extension, sports/games, cultural events etc.

- **ICAR Ranking: University is ranked Number 10 amongst Agricultural Universities.**
- **India Today Ranking:** University is ranked Number 26 amongst Indian Universities and ranked Number 02 amongst Agriculture Universities
- *A world bank funded project of National Higher Education Project (International Development Plan) on "Reinforcement of the Brand Value of University for Designing Market Ready Graduates for Entrepreneurship and Development Generation" have been sanctioned by the NC, ICAR, NAHEP having a budget outlay of Rs. 2441.00 lakhs.*

6.6.9.4. Socio-economic Impact:

Madhya Pradesh has emerged as grain bowl of India by immense contribution in the nation’s grain basket with 33.45 million tons (11.74%) of total production of 284.83 million tons in the country during 2017-18. Madhya Pradesh is the only state to have won the Krishi Karman Award in the total food grain production consecutively for five times since the institution of award in 2010-11. The State has been showing a strong growth of above nine percent since 2009-10. In the year 2013-14, Madhya Pradesh has created history by posting the highest ever agricultural growth rate of 24.99 per cent. This rate was 20.16 per cent in year 2012-13 and 18.17 per cent in year 2011-12. Presently (2016-17) it is in double digit (20.40%).

The role of Agriculture University in both social and economic development of an economy is vital. Agriculture University a light house to society is seen as the mainstay or back bone of socio-economic development. The contribution of Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya, Gwalior towards socio-economic development is immense in terms of technology development, technology dissemination at grass root level and development of demand driven human resources for serving the farming community of the state.

6.6.9.5. International Collaboration: The list of collaboration taken place during last five years with international agencies/universities/institutes for academic, research and others:

LIST OF MOU INTERNATIONAL ORGANIZATIONS WITH RVSKVV, GWALIOR

S.No.	MOU	Effective Date
1	Wageningen University , Netherland	16.11.2015
2	Strategic Marketing & Communication ICRISAT, Patancheru - Telangana	27.10.2016
3	Borlaug Institute for south Asia (BISA), Jabalpur	02.01.2019
4	Research Institute for Organic Agriculture (FiBL), Switzerland	04.10.2019
5	Dalhousie University, Canada	17.11.2020

6.6.9.6. Fund Raising through CSR: The university has collected fund from corporate sector for on- farm research and extension and other related activities in last five years:

Under product testing 1472 products of private agencies were tested during last five year i.e. 2015-16 to 2019-20. Highest numbers 339 products were tested during 2017-18 and minimum 262 during 2015-16. Under product testing total Rs. 1450.11 revenue generated during last five years:

Details of product testing trails conducted in last five years:

S.No.	Year	Trails conducted	Revenue generated (in Lakh)
1.	2015-16	262	246.96
2.	2016-17	272	298.74
3.	2017-18	339	238.17
4.	2018-19	295	320.85
5.	2019-20	304	345.39
Total		1472	1450.11

6.6.9.7 Alumni Support:

The university has well establishment active Alumni Association to support a network of former graduates who will, in turn, help to raise the profile of the university. Alumni association succeeds the members so that they may help the association and university as successful graduates. Variety of career services provided by the association is the great tools for building career or finding ways to maximize earning potential of the member. Even after graduation, many students continue to feel connected to the university by special alumni social events. The association makes sincere efforts to arrange programme and to strengthen association-ship.

The university organized first alumni meet during 16-17th February, 2019 at RVSKVV, College of Agriculture, Gwalior. On this occasion various events were organized for the benefit of the Staff, Students and ex-students of the university. During the meet ex-students who have now achieved in significant position as well as retired faculty shared rememberabale memories. A Souvenir and Directory of Alumni Meet (RAM-2019) was also published during the event. The ex-students, Faculty, existing students highly praised the efforts of the university in bringing all the stake holders on a platform

6.6.9.8. Academic Activities during pendemic of COVID 19

Whatsapp Group of the Students: Whatsapp group created for all the classes (UG,PG &Ph.D.) separately for each constituents colleges.

Class Wise Lecture Notes: Class wise lecture notes prepared by all the class teachers of all the constituent colleges were uploaded on the University website.

Online Workshop: The University has organized a several online workshop under NAHEP IDP project.

Faculty Development Porogramme: Two day online faculty development programme on Teaching was organized by RVSKVV with collaboration of virtuallity India IIT, Delhi total 50 faculty participated.

Guest Lecture Series: The University has organized International Guest Lecture Series involving best available resources at International level in the subject of each Department. Total 06 online lecture were organized.

The RVSKVV organized several online courses on entrepreneurship, skill, personality developmet and communication skill developmet under NAHEP project.

Information about Webinars conducted at Colleges/ Directorates/ Offices from Feb. 2020 to till date under NAHEP project are given below:

Detail of Webinars Conducted:

S.No.	Date	Topic	Output/ Recommendations
1.	31/01/2020	“Sankalp ki Shkati”	Students and faculties are benefited in terms of confidence building
2.	29/04/2020 To 02/05/2020	“ Achievement of Motivation for Entrepreneurship Development ”	Students and faculties are benefited in terms of Entrepreneurship building
3.	29/04/2020 To 04/05/2020	“Personality Development”	Students and faculties are benefited in terms of Personality Development
4.	05/05/2020 To 09/05/2020	“Enhancing Communication Skills for Professional Success”	Students and faculties are benefited in terms of Communication Skills
5.	11/05/2020	“Refining Personality”	Students and faculties are benefited in terms of Personality Development
6.	12/05/2020	“Turn Obstacle into opportunity”	Focus On Your Strengths, Not Weaknesses
7.	12/5/2020 To 13/05/2020	“Opportunities in food processing and agro based industries with investment up	Student learn about the food processing

SELF STUDY REPORT OF AGRICULTURAL UNIVERSITY

		to 10 lacks and opportunity in food processing and agro based industries with investment from 10 lakh to 1 crore”	Startups
8.	12/05/2020 To 16/05/2020	“Sky is the Limited”	Benefited in terms of confidence building
9.	14/05/2020	“Employability Skills”	Identify sources of conflict and take steps to minimize or overcome disharmony.
10.	15/05/2020 To 21/05/2020	“Entrepreneurship Development ”	Know the parameters to assess opportunities and constraints for new business ideas
11.	18/05/2020 To 21/05/2020	“Personality Development”	Self-Awareness, Personal Development, and Life Skills
12.	19/05/2020 To 23/05/2020	“Employability Skills”	Benefited in terms of Problem-solving and decision-making
13.	25/05/2020	“Personality Development and Grooming”	Students and faculties are benefited in terms of confidence building
14.	25/05/2020 To 29/05/2020	“Landscape Development”	Student learn about the demand of landscape Development in India and Abroad
15.	26/05/2020 To 30/06/2020	“Momentum”	Student learn about to decide goal and how to achieve it
16.	28/05/2020	“Career opportunities in Agriculture: An Interactive session for Agri-Graduates”	Will help for better placement of student
17.	05/06/2020	“Positive Impact of Lockdown on Environment in India”	Student aware about Environmental changes
18.	06/07/2020	Soil Health: Role of Microorganism and soil organic matter”	Student learn about the role of Microorganism and SOM empower the health of soil and its play vital role to increase the fertility of soil
19.	08/06/2020 To 12/06/2020	“Personality Development”	Self-Awareness, Personal Development, and Life Skills

20.	09/06/2020 To 13/06/2020	“Startups Initiative and Entrepreneurship in Agri. and Food processing Domains ”	Student learn development of startup concepts for self-employment
21.	29/06/2020 To 01/07/2020	“Innovative Food Processing Technologies: Value Addition, Food Safety and Security”	Student learn about the processing , packing , PHT related to food industry
22.	07/07/2020	“Business opportunities in bamboo value chain”	Develop Entrepreneurship in students
23.	16/07/2020	“Entrepreneurship opportunities through alternate horticulture based farming system”	Student develop entrepreneurship skills in horticulture sector
24.	20/07/2020	“IOT & AI Application in Agriculture”	Understand the potential of IOT in Agriculture and implement efficient technologies
25.	13/08/2020	“Nature, Extent and management of problematic soils for sustainable agriculture”	Student learn about management of problematic soil
26.	17/08/2020	“Hi-Tech Interventions for Agriculture Development & Catalyzing Agri-Startup”	Student learn about new innovations for agri. startups
27.	14/10/2020	“Computer Skill –Basic Excel”	Create an excel workbook and navigate you way around the basic applications
28.	23/10/2020 To 31/10/2020	“Online Teaching and Learning Practices”	Effective strategies that can enhance universities and faculty success in transitioning to teach online
29.	25/11/2020 TO 1/12/2020	“Online Teaching and Learning Practices ”	Effective strategies that can enhance universities and faculty success in transitioning to teach online
30.	10/12/2020	“How to Use E-resources for JRF and SRF Exam”	Learn about different digital resources
31.	11/12/2020	“Empowering the Rural Youth for Livelihood Security ”	Awareness for self-employment

32.	12/12/2020	“On Preparing Corporate Ready Students”	Development of soft skills for industries
33.	14/12/2020	“Establishment of small Scale Food Processing Industries: Way to Entrepreneur Skill Development ”	Develop Entrepreneurship in students
34.	15/12/2020	“On presentation of JRF/SRF/ARS Exams and Role of Fruit and Vegetable in Human Mind and Body”	Learn the importance of fruits and vegetables
35.	17/12/2020	“Canopy Management for the Production of Quality Grapes”	Learn about training and pruning aspect in grapes
36.	18/12/2020	“Avenues in Horticulture Sector”	Learn about landscape
37.	18/12/2020	“Scope For Overseas Education in Agriculture and Allied Science”	Awareness among student for abroad education

ANNEXURE
FOR
ACCREDITATION OF THE UNIVERSITY
(RVSQVV, GWALIOR)

6.6.3.3 Technologies developed and its adoption:

• Varieties developed including area coverage under Variety.

Crop	Name of Variety (Noti. No.& Date)	Maturity days	Avg. yield (kg/ha)	Special Characteristics	Adaptability zone	Area Coverage as per BSP (ha)
A. Pulse crops						
Chickpea	RVG 202 (SO 268 (E) 28.01.2015)	100-105	1800 - 2000	Large seeded Desi chickpea variety and resistance to Fusarium wilt, MR to dry root rot and color rot	M.P., Chhattisgarh, Maharashtra, Gujarat, U.P. and Rajasthan	267469
	RVG 204 (SO 3220 (E) 06.09.2019)	111	2300-2500	Long plant, bold seeded, Resistant to wilt and tolerance to pod borer, suitable for mechanical harvesting	Madhya Pradesh	1266
	RVG 205 (SO 3220 (E) 06.09.2019)	107-118	2000-2500	First green seeded variety of M.P., Long plant, pink flower, bold seeded, Resistant to wilt and tolerance to pod borer	Madhya Pradesh	2391
	RVKG 111 (SO 3220 (E) 06.09.2019)	117	20-22	Smooth creamy medium sized seeds with owl's head shape (26.12 g/100 seed). Resistance to moderately resistance reaction against <i>Fusarium</i> wilt, Dry Root Rot (DRR) and tolerant to pod borer (<i>Helicoverpa</i>) and pulse beetle.	Madhya Pradesh	
	RVKG 151 (SO 3220)	104-113	20-21	extra large size seeds, average 100	Madhya Pradesh	

	(E) 06.09.2019)			seed weight (54.3 g) with oval head shape. Resistance to moderately resistance reaction against <i>Fusarium</i> wilt and tolerant to pod borer (<i>Helicoverpa</i>) and pulse beetle.		
	RVG 210 03.06.2019	109	1805	early maturing variety (109 days), round seed shape, bold seeded size (26.7 g hundred seed weight), average yield potential 1805 kg/ha and resistant to <i>Fusarium</i> wilt.	Madhya Pradesh	
	RVKG 121 03.06.2019	114	1970	matures in 114 days, having bold seed size (26.30 g hundred seed weight), average yield potential 1970 kg/ha. Resistance to <i>Fusarium</i> wilt tolerance to pod borer (<i>Helicoverpa armigera</i>) and pulse beetle	Madhya Pradesh	
Lentil	RVL 11-6 (SO 1007 (E) 30.03.17)	116	1600-1800	Bold seed, drought tolerance	M.P., Chhattisgarh, Maharashtra, Gujarat, U.P. and Rajasthan	24000
	RVL 13-7 (SO 3220 (E) 06.09.2019)	102	1200	Plant type is semi erect, medium height (36-40cm) and branches with broad leaf which is very much suitable for intercropping Large seed size of 3.2 g/100 seed Tolerant to Wilt,	Timely sown conditions of M.P.	1500

				shattering resistant and escape the drought		
	RVL 13-5 (SO 3220 (E) 06.09.2019)	106	1400	Its plant type is semi erect, Maturity duration is 106 days, medium height and branches with broad leaf which is very much suitable for intercropping and potential yield is 14 qt/ha.	M.P., Chhattisgarh, Maharashtra, Gujarat, U.P. and Rajasthan	27000
	RVL 15-1	100	1700	plant type is semi erect, medium height and branches with broad leaf which is very much suitable for intercropping. Large seed size of 3.05 g/100 seed, resistant to wilt, shattering resistant and escape the drought.	Madhya Pradesh	-
B. Oilseed crops						
Soybean	RVS 2002-4 (SO 1007 (E) 30.03.17)	92	2300	Early maturing, Resistance to YMV, chorcol rot	Madhya Pradesh	58331
	RVS 2001-18 (SO 2805 (E) 25.08.2017)	96	1905	Medium maturity, Resistance to YMV, chorcol rot, root rot and stem fly	M.P., Chhattisgarh, Maharashtra, Gujarat, U. P. and Rajasthan	1097
	RVS 2007-6 VIC 17.04.18	101	2068	Plant type semi erect spreading type, medium height (70-75 cm) and branches with broad pointed leaf, medium maturing variety, multiple	M.P., Chhattisgarh, Maharashtra, Gujarat, U. P. and Rajasthan	

				resistance charcoal rot, target leaf spot, stem fly, stem borers and defoliators		
Rapeseed & Mustard	RVM 1 (SO 3540(E) 22.11.16)	98-121	1400-2000	Moderately resistant to Alternaria, powdery mildew, downy mildew and <i>Sclerotinia</i> stem rot	Madhya Pradesh	36000
	Raj Vijay Mustard 3	125-139	1800-2800	plant height (182-228cm), Yellow Flower, Dark brown to reddish brown Seed colour, 1000 seed wt (g): 3.7-4.4 g, Oil content 37-42 %, Moderately resistance to Alternaria leaf light blight, Powdery mildew and downy mildew & white rust, and tolerant to resistant for <i>Sclerotinia</i> stem rot.	Madhya Pradesh	10400
Torja	RVT 1 (SO 2805 (E) 25.08.2017)	90-105	1654	Tolerance to Alternaria and powdery mildew, drought tolerance oil content 42.08 to 44 %	Madhya Pradesh	8000
	RVT 2 SVRC 23.05.2017	108-09	1700-2400	Brown seeded, Tolerance to Alternaria and powdery mildew, drought tolerance, oil content 42 to 44 %	Madhya Pradesh	
	RVT 3 SVRC 09.05.2018	93-99	1300	Plant medium (118-138cm) spreading, Angle of branching is obtuse, Leaves: sessile, green, seed is small to medium, Flowers: bright yellow in colour,	Suitable for rainfed and irrigated conditions of Madhya Pradesh	

				Tolerance/ resistance to white rust, <i>Alternaria</i> leaf blight on pods, powdery mildew, downy mildew and <i>Sclerotinia</i> stem rot, less infestation of aphids		
Safflower	Raj Vijay Safflower - 14-1	121	1800- 2200	plant type is spiny and big capitulum and Colour of flower is orange red, plant height 80- 100 cm, Oil content 29-30%, lodging resistant, shattering resistant, Moderately tolerant to wilt.	Madhya Pradesh	
C. Food Crops						
Sorghum hybrid	RVICSH 28 (SO 3540(E) 22.11.16)	110	65-68 t/ha (Fodder)	High sugar content (17 %) Resistance to lodging and ability to tolerate the drought	Madhya Pradesh	
Sorghum	RVJ 1862 (SO 3540(E) 22.11.16)	111	35-40 q/ha (grain) and Fodder yield (118 q/ha)	Tolerance to leaf spot and moderately tolerant to grain mold and Moderately tolerant to shoot fly and stem borer.	Madhya Pradesh	17250
D. Fibre crops						
Cotton	RVK 67 (SO 6318 (E) 26/12/2018)	145- 160	1600- 2000	Tolerance against jassid and bollworms	Madhya Pradesh	
	RVK 11 (SO 3220 (E) 06.09.2019)		2404	Medium maturity group, and found tolerant to sucking pests (below ETL) and for diseases were on par with	South Zone (Tamil Nadu, Karnatka, and Andhara	

				the check varieties, in rainfed production system.	Pradesh)	
E. Medicinal and Aromatic crops						
Safed Musali	RVSM-412 SVRC, 26.09.19	85-95	3000-3400	Herbasius stemless plant with 3 to 4 flowering scape, Non lodging type, fasciculated root/ha, Root powder content 1.15 % sapogenine and 9.2 % steroidal saponine and resistant to fasciculated root rot	Madhya Pradesh	
Asalio (Chandrasoor)	Raj Vijay Asalio 1007 (VIC 14.11.2017)	118	1522		Central Zone	
	Raj Vijay Asalio-1001 SVRC, 26.09.19	110-115	1800-1900	Narrow leaf, Plant height (92.41 cm), No. of Branch/Plant(14.27), 100 seed weight 1.9g, oil content 20 % and Resistant to Alternaria leaf blight	Madhya Pradesh

Title of the technology	:	A success story on Biological control of water hyacinth by <i>Neochetina s</i>
Project and centre	:	AICRP-Weed Management, Gwalior
Year in which technology developed	:	2019
Recommendation domain:	:	District- Morena (Madhya Pradesh)
Existing practice:	:	Farmers were not practicing before. But after getting success in controlling water hyacinth by biological means, they are practicing now.
Detail of Improved technology:	:	<ul style="list-style-type: none"> • Two ponds (3-4 acre size) were selected in September 2016 by the team of AICRP-WM, Gwalior centre to control the spreading infestation of water hyacinth in district Morena. One part of the dam was thoroughly covered by the water hyacinth which affected water utility and water holding capacity of the ponds. The water hyacinth density of the selected ponds where weevil released was 15 /m². • <i>Neochetina</i> spp. has controlled water hyacinth in two large ponds namely Pilua dam Morena and Tal (pond) of Morena after their introduction in September, 2016. In Pilua dam, the water hyacinth has been controlled effectively and reoccurrence of water hyacinth has not been observed yet. People in the surrounding areas of the pond appreciated the efforts of the scientists AICRP-WM, RVSKVV, Gwalior in controlling of water hyacinth problem by <i>Neochetina</i> spp. which was persisting since long time period. • The effect of weevils was first seen in January, 2018 after about 17 months. Dr. P.K. Singh, Director of ICAR-DWR, Jabalpur visited RVSKVV, Gwalior with his team on 29th January, 2018 and instructed to monitor the progress of the control. By the end of June, 2018, 50 per cent of the water hyacinth becomes dry corresponding to the increase of weevil population. Weevils were

		collected from the pond to further multiply in earthen pots filled up with water and water hyacinth for further release in other ponds. By December 2018, about 75 per cent water become visible and water hyacinth remained in 25 per cent area only. Complete control of water hyacinth was observed by the month of April 2019.
Performance:	:	<ul style="list-style-type: none"> The <i>Neochetina</i> spp, is a potential bio-agent to control the water hyacinth. Biological control is the most economical and practical way to keep the weed under check. Biological control of water hyacinth occurs in cycles. Significant control of water hyacinth was achieved within 17 months after introduction of the bio-agents, when about 50 per cent area of the pond was controlled and complete control of water hyacinth was achieved in 30 months. Adult weevils scalp the leaf surface and destroy the growth buds of the weeds. Grubs puncture the stalk due to which water start to enter inside and die back symptoms appear. Gradually, weeds start to disintegrate and sink down. Thus water becomes clear.
Impact and up scaling:	:	<ul style="list-style-type: none"> For an effective control of water hyacinth by biological means, the number of weevils will be as high, than benefit will be more. For example, to control water hyacinth for an acre, about one lakh insects require, but it is not possible to culture such number of insects. Therefore, at least such quantity of insects should be cultured which can further reproduce and increase their number by their own to destroy the invasive weed. For an acre, about 500-1000 weevils are required for an effective control. Divide the water body into two equal parts and laid on about 100 weevils in each part for their multiplication and for effective control.

Good quality photographs

The same ponds were cleared from water hyacinth by the weevils in 2019**

Title of the technology	:	Weed management in pearl millet - mustard - cowpea cropping system under conservation agriculture
Project and centre	:	AICRP-Weed Management, Gwalior
Year in which technology developed	:	2019
Recommendation domain:	:	Gird zone of Madhya Pradesh
Existing practice:	:	Weed management through FLD, OFR, <i>Kissan goshti</i> , <i>Kisan mela</i> and awareness programme etc.
Detail of Improved technology:	:	Studies were conducted from 2014 to 2018 to find out the long term effect of conservation tillage and weed management practices on weed flora, growth and yield of pearl millet, mustard and cowpea under pearl millet-mustard-cowpea cropping system.

Performance:	: In pearl millet crop integrated weed management practice (atrazine 500 g/ha PE with one HW at 30 DAS) significantly reduced the weed population and dry weight of weeds and resulted in significantly higher pearl millet yield (3.58 t/ha). The maximum B:C ratio was obtained with the same treatment. Under conservation tillage practices the highest grain yield was obtained in conventional tillage in <i>kharif</i> followed by zero tillage in <i>rabi</i> and fallow in summer season (CT-ZT-F).
Impact and up scaling:	: Economics: Maximum net returns of Rs.31143/ha was obtained in conventional tillage in <i>kharif</i> and zero tillage in <i>rabi</i> and summer (CT-ZT-ZT) followed by conventional tillage in both season <i>kharif</i> and <i>rabi</i> (CT-CT) and zero tillage with residue of previous crop during both <i>kharif</i> and <i>rabi</i> season and without residue during summer (ZT+R-ZT+R-ZT). Similarly the maximum net returns of Rs 34531/ha was obtained in integrated weed management method where atrazine with one HW was applied followed by atrazine + 2,4-D (Rs 25764/ha). The B:C ratio was highest with treatment atrazine with one HW (2.38) followed by atrazine + 2,4-D (2.31). Cost of Technology Rs.3,000-3500/ha. (Herbicide and application costs) Impact and Benefit Application of atrazine 500 g/ha PE + one HW at 30 DAS resulted in saving in weeding cost to the extent of Rs 2500-3500 or saving in man days to the extent of 15-20/ha It helps to overcome the labour problem during peak periods and relieves pressure on human labour for weeding.

Weedy situation in pearl millet 30 DAS in pearl millet

Application of Atrazine 500g/ha with HW at 30 DAS in pearl millet

Title of the technology	: Weed management in pearl millet – mustard – cowpea cropping system under conservation agriculture
Project and centre	: AICRP-Weed Management, Gwalior
Year in which technology	: 2019

developed		
Recommendation domain	:	Gird zone of Madhya Pradesh
Existing practice	:	Weed management through FLD, OFR, <i>Kissan goshthi</i> , <i>Kisan mela</i> and awareness programme etc.
Detail of Improved technology	:	Studies were conducted from 2014 to 2018 to find out the long term effect of conservation tillage and weed management practices on weed flora, growth and yield of pearl millet, mustard and cowpea under pearl millet-mustard-cowpea cropping system.
Performance	:	In mustard integrated weed management practice where oxyfluorfen 230g/ha with one HW at 30 DAS was applied gave maximum seed yield (1.81 t/ha) as well as reduced the weed density and dry weight of weeds followed by pendimethalin 1.0 kg/ha PE. Under tillage practices conventional tillage in <i>kharif</i> and <i>rabi</i> (CT-CT) gave maximum seed yield (1.96 t/ha) as compared to other tillage practices. Similarly, highest B:C ratio was also recorded in (CT-CT) tillage practices (3.91). In case of weed management practices the highest B:C ratio was obtained in pendimethalin (3.65) followed by IWM practices (3.56).
Impact and up scaling:	:	<p>Economics: Maximum net returns of Rs 62463/ha was obtained where previous crop residue was applied in all the seasons (ZT+R-ZT+R-ZT+R) followed by conventional tillage during both the seasons <i>kharif</i> and <i>rabi</i> (CT-CT). Similarly the B:C ratio (4.20) was also maximum in (ZT+R-ZT+R-ZT+R) followed by (CT-CT) conventional tillage practices (3.84). The lowest B:C ratio (3.32) was found where zero tillage was applied in all three seasons (ZT-ZT-ZT). In weed management practices the maximum net returns of Rs 61101/ha was obtained in integrated weed management practice where oxyfluorfen 0.23 kg/ha was applied with one HW at 30 DAS and it was followed by oxyfluorfen 0.23 kg/ha as PE (Rs.60056/ha) while maximum B:C ratio was obtained with the application of oxyfluorfen 0.23 kg/ha as PE (3.94) followed by oxyfluorfen 0.23 kg/ha as PE with one HW at 30 DAS (3.68).</p> <p>Cost of Technology Rs.2500-3000/ha. (Herbicide and application costs)</p> <p>Impact and Benefit Application of oxyflorfene 230g/ha PE with one HW resulted in saving in weeding cost to the extent of Rs 2500-3500 or saving in man days to the extent of 15-20/ha It helps to overcome the labour problem during peak periods and relieves pressure on human labour for weeding.</p>

**Weedy situation in mustard crop
in mustard crop**

Oxyflorfone 0.23kg/ha with one HW at 30 DAS

Title of the technology	:	Weed management in pearl millet – mustard – cowpea cropping system under conservation agriculture
Project and centre	:	AICRP-Weed Management, Gwalior
Year in which technology developed	:	2019
Recommendation domain:	:	Gird zone of Madhya Pradesh
Existing practice:	:	Weed management through FLD, OFR, <i>Kissan goshti</i> , <i>Kisan mela</i> and awareness programme etc.
Detail of Improved technology:	:	Studies were conducted from 2014 to 2018 to find out the effect of conservation tillage and weed management practices on weed flora, growth and yield of pearl millet, mustard and cowpea under pearl millet-mustard-cowpea cropping system.
Performance:	:	In cowpea, under all the tillage conditions, zero tillage with previous crop residue application during both <i>kharif</i> and <i>rabi</i> season and only during <i>rabi</i> for four years significantly increased the grain yield by 49 and 18%, gross returns by 43 and 14% and reduced the total weed biomass by 48 and 32%, respectively with higher weed control efficiency compared to zero tillage without residue application. Among different weed flora, zero tillage with residue application during both <i>kharif</i> and <i>rabi</i> season and only during <i>rabi</i> reduced the narrow leaved weeds population by 40 and 19%, broad leaved weeds by 23 and 8%, respectively. All the tillage conditions had not significantly controlled sedges. On the other hand, among different weed management practices, the pre emergence application of pendimethalin + imazethapyr 1.0 kg/ha with one hand weeding at 20-25 DAS resulted in the significant reduction of total weed biomass, highest grain yield, weed control efficiency and gross returns. The integrated weed management approach reduced the narrow leaved weeds by 49%, broad leaved weeds by 52% and sedges by 59% compared to herbicides application alone. However, the

	interaction effect of tillage practices and weed management approach was not significant except for the total weed biomass at harvest.
Impact and up scaling:	: Cost of Technology Rs.1,000-1200/ha. (Herbicide and application costs) Impact and Benefit Application of pendimethalin + imazethapyr 1.0 kg/ha PE + one HW resulted in saving in weeding cost to the extent of Rs 3000-3500 or saving in man days to the extent of 15-20/ha It helps to overcome the labour problem during peak periods and relieves pressure on human labour for weeding.

Title of the technology	: Weed management with pre- and post-emergence herbicides in blackgram
Project and centre	: AICRP-Weed Management, Gwalior
Year in which technology developed	: 2015
Recommendation domain	: Gird zone of Madhya Pradesh
Existing practice	: Weed management through FLD, OFR, <i>Kissan goshti</i> , <i>Kisan mela</i> and awareness programme etc.
Detail of Improved technology	: Two year trials were executed during 2014 and 2015 to find out the effect of pre-and post emergence herbicides on problematic weed flora, growth and yield of blackgram.
Performance	: In blackgram crop two hand weeding at 20 and 40 DAS were found to be very efficient in controlling the dominant grassy weeds and gave maximum seed yield (924 kg/ha) followed by ready mix herbicides i.e. imazethapyr + imazamox 80 g/ha as PoE (905 kg/ha) and pendimethalin + imazethapyr 1000 g/ha as PE (879 kg/ha). Net returns and B:C ratio were the highest for the application of pendimethalin + imazethapyr (1000 g/ha PE) (3.32) followed by application of imazethapyr + imazamox (80 g/ha PoE) (3.11). Among various ready-mix (RM) herbicides the pre-emergence application of

pendimethalin + imazethapyr (pre-mix) 1000 g/ha was the most effective and recorded 92.6, 95.8 and 87.1% suppression of grassy, BLWs and sedges, respectively compared to weedy check. The application of post-emergence imazethapyr + imazamox 80 g/ha was equally effective in reducing weed density and dry weight of weeds. Minimum weed dry matter accumulation was achieved with two hand weeding at 20 and 40 DAS. Among various pre-mix applications of herbicides, minimum weed dry matter accumulation was recorded with pendimethalin + imazethapyr applied as pre-emergence 1000 g/ha, which was at par with imazethapyr + imazamox applied as post-emergence 80 g/ha. Whereas, among alone application of imazethapyr 70 g/ha as post-emergence followed by its respective higher dose applied 80 g/ha was found more effective in reducing the dry matter accumulation of weeds. Twice hand weeding was found most effective in reducing the dry matter accumulation of weeds. However, all the weed control treatments were proved to be significantly superior to weedy check.

Impact and up scaling : **Cost of Technology**
Rs.1,000-1200/ha. (Herbicide and application costs)
Impact and Benefit
Application of pendimethalin + imazethapyr 1.0 kg/ha PE + one HW resulted in saving in weeding cost to the extent of Rs 2000-2500 or saving in man days to the extent of 15-20/ha It helps to overcome the labour problem during peak periods and relieves pressure on human labour for weeding.

Good quality photographs

Imazethapyr + imazamox PoE 80 g/ha

Title of the technology	: Management of diverse weed flora of wheat by herbicide combinations
Project and centre	: AICRP-Weed Management, Gwalior
Year in which technology developed	: 2015
Recommendation domain	: Gird zone of Madhya Pradesh
Existing practice	: Weed management through FLD, OFR, <i>Kissan goshti</i> , <i>Kisan mela</i> and awareness programme etc.
Detail of Improved technology	: The trial was executed in two seasons 2014-15 and 2015-16 to evaluate the bio-efficacy of different herbicides to control diverse weed flora especially <i>Phalaris minor</i> in wheat
Performance	: The lowest weed dry weight was recorded in cultural method of

	weed control where two hand weedings were done at 30 and 60 DAS. The highest weed control efficiency of 91.74 and 93.31% was recorded with two hand weedings at 30 and 60 DAS. It was followed by the herbicide combinations as mesosulfuron + idosulfuron (87.61%) and pinoxaden + metsulfuron (89.75%). The treatments where sulfosulfuron applied individually gave highest WCE 80.0% . It is mainly because sulfosulfuron is a selective, systemic sulfonyl urea herbicide, absorbed through both roots and leaves. It translocates throughout the plant and acts as an inhibitor of amino acid biosynthesis, hence stopping cell division and plant growth.
Impact and up scaling	: Cost of Technology Rs.1,000-1200/ha. (Herbicide and application costs) Impact and Benefit The herbicide pinoxaden + metsulfuron has potential for post-emergence control of broad and narrow leaved weeds in wheat. Further, chemical weed management saves time and labour for weeding, avoid loss of nutrients and reduces cost of weeding. Due to timely weed management, wheat yields increased by 25-30%.

Title of the technology	: Chemical and non-chemical methods of weed control in potato
Project and centre	: AICRP-Weed Management, Gwalior
Year in which technology developed	: 2019
Recommendation domain	: Gird zone of Madhya Pradesh
Existing practice	: Weed management through FLD, OFR, <i>Kissan goshti</i> , <i>Kisan mela</i> and awareness programme etc.
Detail of Improved technology	: Potato is one of the most important commercial vegetable crops in India and on an average this crop is affected by weeds damage which should be prevented by various control methods. Cultural operations and mulches are non-chemical methods of weed control in sustainable agricultural systems.
Performance	: The minimum dry weight production of weeds was found under one hand weeding at 20 DAP with straw mulching 5t/ha at 25 DAP which was closely followed by two hand weeding at 20 and 40 DAP. The minimum dry weight at 60 DAP was found with two hand weeding at 20 and 40 DAP followed by one hand weeding at 20 DAP with straw mulching 5t/ha at 25 DAP. The maximum weed control efficiency (73.46%) was recorded in one hand weeding with straw mulch followed by two hand weeding (72.45%). Application of two hand weeding at 20 and 40 DAP fetched significantly higher net returns (Rs.318346/ha) followed by one hand weeding at 20 DAP with straw mulching 5t/ha at 25 DAP (Rs. 286549/ha) and straw mulching 5 t/ha at 5 DAP (Rs.254241/ha). Similarly, the maximum B:C ratio of 3.40 was also obtained with two hand weeding at 20 and 40 DAP followed by one hand weeding at 20 DAP with straw mulching 5 t/ha at 25 DAP (2.94) which was at par with straw mulching 5 t/ha at 5 DAP (2.84).

Impact and up scaling	: In terms of economic benefit straw mulch was beneficial over polythene mulch as the B:C ratio was higher with straw mulches when compared to polythene. Further the residues of straw added to the organic matter status in the soil. Cost of Technology Rs.1,000-1200/ha. (straw mulch and application costs) Impact and Benefit The straw mulch was used of greengram which was taken as previous crop under cropping system. Weed management saves time and labour for weeding, avoid loss of nutrients and reduces cost of weeding. Due to straw mulch, potato yields increased by 40-45%.
-----------------------	--

Title of the technology	: Application of lagoon sludge and spent wash for reclamation of sodic Vertisols
Project and centre	: AICRP on Management of Salt Affected Soils and Use of Saline Water in Agriculture, College of Agriculture, Indore - 452 001
Year in which technology developed	: 2014-15
Recommendation domain	: Malwa Nirmar Regions of Madhya Pradesh and those areas having sodic Vertisols
Existing practice	: Farmers are not using any amendments for reclamation of salt affected soils
Detail of Improved technology	: Addition of lagoon sludge @ 5.0 t/ha along with raw spent wash (RSW) @ 2.5 lakh litre per hectare is highly effective for reclamation of salt affected black soils. Paddy - Wheat cropping sequence be successfully taken up after reclamation through use of spent wash along with lagoon sludge.
Performance	: The application lagoon sludge @ 5.0 t/ha along with

	:	raw spent wash (RSW) @ 2.5 lakh litre per hectare significantly enhanced the grain yield of paddy and wheat by 67.69 and 57.50 % over Gypsum 75%. It also helps in reduction of ESP from 40.1 to 16.1 after 3 years of experimentation.																
Summary Table (showing comparison)	:	<p style="text-align: center;">Average data of 3 years</p> <table border="1"> <thead> <tr> <th>Treatment</th> <th>Paddy grain yield (t/ha)</th> <th>Wheat yield (t/ha)</th> <th>ESP after harvest of wheat</th> </tr> </thead> <tbody> <tr> <td>Control</td> <td>1.30</td> <td>2.00</td> <td>36.1</td> </tr> <tr> <td>Gypsum @ 75 % GR</td> <td>2.18</td> <td>3.15</td> <td>21.2</td> </tr> <tr> <td>LS @ 5 t/ha +RSW @ 2.5 lakh L/ha</td> <td>2.70</td> <td>3.63</td> <td>16.1</td> </tr> </tbody> </table>	Treatment	Paddy grain yield (t/ha)	Wheat yield (t/ha)	ESP after harvest of wheat	Control	1.30	2.00	36.1	Gypsum @ 75 % GR	2.18	3.15	21.2	LS @ 5 t/ha +RSW @ 2.5 lakh L/ha	2.70	3.63	16.1
Treatment	Paddy grain yield (t/ha)	Wheat yield (t/ha)	ESP after harvest of wheat															
Control	1.30	2.00	36.1															
Gypsum @ 75 % GR	2.18	3.15	21.2															
LS @ 5 t/ha +RSW @ 2.5 lakh L/ha	2.70	3.63	16.1															
Impact and up scaling	:	By this technology farmer was reclaimed around 60 ha in Nimar Regions of Madhya Pradesh. The technology can be used in vicinity of the distillery industries.																
Good quality photographs	:	 																

Title of the technology	:	Growing and in situ incorporation of dhaincha as green manuring for reclamation of sodic soils
Project and centre	:	AICRP on Management of Salt Affected Soils and Use of Saline Water in Agriculture, College of Agriculture, Indore - 452 001
Year in which technology developed	:	2016
Recommendation domain	:	Malwa Nimar Regions of Madhya Pradesh and those areas having sodic soils
Existing practice	:	Farmers are not using any amendments for reclamation of salt affected soils
Detail of Improved technology	:	Two green manures (sunhemp and daincha) and FYM @10 t/ha was taken for reclamations of sodic soils. Both the green

		manire was in situ incorporated before planting of paddy in sodic soils. FYM was also applied 15 days before sowing of crop.															
Performance	:	Incorporation of Dhaincha as green manures before planting of paddy in sodic black clay soils have increased grain yield of paddy and wheat by 35.40 and 57.79%, respectively over control. The ESP values were reduced from 25±2, 35±2, 45±2 and 50±2 to 14.95, 21.54, 27.92 and 29.76 respectively after 11 years.															
Summary Table (showing comparison)	:	<p style="text-align: center;">Average data of 11 years</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 33%;">Treatment</th> <th style="width: 33%;">Paddy grain yield (t/ha)</th> <th style="width: 33%;">Wheat yield (t/ha)</th> </tr> </thead> <tbody> <tr> <td>Control</td> <td style="text-align: center;">1.76</td> <td style="text-align: center;">1.62</td> </tr> <tr> <td>FYM @ 10 t/ha</td> <td style="text-align: center;">2.00</td> <td style="text-align: center;">1.97</td> </tr> <tr> <td>Sunhemp</td> <td style="text-align: center;">2.16</td> <td style="text-align: center;">2.34</td> </tr> <tr> <td>Dhaincha</td> <td style="text-align: center;">2.38</td> <td style="text-align: center;">2.55</td> </tr> </tbody> </table>	Treatment	Paddy grain yield (t/ha)	Wheat yield (t/ha)	Control	1.76	1.62	FYM @ 10 t/ha	2.00	1.97	Sunhemp	2.16	2.34	Dhaincha	2.38	2.55

Title of the technology	:	Performance of drip irrigation under different discharge rate and schedules for growing vegetable crop in sodic black soils															
Project and centre	:	AICRP on Management of Salt Affected Soils and Use of Saline Water in Agriculture, College of Agriculture, Indore – 452 001															
Year in which technology developed	:	2017															
Recommendation domain	:	Malwa Nimar Regions of Madhya Pradesh															
Existing practice	:	Farmers are adopting flood irrigation for irrigating to vegetables crop in sodic Vertisols															
Detail of Improved technology:	:	(i) Discharge rates (Three - 1.3, 2.4 and 4.0 LPH) - Q ₁ , Q ₂ and Q ₃ (ii) Schedule of irrigation (Three – Daily, alternate and every 3 rd day) – S ₁ , S ₂ and S ₃ Volume of irrigation water applied was kept uniform irrespective of the discharge rates of drippers as well as different schedules.															

Performance: : The highest curd yield 16223 kg/ha was obtained in case of drip irrigation system scheduled daily with 1.3 LPH dripper discharge rate, while the lowest curd yield of 9076 kg/ha in case of drip irrigation system scheduled every third day with 4.0 LPH dripper discharge rate. However, the water productivity was observed highest 297.68 kg/ha-cm in case of drip irrigation system scheduled every day with 1.3 LPH dripper discharge rate followed by 281.50 kg/ha-cm in case of drip irrigation system scheduled every alternate day with 1.3 LPH dripper discharge rate. The results of study indicates that drip irrigation of 3 cm depth with daily frequency basis was found most effective and promising for growing cabbage crop in sodic black soils.

Discharge rates	Curd yield	WP
Q ₁ S ₁	16223	297.68
Q ₁ S ₂	15049	281.50
Q ₁ S ₃	14854	269.44
Q ₂ S ₁	12444	228.34
Q ₂ S ₂	12008	224.61
Q ₂ S ₃	11574	209.95
Q ₃ S ₁	10323	189.42
Q ₃ S ₂	9761	182.59
Q ₃ S ₃	9076	164.62

Impact and up scaling: : The light and frequent irrigation found beneficial and more remunerative for cultivation of cabbage crop under sodic Vertisols.

Rain water Management

- Name of the technology : **Drip irrigation and mulch in guava and aonla**
- Recommendation domain : Malawa plateau agro-climatic zone of M.P.
- Traditional practice : Flood/ basin
- Improved practice : Drip irrigation
- Performance : Water saving and high productivity
- Impact & Upscaling : The area is increasing in the zone with availability of subsidized drip irrigation system in the state.

Name of the technology : Broad Bed Furrow system and/or Ridge Furrow system of planting
 Recommendation domain : Flat terrain of Malawa plateau agro climatic zone of M.P.
 Traditional practice : Flat system of sowing of soybean
 Improved practice : BBF/RF
 Performance : Excellent drainage, moisture conservation, improved nodulation, aeration, growth & development of plant and seed productivity water saving and high productivity
 Impact & Upscaling : 60 percent of soybean grown area of the domain districts area covered under RF/BBF.

Name of the technology : Enhancing water productivity in micro -watershed through efficient utilization of harvested water
 Recommendation domain : Indore, Dhar, Ujjain, Dewas, Ratlam, Rajgarh, Mandsaur, Jhabua, Sehore and Shajapur districts of M.P.

Traditional practice : In this region, it is hypothesized that a construction of water harvesting tank in the farmer’s field is not economically viable and the farmers do not get any direct or indirect additional benefit except ground water recharge. Further, the construction of tank would (i) increase the cost of production; (ii) submerge a portion of cultivable/degraded land without any extra benefit and (iii) prevent the farmers to pay the loan installment if he borrows the loan for the construction of the tank.

Improved technology : The construction of water harvesting tank on farmers’ field leads to availability of water for crop production. Once there is availability of water leads to develop confidence to raise crops and other components of farming system like poultry farming, fish rearing, crop diversification *etc.* The efficient cropping sequences

- Sweet corn– Vegetable
- Sweet corn –Tomato

Rabi crops were managed through drip irrigation system by using harvested rain water in tank.

Performance : The highest monetary return was obtained by Sweet corn– Vegetable which gave total net return Rs.1,51,646/- per hectare with B: C ratio 4.05 followed by Sweet corn –Tomato system (Rs.1,23,964/-with B: C ratio 2.77) whereas, traditional cropping sequence of Soybean–chickpea recorded (net return of Rs.55,008/ha).

Cropping	Crops	Yield	Gross	Cost of	Net	B: C
----------	-------	-------	-------	---------	-----	------

RAJMATA VIJAYARAJE SCINDIA KRISHI VISHWA VIDYALAYA, GWALIOR (M.P.)

Sequence		Kg/ha	Return (Rs/ha)	Cultivation (Rs/ha)	Return (Rs/ha)	ratio
Sweet corn- Tomato	Sweet corn (K)	7737	77370	25000	52370	3.09
	Tomato (R)	11660	116600	45000	71 600	2.57
Total				70000	123964	2.77
Sweet corn- Vegetable	Sweet corn (K)	7737	77366	25000	52366	3.09
	Sponge gourd / Bottle gourd	6214	36214	25000	99280	4.97
Total				50000	151646	4.03
Soybean- Chick pea	Soybean (K)	902	36077	18000	18077	2.00
	Chick pea (R)	1248	49931	13000	36931	3.84
Total				31000	55008	2.77

* (K)=Kharif (R)=Rabi

Note: Market rate (Rs./kg): Soybean- Rs. 30/-; Sweet corn – Rs. 10/-(K.); Tomato Rs. 10 / kg and Chickpea – Rs. 40/- Bottle gourd (*Legenaria siceraria*), Sponge gourd (*Luffa operculata*)-Rs.20/-

Impact & Up-scaling: Medium to small farmers from the villages nearer to the highways or which are well connected with local *mandi* of nearby city can practice this technology. It can be up-scaled further in the zone with extension efforts and demonstrations through KVKs, ATMA and under special schemes like ISOPOM. RKVY *etc.*

Name of the technology: Cultivation of vegetables on the bunds of farm tank improves profitability under dryland Situations

Recommendation domain: Malawa plateau agroclimatic zone of M.P. (On farmers field who have constructed water harvesting tanks / ponds in their fields in the region.)

Traditional practice: Fallow

- Improved practice : Vegetable cultivation on the bunds of farm tank. Vegetables namely, Bottle gourd, Snake gourd, Bitter gourd, Sem *etc.*, climbers were planted on the bunds of farm tanks/ponds.
- The water collected in tanks will be recycled and utilized in vegetable cultivation.
- There will be increase in profitability.
- This helps in reducing soil erosion.
- Performance : The cultivation of vegetable crops on bunds showed advantages like:
- The root system of plants acts as a binding agent and reduces soil erosion.
- The stored rainwater in tanks will recycle and judiciously utilized for vegetable production.
- Increases productivity and profitability under dryland situation.
- **Impact & Upscaling:** It can be upscaled further in the zone with extension efforts and demonstrations through KVKs, ATMA and under special schemes like ISOPOM. RKVY *etc.*

Name of the technology : **Cultivation of sweet corn for green cob**
Recommendation domain : Malawa plateau agroclimatic zone of M.P. (In fields, near to cities where green cobs can be marketed. vegetable growers)
Traditional practice : Sole soybean
Improved practice : cultivation of sweet corn for green cobs
Performance : More profit than other *kharif* crops in the region
Impact & Upscaling : The area is increasing in the zone with availability of excellent cob hybrids in the market from private sector. The second crop can successfully be raised on residual soil moisture. So that assured double cropping was make possible under dryland situation

Name of the technology : **Sunflower as contingent crop in very delayed sown conditions**
Recommendation Domain : Malawa plateau agroclimatic zone of M.P
Traditional practice : Kept field fallow in case monsoon is delayed beyond third week of July
Improved practice : Sowing of sole sunflower (45 cmx15 cm space) or green gram + sunflower (4:2 rows at 30 cm inter row space) with 20% higher seed
Performance : Sunflower gave seed yield of 1343 kg/ha) and net returns of Rs 46152 /-ha with B:C ratio 4.46 and RWUE 1.43 kg/ ha mm
➤ Impact & Upscaling : This technology is important as contingent crop planning in very delayed on set of monsoon or failure of timely sown crop due to draught or any other adverse conditions,
➤ Strengthen by seed bank concept in villages
➤ ATMA (Agricultural Technology Management Agency)
➤ KVK's (Krishi Vigyan Kendra).

Name of the technology : **Foliar spray to mitigate draught conditions /Mid season corrections in dryland areas**
Recommendation domain : Malawa plateau agroclimatic zone of M.P : Indore, Dhar, Ujjain, Dewas, Ratlam, Rajgarh, Mandasaur, Jhabua, Sehore & Shajapur districts of M.P.
Traditional practice : At present no any recommendation for foliar spray to reduce the effect of abnormal weather conditions during Kharif. Thus, the Kharif crops adversely affected due to moisture stresses in the region.
Improved practice : During Aberrant monsoon conditions, mitigating treatments viz., VAM-C 50 % SL Chlormequate chloride @ 375

- ml/ha, Potassium Sol. @ 2%, Thiourea @ 250 g/ha in Soybean, Maize, Urd and Hoursegram at 25-30 and 60-65 DAS.
- Performance : 73.0, 19.8, 27.9 and 33.2% higher yield of soybean, maize, urd, h-gram, respectively by spray of VAM-C than control. Other treatments also favorably affected the crops
- Impact & Upscaling : The farmers can spray these chemicals and reduce the loss of productivity in bad season . It can be upscaled further in the zone with extension efforts and demonstrations through KVKs, ATMA and under special schemes like ISOPOM. RKVY etc.
- Name of the technology : Compatibility of different agro-chemicals in dryland conditions
Recommendation domain : Malawa plateau agroclimatic zone of M.P
Traditional practice : Application of mixture (tank mixed) of different chemicals without knowing their compatibility.
Improved practice : Spraying of compatible chemicals
Performance : Results revealed that the treatment foliar spray of thiourea, KNO₃ KCl alone or mixed with trizophos @ 600 ml/ha at before flowering and pod initiation stage of soybean crop were found equally effective to combat the drought situation
- Impact & Upscaling : Farmers using the technology at large scale.
- Name of the technology : **Alternate crop for the region**
Recommendation domain : Indore, Dhar, Ujjain, Dewas, Ratlam, Rajgarh, Mandsaur, Jhabua, Sehore Shajapur and, Agar Malawa districts of M.P.
Traditional practice : Generally the farmers grow only one crop, soybean, maize or cotton, during *Kharif* season. The performance of these crops was greatly influenced by monsoon activities like; on-set, withdrawal and distribution of rainfall. In *vertisols*, the possibility of second was very less due to non-availability of soil moisture after the harvesting of *kharif* crops.
Improved practice : Maize for grain recorded high productivity and profitability and proved suitable alternative of soybean from economic return point of views.
Performance : The maximum net returns (Rs. 26812/- ; B: C ratio 2.68) recorded with Maize - Hy. Patidar-999 followed by Maize Hy.555 (Rs. 13562/- ; B: C ratio 2.04

Treatment	Seed (kg/ha)	C.C	Gross	Net	B: C Ratio
Maize (Patidar 999)	2854	16000	42812	26812	2.68
Maize hy. 555	1971	16000	29562	13562	1.85
Soybean (JS 95-60)	1072	18000	32153	14153	1.79

Note: Market Rate: (Rs./Kg): Maize 15/-; Soybean=30/-

Impact & Upscaling: Sweet corn and baby corm can be cultivated in limited area only and that to in areas which are well connected to *mandi* and near high ways as shelf-life of these products is less and the produce should reach to outlet of sell immediately after harvest. Medium to small farmers from the villages nearer to the highways or which are well connected with local *mandi* of nearby city, were practicing cultivation of seet corn /baby corn However for larger area and general farmer the cultivation maize is good alternative to soybean. It can be upscaled further in the zone with extension efforts and demonstrations through KVKs, ATMA and under special schemes like ISOPOM. RKVYetc.

Technology : **Chemical weed control in soybean**
 Recommendation domain : Malawa plateau agroclimatic zone of M.P
 Existing practice : Sprayed number of chemicals available in market
 Improved technology : Imazamox 35 % WG + Imazethapyr 35% WG @ 75 g ai/ha as PoE (Odyssey) Fluazifop-P- Butyl 12.5% + Fomesafen 12.5% @ 250 g ai/ha as PoE (Fusiflex25 % SL) are Most effective chemical against the prevailing weed flora in soybean
 Performance : The Odyssey, fusiflex gave highest weed control efficiency.
 ➤ Impact and upscaling : This technology is important as contingent crop planning in very delayed on set of monsoon or failure of timely sown crop due to draught or any other adverse conditions,
 ➤ Strengthen by seed bank concept in villages
 ➤ ATMA (Agricultural Technology Management Agency)
 ➤ KVK's (Krishi Vignana Kendra).

Name of the technology : **Integrated nutrient management in soybean**
 Recommendation domain : Malawa plateau agroclimatic zone of M.P i.e. Indore, Dhar, Ujjain, Dewas, Ratlam, Rajgarh, Mandsaur, Jhabua, Sehore and Shajapur, Agar malawa districts of M.P.
 Traditional practice : In this region, farmers were using chemical fertilizers continuously for last so many years causing adverse effects on the microbial population, organic carbon, humus and low availability of nutrients in soil. This results in low crop productivity.
 • Improved practice : Application of integrated organic and chemical forms of nutrients i.e., 50% RDF via organic and 50% via chemical fertilizers were at par to the 100% RDF via chemical fertilizer

• Performance : Highest seed yield (1974 kg ha^{-1}) was obtained by treatment 50% of RDF through chemical fertilizer + 50% through organics, followed by (1912 kg ha^{-1}), RDF through chemical fertilizer ($40\text{N} + 60\text{P}_2\text{O}_5 + 20\text{K}_2\text{O ha}^{-1}$). These treatments were at par with each other and gave significantly higher yield as compared to control where no fertilizer was applied and Farmers practices ($50 \text{ kg DAP ha}^{-1}$).

Impact & Upscaling : 20% area covered; The technology has impact as the use of organics in long run improves the bio-physical-chemical properties of soil further saving of 50% chemical fertilizers. It can be upscaled further in the zone with extension efforts and demonstrations through KVKs, ATMA and under special schemes like ISOPOM. RKVY etc

Name of the technology : Direct and residual effects of Sulphur on yield, quality and S use efficiency in Soybean-Chickpea cropping system

Recommendation domain : Malawa plateau agroclimatic zone of M.P.

Traditional practice : Continuous sowing of soybean in same field, Use of DAP which is devoid of S content, No application Sulphur containing fertilizers and manures

Improved practice : The significant improvement due to application of Sulphur @ 60 kg/ha only to soybean or to both crops in equal splits in soybean-chickpea sequence.

Performance : Grain yield of soybean linearly increased up to the application of sulphur @ 60 kg/ha for both the crops in cropping system. Thus, residual effect of Sulphur applied in soybean was observed in subsequent chickpea crop.

Impact & Upscaling : The increased use of gypsum in the zone indicate use of S in the soybean-chick pea sequence

Name of the technology : Studies for efficient management of micronutrient application for soybean-chickpea crop sequence

Recommendation domain : Malwa plateau agro climatic zone of M.P

Traditional practice : Unbalanced dose of nutrient application; No application of micro nutrients and very low availability organic manure

Improved practice : Application of RDF +Mo (Soil Application) 0.5 kg ha^{-1} (Amm. Molybdate as basal dose).

Performance : The application of micro-nutrient significantly improved the yield of both the crops i.e., soybean and chickpea. The highest seed yield of soybean (1654 kg/ha) and chickpea (2113 kg/ha)

was recorded when RDF +Mo (Soil Application)0.5 kg ha⁻¹(Amm. Molybdate as basal dose). Control gave the lowest yield of 877and 723 kg ha⁻¹of soybean and chickpea, respectively with and B: C ratio 2.43.

Impact & Upscaling : Only progressive farmers take care off the technology as it increased the cost of cultivation. It can be upscaled further in the zone with extension efforts and demonstrations through KVKs, ATMA and under special schemes like ISOPOM. RKVYetc

Name of the technology : INM in sweet corn- chick pea crop sequence

Recommendation domain : Malwa plateau agro climatic zone of M.P

Traditional practice : Un balanced dose of nutrient application; low application of organic manure

• Improved practice : Application of FYM 12 t /ha + 50% RDF (60:30:30 NPK /ha), or Vermicompost 5 t/ ha + 50% RDF (60:30:30 NPK /ha)

• Performance : The maximum sweet corn green cob yield of 9129 kg /ha was recorded by T6 *i.e.*, FYM 12 t /ha + 50% RDF (60:30:30 NPK /ha), followed by T4 *i.e.*, Vermicompost 5 t/ ha + 50% RDF (60:30:30 NPK /ha) (8312 kg /ha) and T2 *i.e.*, RDF (120:60:60 NPK /ha). The lowest yield of 4462 kg ha⁻¹was observed for control. The Chickpea yield varied from 913 to 1319 kg /ha. The Sweet corn variety, Sugar queen (7982 kg /ha) and Chickpea JG 412 (1393 kg /ha) exhibited maximum yields. The highest total net return for Sweet corn - Chickpea cropping sequence of Rs. 84036 /ha with B:C ratio of 6.71 was observed by the INM treatment T6 *i.e.*, FYM 12 t ha⁻¹+ 50% RDF (60:30:30 NPK /ha), followed by T2 *i.e.*, RDF (120:60:60 NPK ha⁻¹)(Rs.78161 /ha; B:C R 7.12) and T5 *i.e.*, FYM 12 t /ha (Rs. 76072 /ha; B:C R 7.09). The least net return of Rs.37349 /ha; B:C ratio5.08 was recorded by control.

Impact & Upscaling : Only progressive farmers take care off the technology as it increased the cost of cultivation. It can be upscaled further in the zone with extension efforts and demonstrations through KVKs, ATMA and under special schemes like ISOPOM. RKVYetc

Name of the technology :Development of suitable Agri-horticulture production system for medium deep Vertisols of Malwa plateau

Recommadation Domain : Malawa plateau agroclimatic zone of M.P

Traditional practice : Soybean-chick or soybean -fallow crop sequence

Improved practice : Aonla as fruit crop planted at 6m x6 m and between the inter row space crops soybean+ pigeon pea in 4:2 rows ratio.

- Performance : Good profit received by the system
- Impact & Up scaling : Farmers of Jhabua and Dhar district adopted the technology.
- Name of the technology : **Cultivation of Improved variety of soybean and chickpea**
- Recommende Domain : Indore, Dhar, Ujjain, Dewas, Ratlam, Rajgarh, Mandasaur, Jhabua, Sehore Agar malawa and Shajapur districts of M.P.
- Traditional practice : The farmers were not aware of the high yielding varieties of Soybean and chickpea. They were still cultivating obsolete cultivars for long time. These cultivars are long duration, ans susceptible to insect-pest diseases.
- Improved practice : Adoption of Soybean variety JS 95-60 & JS 93-05, RVS 2001-4: and chickpea variety Viz,,, JG 16, JAKI-9218 Vishal, JG-412 JG-130.. The high yielding varieties of Soybean and chickpea are introduced and their performance on farmer’s field was noticed and is liked by farmer as they observed good yield and were benefited by the adoption of high yielding varieties.
- Performance : Farmers’ perception regarding crop varieties

SOYBEAN

- JS-335: it takes 10-12 days more to mature and has ability to face the adverse conditions. Farmers liked this variety but terminal draught and increasing infestation of yellow mosaic reduced the yield.
- JS 95-60: It was an early maturing, high yielding and showed capacity to with stand well against terminal drought conditions up to some extend by the mechanism of escaping the adverse conditions created by early withdrawal of rains.
- JS 93-05: It was an early maturing, high yielding and showed capacity to with stand well against terminal drought conditions up to some extend by the mechanism of escaping the adverse conditions created by early withdrawal of rains.
- RVS 2001-4: It matures in 85 – 90 days, possesses three seeds per pod, broad leaves, white flowers, profuse flowering and podding. Tollarate to water logged and draught situation. Due to early maturing, profuse flowering and podding and its tolerant to moisture stress this variety was liked by farmers very much.
- Local check: Farmers liked this genotype due to its ability to adjust its life span under an early / timely / late withdrawal of monsoon conditions. But its productivity is low as against the other varieties.

CHICKPEA

- JG 16: It matures in 90 – 95 days, bold seeded (S.I. 20-22 g), high yielding, profuse pods bearing and tolerance to *Fusarium* wilt.

- JAKI-9218: It matures in 100 days, bold seeded (SI 25.0 g), attractive seed colour and high yielder and resistance to *Fusarium* wilt.
- Farmers' Check entry: It matures in 100-105 days, extra bold seeded (S.I. 45-50 g.), cultivated in large area under irrigated conditions.
- Impact & Upscaling : It can be upscaled further in the zone with extension efforts and demonstrations through KVKs, ATMA and under special schemes like ISOPOM. RKVYetc

SELF STUDY REPORT OF AGRICULTURAL UNIVERSITY

Title of the technology	:	Management of sowing window under climate change situation of sorghum genotypes																																																																																																													
Project and centre	:	AIC Sorghum Improvement Project ,College of Agriculture, Indore - 452 001																																																																																																													
Year in which technology developed	:	2017																																																																																																													
Recommendation domain	:	Madhya Pradesh																																																																																																													
Existing practice:	:	In general sowing of jowar is practiced by the growers after onset of monsoon which is adversely affected by the attack of sorghum shoot fly and some times more than 50% seed lings are lost & plant population reduced resulting low yield of sorghum grain and fodder.																																																																																																													
Detail of Improved technology:	:	Dry sowing of sorghum before onset of monsoon (Sowing windows) i.e.15 th June or before pre- monsoon activities																																																																																																													
Performance:	:	<p>Effect of date of sowing–Sowing of sorghum by 15th June is found ideal time for sowing and recorded 108.3% higher grain yield than yield of 30th June sowing. 30th June of sowing also gave significantly superior yields as compared to July sowings.</p> <p>Response of genotypes: Sorghum genotypes, CSH 16 and CSH 23 are found promising genotypes and they gave significantly higher yields and returns over CSV 23 and CSV 17.</p>																																																																																																													
Summary Table (showing comparison)	:	<p style="text-align: center;">Average data of 2 years</p> <table border="1" style="width: 100%; border-collapse: collapse; text-align: center;"> <thead> <tr> <th rowspan="2">SN</th> <th rowspan="2">Treatment</th> <th colspan="2">Yield kg ha⁻¹</th> <th colspan="2">Monetary returns Rs. ha⁻¹</th> <th rowspan="2">B: C ratio</th> </tr> <tr> <th>Grain</th> <th>Fodder</th> <th>Gross</th> <th>Net</th> </tr> </thead> <tbody> <tr> <td>A</td> <td>Date of sowing:</td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td>1</td> <td>D1-15th June</td> <td>3577</td> <td>12913</td> <td>45103</td> <td>30745</td> <td>3.16</td> </tr> <tr> <td>2</td> <td>D2-30th June</td> <td>1717</td> <td>9718</td> <td>25902</td> <td>11610</td> <td>1.81</td> </tr> <tr> <td>3</td> <td>D3-15th July</td> <td>1300</td> <td>5837</td> <td>17577</td> <td>3285</td> <td>1.23</td> </tr> <tr> <td>4.</td> <td>D4-30th July</td> <td>721</td> <td>2233</td> <td>8720</td> <td>-5572</td> <td>-5.12</td> </tr> <tr> <td></td> <td>SEm±</td> <td>62</td> <td>345</td> <td>423</td> <td>421</td> <td>0.08</td> </tr> <tr> <td></td> <td>CD (5%)</td> <td>180</td> <td>997</td> <td>1223</td> <td>1216</td> <td>0.24</td> </tr> <tr> <td>B</td> <td>Genotypes:</td> <td></td> <td></td> <td></td> <td></td> <td></td> </tr> <tr> <td>1</td> <td>CSV 17</td> <td>1464</td> <td>4775</td> <td>17994</td> <td>3702</td> <td>-0.33</td> </tr> <tr> <td>2</td> <td>CSV 23</td> <td>1442</td> <td>12609</td> <td>25583</td> <td>11225</td> <td>0.22</td> </tr> <tr> <td>3</td> <td>CSH 16</td> <td>2293</td> <td>6636</td> <td>27273</td> <td>12981</td> <td>0.70</td> </tr> <tr> <td>4</td> <td>CSH 23</td> <td>2115</td> <td>6681</td> <td>26453</td> <td>12161</td> <td>0.50</td> </tr> <tr> <td></td> <td>SEm±</td> <td>62</td> <td>345</td> <td>423</td> <td>421</td> <td>0.08</td> </tr> <tr> <td></td> <td>CD (5%)</td> <td>180</td> <td>997</td> <td>1223</td> <td>1226</td> <td>0.24</td> </tr> </tbody> </table>	SN	Treatment	Yield kg ha ⁻¹		Monetary returns Rs. ha ⁻¹		B: C ratio	Grain	Fodder	Gross	Net	A	Date of sowing:						1	D1-15 th June	3577	12913	45103	30745	3.16	2	D2-30 th June	1717	9718	25902	11610	1.81	3	D3-15 th July	1300	5837	17577	3285	1.23	4. Title of the technology	<p>(1) 1(a), Diversification and Intensification in major cropping system of the Malwa plateau zone of M. P. under different land configuration</p> <p>(2) Development of innovative farming practices to mitigate the effect of climate change</p> <p>(3) Effect of land configuration with methods of sowing on major cropping sequence of Malwa region of Madhya Pradesh.</p> <p>(4) Identification of cropping systems for different farming system</p> <p>(5) Development of IFS module for indorecentre</p>
Project and centre	IFSR Sub Centre College of Agriculture, Indore
Year in which technology developed	<p>2012-2017</p> <ol style="list-style-type: none"> Inclusion of maize as intercrop in soybean -wheat Soybean +maize -wheat under minimum tillage with mulch and 75% RDF +25% vermicompost Adoption of minimum tillage Diversification of the existing system (soybean wheat), Soybean-Potato-late Wheat is identified as more productive and remunerative under irrigated conditions . Crop intensification through Soybean + Maize - Wheat is more profitable system than the existing system of soybean- wheat. Soybean-Onion-Okra/ Soybean+ Maize- Potato-Onion cropping system was found to be more productive and remunerative than other systems including the existing system of soybean -wheat. The application of fertilizer based on soil test in Soybean- Wheat cropping system, the savings of nutrients to the tune of 10 kg of P₂O₅ and 12 kg of K₂O per annum. Theme based treatment: Check (Existing system) -2 Soil health- 2 Family nutrition - 2 Livestock nutrition -2 Income enhancement - 2
Recommendation domain:	<p>Nimar Zone -Indore, Dhar(Tirla,Nalcha,Sardarpur,Badnawar)</p> <p>Malwa Zone -Ratlam,Ujjain,Dewas,Sajapur,Agar-malwa,Jhabua(Petlabad)</p>
Existing practice:	<ol style="list-style-type: none"> Soybean -Gram/wheat Conventional tillege practices Imbalance fertilizan

	<ol style="list-style-type: none">4. Traditaional implements5. Local and some improved varieties used6. Mono cropping (Mostly)7. No intercropping8. No water management practices9. No mulch practies10. Flate sowing
Detail of Improved technology:	<ol style="list-style-type: none">1. Different tillage practices – Zero tillage, Conventional tillage, Minimum tillage2. Different land configuration – Ridge-Furrow , BBF System3. Different Cropping system used4. Intercropping system used5. C3 and C4 plant used for higher production6. Crop diversification and Intensification7. Balanced fertilization8. Use of organic material (Vermi compost etc)9. Use of mulch practices10. Need based cropping system for existing farming system11. Development of farming system model12. Survey work of farming system13. Use of IWM, INM, and IPM Technique14. Use of high yielding varieties15. Use of early, medium and late duration varieties according to cropping system16. Soil health management , Family nutrition, Livestock nutrition and Income enhancement cropping system
Performance:	<p>(1) (1a). Crop sequence soybean + maize – wheat on flat bed (Rs 0.94 lakh) had the highest net returns and BCR (25.33% and 2.39%) as compared to predominant cropping system soybean- wheat (Rs 0.75 lakh and 2.51 BCR).</p> <p>(2) (IF). Soybean + maize-wheat cropping system planted under minimum tillage with mulching and 75% RDF +25% Vermi-compost resulted highest net returns and BCR (30.4% and 10.4%) as compared to soybean – wheat under conventional tillage with RDF and without mulching (Rs. 23538/ and 2.07 BCR).</p> <p>(3) (LC). Maize –wheat cropping system under minimum tillage was found to be most productive (16.47%) and remunerative (35.93% and 25.94%) than soybean –wheat (SEY -3309 kg/ha, NR- 0.64 lakh and BCR- 2.12), respectively.</p> <p>(4) Cropping system involving vegetable and high value crop for income enhancement i.e. Baby corn + Brinjal (1:1)– Onion – Okra was found to be the most productive and remunerative (Gross, Net returns and BCR- Rs. 404743, 240698 and 2.47) due to:</p> <p>(5) Inclusion of Vegetable and high value crops in system is profitable.</p> <p>(6) The intercropping system is more productive and remunerative than sole systems.</p> <p>(7) On the basis of pooled data, the Soybean + Maize –Wheat or Soybean – Wheat system under flat bed was found to be the most productive and remunerative,</p>

		(8) On the basis of pooled data, Arhar + Jowar Fodder (1:1) –Wheat under minimum tillage with RDF and without mulch was found most productive and remunerative, hence it is recommended for Malwa Plateau.			
Summary Table (showing comparison)		Economics of the cropping systems			
TretNo.	Crop sequence	Gross returns (Rs/ha)	Net returns (Rs/ha)	B:C ratio	
1	Soybean -Wheat	1,35,275	73,306	2.18	
2	Soybean – Chick pea	1,28,713	65,018	2.02	
3	Soybean + Sesbania (1:1) - Wheat (PI) + Chick pea (2:4) – Green gram	1,66,317	81,234	1.95	
4	Maize + Sesbania (1:1) - Chick pea – Cowpea (Green manure)	1,71,325	92,410	2.17	
5	Soybean + maize (4:2) –Wheat + Mustard-Green Gram	2,14,451	1,19,092	2.25	
6	Maize + black gram (1:1)-Mustard – Black gram	1,73,371	90,692	2.10	
7	Pigeon pea + Hybrid bajra fodder (1:1)- Barseen- Sorghum	1,64,701	90,034	2.21	
8	Soybean + maize fodder (4:2)-Barseen+ Maize-Hy. Bajara	1,16,309	41,832	1.56	
9	Soybean + Baby corn (4:2)-Potato-Green Chaulai	3,42,251	1,93,653	2.30	
10	Baby corn + Brinjal (1:1)-Onion- Okra	4,04,743	2,40,698	2.47	
Impact and up scaling:		<p>(1) The inclusion of short duration soybean varieties led to increase the cropping intensity from 110 to 167% in Madhya Pradesh.</p> <p>(2) The inclusion of vegetables in cropping systems increased the remuneration.</p> <p>(3) Integrated nutrient system improves the soil health.</p> <p>(4) The recommended practices reduce the risk even under adverse weather conditions.</p> <p>(5) The cropping system (3-4 crops/annum) generate the employment of labour round the year and also economically viable.</p> <p>(6) The recommended practices are eco-friendly.</p> <p>(7) State Department of Agriculture, NGOs and end users</p> <p>(8)</p>

Impact and up scaling:	: Sowing Mallika (ICHG-00440) at 30x10 cm spacing with application of 125 percent NPK increased pod yield by 3.1%, kernel yield by 13.1%, harvest index by 17.2%, net returns by 5.2 % and BC ratio by 7.6 %.																								

Title of the technology	: Application of bio-formulations in <i>kharif</i> groundnut production
Project and centre	: AICRP on Groundnut, College of Agriculture, Gwalior - 474002
Year in which technology developed	: 2016-19
Recommendation domain	: Gird Regions of Madhya Pradesh (Zone VIII).
Existing practice	: Application of 20 kg/ha N; 60 kg/ha P ₂ O ₅ and 20 kg/ha K ₂ O with no biofertilizers application.
Detail of Improved technology	: Seed treatment with NPK liquid formulation (250 ml ha ⁻¹) + Zn solubilizing bacteria (125 ml ha ⁻¹) + 75% RDF application.
Performance:	: Groundnut variety "JGN 3" performed best when seeds are treated with NPK liquid formulation (250 ml ha ⁻¹) + Zn solubilizing bacteria (125 ml ha ⁻¹) + 75% RDF application. This treatment increased the pod yield by 8.4%, kernel yield by 3.2 %, harvest index by 7.4%, B:C by 17.6%, net returns by 13.9%, soil available N by 2% and soil organic carbon content by 6%. On other hand it reduced the electrical conductivity of

	soil by 11%.																				
Summary Table (showing comparison)	Average data of 3 years																				
	<table border="1"> <thead> <tr> <th>Treatment</th> <th>Pod yield (t/ha)</th> <th>Harvest Index</th> <th>Net returns (Rs/ha)</th> <th>BC ratio</th> </tr> </thead> <tbody> <tr> <td>Control (25% RDF with no biofertilizer)</td> <td>1.90</td> <td>0.24</td> <td>55705</td> <td>1.68</td> </tr> <tr> <td>Farmers Practice</td> <td>2.33</td> <td>0.26</td> <td>73871</td> <td>2.07</td> </tr> <tr> <td>Improved technology</td> <td>2.53</td> <td>0.28</td> <td>84142</td> <td>2.41</td> </tr> </tbody> </table>	Treatment	Pod yield (t/ha)	Harvest Index	Net returns (Rs/ha)	BC ratio	Control (25% RDF with no biofertilizer)	1.90	0.24	55705	1.68	Farmers Practice	2.33	0.26	73871	2.07	Improved technology	2.53	0.28	84142	2.41
	Treatment	Pod yield (t/ha)	Harvest Index	Net returns (Rs/ha)	BC ratio																
	Control (25% RDF with no biofertilizer)	1.90	0.24	55705	1.68																
Farmers Practice	2.33	0.26	73871	2.07																	
Improved technology	2.53	0.28	84142	2.41																	
Impact and up scaling:	: Groundnut variety "JGN 3" performed best when seeds are treated with NPK liquid formulation (250 ml ha ⁻¹) + Zn solubilizing bacteria (125 ml ha ⁻¹) + 75% RDF application. It resulted in the highest pod yield, harvest index, B:C, net returns as well as higher soil available N, P, K and organic carbon content and better quality <i>i.e.</i> higher sugar, oil and protein content in groundnut crop.																				

Title of the technology	: Productivity of crops with tillage and relaying of <i>berseem</i> Mustard- Pearlmillet system
Project and Centre	: AICRP-Irrigation Water Management, Zonal Agricultural Research Station, Morena-476 001, Madhya Pradesh
Year in which technology developed	: 2014-18.
Recommendation domain:	: For whole area of Mustard growing area of Central India.
Existing practice:	: Pearlmillet-Mustard cropping system has been showing signs of diminutive and a decline in soil health and total system productivity.
Detail of Improved technology:	: The treatment of tillage practices were traditional tillage without <i>berseem</i> (TT-B), traditional tillage with <i>berseem</i> (TT+B), minimum tillage with <i>berseem</i> (MT+B) and zero tillage with <i>berseem</i> (ZT+B) organized in a on farm trial. After the establishment of 30-35 days of mustard, <i>berseem</i> (var.-Wardan) was sown by uniform broadcasting 20 kg/ha seed before the first irrigation of mustard in each year.
Performance:	: Relayed <i>berseem</i> residues provided surface cover in ZT system and the needed organic carbon sponge for microbial actions for improvements in the soil properties. As compared with ZT-B practice, the grain yield of pearlmillet and mustard increased by 18 and 52% with ZT+B, respectively. Similarly, the grain yield increased by 14% of <i>berseem</i> with ZT as compared with TT.Among the treatments of tillage, ZT seeding in pearl millet – mustard cropping system with relayed <i>berseem</i> had greater soil properties and productivity, thus is considered the best practice to maintain

		soil health, food security and profitability.			
Summary Table (showing comparison)	:	Average seed yield (tha ⁻¹), mean of 3 years			
		Treatment	Pearlmillet	Mustard	<i>Berseem</i>
		TT-B	2.39	1.5	-
		TT+B	2.72	1.97	0.52
		RT+B	2.75	2.17	0.58
		ZT+B	2.83	2.28	0.59
Impact and up scaling:	:	In scarce irrigation environments, even small change in the amount of in situ soil moisture storage is likely to make a difference to the profitability of the agriculture. Inclusion of the relay cropping of legume <i>berseem</i> fodder crop in the mustard-based system which leaves residues seems to be a very profitable proposition in some groundwater/canal water support and technology spread over in all area of Chambal division approximate more than 20 thousand ha. The relayed <i>berseem</i> technology also support of beekeeping practices in Chambal region in summer season.			
Good Quality Photographs	:				
					
		Egyptian clover in relay cropping	Egyptian clover after harvest of mustard with ZT		
Title of the technology	:	Pre-irrigation and seeding of wheat (<i>Triticumaestivum</i>) after clusterbean on yield, water productivity and soil properties			
Project and centre	:	AICRP-Irrigation Water Management, Zonal Agricultural Research Station, Morena-476 001, Madhya Pradesh			
Year of technology developed	:	2014-17			
Recommendation domain:	:	Alluvial plain zone			
Existing practice:	:	The seeding of wheat is delayed due to harvesting of clusterbean from last week of November to whole month of December. The extreme winter in month of December field takes 10-15 days after pre-irrigation to come up condition for seeding. The seeding of wheat was further delayed due to seeding after 5 to 8 tillage operations performed after pre-irrigation for seed bed preparation.			
Detail of Improved technology:	:	The treatments were consisted of two irrigation timing for wheat establishment, viz. dry seeding (DS) just after harvest of clusterbean and irrigation for germination and pre-irrigation (PI) after harvest of clusterbean, and three tillage and seeding methods- conventional tillage (CT), minimum tillage (MT) and			

zero tillage (ZT). The practices were followed in CT (2 ploughings with disc harrow + 2 passes of cultivators and planking in last ploughing). In CT, wheat was seeded by single box seed drill in two pass *e.g.* one for drilling of fertilizer and one for seeding. In MT crop established after 2 ploughings by cultivator and planking in last ploughing followed by seeding with seed cum fertilizer drill. In ZT, seeds were directly drilled with fertilizers using zero till seed cum fertilizer drill with inverted 'T' tynes.

Performance: : The average grain yield of wheat was increased by 9% with DS and 7% with ZT over conventional practices, respectively. The significantly higher production cost was recorded with CT compared to ZT. Out of total production cost, higher expenditure (22%) on tillage and seeding with CT, whereas with MT and ZT was 12% and 4%, respectively. The study reveals that improved yield, economic benefits, water productivity, soil physicochemical properties, saved energy and resources with DS of wheat after clusterbean harvest with ZT seeding and irrigation for germination in late sown conditions.

Summary Table (showing comparison) : Average data of 3 years

Treatments	Grain yield of wheat (tha ⁻¹)
Pre-irrigation timing	
PI	4.12
DS	4.47
Seeding methods	
CT	4.13
MT	4.15
ZT	4.43

Impact and up scaling: : Under late sown conditions dry seeding of wheat with ZT just after harvest of clusterbean is the most promising option and as per RRA data this technology adopted in more than 15 thousand ha in Morena district alone till 2019.

Cluster bean crop in month of October

Wheat crop in ZT after Cluster bean in DS

Title of the technology	:	Effect of irrigation and sowing methods on Pigeon pea – Wheat cropping system on growth, yield and water productivity in alluvial soils.																								
Project and Centre	:	AICRP-Irrigation Water Management, Zonal Agricultural Research Station, Morena-476 001, Madhya Pradesh																								
Year in which technology developed	:	2014-18.																								
Recommendation domain:	:	For whole area of low economic benefit cropping areas, soil fertility and upland rice-wheat growing area of Central India.																								
Existing practice:	:	The seeding of pigeon pea crop after 5-7 tillage operations in pigeon pea, and similar wheat seeding after 6-8 tillage on flat bed. Seeding is done in flat bed and uncontrolled flood irrigation which is prone to water logging resulting in plant mortality and higher incidence of diseases of pigeon pea and lodging of wheat during reproductive period.																								
Detail of Improved technology:	:	The experiment was conducted with precise tillage and seeding methods viz. shallow tillage (ST) and zero tillage seeding with happy seeder (ZT) in main plots, two methods of irrigations-boarder strip (BS) and drip irrigation (DI) through inline drippers, and two irrigation schedule- as per IW/CPE ratio- 0.6 and 0.8 for pigeon pea and wheat.																								
Performance:	:	The results of ZT seeding and irrigation with DI methods were significantly enhanced the yield and its attributes as compared with traditional practices. It may be mentioned that planting of pigeonpea with ZT and DI method of irrigation gains in productivity by 10% and 11% as compared with ST and BS, respectively. Similar compared with 0.60 IW/CPE ratio, the grain yield of the 0.8 IW/CPE was 7% higher. The gain in grain yield of wheat with ZT was greater by 7% as compared with ST. The gain in grain yield increased by 20% with DI as compared to BS treatment. Irrigation at 0.8 IW/CPE of wheat grain yield increased by 14% as compared with 0.6 IW/CPE ratio was observed. Results indicated that ZT method of seeding, irrigation with DI at 0.8 IW/CPE ratio can be made more sustainable production, water use efficiency and ameliorate soil health and save irrigation water of pigeon pea – wheat system in dry conditions.																								
Summary Table (showing comparison)	:	<p>Average seed yield (tha^{-1}), mean of 3 years</p> <table border="1"> <thead> <tr> <th>Treatment</th> <th>Pigeonpea</th> <th>Wheat</th> </tr> </thead> <tbody> <tr> <td colspan="3">Seeding methods</td> </tr> <tr> <td>ST</td> <td>1.94</td> <td>4.48</td> </tr> <tr> <td>ZT</td> <td>2.14</td> <td>4.80</td> </tr> <tr> <td colspan="3">Irrigation methods</td> </tr> <tr> <td>BS</td> <td>1.97</td> <td>4.13</td> </tr> <tr> <td>DI</td> <td>2.19</td> <td>4.94</td> </tr> <tr> <td colspan="3">Irrigation scheduling (IW/CPE ratio)</td> </tr> </tbody> </table>	Treatment	Pigeonpea	Wheat	Seeding methods			ST	1.94	4.48	ZT	2.14	4.80	Irrigation methods			BS	1.97	4.13	DI	2.19	4.94	Irrigation scheduling (IW/CPE ratio)		
Treatment	Pigeonpea	Wheat

DI	2.19	4.94																								
Irrigation scheduling (IW/CPE ratio)																										

		0.6	2.11	4.56
		0.8	2.25	5.18
Impact and up scaling:	:	Pigeon pea is a naturally plugging deep routed crop. The overall improvement on growth, yield, water use efficiency and soil health was followed the order: ZT > ST in seeding and also with irrigation DI > BS. This technology gave higher yield and economic benefit has been adopted by farmer of ORP area as well as ATMA. Dept. of Agriculture, KVK through demonstrations, training, etc. As secondary data and RRA survey technology of pigeonpea-wheat spread over more than 30 thousand ha in Chambal division of Madhya Pradesh.		
				
Pigeon pea crop in ZT method		ZT seeding and DI irrigation method of wheat		

Title of the technology	:	Improving productivity, soil health and water balance with tillage and irrigation techniques of rice-mustard system in dry areas
Project and centre	:	AICRP-Irrigation Water Management, Zonal Agricultural Research Station, Morena-476 001, Madhya Pradesh
Year of technology developed	:	2014-17
Recommendation domain:	:	Alluvial plain zone
Existing practice:	:	The rice crop grown during the rainy season and after harvest of rice left a massive fallow cropland in limited irrigation available areas. The rice-fallow cropland areas can support low water-consuming, short-duration winter season crops, but are unsuitable for growing wheat due to lack of moisture/water to sustain these high water-consuming, relatively long-growing season (>3 month) crops. Greater cultivation cost of transplanted rice, tillage operations included two dry-harrowing followed by three paddling and one leveling with a wooden planking during rain for water impounded. After harvest of rice crop seeding of mustard after intensive tillage practices

		followed by farmers and irrigation of mustard crop were 35 and 60 days after sowing (DAS), respectively.																																																
Detail of Improved technology:	:	The experiment was conducted with tillage and crop establishment methods viz. transplanting (TP), conventional seeding (CS) and zero tillage seeding with residue by happy seeder (ZT) in main plots, three methods of irrigations- flood (FI), drip (DI) and drip with fertigation (DIF) of nitrogenous fertilizer through inline drippers with two irrigation schedule- as per IW: CPE ratio- 1.0 (I ₁) and 1.2 (I ₂) for rice and 0.4 (I ₁) and 0.6 (I ₂) for mustard.																																																
Performance:	:	In individual crops, the rice TP gave higher yield and WUE followed by DS and lowest with CS. However, between irrigation methods, DIF at 1.0 IW: CPE gave significantly highest yield, income and water use efficiency (WUE), whereas at par with 1.2 IW: CPE ratio and also saving 63% of irrigation water in paddy. For mustard, the research results showed that DS in zero-till condition just after harvest of paddy in conserved moisture and DIF at 0.4 IW: CPE more beneficial in terms of productivity, saving 45% irrigation water, improving WUE and soil health. Although in all crop establishment and irrigation methods, system based DS of rice followed by mustard irrigation with DIF at IW: CPE- 1.0 for rice and 0.4 for mustard, whereas in FI at IW: CPE- 1.2 for rice and 0.6 for mustard, gave highest rice equivalent yield, net income and WUE, saving irrigation and improvement of soil health.																																																
Summary Table (showing comparison)	:	Average data of 3 years

Title of the technology	:	Enhancing Chickpea (Gram) productivity through Molybdenum supplementation @ 1g ammonium molybdate /kg seed with <i>Rhizobium</i> +PSBinoculation in Madhya Pradesh
Project and centre	:	AICRP on Chickpea, RAK COA,Sehore,M.P
Year in which technology developed	:	2012-15
Recommendation domain	:	All Chickpea growing districts of M.P
Existing practice	:	Mostly farmers are using 50 kg DAP/ha with seed inoculation with bio fertilizers>(*Meagre use 10% farmers)
Detail of Improved technology	:	Use of 100 kg DAP/ha+ use of Ammonium molybdate @ 1g/kg seed with <i>Rhizobium</i> +PSB seed inoculation
Performance	:	Yield advantage ranged from 20 to 30 % with on an average of 27% over no use of molybdenum which ranged from 3-5 quintals/ha with a monetary benefit of about Rs 7000/ha

Summary Table (showing comparison)

Title of the technology	:	Irrigation management for chickpea under different land configuration
Project and centre	:	AICRP-Chickpea, Sehore
Year in which technology developed	:	2015
Recommendation domain	:	For central zone of India
Existing practice	:	Presently farmers using irrigation as and when required and there are no standard practices.
Detail of Improved technology	:	Sowing of chickpea crop in BBF + One row of intercrop (wheat- Sujata). Two irrigations (pod development and branching stages) sowing of chickpea crop in BBF + One row of intercrop (wheat-Sujata) with two irrigation first at pod development stage and 2 nd at branching stage is recommended.
Performance	:	The average data revealed that the sowing of chickpea crop in BBF + One row of intercrop (wheat-Sujata) recorded significantly higher yield of 2564 kg/ha (28 %) over flat bed sowing 1829 kg/ha. Two irrigation (pod development and branching stages) gave significantly higher grain yield (2468 kg/ha) over one irrigation. sowing of chickpea crop in BBF + One row of intercrop (wheat- Sujata) with two irrigation first at pod development stage and 2 nd at branching stage is recommended.
Impact and up scaling	:	With the availability of limited irrigation and sowing of wheat as intercrop is helpful in increasing the chickpea equivalent yield.

Title of the technology	: Biofortification of Zn and Fe in chickpea through agronomic intervention
Project and centre	: AICRP-Chickpea, Sehore
Year in which technology developed	: 2019
Recommendation domain:	: For central zone of India
Existing practice:	: Application of recommended dose of fertilizer
Detail of Improved technology	: RDF + Soil application of ZnSO ₄ @ 25 kg/ha
Performance	: Average 2387 Kg/ha chickpea yield can be obtained with this technology, gaining an advantage of 489 Kg/ha yield over RDF
Impact and up scaling	: The recommended cropping system has helped the farmers of the state to increase productivity of the crop.

Title of the technology	: Effect of land configuration and Irrigation management treatments on seed yield of chickpea.
Project and centre	: AICRP-Chickpea, Sehore
Year in which technology developed	: 2015
Recommendation domain	: For central zone of India
Existing practice	: Presently farmers using irrigation as and when required and there are no standard practices.
Detail of Improved technology	: Sowing of chickpea crop in BBF + One row of intercrop (wheat-Sujata). Two irrigations (pod development and branching stages) sowing of chickpea crop in BBF + One row of intercrop (wheat-Sujata) with two irrigation first at pod development stage and 2 nd at branching stage is recommended
Performance	: The average data revealed that the sowing of chickpea crop in BBF + One row of intercrop (wheat- Sujata) recorded significantly higher yield of 2564 kg/ha (28 %) over flat bed sowing 1829 kg/ha. Two irrigation (pod development and branching stages) gave significantly higher grain yield (2468 kg/ha) over one irrigation. sowing of chickpea crop in BBF + One row of intercrop (wheat- Sujata) with two irrigation first at pod development stage and 2 nd at branching stage is recommended.
Impact and up scaling	: With the availability of limited irrigation and sowing of wheat as intercrop is helpful in increasing the chickpea equivalent yield.

**6.6.3.4. Research Publication:**

List of research articles (NAAS ranking 5.00 or more) published in National and International Journals during last five year (only based on the work conducted in the University).

**6.6.3.5: Innovation and Best Practices:****A. Patents obtained,**

S.No.	Patent Title	Patent Number	Date of patent granted	Name of the Scientist
1	Rotary three dimensional variable volume machine usable as pump, compressor, turbine and internal combustion engine	298999	06.07.2018	Dr. Arvind Kumar Sharma

B: Varieties developed, released and notified (2015-2020)

Crop	Name of Variety (Noti. No.& Date)	Maturity days	Avg. yield (kg/ha)	Special Characteristics	Adaptability zone	Breeder seed produced (qtls) 2019-20
A. Pulse crops						
Chickpea	RVG 202 (SO 268 (E) 28.01.2015)	100-105	1800 – 2000	Large seeded Desi chickpea variety and resistance to Fusarium wilt, MR to dry root rot and color rot	M.P., Chhattisgarh, Maharashtra, Gujarat, U.P. and Rajasthan	1902
	RVG 204 (SO 3220 (E) 06.09.2019)	111	2300-2500	Long plant, bold seeded, Resistant to wilt and tolerance to pod borer, suitable for mechanical harvesting	Madhya Pradesh	9.0
	RVG 205 (SO 3220 (E) 06.09.2019)	107-118	2000-2500	First green seeded variety of M.P., Long plant, pink flower, bold seeded, Resistant to wilt and tolerance to pod borer	Madhya Pradesh	17.0

RVKG 111 (SO 3220 (E) 06.09.2019)	117	20-22	Smooth creamy medium sized seeds with owl's head shape (26.12 g/100 seed). Resistance to moderately resistance reaction against <i>Fusarium</i> wilt, Dry Root Rot (DRR) and tolerant to pod borer (<i>Helicoverpa</i>) and pulse beetle.	Madhya Pradesh	
RVKG 151 (SO 3220 (E) 06.09.2019)	104-113	20-21	extra large size seeds, average 100 seed weight (54.3 g) with oval head shape. Resistance to moderately resistance reaction against <i>Fusarium</i> wilt and tolerant to pod borer (<i>Helicoverpa</i>) and pulse beetle.	Madhya Pradesh	
RVG 210 03.06.2019	109	1805	early maturing variety (109 days), round seed shape, bold seeded size (26.7 g hundred seed weight), average yield potential 1805 kg/ha and resistant to <i>Fusarium</i> wilt.	Madhya Pradesh	
RVKG 121 03.06.2019	114	1970	matures in 114 days, having bold seed size (26.30 g hundred seed weight), average yield potential 1970 kg/ha. Resistance to <i>Fusarium</i> wilt tolerance to pod borer (<i>Helicoverpa armigera</i>) and	Madhya Pradesh	

				pulse beetle		
Lentil	RVL 11-6 (SO 1007 (E) 30.03.17)	116	1600- 1800	Bold seed, drought tolerance	M.P., Chhattisgarh, Maharashtra, Gujarat, U.P. and Rajasthan	16
	RVL 13-7 (SO 3220 (E) 06.09.2019)	102	1200	Plant type is semi erect, medium height (36-40cm) and branches with broad leaf which is very much suitable for intercropping Large seed size of 3.2 g/100 seed Tolerant to Wilt, shattering resistant and escape the drought	Timely sown conditions of M.P.	02
	RVL 13-5 (SO 3220 (E) 06.09.2019)	106	1400	Its plant type is semi erect, Maturity duration is 106 days, medium height and branches with broad leaf which is very much suitable for intercropping and potential yield is 14 qt/ha.	M.P., Chhattisgarh, Maharashtra, Gujarat, U.P. and Rajasthan	18
	RVL 15-1	100	1700	plant type is semi erect, medium height and branches with broad leaf which is very much suitable for intercropping. Large seed size of 3.05 g/100 seed, resistant to wilt, shattering resistant and escape the drought.	Madhya Pradesh	-
B. Oilseed crops						
Soybean	RVS 2002-4 (SO 1007	92	2300	Early maturing, Resistance to YMV,	Madhya Pradesh	319

	(E) 30.03.17)			chorcol rot		
	RVS 2001-18 (SO 2805 (E) 25.08.2017)	96	1905	Medium maturity, Resistance to YMV, chorcol rot, root rot and stem fly	M.P., Chhattisgarh, Maharashtra, Gujarat, U. P. and Rajasthan	6.0
	RVS 2007-6 VIC 17.04.18	101	2068	Plant type semi erect spreading type, medium height (70-75 cm) and branches with broad pointed leaf, medium maturing variety, multiple resistance charcoal rot, target leaf spot, stem fly, stem borers and defoliators	M.P., Chhattisgarh, Maharashtra, Gujarat, U. P. and Rajasthan	
Rapeseed & Mustard	RVM 1 (SO 3540(E) 22.11.16)	98-121	1400-2000	Moderately resistant to Alternaria, powdery mildew, downy mildew and <i>Sclerotinia</i> stem rot	Madhya Pradesh	36
	Raj Vijay Mustard 3	125-139	1800-2800	plant height (182-228cm), Yellow Flower, Dark brown to reddish brown Seed colour, 1000 seed wt (g): 3.7-4.4 g, Oil content 37-42 %, Moderately resistance to Alternaria leaf light blight, Powdery mildew and downy mildew & white rust, and tolerant to resistant for <i>Sclerotinia</i> stem rot.	Madhya Pradesh	10.4

Toria	RVT 1 (SO 2805 (E) 25.08.2017)	90-105	1654	Tolerance to Alternaria and powdery mildew, drought tolerance oil content 42.08 to 44 %	Madhya Pradesh	8
	RVT 2 SVRC 23.05.2017	108-09	1700- 2400	Brown seeded, Tolerance to Alternaria and powdery mildew, drought tolerance, oil content 42 to 44 %	Madhya Pradesh	
	RVT 3 SVRC 09.05.2018	93-99	1300	Plant medium (118-138cm) spreading, Angle of branching is obtuse, Leaves: sessile, green, seed is small to medium, Flowers: bright yellow in colour, Tolerance/ resistance to white rust, <i>Alternaria</i> leaf blight on pods, powdery mildew, downy mildew and <i>Sclerotinia</i> stem rot, less infestation of aphids	Suitable for rainfed and irrigated conditions of Madhya Pradesh	
Safflower	Raj Vijay Safflower – 14-1	121	1800- 2200	plant type is spiny and big capitulum and Colour of flower is orange red, plant height 80-100 cm, Oil content 29-30%, lodging resistant, shattering resistant, Moderately tolerant to wilt.	Madhya Pradesh	
C. Food Crops						
Sorghum hybrid	RVICSH 28 (SO 3540(E) 22.11.16)	110	65-68 t/ha (Fodder)	High sugar content (17 %) Resistance to lodging and ability to tolerate	Madhya Pradesh	

				the drought		
Sorghum	RVJ 1862 (SO 3540(E) 22.11.16)	111	35-40 q/ha (grain) and Fodder yield (118 q/ha)	Tolerance to leaf spot and moderately tolerant to grain mold and Moderately tolerant to shoot fly and stem borer.	Madhya Pradesh	0.69
D. Fibre crops						
Cotton	RVK 67 (SO 6318 (E) 26/12/201 8)	145- 160	1600- 2000	Tolerance against jassid and bollworms	Madhya Pradesh	
	RVK 11 (SO 3220 (E) 06.09.2019)		2404	Medium maturity group, and found tolerant to sucking pests (below ETL) and for diseases were on par with the check varieties, in rainfed production system system.	South Zone (Tamil Nadu, Karnatka, and Andhara Pradesh)	
E. Medicinal and Aromatic crops						
Safed Musali	RVSM-412 SVRC, 26.09.19	85-95	3000- 3400	Herbasius stemless plant with 3 to 4 flowering scape, Non lodging type, fasciculated root/ha, Root powder content 1.15 % sapogenine and 9.2 % steroidal saponine and resistant to fasciculated root rot	Madhya Pradesh	
Asalio (Chandrasoo r)	Raj Vijay Asalio 1007 (VIC 14.11.2017)	118	1522		Central Zone	
	Raj Vijay Asalio-1001	110- 115	1800- 1900	Narrow leaf, Plant height (92.41 cm),	Madhya Pradesh	

	SVRC, 26.09.19			No. of Branch/Plant(14.2 7), 100 seed weight 1.9g, oil content 20 % and Resistant to Alternaria leaf blight		
	Raj Vijay Asalio-1016	121- 126	1800- 1900	Plant height (92.75 cm), No. of Branch/Plant(14.0) , 100 seed weight 1.93 g, oil content 20 % and resistant to alternaria leaf blight	Madhya Pradesh	
Guava	Gwalior- Bahar	125- 130	85-90 kg/plan t	This variety fruits are oblong in shape and have higher fruit weight, fresh thickness, fruit yield and total soluble sugars. Fruit weight 244g, length 7.80cm, width 7.40 cm, flesh thickness 1.53 cm, TSS 8.3 ⁰ b, Number of seeds/100 g pulp277,weight of seeds/100g pulp1.7g.	Madhya Pradesh	
	Gwalior-8	118- 125	88-95 kg/plan t	Seedlings, fruits are medium to medium large with cream white, thick flesh, few seeds, acid sweet, good quality and heavy bearer, fruits are mostly round shaped. Fruit weight 282 g, length 7.50 cm, width 8.30 cm, flesh thickness 2.53 cm, TSS 9.07 ⁰ b, Number of seeds/100 g pulp	Madhya Pradesh	

				138, weight of seeds/100g pulp1.40g		
	Gwalior-21	120-125	85-90 kg/plant	Seedlings, fruits are medium to medium large with cream white, thick flesh, few seeds, acid sweet, good quality and heavy bearer, fruits are mostly round shaped. Fruit weight 301.5 g, length 7.29 cm, width 8.10 cm, flesh thickness 1.78 cm, TSS 9.02 ^{0b} , Number of seeds/100 g pulp 142, weight of seeds/100g pulp1.77g	Madhya Pradesh	
	Gwalior-27	120-125	85-90 kg/plant	Seedlings, fruits are medium to medium large with cream white, thick flesh, few seeds, acid sweet, good quality and heavy bearer, fruits are mostly round shaped. Fruit weight 279.67 g, length 7.72 cm, width 7.14 cm, flesh thickness 1.62 cm, TSS 11.92 ^{0b} , Number of seeds/100 g pulp 163, weight of seeds/100g pulp1.37g.	Madhya Pradesh
